Siaran Pers

Penjualan Batu Bara PTBA Capai 21,10 Juta Ton di Semester I 2026

Jakarta, 24 Juli 2026 - PT Bukit Asam (Persero) Tbk (PTBA), anggota Holding BUMN Pertambangan MIND ID, mencatatkan kinerja operasional yang positif sepanjang Semester I 2026.

Di tengah kondisi pasar batu bara yang masih kondusif serta harga yang lebih baik dibandingkan tahun sebelumnya, Perseroan terus menjaga keandalan operasional, memperkuat rantai pasok, dan mengoptimalkan pemenuhan kebutuhan pasar domestik maupun ekspor.

Tercatat, sepanjang Semester I 2026, capaian volume produksi batu bara sebesar 19,45 juta ton dan didukung level persediaan yang optimal, PTBA berhasil merealisasikan penjualan sebanyak 21,10 juta ton.

Direktur Utama PTBA, Bambang Ismawan mengatakan kinerja operasional pada periode ini mencerminkan komitmen Perusahaan dalam menjaga kesinambungan produksi dan pasokan batu bara kepada pelanggan.

“Pencapaian ini menjadi pondasi penting bagi Perseroan untuk terus menciptakan nilai tambah bagi seluruh pemangku kepentingan," jelas Bambang.

Hingga semester I 2026, penjualan domestik tercatat 10,77 juta ton atau sekitar 51% dari total penjualan, sedangkan penjualan ekspor mencapai 10,33 juta ton atau 49%. Penjualan ekspor meningkat sekitar 5% dibandingkan periode yang sama tahun sebelumnya, didukung permintaan yang tetap kuat dari sejumlah negara tujuan seperti Vietnam, Bangladesh, Kamboja, India, hingga Thailand.

Namun demikian, Bambang menegaskan bahwa pemenuhan kebutuhan pasar domestik tetap menjadi prioritas Perseroan, termasuk untuk mendukung ketahanan energi nasional. Hingga Semester I 2026, penjualan kepada Grup PLN mencapai 7,78 juta ton.

Secara keseluruhan, realisasi penjualan untuk kebutuhan Domestic Market Obligation (DMO) mencapai sekitar 55% dari total produksi, atau telah melampaui ketentuan minimal DMO sebesar 25% yang ditetapkan pemerintah. Hal ini menunjukkan komitmen PTBA dalam menjaga pasokan batu bara bagi kebutuhan energi nasional, sembari tetap mengoptimalkan peluang di pasar ekspor.

Dari sisi angkutan, PTBA berhasil mengangkut 18,15 juta ton batu bara hingga Juni 2026. Volume angkutan melalui jalur kereta api mencapai 17,47 juta ton, mencerminkan dukungan infrastruktur logistik yang andal terhadap kelancaran distribusi batu bara Perseroan.

Bambang menambahkan, Perseroan juga terus menerapkan selective mining untuk menjaga efektivitas kegiatan penambangan. Hingga Semester I 2026, PTBA membukukan stripping ratio sebesar 5,26x, sehingga masih berada dalam kisaran target tahunan Perseroan sebesar 5,63x.

Untuk mendukung keberlanjutan operasional dan pengembangan usaha, PTBA terus merealisasikan belanja modal (capital expenditure/capex) yang dialokasikan untuk pengembangan infrastruktur logistik, termasuk proyek angkutan batu bara Tanjung Enim–Kramasan serta pembangunan Inpit Conveyor Banko, guna meningkatkan kinerja operasional Perseroan secara berkelanjutan.

"Memasuki Semester II 2026, PTBA akan terus memperkuat keandalan operasional, menjaga efisiensi biaya, mengoptimalkan pasar domestik maupun ekspor, serta melanjutkan berbagai proyek strategis guna mendukung pertumbuhan Perseroan secara berkelanjutan di tengah dinamika industri batu bara global.," tutup Bambang.

Sekilas tentang PT Bukit Asam (Persero) Tbk

PT Bukit Asam (Persero) Tbk (PTBA), adalah perusahaan pertambangan terkemuka milik negara Indonesia (BUMN) yang juga merupakan grup dari MIND ID. PTBA berdiri sejak 1981. Inti bisnis perusahaan berfokus pada pertambangan, pengolahan, dan perdagangan batu bara. PTBA mengoperasikan beberapa tambang batu bara di Sumatera, menghasilkan berbagai jenis batu bara, termasuk batu bara sub-bituminus dan bituminus berkualitas tinggi yang masih langka. Pada tahun 2002, PTBA menjadi perusahaan terbuka dan tercatat di Bursa Efek Indonesia. Dengan komitmen terhadap praktik-praktik berkelanjutan dan tanggung jawab lingkungan, PTBA mengembangkan portofolio energi dengan investasi dalam sumber energi terbarukan. Perusahaan ini memainkan peran penting dalam menjaga kestabilan ketahanan energi nasional dalam hal penyediaan batu bara baik untuk pembangkit listrik dalam negeri maupun pasar ekspor, yang berkontribusi secara signifikan pada sektor energi dan perekonomian Indonesia. PTBA juga menjadi pelopor standar etika dengan menjadi perusahaan milik negara pertama dalam sektor energi yang menerapkan Manajemen Anti Penyuapan ISO 37001:2016.

Press Release

PTBA's Coal Sales Reach 21.10 Million Tons in the First Half of 2026

Jakarta, July 24, 2026 – PT Bukit Asam Tbk (PTBA), a member of MIND ID, Indonesia's State-Owned Mining Industry Holding, delivered solid operational performance throughout the first half of 2026.

Amid favorable coal market conditions and stronger prices compared to the previous year, the Company continued to maintain operational reliability, strengthen its supply chain, and optimize the fulfillment of both domestic and export market demand.

During the first half of 2026, PTBA recorded coal production of 19.45 million tons. Supported by optimal inventory levels, the Company achieved coal sales of 21.10 million tons.

PTBA President Director Bambang Ismawan stated that the Company's operational performance during the period reflects its commitment to ensuring the sustainability of coal production and supply to customers.

"This achievement provides a strong foundation for the Company to continue creating added value for all stakeholders," Bambang said.

As of the first half of 2026, domestic coal sales reached 10.77 million tons, accounting for approximately 51% of total sales, while export sales totaled 10.33 million tons, representing the remaining 49%. Export sales increased by around 5% compared to the same period last year, supported by strong demand from key export destinations, including Vietnam, Bangladesh, Cambodia, India, and Thailand.

Nevertheless, Bambang emphasized that meeting domestic market demand remains the Company's top priority, particularly in supporting Indonesia's national energy security. Coal sales to the PLN Group reached 7.78 million tons during the first half of 2026.

Overall, coal sales for Domestic Market Obligation (DMO) requirements accounted for approximately 55% of total production, well above the government's minimum DMO requirement of 25%. This demonstrates PTBA's strong commitment to securing coal supply for Indonesia's energy needs while continuing to capitalize on opportunities in the export market.

On the logistics front, PTBA transported 18.15 million tons of coal through June 2026. Rail transportation accounted for 17.47 million tons, reflecting the reliability of the Company's logistics infrastructure in supporting efficient coal distribution.

Bambang added that the Company continues to implement selective mining practices to maintain the effectiveness and efficiency of its mining operations. As of the first half of 2026, PTBA recorded a stripping ratio of 5.26x, remaining within the Company's annual target of 5.63x.

To support sustainable operations and business expansion, PTBA continued to realize its capital expenditure (capex), primarily allocated to the development of logistics infrastructure, including the Tanjung Enim–Kramasan coal transportation project and the Banko In-Pit Conveyor development, both of which are expected to enhance the Company's operational performance over the long term.

"Entering the second half of 2026, PTBA will continue to strengthen operational reliability, maintain cost efficiency, optimize both domestic and export markets, and advance various strategic projects

to support the Company's sustainable growth amid the dynamic global coal industry," Bambang concluded.

Overview of PT Bukit Asam Tbk

Bukit Asam Limited Company (PTBA), is a leading Indonesian state-owned mining company (BUMN) which is also a group of MIND ID. PTBA was founded in 1981. The company's core business focuses on coal mining, processing and trading. PTBA operates several coal mines in Sumatra, producing various types of coal, including rare high-quality sub-bituminous and bituminous coal. In 2002, PTBA became a public company and was listed on the Indonesian Stock Exchange. With a commitment to sustainable practices and environmental responsibility, PTBA is developing its energy portfolio by investing in renewable energy sources. This company plays an important role in maintaining the stability of national energy security in terms of providing coal for both domestic power plants and export markets, which contributes significantly to the energy sector and the Indonesian economy. PTBA is also a pioneer in ethical standards by becoming the first state-owned company in the energy sector to implement ISO 37001:2016 Anti-Bribery Management.
