Strategic Growth Through Innovation

Pertumbuhan Strategis Melalui Inovasi

2025

Tema "Pertumbuhan Strategis Melalui Inovasi" mencerminkan komitmen PT Sawit Sumbermas Sarana Tbk (SSMS) untuk terus memperkuat kinerja dan daya saing usaha melalui berbagai langkah inovatif yang terintegrasi dengan strategi pertumbuhan jangka panjang Perseroan. Dalam menghadapi dinamika industri kelapa sawit yang semakin kompetitif serta meningkatnya tuntutan terhadap praktik usaha yang berkelanjutan, Perseroan memandang inovasi sebagai elemen kunci dalam menciptakan nilai tambah sekaligus menjaga ketahanan bisnis.

Sepanjang tahun 2025, Perseroan terus mengembangkan berbagai inovasi di berbagai aspek kegiatan usaha, mulai dari peningkatan produktivitas perkebunan, optimalisasi proses operasional dan pengolahan, hingga pemanfaatan teknologi untuk meningkatkan efisiensi dan pengelolaan sumber daya secara berkelanjutan. Inovasi juga diterapkan dalam pengembangan produk turunan kelapa sawit, pengelolaan limbah menjadi energi terbarukan, serta penguatan sistem pengelolaan keberlanjutan yang sejalan dengan komitmen Perseroan terhadap praktik usaha yang bertanggung jawab.

The theme "Strategic Growth Through Innovation" reflects the commitment of PT Sawit Sumbermas Sarana Tbk (SSMS) to continuously strengthen its performance and competitiveness through innovative initiatives that are integrated with the Company's long-term growth strategy. In responding to the increasingly dynamic palm oil industry and the growing demand for sustainable business practices, the Company views innovation as a key driver to create added value while maintaining business resilience.

Throughout 2025, the Company continued to develop various innovations across its business activities, ranging from improving plantation productivity, optimizing operational and processing activities, to utilizing technology to enhance efficiency and sustainable resource management. Innovation is also implemented in the development of palm oil derivative products, the utilization of waste into renewable energy, and the strengthening of sustainability management systems in line with the Company's commitment to responsible business practices.

2024

Pengembangan Bisnis Berkelanjutan Melalui Inovasi Dan Hilirisasi
Sustainable Business Development through Innovation and Downstreaming

PT Sawit Sumbermas Sarana Tbk terus memperkuat daya saing dan menciptakan nilai tambah bagi industri kelapa sawit melalui inovasi dan hilirisasi. Perseroan berupaya meningkatkan efisiensi operasional dengan mengadopsi teknologi modern serta menerapkan praktik ramah lingkungan guna memastikan keberlanjutan bisnis jangka panjang. Inovasi ini tidak hanya mendukung peningkatan produktivitas tetapi juga memungkinkan pengembangan produk bernilai tambah yang lebih kompetitif di pasar nasional maupun internasional.

Sebagai bagian dari strategi hilirisasi, Perseroan mendorong transformasi dari sekadar menghasilkan bahan mentah menjadi produsen produk olahan dengan nilai jual lebih tinggi. Konsolidasi terhadap PT Citra Borneo Utama Tbk (CBUT) dengan meningkatkan kepemilikan sahamnya menjadi langkah strategis dalam memperkuat lini bisnis hilir, meningkatkan efisiensi rantai pasok, serta memperluas jangkauan pasar. Melalui upaya ini, Perseroan tidak hanya mengokohkan posisi sebagai pemimpin industri kelapa sawit yang bertanggung jawab dan berdaya saing tinggi, tetapi juga berkontribusi pada percepatan hilirisasi industri kelapa sawit yang selaras dengan kebijakan pemerintah. Dengan pendekatan ini, Perseroan turut mendorong pertumbuhan ekonomi yang inklusif dan berkelanjutan.

PT Sawit Sumbermas Sarana Tbk continues to strengthen its competitiveness and create added value for the palm oil industry through innovation and downstreaming. The company strives to improve operational efficiency with the adoption of modern technology and applying environmentally friendly practices to ensure the long-term business sustainability. This innovation not only supports increased productivity but also enables the development of added-value products that are more competitive in both the domestic and international markets.

As a part of its downstream strategy, the company is driving the transformation from just a producer of raw materials into the producer of processed products with higher selling value. The consolidation of PT Citra Borneo Utama Tbk (CBUT) by increasing its share ownership is a strategic move to strengthen the downstream business, enhance supply chain efficiency, and expand market reach. With these efforts, the company not only bolsters its position as a responsible and highly competitive leader in the palm oil industry, but also contributes in accelerating the downstreaming of palm oil industry, which is align with government policies. With this approach, the Company contributes in fostering an inclusive and sustainable economic growth.

2023

Integrasi Berkelanjutan Antara Hulu dan Hilir untuk Pertumbuhan Bisnis yang Tangguh
Continuous Integration Between Upstream and Downstream for Resilient Business Growth

Kelapa sawit merupakan industri yang potensial dan merupakan salah satu industri strategis nasional. Industri sawit Indonesia berperan penting pada peningkatan perekonomian dengan kinerja perdagangan yang terus meningkat, dan industri ini juga melibatkan banyak pelaku usaha dari berbagai kelompok ekonomi.

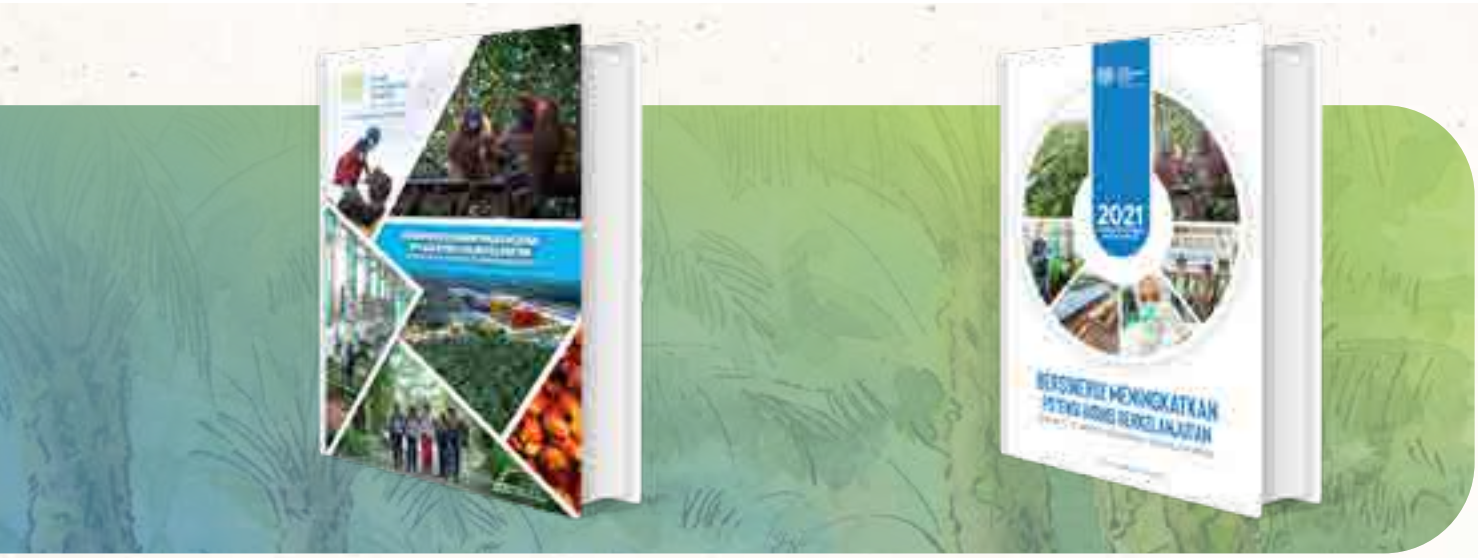

Melalui pengelolaan bisnis yang berkelanjutan, Perseroan memperkokoh strategi bisnisnya dengan memperkuat industri yang terintegrasi, upaya ini akan membantu dan meningkatkan pertumbuhan perekonomian daerah dan nasional. Hal itu ditandai dengan rencana Aksi Korporasi Perseroan pada tahun ini yaitu debt equity swap perusahaan afiliasi yang terintegrasi hilirisasi fraksinasi kelapa sawit.

Sejalan dengan program pemerintah melalui hilirisasi industri kelapa sawit, yang dimaknai sebagai upaya strategis meningkatkan nilai tambah komoditas kelapa sawit melalui proses pengolahan agar menjadi produk turunan yang memiliki nilai jual lebih tinggi. Untuk itu, Perseroan memperkokoh dengan integrasi yang kuat menjadikan Perseroan semakin berkembang pesat dan kuat, sehingga dapat mengembangkan potensi dan perekonomian daerah secara langsung.

As a potential industry and one of the national strategic industries, the Indonesian palm oil industry plays an important role in improving the economy through continuously increasing trade performance, and becoming a multiplier effect involving many business actors from various economic groups.

Through sustainable business management, the Company strengthens its business strategy by strengthening integrated industries. In this way, the Company can help and increase regional and national economic growth. This was marked by completing the Company's Corporate Action this year through a debt equity swap of an affiliated company that integrated downstream palm oil fractionation.

In line with the government's program through the downstreaming of the palm oil industry, which is interpreted as a strategic effort to increase the added value of palm oil commodities through processing so that they become derivative products that have a higher selling value. For this reason, the Company strengthens its strong integration, making the Company grow rapidly and stronger, so that it can develop regional potential and economy directly.

2022

Mendukung Ketahanan Pangan Nasional Melalui Bisnis yang Berkelanjutan

Supporting National Food Security Through Sustainable Business

Di tengah beratnya tantangan perekonomian di sepanjang tahun 2022, Perseroan tetap resilien, mampu beradaptasi dengan meraih kinerja yang positif. Pencapaian tersebut tidak lepas dari strategi dan kebijakan strategis yang diterapkan pada periode-periode sebelumnya, sehingga Perseroan mampu mengantisipasi setiap tantangan yang ada, mengoptimalkan potensi yang dimiliki, dan mengantarkan Perseroan pada pencapaian target yang telah ditetapkan di awal tahun. Salah satu strategi yang terus dilakukan secara berkesinambungan adalah penelitian dan pengembangan teknologi perkebunan. Langkah ini ditujukan untuk memperbaiki praktik berkebun agar menghasilkan produk-produk terbaik pada masa mendatang.

Amidst the severe economic challenges throughout 2022, the Company remained resilient, and able to adapt by achieving positive performance. This achievement cannot be separated from the strategic strategies and policies implemented in previous periods so that the Company is able to anticipate every challenge, optimize its potential, and deliver the Company to achieve the targets set at the beginning of the year. One strategy that continues to be carried out on an ongoing basis is the research and development of plantation technology. This step is aimed at improving gardening practices in order to produce the best products in the future.

2021

Bersinergi Meningkatkan Potensi Bisnis Berkelanjutan

Synergize to Empower Sustainable Business Potential

Di tahun 2021, pandemi Covid-19 masih memengaruhi kondisi perekonomian dan industri secara global dan nasional, termasuk di dalamnya industri kelapa sawit. Menghadapi tantangan tersebut, SSMS memperkuat sinergi antar Entitas Grup, mengimplementasikan langkah-langkah strategis, mengembangkan inovasi, dan juga mengedepankan penerapan protokol kesehatan yang tepat dan konsisten guna mendukung keberlanjutan bisnis inti Perseroan serta memperkuat struktur keuangan Perseroan sejalan dengan komitmen SSMS untuk senantiasa bertumbuh dan memberikan nilai yang positif kepada para Pemegang Saham dan pemangku kepentingan.

In 2021, the Covid-19 pandemic had severe impacts on economic and industrial conditions globally and nationally, including the palm oil industry. To address these challenges, SSMS strengthens synergies between Group Entities, implements strategic measures, develops innovation, and also prioritizes the implementation of appropriate and consistent health protocols to support the sustainability of the Company's core business and strengthen the Company's financial structure in line with SSMS's commitment to continue to grow and provide positive value to shareholders and stakeholders.

Model Bisnis dan Rantai Nilai Perusahaan
Company Business Model and Value Chain

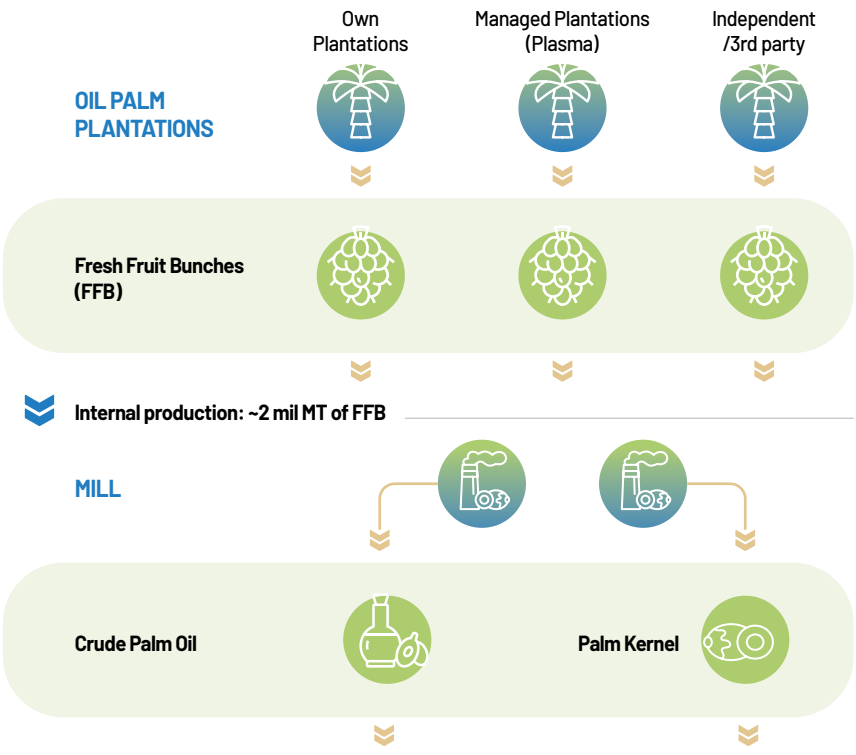

Sebagai perusahaan kelapa sawit terintegrasi, PT Sawit Sumbermas Sarana Tbk (SSMS) menjalankan kegiatan usaha yang mencakup seluruh rantai nilai industri kelapa sawit, mulai dari pengelolaan perkebunan hingga pengolahan produk turunan. Pada tahun 2025, Perseroan mengelola 23 perkebunan kelapa sawit dengan total produksi tandan buah segar (TBS) sebesar 1,64 juta metrik ton yang menghasilkan sekitar 527,05 ribu metrik ton crude palm oil (CPO), serta didukung tambahan 737,36 ribu metrik ton TBS dari pemasok independen. CPO yang dihasilkan kemudian diproses melalui fasilitas pengolahan sebelum memasuki tahap hilirisasi melalui PT Citra Borneo Utama Tbk (CBUT), Entitas Anak Perseroan, yang memproduksi berbagai produk turunan kelapa sawit. Melalui struktur usaha yang terintegrasi dari hulu hingga hilir ini, Perseroan mampu menciptakan efisiensi operasional sekaligus meningkatkan nilai tambah dari setiap tahapan proses produksi.

As an integrated palm oil company, PT Sawit Sumbermas Sarana Tbk (SSMS) operates across the entire palm oil value chain, from plantation management to downstream processing of derivative products. In 2025, the Company managed 23 oil palm plantations with total fresh fruit bunch (FFB) production of 1.64 million metric tons, generating approximately 527.05 thousand metric tons of crude palm oil (CPO), supported by an additional 737.36 thousand metric tons of FFB sourced from independent suppliers. The CPO produced is subsequently processed through the Company's processing facilities before entering the downstream stage through PT Citra Borneo Utama Tbk (CBUT), the Company's subsidiary, which produces various palm oil derivative products. Through this integrated business structure from upstream to downstream, the Company is able to create operational efficiencies while generating added value at each stage of the production process.

Momentum Bisnis SSMS
SSMS Business Momentum

Perseroan terus memperkuat bisnis hulu melalui peningkatan produktivitas perkebunan serta efisiensi operasional yang berkelanjutan, sekaligus mengembangkan segmen hilir melalui restrukturisasi strategis dan pengembangan produk turunan kelapa sawit bernilai tambah. Langkah ini dilakukan untuk memperkuat posisi SSMS sebagai perusahaan perkebunan kelapa sawit terintegrasi di Indonesia serta mendukung program hilirisasi industri yang dicanangkan pemerintah. Melalui inisiatif tersebut, Perseroan tidak hanya meningkatkan nilai tambah produk, tetapi juga memberikan kontribusi positif terhadap perekonomian nasional melalui penciptaan lapangan kerja dan peningkatan aktivitas ekonomi di wilayah operasional.

The Company continues to strengthen its upstream business through improved plantation productivity and operational efficiency, while also expanding its downstream segment through strategic restructuring and the development of value-added palm oil derivative products. These initiatives aim to reinforce SSMS's position as an integrated palm oil plantation company in Indonesia while supporting the government's downstream industry program. Through these efforts, the Company not only increases product value but also contributes positively to the national economy by creating employment opportunities and stimulating economic activities in its operational areas.

Laporan Dewan Komisaris
Board of Commissioners' Report

PROF. DR. IR. BUNGARAN SARAGIH

Komisaris Utama
President Commissioner

Pemegang Saham dan Pemangku Kepentingan yang Terhormat,
Dear Our Value Shareholders and Stakeholders,

Pertama-tama, marilah kita memanjatkan puji dan syukur ke hadirat Tuhan Yang Maha Esa karena atas rahmat dan karunia-Nya, Perseroan dapat menutup tahun 2025 dengan kinerja yang tetap kuat di tengah dinamika global dan domestik. Tahun 2025 menjadi periode yang menuntut ketangguhan, disiplin eksekusi, serta ketepatan pengambilan keputusan mengingat volatilitas pasar komoditas, perubahan kebijakan energi, dan ketidakpastian geopolitik yang masih membayangi perekonomian dunia.

Melalui laporan ini, Dewan Komisaris menyampaikan ringkasan pelaksanaan fungsi pengawasan terhadap kebijakan dan jalannya pengurusan Perseroan yang dilakukan Direksi sepanjang tahun 2025. Laporan ini merupakan wujud pertanggungjawaban kepada pemegang saham dan pemangku kepentingan, serta bagian dari komitmen Perseroan dalam menerapkan prinsip Tata Kelola Perusahaan yang Baik (*Good Corporate Governance*/GCG) sesuai peraturan perundang-undangan yang berlaku.

First and foremost, we express our gratitude to Almighty God for His blessings and grace, which have enabled the Company to close the year 2025 with resilient performance amid global and domestic dynamics. The year 2025 has been a period that demanded resilience, disciplined execution, and sound decision-making, given the volatility in commodity markets, shifts in energy policies, and ongoing geopolitical uncertainties affecting the global economy.

Through this report, the Board of Commissioners presents a summary of its supervisory function over the policies and management of the Company carried out by the Board of Directors throughout 2025. This report serves as a form of accountability to shareholders and stakeholders, as well as a reflection of the Company's commitment to implementing Good Corporate Governance (GCG) principles in accordance with prevailing laws and regulations.

Pandangan Dewan Komisaris terhadap Kondisi Ekonomi Global, Nasional, dan Industri

Sepanjang tahun 2025, perekonomian global berada pada fase pertumbuhan yang moderat namun penuh ketidakpastian. Volatilitas pasar komoditas dunia, termasuk minyak dan logam, mencerminkan perubahan struktur permintaan dan distribusi investasi global yang terdampak oleh kombinasi risiko geopolitik, kebijakan perdagangan proteksionis, dan

Board of Commissioners' View on Global, National, and Industry Economic Conditions

Throughout 2025, the global economy experienced moderate growth amid heightened uncertainty. The volatility in global commodity markets, including oil and metals, reflects structural shifts in demand and global investment flows influenced by a combination of geopolitical risks, protectionist trade policies, and tighter monetary policies

kebijakan moneter yang lebih ketat di beberapa negara maju. Dalam beberapa bulan terakhir, pasar komoditas global mengalami penurunan tajam akibat kekhawatiran tentang suku bunga yang tetap tinggi, penguatan dolar AS, serta koreksi ekuitas yang meluas di pasar internasional, yang turut menekan komoditas energi seperti minyak mentah serta logam industri. Penurunan ini menunjukkan bahwa struktur risiko global tetap menjadi pendorong utama volatilitas ekonomi makro di 2025.

Dari sisi konsumsi pangan global, data FAO menunjukkan bahwa indeks harga pangan dunia yang mengindeks *"vegetable oil"* justru menunjukkan kenaikan, termasuk pada minyak nabati karena permintaan yang kuat dari negara-negara Asia seperti India dan China, meskipun harga pangan secara umum menurun. Hal ini menandakan ketidakseragaman dinamika pasar komoditas, di mana kebutuhan pangan dan energi masih menjadi pendorong penting harga komoditas tertentu.

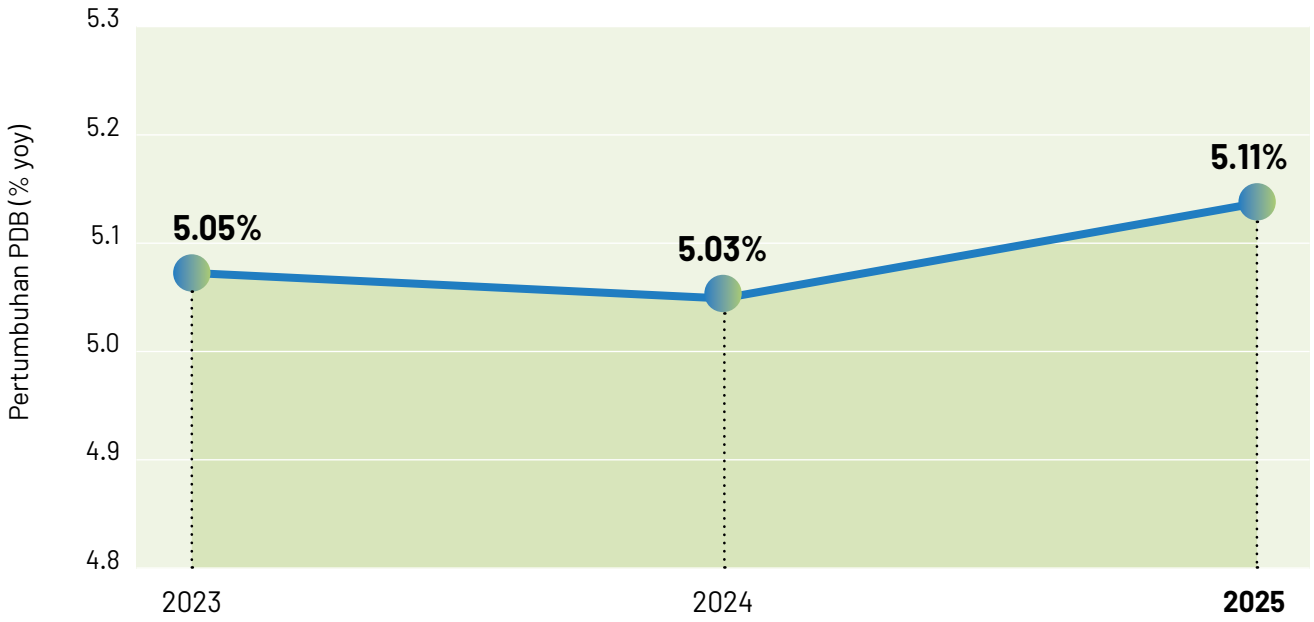

Di tingkat nasional, Indonesia menunjukkan ketahanan yang relatif kuat. Badan Pusat Statistik (BPS) mencatat perekonomian Indonesia tumbuh 5,11% sepanjang tahun 2025, meningkat dibandingkan 2024 sebesar 5,03%. Peningkatan ini memperlihatkan fundamental permintaan domestik yang terjaga, sementara ekspor barang dan jasa tetap tumbuh sebagai salah satu pendorong. Kinerja ekonomi nasional yang stabil menjadi landasan bagi keberlanjutan investasi sektor riil dan aktivitas industri berbasis sumber daya alam, termasuk perkebunan kelapa sawit.

in several advanced economies. In recent months, global commodity markets have experienced a sharp decline driven by concerns over persistently high interest rates, a stronger US dollar, and widespread equity market corrections, which have also pressured energy commodities such as crude oil and industrial metals. This trend highlights that global risk dynamics remain a key driver of macroeconomic volatility in 2025.

From the perspective of global food consumption, FAO data indicates that the global food price index for "vegetable oils" has shown an increase, including for edible oils, driven by strong demand from Asian countries such as India and China, despite an overall decline in food prices. This reflects the uneven dynamics of commodity markets, where food and energy demand continue to be key drivers of certain commodity prices.

At the national level, Indonesia demonstrated relatively strong resilience. Statistics Indonesia (BPS) recorded economic growth of 5.11% in 2025, an increase from 5.03% in 2024. This growth reflects sustained domestic demand fundamentals, while exports of goods and services continued to expand as one of the key growth drivers. The stable performance of the national economy provides a solid foundation for sustained investment in the real sector and activities in natural resource-based industries, including the palm oil plantation sector.

Untuk industri kelapa sawit, tahun 2025 menunjukkan dinamika yang kompleks. Harga CPO diperkirakan melemah dan menutup tahun di zona negatif, yang menunjukkan peningkatan volatilitas di pasar minyak nabati dunia akibat ketidakpastian geopolitik dan fluktuasi permintaan global. Meski demikian, pelaku pasar tetap melihat faktor *seasonal* dan penurunan produksi di beberapa wilayah sebagai potensi dukungan harga.

Di Indonesia, pertumbuhan industri kelapa sawit ditandai oleh penguatan serapan domestik dan dinamika ekspor. Pemerintah menerapkan mandatori biodiesel B40 mulai 1 Januari 2025 dengan alokasi sekitar 15,6 juta kiloliter, yang memperbesar kebutuhan minyak sawit sebagai bahan baku energi dalam negeri. Pada saat yang sama, pelaku industri menghadapi perubahan pola ekspor karena sebagian pasokan terserap pasar domestik, sementara harga CPO global bergerak volatil mengikuti permintaan minyak nabati, kebijakan energi, dan kondisi cuaca. Secara umum, konsensus pasar yang dihimpun Reuters menunjukkan ekspektasi harga minyak sawit rata-rata lebih tinggi pada 2025 dibanding 2024, yang membuka peluang perbaikan margin bila disertai efisiensi biaya dan produktivitas kebun yang terjaga.

Implikasi Kondisi Ekonomi dan Industri terhadap Perseroan

Dewan Komisaris menilai bahwa konfigurasi ekonomi dan industri sepanjang 2025 memberikan tantangan sekaligus peluang bagi Perseroan. Penguatan serapan domestik melalui kebijakan biodiesel memperbaiki keseimbangan permintaan dalam negeri dan ekspor, namun juga menuntut industri untuk memastikan pasokan yang berkelanjutan dan efisien. Di sisi lain, volatilitas harga global, perubahan biaya logistik, serta isu akses pasar tetap menjadi faktor yang harus diantisipasi melalui manajemen risiko dan fleksibilitas komersial.

Dalam konteks tersebut, Dewan Komisaris mendorong Direksi untuk terus menajamkan fokus pada produktivitas kebun, penguatan praktik agronomi, reliabilitas pabrik, serta pengendalian biaya yang disiplin. Dewan Komisaris juga menilai bahwa agenda keberlanjutan perlu diintegrasikan lebih kuat ke dalam strategi, mengingat tuntutan rantai pasok global terhadap aspek keterlacakan, kepatuhan, dan praktik ESG yang semakin meningkat.

Dewan Komisaris senantiasa memberikan dukungan penuh terhadap setiap kebijakan Pemerintah yang berkaitan dengan keberlangsungan industri kelapa sawit berkelanjutan. Dalam menjalankan fungsi pengawasan, Dewan Komisaris juga memberikan arahan kepada Direksi agar senantiasa mematuhi serta mengimplementasikan setiap dinamika kebijakan yang ditetapkan oleh Pemerintah. Hal ini mencerminkan komitmen Perseroan untuk senantiasa taat regulasi serta sejalan dengan program Pemerintah dalam mengedepankan praktik usaha yang berkelanjutan dan tata kelola perusahaan yang baik.

For the palm oil industry, 2025 reflected a complex set of dynamics. CPO prices were projected to weaken and close the year in negative territory, indicating heightened volatility in the global vegetable oil market driven by geopolitical uncertainty and fluctuations in global demand. Nevertheless, market participants continued to view seasonal factors and production declines in certain regions as potential price support.

In Indonesia, the palm oil industry's growth was characterized by stronger domestic absorption and evolving export dynamics. The Government implemented the B40 biodiesel mandate starting January 1, 2025, with an allocation of approximately 15.6 million kiloliters, increasing the demand for palm oil as a domestic energy feedstock. At the same time, industry players faced shifting export patterns as part of the supply was absorbed by the domestic market, while global CPO prices remained volatile, influenced by vegetable oil demand, energy policies, and weather conditions. Overall, market consensus compiled by Reuters indicated expectations of higher average palm oil prices in 2025 compared to 2024, providing opportunities for margin improvement when supported by cost efficiency and sustained plantation productivity.

Implications of Economic and Industry Conditions on the Company

The Board of Commissioners views that the economic and industry landscape throughout 2025 presented both challenges and opportunities for the Company. Strengthened domestic absorption through biodiesel policies improved the balance between domestic demand and exports, while also requiring the industry to ensure sustainable and efficient supply. On the other hand, global price volatility, changes in logistics costs, and market access issues remain factors that must be anticipated through effective risk management and commercial flexibility.

In this context, the Board of Commissioners encourages the Board of Directors to further sharpen its focus on plantation productivity, strengthening agronomic practices, ensuring mill reliability, and maintaining disciplined cost control. The Board also emphasizes that sustainability must be more firmly integrated into the Company's strategy, given the increasing global supply chain demands related to traceability, compliance, and ESG practices.

The Board of Commissioners consistently provides full support for all Government policies related to the sustainability of the palm oil industry. In carrying out its supervisory function, the Board also provides direction to the Board of Directors to continuously comply with and implement all regulatory developments set by the Government. This reflects the Company's commitment to regulatory compliance and alignment with Government programs in promoting sustainable business practices and good corporate governance.

Selain itu, Dewan Komisaris menekankan pentingnya penerapan prinsip keberlanjutan dalam setiap aspek operasional Perseroan. Arahan yang diberikan kepada Direksi tidak hanya berfokus pada kepatuhan terhadap regulasi, tetapi juga pada penguatan komitmen terhadap praktik bisnis yang bertanggung jawab, transparan, dan berorientasi jangka panjang. Dengan demikian, Perseroan diharapkan mampu memberikan kontribusi nyata bagi pengembangan industri kelapa sawit nasional, menjaga keseimbangan lingkungan, serta meningkatkan kesejahteraan masyarakat sekitar. Seluruh langkah ini sejalan dengan visi Pemerintah dalam mendorong tata kelola perusahaan yang baik dan berkelanjutan, sekaligus memperkuat posisi Perseroan sebagai pelaku usaha yang berintegritas dan berdaya saing tinggi.

Penilaian terhadap Kinerja Direksi

Dalam menilai kinerja Direksi, Dewan Komisaris menggunakan beberapa tolok ukur utama, antara lain pencapaian target keuangan, kualitas kinerja operasional, ketepatan pengelolaan risiko, serta kepatuhan dan tata kelola. Sepanjang 2025, Dewan Komisaris menilai Direksi mampu menjaga kinerja Perseroan tetap bertumbuh, serta menunjukkan ketangkasan dalam mengelola perubahan kondisi pasar dan kebijakan industri.

Secara keuangan, kinerja keuangan Perseroan menunjukkan perbaikan yang bermakna. Hingga Desember 2025, Perseroan dilaporkan membukukan laba bersih sekitar Rp1,39 triliun, meningkat sekitar 67,43% dibanding periode yang sama tahun sebelumnya, didukung pertumbuhan pendapatan yang meningkat signifikan. Capaian tersebut mencerminkan kombinasi antara perbaikan harga jual rata-rata, pengelolaan biaya yang lebih efektif, dan eksekusi operasional yang konsisten.

Dari sisi operasional, Perseroan juga menjaga produktivitas bahan baku. Pada tahun 2025, produksi Tandan Buah Segar (TBS) inti dan plasma tercatat sekitar 1.729 ribu metrik ton. Dewan Komisaris menilai konsistensi performa lapangan ini merupakan fondasi penting untuk menjaga efisiensi pabrik dan kualitas produksi, serta untuk memastikan Perseroan dapat memanfaatkan peluang pasar secara optimal.

Atas capaian tersebut, Dewan Komisaris menyampaikan apresiasi kepada Direksi dan seluruh jajaran manajemen serta karyawan Perseroan atas dedikasi, ketekunan, dan fokus pada pencapaian target. Dewan Komisaris juga mengapresiasi langkah Direksi dalam menjaga kehati-hatian finansial dan pengelolaan modal kerja di tengah volatilitas pasar.

Pengawasan terhadap Perumusan Implementasi Strategi Perseroan

Sebagai bagian dari peran pengawasan yang berkesinambungan, Dewan Komisaris turut memberikan perhatian terhadap proses perumusan dan implementasi strategi Perseroan. Sepanjang 2025, Dewan Komisaris menjalankan fungsi pengawasan dan pemberian nasihat kepada Direksi secara aktif melalui rapat-rapat berkala, pemantauan laporan kinerja, serta evaluasi atas implementasi kebijakan strategis. Fokus pengawasan meliputi aspek kinerja

Furthermore, the Board of Commissioners emphasizes the importance of embedding sustainability principles across all aspects of the Company's operations. The guidance provided to the Board of Directors is not only focused on regulatory compliance but also on strengthening commitments to responsible, transparent, and long-term-oriented business practices. Through these efforts, the Company is expected to contribute meaningfully to the development of the national palm oil industry, maintain environmental balance, and improve the welfare of surrounding communities. These initiatives are aligned with the Government's vision to promote good and sustainable corporate governance, while strengthening the Company's position as a business entity with integrity and strong competitiveness.

Assessment of the Board of Directors' Performance

In assessing the performance of the Board of Directors, the Board of Commissioners applies several key indicators, including the achievement of financial targets, the quality of operational performance, the effectiveness of risk management, as well as compliance and governance practices. Throughout 2025, the Board of Commissioners believes that the Board of Directors has been able to sustain the Company's growth while demonstrating agility in managing changing market conditions and industry policies.

From a financial perspective, the Company's performance showed meaningful improvement. As of December 2025, the Company recorded a net profit of approximately IDR1.39 trillion, representing an increase of around 67.43% compared to the same period in the previous year, supported by significant revenue growth. These achievements demonstrate a combination of improved average selling prices, more effective cost management, and consistent operational execution.

From an operational standpoint, the Company maintained strong raw material productivity. In 2025, production of Fresh Fruit Bunches (FFB) from nucleus and plasma estates reached approximately 1,729 thousand metric tons. The Board of Commissioners considers this consistency in field performance as a critical foundation for maintaining mill efficiency and product quality, as well as ensuring that the Company can optimally capture market opportunities.

In light of these achievements, the Board of Commissioners expresses its appreciation to the Board of Directors, as well as to all levels of management and employees, for their dedication, perseverance, and focus on achieving targets. The Board also commends the Board of Directors for maintaining financial prudence and effective working capital management amid market volatility.

Oversight of the Formulation and Implementation of the Company's Strategy

As part of its continuous supervisory role, the Board of Commissioners closely monitors the formulation and implementation of the Company's strategy. Throughout 2025, the Board actively carried out its oversight and advisory functions to the Board of Directors through regular meetings, performance report monitoring, and evaluations of strategic policy implementation. The focus of supervision includes financial performance, plantation and mill

keuangan, operasional kebun dan pabrik, tindak lanjut atas isu risiko, kepatuhan terhadap regulasi, serta penguatan agenda keberlanjutan dan tata kelola.

Dalam mengawasi perumusan strategi, Dewan Komisaris memastikan bahwa rencana kerja dan kebijakan strategis yang disusun Direksi selaras dengan arah jangka panjang Perseroan dan mempertimbangkan dinamika industri kelapa sawit yang dipengaruhi oleh kebijakan energi, permintaan pasar global, serta isu keberlanjutan. Dewan Komisaris memberikan masukan agar Direksi menempatkan produktivitas dan efisiensi sebagai prioritas, serta menyeimbangkan strategi pertumbuhan dengan kesiapan sumber daya, pembiayaan, dan mitigasi risiko.

Dewan Komisaris juga telah melakukan pemantauan implementasi strategi dengan mengacu pada Rencana Kerja dan Anggaran Perusahaan (RKAP) sebagai pedoman utama. Melalui mekanisme rapat dan laporan berkala, Dewan Komisaris menilai realisasi program-program strategis, mengidentifikasi deviasi kinerja, serta meminta Direksi menyampaikan rencana korektif dan jadwal penyelesaiannya bila diperlukan. Dewan Komisaris juga menekankan pentingnya penguatan sistem pelaporan internal agar pengambilan keputusan dapat didukung data yang tepat waktu dan dapat diandalkan.

Pandangan atas Prospek Usaha yang Disusun Direksi

Dewan Komisaris telah menelaah prospek usaha yang disusun Direksi untuk tahun 2026, berikut asumsi utama yang digunakan. Asumsi utama yang dipantau Dewan Komisaris dalam prospek usaha antara lain: (i) stabilitas permintaan domestik untuk bahan baku biodiesel sejalan dengan implementasi mandatori B40; (ii) pergerakan harga CPO yang dipengaruhi keseimbangan pasokan-permintaan minyak nabati dan kondisi cuaca; (iii) ketersediaan tenaga kerja dan efektivitas pemeliharaan kebun; (iv) reliabilitas aset pabrik dan efisiensi biaya energi; serta (v) kepatuhan dan tuntutan pasar atas aspek keberlanjutan dan keterlacakan.

Dalam pandangan Dewan Komisaris, prospek Perseroan pada 2026 tetap terbuka dengan mempertimbangkan kebutuhan global terhadap minyak nabati, kekuatan permintaan domestik, dan kebijakan energi berbasis sawit yang berlanjut. Permintaan global terhadap minyak nabati diproyeksikan tetap tumbuh seiring peningkatan populasi, kebutuhan pangan, serta transisi energi berbasis biofuel di berbagai negara. Namun demikian, pertumbuhan tersebut akan berjalan beriringan dengan peningkatan pasokan dari produsen utama, sehingga struktur harga diperkirakan lebih stabil dengan volatilitas yang tetap perlu diantisipasi.

Di tingkat domestik, keberlanjutan program mandatori biodiesel menjadi faktor fundamental yang memperkuat ketahanan industri sawit nasional. Peningkatan alokasi biodiesel serta komitmen pemerintah dalam menjaga stabilitas pasokan energi berbasis CPO memberikan dukungan terhadap permintaan dalam negeri. Dalam pandangan Dewan Komisaris, kebijakan ini berperan strategis sebagai penyeimbang ketika pasar ekspor menghadapi tekanan harga global. Dengan demikian, struktur permintaan industri sawit Indonesia menjadi lebih resilien dibandingkan periode sebelumnya yang sangat bergantung pada pasar ekspor.

operations, follow-up on risk issues, regulatory compliance, as well as strengthening sustainability and governance agendas.

In overseeing strategy formulation, the Board of Commissioners ensures that the work plans and strategic policies developed by the Board of Directors are aligned with the Company's long-term direction and take into account the dynamics of the palm oil industry, which are influenced by energy policies, global market demand, and sustainability issues. The Board provides input to ensure that productivity and efficiency remain key priorities, while balancing growth strategies with resource readiness, financing capacity, and risk mitigation.

The Board of Commissioners also monitored the implementation of the strategy with reference to the Company's Work Plan and Budget (RKAP) as the primary guideline. Through regular meetings and reporting mechanisms, the Board assessed the realization of strategic programs, identified performance deviations, and requested the Board of Directors to present corrective action plans along with implementation timelines when necessary. The Board also emphasized the importance of strengthening internal reporting systems to ensure that decision-making is supported by timely and reliable data.

View on Business Prospects Prepared by the Board of Directors

The Board of Commissioners has reviewed the business prospects prepared by the Board of Directors for 2026, along with the key underlying assumptions. The key assumptions monitored by the Board include: (i) stability of domestic demand for biodiesel feedstock in line with the implementation of the B40 mandate; (ii) CPO price movements influenced by the supply-demand balance of vegetable oils and weather conditions; (iii) labor availability and effectiveness of plantation maintenance; (iv) reliability of mill assets and energy cost efficiency; and (v) compliance with and market demands related to sustainability and traceability.

In the view of the Board of Commissioners, the Company's prospects in 2026 remain promising, supported by global demand for vegetable oils, strong domestic demand, and the continuation of palm oil-based energy policies. Global demand for vegetable oils is projected to continue growing in line with population growth, food demand, and the transition toward biofuel-based energy in various countries. However, this growth is expected to be accompanied by increased supply from major producers, resulting in a more stable price structure, albeit with volatility that must still be anticipated.

At the domestic level, the continuation of the mandatory biodiesel program remains a fundamental factor strengthening the resilience of Indonesia's palm oil industry. Increased biodiesel allocation and the Government's commitment to maintaining stability in CPO-based energy supply provide strong support for domestic demand. In the Board's view, this policy plays a strategic role as a balancing mechanism when export markets face global price pressures. As a result, the demand structure of Indonesia's palm oil industry becomes more resilient compared to previous periods that were heavily dependent on export markets.

Meskipun peluang tetap terbuka, Dewan Komisaris juga mencermati sejumlah risiko yang berpotensi memengaruhi prospek usaha Perseroan pada 2026, antara lain fluktuasi harga komoditas global, dinamika nilai tukar, peningkatan biaya input seperti pupuk dan tenaga kerja, serta perkembangan regulasi keberlanjutan di pasar utama. Tekanan regulasi internasional terkait aspek lingkungan dan ketertelusuran rantai pasok akan semakin menguat, sehingga perusahaan dituntut untuk meningkatkan standar tata kelola dan transparansi operasional. Dalam konteks ini, daya saing tidak hanya ditentukan oleh produktivitas, tetapi juga oleh kredibilitas praktik keberlanjutan.

Secara keseluruhan, Dewan Komisaris menilai bahwa industri kelapa sawit dan minyak nabati pada tahun 2026 akan berada dalam fase pertumbuhan yang lebih selektif dan berbasis efisiensi. Perusahaan yang mampu menjaga produktivitas kebun, meningkatkan efisiensi operasional, serta memperkuat integrasi hilir dan komitmen keberlanjutan akan memiliki posisi yang lebih kuat dalam menghadapi siklus harga. Dengan fundamental yang terjaga dan strategi yang disiplin, Dewan Komisaris meyakini bahwa Perseroan tetap memiliki prospek jangka panjang yang solid sebagai bagian penting dari ketahanan pangan dan energi nasional.

Pandangan atas Penerapan Tata Kelola, WBS, dan Manajemen Risiko

Dewan Komisaris menilai bahwa penerapan tata kelola perusahaan sepanjang 2025 berjalan pada arah yang baik. Dewan Komisaris memandang bahwa konsistensi transparansi pelaporan, kepatuhan regulasi, serta akuntabilitas pengambilan keputusan merupakan fondasi utama untuk menjaga kepercayaan pemegang saham dan akses Perseroan terhadap pembiayaan serta pasar.

Dalam aspek *Whistleblowing System* (WBS), Dewan Komisaris menekankan pentingnya efektivitas mekanisme pelaporan pelanggaran sebagai instrumen pencegahan. Penguatan WBS dilakukan melalui sosialisasi berkelanjutan, perlindungan pelapor, dan pengelolaan tindak lanjut yang transparan dan terukur. Dewan Komisaris mendorong Direksi untuk memastikan bahwa setiap laporan yang masuk ditangani secara independen, serta temuan-temuan yang relevan digunakan sebagai dasar perbaikan proses dan penguatan budaya integritas.

Despite the opportunities, the Board of Commissioners also observes several risks that may affect the Company's business prospects in 2026, including fluctuations in global commodity prices, exchange rate dynamics, rising input costs such as fertilizers and labor, as well as evolving sustainability regulations in key markets. Increasing international regulatory pressure related to environmental aspects and supply chain traceability will require companies to enhance governance standards and operational transparency. In this context, competitiveness is determined not only by productivity but also by the credibility of sustainability practices.

Overall, the Board of Commissioners believes that the palm oil and vegetable oil industry in 2026 will enter a phase of more selective, efficiency-driven growth. Companies that are able to maintain plantation productivity, enhance operational efficiency, and strengthen downstream integration and sustainability commitments will be better positioned to navigate price cycles. With strong fundamentals and disciplined strategy, the Board is confident that the Company will continue to have solid long-term prospects as an integral part of national food and energy security.

View on the Implementation of Governance, Whistleblowing System (WBS), and Risk Management

The Board of Commissioners considers that the implementation of corporate governance throughout 2025 has progressed in a positive direction. The Board believes that consistent transparency in reporting, regulatory compliance, and accountability in decision-making are fundamental to maintaining shareholder trust and the Company's access to financing and markets.

In terms of the Whistleblowing System (WBS), the Board of Commissioners emphasizes the importance of an effective reporting mechanism as a preventive tool. Strengthening the WBS is carried out through continuous socialization, protection for whistleblowers, and transparent and measurable follow-up management. The Board encourages the Board of Directors to ensure that every report received is handled independently, and that relevant findings are used as a basis for process improvements and strengthening a culture of integrity.

Terkait manajemen risiko, Dewan Komisaris menilai Direksi telah melakukan identifikasi dan pengelolaan risiko utama, termasuk risiko pasar (harga komoditas), risiko operasional (produktivitas kebun dan reliabilitas pabrik), risiko kepatuhan, serta risiko keberlanjutan. Ke depan, Dewan Komisaris mendorong peningkatan kedalaman mitigasi melalui pemantauan indikator risiko yang lebih proaktif, penajaman kontrol internal, serta integrasi penilaian risiko ke dalam keputusan investasi dan pengelolaan aset.

Perubahan Komposisi Dewan Komisaris

Pada tahun 2025, tidak ada perubahan dalam komposisi Dewan Komisaris. Anggota yang ada terus memberikan kepemimpinan, pengawasan strategis, dan bimbingan kepada perusahaan. Dewan Komisaris tetap berdedikasi untuk menegakkan prinsip- prinsip tata kelola dan memastikan bahwa Perseroan beroperasi dengan transparansi dan akuntabilitas.

Susunan Dewan Komisaris untuk tahun 2025 adalah sebagai berikut:

- Komisaris Utama : **Prof. Dr. Ir. Bungaran Saragih**
- Komisaris Independen : **Hoesen**
- Komisaris : **Ir. Rimbun Situmorang**

Penutup dan Apresiasi

Dewan Komisaris memandang tahun 2025 sebagai periode yang mempertegas pentingnya disiplin operasional, ketahanan finansial, dan tata kelola yang kuat. Dengan tetap mengedepankan prinsip kehati-hatian serta peningkatan berkelanjutan, Dewan Komisaris optimistis Perseroan memiliki fondasi yang memadai untuk menjaga pertumbuhan yang sehat dan berkelanjutan.

Dewan Komisaris menyampaikan terima kasih kepada Pemegang Saham atas kepercayaan yang diberikan, kepada Direksi beserta seluruh insan Perseroan atas kerja keras dan dedikasinya, serta kepada para pemangku kepentingan atas dukungan dan kolaborasi yang terjalin baik. Semoga sinergi ini terus terjaga dan ditingkatkan untuk memperkuat kinerja Perseroan di masa mendatang.

Regarding risk management, the Board of Commissioners assesses that the Board of Directors has identified and managed key risks, including market risks (commodity prices), operational risks (plantation productivity and mill reliability), compliance risks, and sustainability risks. Going forward, the Board encourages deeper mitigation efforts through more proactive risk indicator monitoring, strengthening internal controls, and integrating risk assessments into investment decisions and asset management.

Changes in the Composition of the Board of Commissioners

In 2025, there were no changes in the composition of the Board of Commissioners. The existing members continued to provide leadership, strategic oversight, and guidance to the Company. The Board remains committed to upholding governance principles and ensuring that the Company operates with transparency and accountability.

The composition of the Board of Commissioners for 2025 is as follows:

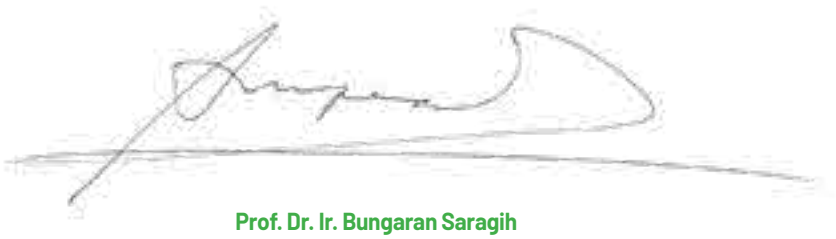

- President Commissioner : **Prof. Dr. Ir. Bungaran Saragih**
- Independent Commissioner : **Hoesen**
- Commissioner : **Ir. Rimbun Situmorang**

Closing and Appreciation

The Board of Commissioners views 2025 as a period that underscores the importance of operational discipline, financial resilience, and strong governance. By upholding prudence and continuous improvement, the Board remains optimistic that the Company has a solid foundation to sustain healthy and sustainable growth.

The Board of Commissioners expresses its gratitude to the Shareholders for their trust, to the Board of Directors and all Company personnel for their hard work and dedication, and to all stakeholders for their continued support and collaboration. May this synergy be sustained and further strengthened to enhance the Company's performance in the future.

Atas Nama Dewan Komisaris,
On Behalf of the Board of Commissioners,

Prof. Dr. Ir. Bungaran Saragih
Komisaris Utama

Pemegang Saham dan Pemangku Kepentingan yang Terhormat,
Dear Our Value Shareholders and Stakeholders,

Puji dan syukur kami panjatkan ke hadirat Tuhan Yang Maha Esa atas limpahan rahmat dan karunia-Nya, sehingga PT Sawit Sumbermas Sarana Tbk dapat melalui tahun 2025 dengan kinerja yang solid meskipun industri kelapa sawit global menghadapi dinamika yang penuh tantangan. Di tengah volatilitas harga komoditas serta tekanan ekonomi dunia, Perseroan tetap mampu menjaga pertumbuhan kinerja melalui disiplin operasional, pengendalian biaya yang konsisten, serta peningkatan produktivitas di seluruh lini usaha.

Sepanjang tahun 2025, Perseroan terus memperkuat budaya perusahaan yang berlandaskan prinsip *highly productive, highly efficient, zero fraud*, dan *zero accident* sebagai fondasi dalam menjalankan kegiatan operasional. Pada saat yang sama, Perseroan juga menjalankan strategi pertumbuhan yang terukur melalui ekspansi usaha dan akuisisi aset perkebunan strategis guna meningkatkan kapasitas produksi serta mendukung pertumbuhan jangka panjang.

Didukung oleh fondasi operasional yang semakin kokoh serta dukungan kebijakan pemerintah dalam pengembangan energi terbarukan melalui program biodiesel nasional, Perseroan meyakini bahwa prospek industri kelapa sawit akan tetap berada pada jalur pertumbuhan yang positif. Dengan penguatan operasional, disiplin pengelolaan biaya, serta strategi ekspansi yang selektif, Perseroan optimistis dapat terus menciptakan nilai tambah yang berkelanjutan bagi pemegang saham dan seluruh pemangku kepentingan.

We express our gratitude to Almighty God for His abundant blessings and grace, which have enabled PT Sawit Sumbermas Sarana Tbk to navigate through 2025 with solid performance, despite the challenging dynamics faced by the global palm oil industry. Amid commodity price volatility and global economic pressures, the Company has been able to sustain performance growth through operational discipline, consistent cost control, and enhanced productivity across all business lines.

Throughout 2025, the Company continued to strengthen its corporate culture based on the principles of highly productive, highly efficient, zero fraud, and zero accident as the foundation for its operational activities. At the same time, the Company implemented a measured growth strategy through business expansion and the acquisition of strategic plantation assets to enhance production capacity and support long-term growth.

Supported by increasingly robust operational fundamentals and government policies promoting renewable energy development through the national biodiesel program, the Company believes that the palm oil industry will remain on a positive growth trajectory. With strengthened operations, disciplined cost management, and a selective expansion strategy, the Company remains confident in its ability to continuously create sustainable value for shareholders and all stakeholders.

Tinjauan Ekonomi dan Industri

Tahun 2025 ditandai oleh pertumbuhan ekonomi global yang tetap berlangsung namun berada pada jalur moderat. International Monetary Fund (IMF) mempublikasikan ekonomi dunia tumbuh sekitar 3,2% pada tahun 2025, seiring penyesuaian kebijakan moneter, fragmentasi perdagangan, serta meningkatnya proteksionisme di sejumlah negara. Dalam konteks ini, perekonomian global tidak mengalami kontraksi, namun berada pada fase pertumbuhan yang relatif stabil dengan tingkat ketidakpastian yang masih dipengaruhi oleh dinamika geopolitik dan inflasi.

Tekanan inflasi global yang mulai mereda memberikan ruang bagi beberapa bank sentral untuk melonggarkan kebijakan moneter, meskipun tingkat suku bunga riil masih relatif tinggi. IMF mencatat inflasi global turun menjadi sekitar 4,3% pada 2025, mendekati target bank sentral di berbagai negara maju.

Permintaan minyak nabati global lebih tinggi dari *supply* sehingga memberikan dampak positif terhadap perdagangan internasional, khususnya pada permintaan minyak nabati.

Di tengah dinamika global, ekonomi Indonesia menunjukkan ketahanan yang cukup meyakinkan. Badan Pusat Statistik (BPS) mencatat ekonomi Indonesia tumbuh 5,11% pada tahun 2025, meningkat dari 5,03% pada 2024 dan menjadi yang tertinggi dalam tiga tahun terakhir. Pertumbuhan ini didorong oleh konsumsi rumah tangga, investasi, serta kinerja sektor produksi utama.

Stabilitas ekonomi domestik juga tercermin dari pertumbuhan triwulanan yang konsisten di atas 5%, dengan pertumbuhan ekonomi triwulan II 2025 mencapai sekitar 5,12% yoy. Kondisi ini menjadi fondasi penting bagi sektor agribisnis, termasuk industri kelapa sawit, karena memastikan permintaan domestik tetap terjaga.

Bank Dunia memproyeksikan ekonomi Indonesia akan tetap tumbuh di kisaran 5% pada periode 2025–2026, menunjukkan stabilitas jangka menengah yang relatif kuat dibandingkan banyak negara berkembang lainnya. Kebijakan moneter yang lebih akomodatif juga mendukung pertumbuhan ekonomi, dengan Bank Indonesia menurunkan suku bunga untuk menjaga momentum ekonomi serta stabilitas inflasi dan nilai tukar.

Meskipun demikian, volatilitas nilai tukar dan harga komoditas global tetap menjadi faktor risiko yang perlu diantisipasi. Fluktuasi kurs dapat meningkatkan pendapatan ekspor dalam rupiah, namun juga berpotensi menaikkan biaya input impor. Oleh karena itu, disiplin pengelolaan dan disiplin keuangan menjadi faktor penting dalam menjaga stabilitas kinerja perusahaan.

Secara keseluruhan, tahun 2025 menegaskan bahwa Indonesia berada pada posisi yang relatif tangguh di tengah pertumbuhan ekonomi global yang moderat. Ketahanan domestik menjadi faktor penting yang menopang kinerja sektor komoditas, termasuk industri kelapa sawit.

Economic and Industry Overview

The year 2025 was characterized by continued global economic growth, albeit at a moderate pace. The International Monetary Fund (IMF) reported that the global economy grew by approximately 3.2% in 2025, reflecting adjustments in monetary policies, trade fragmentation, and rising protectionism in several countries. In this context, the global economy did not experience contraction but remained in a relatively stable growth phase, with uncertainty still influenced by geopolitical dynamics and inflation.

Easing global inflationary pressures provided room for several central banks to adopt more accommodative monetary policies, although real interest rates remained relatively high. The IMF recorded that global inflation declined to around 4.3% in 2025, approaching central bank targets in many advanced economies.

Global demand for edible oils exceeded supply, generating a positive impact on international trade, particularly in the edible oil market.

Amid global dynamics, Indonesia's economy demonstrated strong resilience. Badan Pusat Statistik (BPS) reported that Indonesia's economy grew by 5.11% in 2025, up from 5.03% in 2024, marking the highest growth in the past three years. This growth was driven by household consumption, investment, and the performance of key production sectors.

Domestic economic stability was also reflected in consistent quarterly growth above 5%, with economic growth in the second quarter of 2025 reaching approximately 5.12% year-on-year. This condition serves as an important foundation for the agribusiness sector, including the palm oil industry, by ensuring stable domestic demand.

The World Bank projects that Indonesia's economy will continue to grow at around 5% during the 2025–2026 period, indicating relatively strong medium-term stability compared to many other developing countries. More accommodative monetary policy also supports economic growth, with Bank Indonesia lowering interest rates to maintain economic momentum as well as inflation and exchange rate stability.

Nevertheless, exchange rate volatility and global commodity price fluctuations remain key risks that need to be anticipated. Currency fluctuations may increase export revenues in rupiah terms but could also raise the cost of imported inputs. Therefore, disciplined management and financial prudence remain critical factors in maintaining stable corporate performance.

Overall, 2025 reaffirmed Indonesia's relatively resilient position amid moderate global economic growth. Strong domestic fundamentals remain a key factor supporting the performance of the commodity sector, including the palm oil industry.

Tinjauan Industri Kelapa Sawit

Industri kelapa sawit pada tahun 2025 menunjukkan kondisi yang relatif stabil di tengah dinamika ekonomi global dan fluktuasi harga komoditas. Indonesia tetap mempertahankan posisinya sebagai produsen minyak sawit terbesar di dunia, dengan peran yang semakin strategis dalam memenuhi kebutuhan minyak nabati global, baik untuk sektor pangan maupun energi terbarukan.

Permintaan minyak nabati dunia terus meningkat seiring pertumbuhan populasi, perkembangan industri pangan, serta meningkatnya kebutuhan energi alternatif. Dalam konteks tersebut, minyak sawit memiliki keunggulan kompetitif dibandingkan minyak nabati lainnya karena tingkat produktivitas perunit luas lahan yang lebih tinggi serta efisiensi biaya produksi yang lebih baik.

Di sisi lain, keseimbangan antara pasokan dan permintaan minyak nabati global relatif terjaga. Pertumbuhan produksi minyak nabati berlangsung secara moderat di berbagai negara produsen, sementara permintaan global naik pesat. Kondisi ini menciptakan stabilitas relatif pada pasar minyak nabati meskipun volatilitas harga masih terjadi akibat dinamika perdagangan global, kebijakan energi, dan faktor cuaca.

Salah satu faktor struktural yang memperkuat industri kelapa sawit Indonesia adalah keberlanjutan program mandatori biodiesel nasional. Kebijakan ini meningkatkan serapan CPO di pasar domestik sehingga menciptakan permintaan yang lebih stabil serta mengurangi ketergantungan terhadap pasar ekspor. Program biodiesel juga menjadi instrumen penting pemerintah dalam mendukung transisi energi sekaligus memperkuat industri minyak nabati nasional.

Kebijakan biodiesel juga diterapkan di berbagai negara dengan pendekatan berbeda. Di Amerika Serikat, program energi terbarukan mendorong penggunaan *soybean oil* sebagai bahan baku biodiesel, sementara di Eropa kebijakan serupa mendorong pemanfaatan *rapeseed oil* dan *sunflower oil*. Hal ini menunjukkan bahwa kebijakan biodiesel secara umum menjadi strategi pemerintah untuk mendukung industri minyak nabati domestik masing-masing negara.

Di tengah peluang tersebut, industri kelapa sawit juga menghadapi berbagai tantangan, termasuk peningkatan biaya produksi, dinamika logistik, serta tuntutan terhadap praktik keberlanjutan dan ketertelusuran rantai pasok. Regulasi lingkungan yang semakin ketat di pasar utama menuntut perusahaan untuk memperkuat praktik pengelolaan keberlanjutan dan transparansi dalam rantai pasok.

Oleh karena itu, keberhasilan perusahaan kelapa sawit tidak hanya ditentukan oleh pergerakan harga komoditas, tetapi juga oleh kemampuan dalam menjaga produktivitas kebun, meningkatkan efisiensi operasional, serta memastikan kepatuhan terhadap standar keberlanjutan global.

Palm Oil Industry Overview

The palm oil industry in 2025 demonstrated relatively stable conditions amid global economic dynamics and commodity price fluctuations. Indonesia maintained its position as the world's largest palm oil producer, with an increasingly strategic role in meeting global edible oil demand for both food and renewable energy sectors.

Global demand for edible oils continued to increase in line with population growth, the expansion of the food industry, and rising demand for alternative energy. In this context, palm oil holds a competitive advantage over other edible oils due to its higher yield per unit of land area and greater cost efficiency in production.

On the supply side, the balance between global edible oil supply and demand remained relatively stable. Production growth across major producing countries was moderate, while global demand increased significantly. This condition created relative stability in the edible oil market, although price volatility persisted due to global trade dynamics, energy policies, and weather factors.

One of the structural factors strengthening Indonesia's palm oil industry is the continuation of the national biodiesel mandate program. This policy increases domestic CPO absorption, creating more stable demand and reducing dependence on export markets. The biodiesel program also serves as a key government instrument in supporting the energy transition while strengthening the national edible oil industry.

Biodiesel policies are also implemented in various countries with different approaches. In the United States, renewable energy programs encourage the use of soybean oil as a biodiesel feedstock, while in Europe, similar policies promote the use of rapeseed oil and sunflower oil. This demonstrates that biodiesel policies generally serve as a strategic tool for governments to support their respective domestic edible oil industries.

Amid these opportunities, the palm oil industry also faces various challenges, including rising production costs, logistics dynamics, and increasing demands for sustainability practices and supply chain traceability. Stricter environmental regulations in key markets require companies to strengthen sustainability management practices and enhance transparency across the supply chain.

Therefore, the success of palm oil companies is not solely determined by commodity price movements but also by their ability to maintain plantation productivity, improve operational efficiency, and ensure compliance with global sustainability standards.

Dengan fundamental industri yang tetap kuat serta dukungan kebijakan energi terbarukan di tingkat nasional, industri kelapa sawit Indonesia diperkirakan akan terus memainkan peran penting dalam memenuhi kebutuhan minyak nabati global sekaligus mendukung ketahanan energi dan pembangunan ekonomi nasional.

Strategi dan Kebijakan Strategis Perseroan Tahun 2025

Sepanjang tahun 2025, Perseroan menjalankan strategi bisnis yang berfokus pada penguatan keunggulan operasional (*operational excellence*) serta pengendalian biaya sebagai fondasi utama dalam menjaga pertumbuhan berkelanjutan. Perseroan menyadari bahwa dalam industri kelapa sawit, faktor harga komoditas dan kondisi cuaca merupakan variabel eksternal yang berada di luar kendali perusahaan. Oleh karena itu, peningkatan produktivitas kebun, efisiensi operasional, serta disiplin pengelolaan biaya menjadi prioritas utama dalam strategi pengelolaan usaha.

Untuk memastikan implementasi strategi berjalan efektif, Perseroan menempatkan sebagian besar manajemen senior, termasuk Direksi dan manajemen operasional, di Pangkalan Bun sebagai pusat kegiatan operasional Perseroan. Kedekatan manajemen dengan aktivitas operasional di lapangan memungkinkan pengawasan internal yang lebih efektif, pengambilan keputusan yang lebih cepat, serta respons yang lebih tepat terhadap berbagai tantangan operasional.

Perseroan juga terus memperkuat budaya perusahaan sebagai landasan operasional melalui penerapan nilai *highly productive, highly efficient, zero fraud,* dan *zero accident*. Prinsip ini bertujuan meningkatkan produktivitas dan efisiensi kerja sekaligus membangun organisasi yang berintegritas serta menjunjung tinggi keselamatan kerja.

Dalam mendukung pertumbuhan usaha, Perseroan menjalankan strategi ekspansi yang terukur melalui pertumbuhan anorganik *(inorganic growth).* Pada tahun 2025, Perseroan menyelesaikan akuisisi PT Sawit Mandiri Lestari (SML) yang memiliki potensi produktivitas tinggi dan profil umur tanaman yang relatif muda. Akuisisi ini memperluas basis aset perkebunan Perseroan, meningkatkan kapasitas produksi, serta memperkuat fondasi pertumbuhan jangka panjang.

Selain ekspansi horizontal melalui akuisisi aset perkebunan, Perseroan juga memperkuat integrasi bisnis dari hulu hingga hilir guna meningkatkan efisiensi operasional dan nilai tambah produk. Integrasi ini mencakup peningkatan produktivitas kebun, optimalisasi kinerja pabrik pengolahan, serta pengembangan produk turunan minyak sawit.

Di sisi lain, Perseroan juga terus memperkuat tata kelola perusahaan dengan mengintegrasikan prinsip *Environmental, Social, and Governance* (ESG) ke dalam strategi bisnis. Penguatan fungsi keberlanjutan di tingkat manajemen memastikan bahwa pertumbuhan usaha berjalan selaras dengan aspek lingkungan, sosial, dan tata kelola yang baik.

With strong industry fundamentals and continued support from national renewable energy policies, Indonesia's palm oil industry is expected to continue playing a vital role in meeting global edible oil demand while supporting national energy security and economic development.

Company Strategy and Strategic Policies in 2025

Throughout 2025, the Company implemented a business strategy focused on strengthening operational excellence and cost control as the primary foundation for sustaining long-term growth. The Company recognizes that in the palm oil industry, commodity prices and weather conditions are external variables beyond its control. Therefore, improving plantation productivity, enhancing operational efficiency, and maintaining disciplined cost management remain key strategic priorities.

To ensure effective strategy implementation, the Company placed most of its senior management, including the Board of Directors and operational management, in Pangkalan Bun as the center of operational activities. This proximity to field operations enables more effective internal supervision, faster decision-making, and more responsive handling of operational challenges.

The Company also continues to strengthen its corporate culture as an operational foundation through the implementation of the values of highly productive, highly efficient, zero fraud, and zero accident. These principles aim to enhance productivity and efficiency while fostering an organization built on integrity and a strong commitment to workplace safety.

In supporting business growth, the Company implemented a measured expansion strategy through inorganic growth. In 2025, the Company completed the acquisition of PT Sawit Mandiri Lestari (SML), which has high productivity potential and a relatively young plantation profile. This acquisition expands the Company's plantation asset base, increases production capacity, and strengthens its long-term growth foundation.

In addition to horizontal expansion through plantation asset acquisitions, the Company also strengthened its upstream-to-downstream business integration to enhance operational efficiency and product value creation. This integration includes improving plantation productivity, optimizing mill performance, and developing downstream palm oil derivative products.

On the other hand, the Company continues to strengthen corporate governance by integrating Environmental, Social, and Governance (ESG) principles into its business strategy. Strengthening sustainability functions at the management level ensures that business growth aligns with environmental, social, and governance aspects.

Melalui kombinasi penguatan operasional, disiplin pengendalian biaya, ekspansi usaha yang selektif, serta penguatan tata kelola keberlanjutan, Perseroan terus memperkuat fondasi pertumbuhan jangka panjang dan meningkatkan daya saing di industri kelapa sawit.

Selain itu, Perseroan senantiasa menjaga hubungan yang harmonis dengan anak perusahaan, termasuk PT Citra Borneo Utama Tbk, dengan memastikan kepatuhan terhadap regulasi dan peraturan perundang-undangan yang berlaku.

Peranan Direksi dalam Perumusan dan Implementasi Strategi

Direksi memiliki peran sentral dalam merumuskan dan mengimplementasikan strategi Perseroan dengan memastikan setiap keputusan selaras dengan visi jangka panjang, tujuan pertumbuhan berkelanjutan, serta kepentingan pemegang saham dan pemangku kepentingan lainnya. Dalam proses perumusan strategi, Direksi melakukan kajian terhadap kondisi makroekonomi, dinamika industri kelapa sawit, risiko usaha, serta peluang pertumbuhan yang tersedia, evaluasi kinerja internal Perseroan, semua Keputusan dilakukan secara dan transparan, ini merupakan *culture* dalam dalam menyusun kebijakan strategis.

Direksi menerapkan pendekatan berbasis data dan risiko (*risk-based decision making*), dengan melibatkan unit kerja terkait serta mempertimbangkan transparansi dan rekomendasi dari organ di bawah Direksi. Proses ini mencakup penetapan prioritas strategis, alokasi sumber daya, serta penyusunan indikator kinerja utama *(Key Performance Indicators*/KPI) untuk memastikan setiap inisiatif strategis dapat diukur secara objektif, transparan, dan secara kolaboratif.

Direksi juga melakukan pengawasan secara berkelanjutan melalui mekanisme monitoring dan evaluasi berkala terhadap pencapaian target operasional dan keuangan. Rapat koordinasi rutin dengan manajemen dilakukan untuk meninjau perkembangan implementasi strategi, mengidentifikasi hambatan, serta menetapkan langkah perbaikan yang diperlukan.

Melalui komunikasi internal yang kuat dan koordinasi lintas fungsi yang efektif, Direksi memastikan setiap unit kerja memahami peran dan kontribusinya dalam mencapai sasaran Perseroan. Dengan kepemimpinan yang responsif terhadap dinamika lingkungan usaha, Direksi berkomitmen menjaga konsistensi pelaksanaan strategi serta memastikan Perseroan tetap mempertahankan dan mengokohkan status 100% RSPO dan berada pada jalur pertumbuhan yang berkelanjutan dan berdaya saing tinggi.

Through a combination of operational strengthening, disciplined cost control, selective business expansion, and enhanced sustainability governance, the Company continues to reinforce its long-term growth foundation and improve its competitiveness in the palm oil industry.

In addition, the Company maintains harmonious relationships with its subsidiaries, including PT Citra Borneo Utama Tbk, by ensuring compliance with applicable laws and regulations.

The Role of the Board of Directors in Strategy Formulation and Implementation

The Board of Directors plays a central role in formulating and implementing the Company's strategy by ensuring that every decision aligns with the long-term vision, sustainable growth objectives, and the interests of shareholders and other stakeholders. In the strategy formulation process, the Board conducts comprehensive assessments of macroeconomic conditions, palm oil industry dynamics, business risks, and available growth opportunities, as well as evaluations of the Company's internal performance. All decisions are made objectively and transparently, reflecting the Company's culture in developing strategic policies.

The Board applies a data-driven and risk-based approach (risk-based decision making), involving relevant business units while considering transparency and recommendations from supporting organs under the Board. This process includes setting strategic priorities, allocating resources, and establishing Key Performance Indicators (KPIs) to ensure that each strategic initiative can be measured objectively, transparently, and collaboratively.

The Board also performs continuous oversight through regular monitoring and evaluation of operational and financial performance targets. Routine coordination meetings with management are conducted to review the progress of strategy implementation, identify challenges, and determine necessary corrective actions.

Through strong internal communication and effective cross-functional coordination, the Board ensures that each business unit understands its role and contribution in achieving the Company's objectives. With leadership that is responsive to business environment dynamics, the Board is committed to maintaining consistency in strategy execution and ensuring that the Company continues to uphold and strengthen its status as a 100% certified member of the Roundtable on Sustainable Palm Oil (RSPO), while remaining on a path of sustainable and competitive growth.

Analisis Kinerja Perusahaan

Tahun 2025 menjadi periode yang sangat positif bagi PT Sawit Sumbermas Sarana Tbk, ditandai dengan pencapaian kinerja yang solid dan baik dari sisi operasional maupun keuangan. Keberhasilan ini mencerminkan efektivitas strategi Perseroan dalam menjaga disiplin operasional meningkatkan efisiensi serta memperkuat daya saing di tengah dinamika industri kelapa sawit global.

Perseroan memahami bahwa dalam industri kelapa sawit terdapat tiga faktor utama yang memengaruhi kinerja perusahaan, yaitu harga komoditas, volume produksi, dan biaya operasional. Di antara ketiga faktor tersebut, harga komoditas dan kondisi cuaca merupakan faktor eksternal yang berada di luar kendali perusahaan. Oleh karena itu, Perseroan menempatkan pengendalian biaya dan peningkatan produktivitas sebagai fokus utama dalam menjaga profitabilitas secara berkelanjutan.

Sepanjang tahun 2025, Perseroan mencatatkan peningkatan kinerja operasional yang tercermin dari pertumbuhan produksi serta optimalisasi utilisasi fasilitas pengolahan. Hingga akhir tahun 2025, Perseroan membukukan pendapatan sekitar Rp14,81 triliun, meningkat sekitar 42,91% dibandingkan tahun sebelumnya, dengan kontribusi utama berasal dari segmen minyak dan lemak nabati.

Kinerja profitabilitas Perseroan juga menunjukkan penguatan yang signifikan. Laba tahun berjalan setelah efek penyesuaian proforma tercatat sekitar Rp1,39 triliun, meningkat sekitar 67,43% dibandingkan tahun sebelumnya. Pencapaian ini mencerminkan keberhasilan Perseroan dalam menjaga keseimbangan antara peningkatan volume produksi dan pengendalian biaya operasional sehingga mampu mempertahankan margin usaha di tengah fluktuasi harga komoditas global.

Untuk mempertahankan keunggulan operasional, Perseroan terus menjalankan berbagai inisiatif peningkatan produktivitas dan efisiensi, termasuk optimalisasi penggunaan pupuk dengan cara efisien dan peningkatan efektivitas proses panen, serta penguatan sistem pengelolaan operasional berbasis data. Pendekatan ini memungkinkan Perseroan menjaga struktur biaya yang kompetitif sekaligus memastikan kualitas dan kuantitas produksi tetap terjaga.

Selain memperkuat aspek operasional, Perseroan juga meneguhkan fondasi pertumbuhan melalui penguatan struktur permodalan. Langkah ini tidak hanya meningkatkan ketahanan finansial, tetapi juga membuka ruang bagi ekspansi strategis dan penciptaan nilai berkelanjutan bagi seluruh pemangku kepentingan.

Pada tahun 2025, Perseroan memperoleh fasilitas pembiayaan sindikasi maksimal senilai Rp5.136.715.000.000 dari sejumlah bank nasional dan internasional yang digunakan untuk refinancing pinjaman sebelumnya, serta mendukung kebutuhan operasional dan ekspansi usaha.

Company Performance Analysis

The year 2025 marked a highly positive period for PT Sawit Sumbermas Sarana Tbk, characterized by solid performance achievements both operationally and financially. This success reflects the effectiveness of the Company's strategy in maintaining operational discipline, improving efficiency, and strengthening competitiveness amid the dynamics of the global palm oil industry.

The Company recognizes that there are three main factors influencing performance in the palm oil industry, namely commodity prices, production volume, and operational costs. Among these, commodity prices and weather conditions are external factors beyond the Company's control. Therefore, cost control and productivity enhancement remain the primary focus in sustaining long-term profitability.

Throughout 2025, the Company recorded improved operational performance, reflected in production growth and optimized utilization of processing facilities. By the end of 2025, the Company reported revenue of approximately IDR14.81 trillion, an increase of around 42.91% compared to the previous year, with the main contribution coming from the edible oil and fats segment.

The Company's profitability also strengthened significantly. Profit for the year after proforma adjustment effects reached approximately IDR1.39 trillion, increasing by around 67.43% compared to the previous year. This achievement reflects the Company's success in maintaining a balance between increased production volume and effective cost control, enabling it to sustain margins amid global commodity price fluctuations.

To maintain operational excellence, the Company continued to implement various productivity and efficiency initiatives, including optimizing fertilizer usage, improving harvesting effectiveness, and strengthening data-driven operational management systems. This approach enables the Company to maintain a competitive cost structure while ensuring consistent production quality and volume.

In addition to strengthening operational aspects, the Company also reinforced its growth foundation through capital structure optimization. This step not only enhances financial resilience but also creates opportunities for strategic expansion and sustainable value creation for all stakeholders.

In 2025, the Company secured a syndicated financing facility of up to approximately IDR5,136,715,000,000 from several national and international banks, which was utilized for refinancing existing loans as well as supporting operational needs and business expansion.

Sebagai bagian dari strategi pertumbuhan jangka panjang, Perseroan juga menyelesaikan aksi korporasi strategis melalui akuisisi PT Sawit Mandiri Lestari (SML) senilai sekitar Rp1,6 triliun pada November 2025. Akuisisi ini memperluas basis aset perkebunan Perseroan, meningkatkan kapasitas produksi, serta memperbaiki profil umur tanaman guna mendukung peningkatan produktivitas di masa mendatang.

Dari sisi hilir, kinerja anak usaha PT Citra Borneo Utama Tbk (CBUT) menunjukkan tren pertumbuhan yang semakin membaik dari tahun ke tahun, didorong oleh penguatan strategi hilirisasi dan integrasi vertikal Perseroan. Peningkatan kapasitas operasional serta optimalisasi fasilitas pengolahan memungkinkan CBUT menghasilkan produk bernilai tambah yang lebih tinggi, sehingga mendorong pertumbuhan pendapatan dan profitabilitas secara konsisten. Peran CBUT sebagai pengolah produk turunan kelapa sawit juga semakin strategis dalam memperkuat struktur bisnis Perseroan, tidak hanya dalam meningkatkan efisiensi, tetapi juga dalam menangkap peluang pasar domestik dan ekspor. Dengan fundamental operasional yang semakin solid dan dukungan permintaan produk hilir yang terus tumbuh, CBUT diharapkan akan terus menjadi salah satu kontributor utama terhadap kinerja konsolidasi Perseroan secara berkelanjutan.

Secara keseluruhan, kinerja Perseroan tahun 2025 mencerminkan fondasi operasional yang semakin kokoh. Pencapaian tersebut menjadi bukti atas konsistensi strategi, disiplin dalam pengelolaan biaya, serta komitmen berkelanjutan untuk meningkatkan produktivitas di seluruh lini usaha. Dengan landasan yang solid ini, Perseroan berada pada posisi yang lebih siap untuk menghadapi dinamika industri sekaligus memanfaatkan peluang pertumbuhan di masa mendatang.

Tantangan yang Dihadapi Perseroan Tahun 2025 dan Mitigasinya

Pada tahun 2025, Perseroan menghadapi berbagai dinamika industri, terutama volatilitas harga minyak nabati di pasar global yang dipengaruhi oleh keseimbangan pasokan dan permintaan, persaingan dengan minyak nabati lain seperti *soybean oil* dan *sunflower oil*, serta perubahan berbagai kebijakan perdagangan dan energi di berbagai negara.

Kondisi ini menuntut Perseroan untuk menjaga profitabilitas tidak hanya melalui peningkatan volume produksi, tetapi juga melalui penguatan struktur biaya dan peningkatan efisiensi operasional. Perseroan secara konsisten menitikberatkan strategi pada peningkatan produktivitas kebun *(yield per hectare),* CPO *(yield per hectare),* optimalisasi tingkat ekstraksi minyak (*oil extraction rate*), serta efisiensi operasional di seluruh rantai produksi.

Tantangan lainnya berasal dari peningkatan biaya input produksi, khususnya pupuk, tenaga kerja, dan logistik. Untuk memitigasi risiko tersebut, Perseroan terus melakukan optimalisasi penggunaan input produksi, meningkatkan efisiensi proses operasional, mekanisasi serta memperkuat konsistensi pengelolaan kebun berbasis data guna memastikan setiap aktivitas operasional berjalan secara efektif.

As part of its long-term growth strategy, the Company also completed a strategic corporate action through the acquisition of PT Sawit Mandiri Lestari (SML) worth approximately IDR1.6 trillion in November 2025. This acquisition expands the Company's plantation asset base, increases production capacity, and improves the plantation age profile to support future productivity growth.

On the downstream side, the performance of its subsidiary PT Citra Borneo Utama Tbk (CBUT) continued to show improving growth trends year by year, driven by strengthened downstream strategies and vertical integration. Increased operational capacity and optimized processing facilities enable CBUT to produce higher value-added products, thereby driving consistent revenue and profitability growth. CBUT's role as a processor of palm oil derivatives is increasingly strategic in strengthening the Company's business structure, not only in improving efficiency but also in capturing domestic and export market opportunities. With stronger operational fundamentals and growing demand for downstream products, CBUT is expected to remain a key contributor to the Company's consolidated performance on a sustainable basis.

Overall, the Company's performance in 2025 reflects an increasingly solid operational foundation. These achievements demonstrate the consistency of its strategy, disciplined cost management, and continuous commitment to improving productivity across all business lines. With this strong foundation, the Company is well-positioned to navigate industry dynamics while capturing future growth opportunities.

Challenges Faced by the Company in 2025 and Mitigation Measures

In 2025, the Company faced various industry dynamics, particularly the volatility of edible oil prices in the global market, influenced by supply-demand balance, competition with other edible oils such as soybean oil and sunflower oil, as well as evolving trade and energy policies across different countries.

These conditions required the Company to maintain profitability not only through increased production volume but also through strengthening its cost structure and improving operational efficiency. The Company consistently focused its strategy on enhancing plantation productivity (yield per hectare), CPO productivity, optimizing oil extraction rates, and improving operational efficiency across the entire production chain.

Another challenge arose from increasing production input costs, particularly fertilizers, labor, and logistics. To mitigate these risks, the Company continued to optimize input usage, improve operational process efficiency, implement mechanization, and strengthen data-driven plantation management to ensure that all operational activities are carried out effectively.

Selain faktor operasional, industri kelapa sawit juga menghadapi dinamika regulasi keberlanjutan yang semakin kompleks di pasar global. Berbagai standar lingkungan dan ketertelusuran rantai pasok menuntut perusahaan untuk memperkuat praktik keberlanjutan serta transparansi operasional.

Sebagai respons, Perseroan terus memperkuat tata kelola keberlanjutan melalui peningkatan sistem ketertelusuran rantai pasok, penerapan praktik perkebunan berkelanjutan, serta pemenuhan berbagai standar sertifikasi internasional maupun nasional, seperti pemenuhan sertifikasi RSPO dan ISPO. Langkah ini tidak hanya memastikan kepatuhan terhadap regulasi, tetapi juga memperkuat posisi Perseroan sebagai produsen kelapa sawit yang bertanggung jawab dan berdaya saing global.

Melalui pengelolaan operasional yang disiplin serta penguatan tata kelola keberlanjutan, Perseroan mampu menjaga stabilitas kinerja di tengah dinamika industri yang terus berkembang.

Prospek Usaha

Memandang tahun 2026, Perseroan meyakini prospek industri kelapa sawit tetap berada pada jalur pertumbuhan yang positif. Permintaan global terhadap minyak nabati diperkirakan terus meningkat seiring pertumbuhan populasi, perkembangan industri pangan, serta meningkatnya kebutuhan energi alternatif yang lebih berkelanjutan.

Di pasar domestik, keberlanjutan program mandatori biodiesel nasional menjadi faktor penting yang memperkuat prospek industri kelapa sawit Indonesia. Kebijakan ini meningkatkan serapan CPO di dalam negeri sehingga menciptakan stabilitas permintaan yang lebih kuat dan mengurangi ketergantungan terhadap pasar ekspor yang dinamis.

Dari sisi operasional, Perseroan melihat peluang pertumbuhan melalui peningkatan produktivitas kebun, optimalisasi aset hasil ekspansi, serta penguatan integrasi operasional dari hulu hingga hilir. Investasi yang telah direalisasikan pada tahun 2025, termasuk penguatan basis aset perkebunan melalui akuisisi strategis, diharapkan memberikan kontribusi signifikan terhadap peningkatan kapasitas produksi pada tahun-tahun mendatang.

Selain itu, Perseroan juga terus membuka peluang pertumbuhan melalui strategi ekspansi yang selektif, baik melalui akuisisi aset perkebunan berpotensi tinggi maupun pengembangan bisnis hilir guna meningkatkan nilai tambah produk.

Dengan fondasi operasional yang semakin kuat, disiplin pengelolaan biaya yang konsisten, serta strategi pertumbuhan yang terukur, Perseroan optimistis dapat mempertahankan momentum pertumbuhan dan menciptakan nilai tambah berkelanjutan bagi pemegang saham dan seluruh pemangku kepentingan.

In addition to operational factors, the palm oil industry also faced increasingly complex sustainability regulations in global markets. Various environmental standards and supply chain traceability requirements compel companies to strengthen sustainability practices and enhance operational transparency.

In response, the Company continues to strengthen its sustainability governance by enhancing supply chain traceability systems, implementing sustainable plantation practices, and complying with various international and national certification standards, such as Roundtable on Sustainable Palm Oil (RSPO) and Indonesian Sustainable Palm Oil (ISPO). These measures not only ensure regulatory compliance but also reinforce the Company's position as a responsible and globally competitive palm oil producer.

Through disciplined operational management and strengthened sustainability governance, the Company has been able to maintain performance stability amid continuously evolving industry dynamics.

Business Prospects

Looking ahead to 2026, the Company believes that the palm oil industry will remain on a positive growth trajectory. Global demand for edible oils is expected to continue increasing, driven by population growth, expansion of the food industry, and rising demand for more sustainable alternative energy.

In the domestic market, the continuation of the national biodiesel mandate program remains a key factor strengthening the outlook of Indonesia's palm oil industry. This policy increases domestic CPO absorption, creating stronger demand stability and reducing dependence on dynamic export markets.

From an operational perspective, the Company sees growth opportunities through increased plantation productivity, optimization of assets resulting from expansion, and strengthening operational integration from upstream to downstream. Investments realized in 2025, including the strengthening of plantation asset bases through strategic acquisitions, are expected to contribute significantly to increased production capacity in the coming years.

In addition, the Company continues to pursue growth opportunities through selective expansion strategies, both through the acquisition of high-potential plantation assets and the development of downstream businesses to enhance product value.

With increasingly strong operational foundations, consistent cost management discipline, and a measured growth strategy, the Company remains confident in its ability to sustain growth momentum and create sustainable value for shareholders and all stakeholders.

Penerapan Tata Kelola

Perseroan menempatkan penerapan Tata Kelola Perusahaan yang Baik (*Good Corporate Governance*/GCG) sebagai fondasi utama dalam menjalankan kegiatan usaha dan menciptakan nilai jangka panjang bagi pemegang saham serta pemangku kepentingan lainnya. Prinsip transparansi, akuntabilitas, responsibilitas, independensi, dan kewajaran menjadi pedoman dalam setiap proses pengambilan keputusan di seluruh organisasi.

Sebagai bagian dari penguatan tata kelola yang adaptif terhadap dinamika industri dan tuntutan keberlanjutan global, Perseroan telah mengintegrasikan risiko pada Lingkungan, Sosial, dan Tata Kelola (ESG) ke dalam kerangka manajemen risiko perusahaan. Risiko terkait perubahan iklim, kepatuhan terhadap regulasi keberlanjutan, praktik ketenagakerjaan, serta reputasi perusahaan kini menjadi bagian dari proses identifikasi, evaluasi, dan mitigasi risiko secara terstruktur.

Untuk memperkuat budaya kepatuhan dan integritas, Perseroan membentuk Komite Pengaduan yang bertanggung jawab mengelola mekanisme pengaduan, termasuk *Whistleblowing System* (WBS). Sistem ini memungkinkan karyawan maupun pihak eksternal menyampaikan laporan dugaan pelanggaran secara aman, rahasia, dan independen. Setiap laporan diproses melalui prosedur yang jelas dan transparan dengan menjunjung tinggi perlindungan pelapor.

Perseroan juga secara berkala mengevaluasi efektivitas sistem pengendalian internal dan manajemen risiko, termasuk pemantauan kepatuhan terhadap peraturan perundang-undangan. Melalui penguatan tata kelola dan integrasi risiko ESG, Perseroan tidak hanya memastikan kepatuhan terhadap regulasi, tetapi juga memperkuat kepercayaan pemangku kepentingan serta meningkatkan daya saing jangka panjang.

Perubahan Komposisi Direksi

Pada tahun 2025, komposisi Direksi Perseroan mengalami perubahan seiring perkembangan usaha Perseroan. Langkah ini merupakan bagian dari upaya memperkuat pengelolaan keuangan yang lebih terintegrasi, meningkatkan daya saing dan penetrasi pasar, serta memastikan integrasi prinsip keberlanjutan dalam setiap aspek operasional dan pengambilan keputusan. Perubahan komposisi Direksi diharapkan dapat mempercepat implementasi strategi pertumbuhan Perseroan sekaligus memperkuat fondasi tata kelola dan manajemen risiko yang berorientasi jangka panjang.

Berikut komposisi Direksi di tahun 2025:

- Direktur Utama : **Jap Hartono**
- Direktur : **Akhmad Faisyal**
- Direktur : **Jahja Tanudjaja Adelai**
- Direktur : **Roshan Chakravarthy Valautham**
- Direktur : **Henky Satrio Wibowo**

Governance Implementation

The Company places the implementation of Good Corporate Governance (GCG) as a fundamental foundation in conducting its business and creating long-term value for shareholders and other stakeholders. The principles of transparency, accountability, responsibility, independence, and fairness serve as guidelines in all decision-making processes across the organization.

As part of strengthening governance that is adaptive to industry dynamics and global sustainability demands, the Company has integrated Environmental, Social, and Governance (ESG) risks into its corporate risk management framework. Risks related to climate change, compliance with sustainability regulations, labor practices, and corporate reputation are now incorporated into structured processes of risk identification, evaluation, and mitigation.

To strengthen a culture of compliance and integrity, the Company has established a Complaint Committee responsible for managing grievance mechanisms, including the Whistleblowing System (WBS). This system enables employees and external parties to report alleged violations in a secure, confidential, and independent manner. Each report is processed through clear and transparent procedures while upholding whistleblower protection.

The Company also periodically evaluates the effectiveness of its internal control systems and risk management practices, including monitoring compliance with applicable laws and regulations. Through strengthened governance and ESG risk integration, the Company not only ensures regulatory compliance but also reinforces stakeholder trust and enhances long-term competitiveness.

Changes in the Composition of Board of Directors

In 2025, the composition of the Company's Board of Directors changed in line with the Company's business development. This step is part of efforts to strengthen more integrated financial management, enhance competitiveness and market penetration, and ensure the integration of sustainability principles into all operational and decision-making aspects. The change in the Board's composition is expected to accelerate the implementation of the Company's growth strategy while strengthening governance and risk management foundations with a long-term orientation.

The composition of the Board of Directors in 2025 is as follows:

- President Director : **Jap Hartono**
- Director : **Akhmad Faisyal**
- Director : **Jahja Tanudjaja Adelai**
- Director : **Roshan Chakravarthy Valautham**
- Director : **Henky Satrio Wibowo**

Penutup

Sebagai penutup, Direksi menyampaikan rasa hormat dan terima kasih kepada Dewan Komisaris atas arahan dan dukungan yang telah diberikan. Ucapan terima kasih juga ditujukan kepada para Pemegang Saham dan para pemangku kepentingan atas kerja sama, dan kolaborasi terjalin dengan baik. Dukungan tersebut telah memungkinkan Direksi untuk menjalankan pengelolaan Perseroan secara optimal di sepanjang tahun 2025.

Direksi juga menyampaikan apresiasi yang tinggi atas kerja keras dan dedikasi seluruh Insan Perseroan yang telah memberikan kontribusi terbaiknya, sehingga Perseroan mampu mencatatkan pencapaian positif di tengah tantangan dan dinamika global. Tidak lupa, Direksi mengucapkan terima kasih kepada para tenant, mitra bisnis, regulator, serta seluruh Pemangku Kepentingan atas kepercayaan dan kerja sama yang terus terjalin, yang turut berperan dalam memperkuat posisi Perseroan di industri kelapa sawit sekaligus mendorong keberlanjutan pertumbuhan di masa mendatang.

Meskipun berbagai pencapaian telah diraih, Perseroan tidak akan berhenti untuk terus berkembang. Perseroan berkomitmen untuk terus berinovasi dan beradaptasi dalam menghadapi dinamika industri agar dapat menjawab kebutuhan pasar serta mempertahankan perusahaan perkebunan berkelas dunia.

Closing

In closing, the Board of Directors would like to express its sincere appreciation to the Board of Commissioners for their guidance and support. Our gratitude is also extended to the Shareholders and all stakeholders for the strong collaboration and partnership that have been established. This support has enabled the Board of Directors to manage the Company optimally throughout 2025.

The Board also expresses its highest appreciation for the hard work and dedication of all Company personnel, whose contributions have enabled the Company to achieve positive performance amid global challenges and dynamics. We would also like to thank tenants, business partners, regulators, and all stakeholders for their continued trust and cooperation, which have played an important role in strengthening the Company's position in the palm oil industry while supporting sustainable growth in the future.

Despite the achievements that have been made, the Company will continue to strive for further growth. The Company remains committed to innovation and adaptability in responding to industry dynamics, ensuring it can meet market needs while maintaining its position as a world-class plantation company.

Riwayat Singkat Perusahaan
Brief History of the Company

Tahun 2025, seluruh unit bisnis Perseroan telah 100% tersertifikasi RSPO dan ISPO, dan telah merampungkan sertifikasi International Sustainability and Carbon Certification (ISCC) dan Bisnis dan Hak Asasi Manusia (BHRISC) untuk sektor perkebunan

In 2025, all of the Company's business units had achieved 100% RSPO and ISPO certification and completed the International Sustainability and Carbon Certification (ISCC) as well as the Business and Human Rights (BHRISC) certification for the plantation sector

PT Sawit Sumbermas Sarana Tbk (selanjutnya disebut "SSMS" atau "Perseroan") didirikan di Jakarta pada 22 November 1995 berdasarkan Akta Pendirian No. 51 tanggal 22 November 1995 yang dibuat dihadapan Enimaya Agoes Suwarko, S.H, Notaris di Jakarta yang dinyatakan kembali berdasarkan akta tanggal 1 Juli 1996 yang dibuat oleh Notaris Pengganti Nadi Krida Yomantara SH., Notaris di Jakarta, dan telah mendapatkan pengesahan dari Kementerian Hukum dan Hak Asasi Manusia Republik Indonesia dengan Surat Keputusan No. C2-8176.HT.01.01.Th.96 tanggal 26 Juli 1996, serta selanjutnya diumumkan dalam Berita Negara Republik Indonesia No. 839, Tambahan No. 36 tanggal 22 Februari 2011.

Perseroan dan kelompok usaha bergerak di bidang perkebunan kelapa sawit dari hulu ke hilir. SSMS mulai beroperasi secara komersial pada tahun 2005 di Kalimantan Tengah, dan telah memiliki pabrik kelapa sawit (PKS) dengan kapasitas produksi mencapai 540 MT tandan buah segar ("TBS") per jam. Pada tahun 2013, Perseroan mencatatkan seluruh sahamnya di Bursa Efek Indonesia. Ini menjadi tonggak pencapaian Perseroan dalam memperkuat permodalan dan memperluas skala usaha sehingga Perseroan menjadi produsen kelapa sawit terkemuka di Indonesia hingga saat ini.

Pada tahun 2018, Perseroan melalui anak usaha MMS dan KSA mengembangkan Pembangkit Listrik Tenaga Biomassa (PLTBM) atau pabrik BioGas yang menghasilkan tenaga listrik berkapasitas 1,5 Mega Watt, untuk digunakan pada kegiatan operasional Perseroan dan rumah-rumah di sekitar kawasan pemukiman pegawai. Pendirian Pabrik BioGas ini tidak hanya memberikan solusi bagi ketersediaan pasokan listrik, tapi juga sebagai komitmen Perseroan dalam penerapan prinsip-prinsip keberlanjutan di industri sawit.

PT Sawit Sumbermas Sarana Tbk (hereinafter referred to as "SSMS" or "the Company") was established in Jakarta on November 22, 1995 based on Deed of Establishment No. 51 dated November 22, 1995 made before Enimaya Agoes Suwarko, SH, Notary in Jakarta and restated based on the Deed dated July 1, 1996 made by Replacement Notary Nadi Krida Yomantara SH, Notary in Jakarta, and approved by the Ministry of Law and Human Rights of the Republic of Indonesia under Decree No. C2-8176. HT.01.01.Th.96 dated July 26, 1996, and subsequently published in the Republic of Indonesia State of Gazette No. 839, Supplement No. 36 dated February 22, 2011.

The Company and its group are engaged in the palm oil plantation industry, spanning upstream to downstream operations. SSMS commenced commercial operations in 2005 in Central Kalimantan and currently operates a palm oil mills (POM) with a capacity of 540 MT of fresh fruit bunches ("FFB") per hour. In 2013, the Company listed all of its shares on the Indonesia Stock Exchange, marking a significant milestone in strengthening its capital structure and expanding its business scale, enabling SSMS to become one of Indonesia's leading palm oil producers to date.

In 2018, through its subsidiaries MMS and KSA, the Company developed a Biomass Power Plant (PLTBM) or BioGas Plant that generates 1.5 megawatts of electricity, which is used to support the Company's operational activities and supply power to employee residential areas. The establishment of this BioGas Plant not only provides a solution for electricity availability but also reinforces the Company's commitment to applying sustainability principles within the palm oil industry.

Untuk semakin memperkuat usahanya dari hulu ke hilir, pada tahun 2023, SSMS meningkatkan kepemilikan sahamnya pada PT Citra Borneo Utama Tbk (CBUT). Dengan demikian, Perseroan telah memiliki 23 perkebunan kelapa sawit, 8 (delapan) pabrik kelapa sawit (PKS), 1 (satu) pabrik inti sawit, 2 (dua) pabrik biogas, 1 pabrik Bio-CNG, 1 pabrik pemurnian, 1 pabrik fraksinasi dan 1 pabrik kernel crushing melalui 10 (sepuluh) anak usahanya.

Hingga akhir tahun 2025, seluruh unit bisnis Perseroan telah 100% tersertifikasi RSPO dan ISPO, serta telah merampungkan sertifikasi *International Sustainability and Carbon Certification* (ISCC) dan Bisnis dan Hak Asasi Manusia (BHRISC) untuk sektor perkebunan, kecuali PT Sawit Mandiri Lestari yang baru diakuisisi pada November 2025.

Sementara itu, di sektor hilir (*downstream*), PT Citra Borneo Utama Tbk (CBUT) telah memperoleh sertifikat RSPO *Supply Chain Certification Standard* (SCCS) untuk area *refinery*, fraksinasi, dan *Kernel Crushing Plant* (KCP), serta 30 sertifikat lainnya yang terdiri dari 26 sertifikat Sistem Manajemen Terintegrasi dan 4 (empat) sertifikat Sistem Jaminan Halal.

Pencapaian ini semakin menegaskan komitmen Perseroan dalam menerapkan praktik keberlanjutan secara menyeluruh di seluruh rantai nilai usaha.

INFORMASI PERUBAHAN NAMA

Sejak berdiri pada 22 November 1995 hingga saat ini, Perseroan tidak pernah mengalami perubahan nama.

To further strengthen its integrated upstream-to-downstream operations, in 2023 SSMS increased its share ownership in PT Citra Borneo Utama Tbk (CBUT). As a result, the Company has managed 23 oil palm plantations, 8 (eight) palm oil mills, 1 (one) palm kernel mill, 2 (two) biogas plants, 1 Bio-CNG plant, 1 refinery plant, 1 fractionation plant, and 1 kernel crushing plant through its 10 (ten) subsidiaries.

As of the end of 2025, all of the Company's business units have achieved 100% certification under RSPO and ISPO, and have completed the International Sustainability and Carbon Certification (ISCC) and Business and Human Rights (BHRISC) certifications for the plantation sector, with the exception of PT Sawit Mandiri Lestari, which was newly acquired in November 2025.

In the downstream segment, PT Citra Borneo Utama Tbk (CBUT) has obtained the RSPO Supply Chain Certification Standard (SCCS) for its refinery, fractionation, and Kernel Crushing Plant (KCP) operations, along with 30 additional certifications comprising 26 Integrated Management System certifications and 4 Halal Assurance System certifications.

These achievements further reinforce the Company's commitment to implementing sustainability practices across its entire value chain.

INFORMATION OF NAME CHANGE

KEGIATAN USAHA BERDASARKAN ANGGARAN DASAR

Berdasarkan Pasal 3 Anggaran Dasar Terakhir Perusahaan, ruang lingkup kegiatan usaha Perseroan mencakup bidang pertanian, kehutanan dan perikanan, industri pengolahan, pengadaan listrik dan perdagangan.

KEGIATAN USAHA YANG DIJALANKAN PADA TAHUN BUKU

Di tahun 2025, Perseroan telah menjalankan kegiatan usaha berikut:

1. Melaksanakan kegiatan usaha dibidang pertanian, kehutanan dan perikanan yaitu perkebunan buah kelapa sawit, mencakup usaha perkebunan mulai dari kegiatan pengolahan lahan, penyemaian, pembibitan, penanaman, pemeliharaan dan pemanenan buah kelapa sawit. Termasuk kegiatan pembibitan dan pembenihan tanaman buah kelapa sawit.
2. Melaksanakan kegiatan usaha di bidang industri pengolahan, yaitu industri minyak mentah kelapa sawit (*crude palm oil*), mencakup usaha pengolahan kelapa sawit menjadi minyak mentah yang masih perlu diolah lebih lanjut dan biasanya produk ini dipakai oleh industri lain.
3. Melaksanakan kegiatan usaha di bidang pengadaan listrik, yaitu pembangkitan tenaga listrik, mencakup usaha pembangkitan tenaga listrik dan pengoperasian fasilitas pembangkit yang menghasilkan energi listrik, seperti tenaga air (hidroelektrik), batu bara, gas (turbin gas), bahan bakar minyak, diesel dan energi yang dapat diperbarui, tenaga surya, angin, arus laut, panas bumi (energi termal), tenaga nuklir dan lain-lain.
4. Melaksanakan kegiatan usaha dibidang perdagangan, antara lain:
   a. Perdagangan besar buah yang mengandung minyak, mencakup usaha perdagangan besar hasil pertanian tanaman buah yang mengandung minyak, seperti kelapa dan kelapa sawit termasuk perdagangan besar bibit buah yang mengandung minyak; dan
   b. Perdagangan besar minyak dan lemak nabati, mencakup usaha perdagangan besar minyak dan lemak nabati, termasuk margarin.

BUSINESS ACTIVITY BASED ON ARTICLES OF ASSOCIATION

Pursuant to Article 3 of the Company's latest Articles of Association, the scope of the Company's activities including the field of agriculture, forestry and fishery, processing industry, electricity supply and trading.

BUSINESS ACTIVITIES IN THE FINANCIAL YEAR

In 2025, the Company carried out the following business activities:

1. Carrying out business activities in the fields of agriculture, forestry, and fisheries, namely oil palm fruit plantations, including plantation businesses ranging from land processing, seeding, planting, maintenance and harvesting of oil palm fruit. Including oil palm fruit tree seeding.
2. Carrying out business activities in the processing industry, namely the crude palm oil industry, including the business of processing palm oil into crude palm oil (CPO) which still needs to be processed further and this product is usually used by other industries.
3. Carrying out business activities in the field of electricity procurement, namely electricity generation, including the business of generating electricity and operating generating facilities that produce electricity, such as hydropower (hydroelectric), coal, gas (gas turbines), fuel oil, diesel and other renewable energy, solar, wind, ocean currents, geothermal (thermal energy), nuclear power and others.
4. Carrying out business activities in the trade sector, including:
   a. Wholesale of fruit containing oil, which includes wholesale trade in agricultural products of fruit containing oil, such as coconut and oil palm, including wholesale trade of fruit seeds containing oil; and
   b. Wholesale of vegetable oils and fats, including wholesale of vegetable oils and fats, including margarine

PRODUK DAN JASA YANG DITAWARKAN

Perseroan menjalankan dan mengelola usahanya dalam 2 (dua) segmen, yaitu perkebunan kelapa sawit serta menjual produknya di 1 (satu) wilayah yaitu Kalimantan Tengah dan minyak nabati dengan penjualan dilakukan di pasar lokal dan ekspor.

PRODUCTS AND SERVICES

The Company operates and manages its business in 2 (two) segment that is oil palm plantations and sell its production in 1 (one) region that is Central Kalimantan and edible oil that sold the products in local and export markets.

Segmen Perkebunan

Segmen Perkebunan melakukan kegiatan usaha dalam pengembangan dan pemeliharaan terkait tanaman produktif utama, yaitu kelapa sawit dan aktivitas usaha lainnya yang berkaitan dengan pengolahan hasil perkebunan menjadi barang jadi, dan aktivitas pemasaran dan penjualan terkait.

Segmen perkebunan dijalankan oleh Perseroan dan entitas anaknya, yaitu PT Mitra Mendawai Sejati ("MMS"), PT Kalimantan Sawit Abadi ("KSA"), PT Sawit Multi Utama ("SMU"), PT Tanjung Sawit Abadi ("TSA"), PT Mirza Pratama Putra ("MPP"), PT Menteng Kencana Mas ("MKM"), and PT Sawit Mandiri Lestari ("SML").

Sejak beroperasi secara komersial pada tahun 2005, Perseroan dan anak perusahaannya fokus mengembangkan usaha perkebunan kelapa sawit dan pabrik kelapa sawit. Perseroan senantiasa mendorong inovasi produknya yaitu berupa:

1. **Tandan Buah Segar** (*Fresh Fruit Bunch*);
   TBS merupakan hasil utama perkebunan kelapa sawit. Perseroan mengolah seluruh TBS yang diproduksi dari perkebunan kelapa sawit Perseroan di Pabrik Kelapa Sawit (PKS). Perseroan juga mengolah TBS yang dibeli dari perkebunan milik petani setempat yang dekat dengan PKS, untuk memenuhi kapasitas PKS Perseroan dan menyejahterakan petani sekitar.

Plantations Segment

Plantations segment is involved in the development and maintenance of primary bearer plants, such as oil palm and other business activities relating to processing of the produce into finished goods, and the related marketing and selling activities.

The plantation segment is operated by the Company and its subsidiaries, namely PT Mitra Mendawai Sejati ("MMS"), PT Kalimantan Sawit Abadi ("KSA"), PT Sawit Multi Utama ("SMU"), PT Tanjung Sawit Abadi ("TSA"), PT Mirza Pratama Putra ("MPP"), PT Menteng Kencana Mas ("MKM"), and PT Sawit Mandiri Lestari ("SML").

Since its commercial operation in 2005, the Company and its subsidiaries have focused on developing palm oil plantations and palm oil mills. The Company always encourages product innovation to produce a variety of products, in the form of:

1. **Fresh Fruit Bunch**;
   FFB is the main product of oil palm plantations. The Company processes all of the FFB produced from the Company's oil palm plantations in the Palm Oil mills (PKS). The Company also processes FFB purchased from plantations owned by local farmers close to the PKS to fulfil the capacity of the Company's PKS and improve the welfare of local farmers.

2. **Minyak Kelapa Sawit** (*Crude Palm Oil*);
   Produk utama Perseroan adalah Minyak Kelapa Sawit atau *Crude Palm Oil* (CPO). Perseroan merupakan salah satu produsen CPO swasta terbesar di provinsi Kalimantan Tengah, Indonesia. Perseroan memproduksi CPO dari TBS yang dihasilkan dari 23 kebun kelapa sawit melalui 8 (delapan) PKS yang semua terletak di area operasional Perkebunan Perseroan. CPO *diekstraksi* dari *mesocarp* yang dipisahkan dari buah kelapa sawit.

3. **Inti Sawit** (*Palm Kernel*)
   Pada waktu proses CPO, Perseroan juga memperoleh PK yang berasal dari biji kelapa sawit yang dikumpulkan pada saat proses pengolahan. PK kemudian akan diekstrak menjadi minyak inti sawit atau *Palm Kernel Oil* (PKO).

4. **Minyak Inti Sawit**
   Perseroan memiliki kemampuan untuk memproduksi PKO yang diekstrak dari biji kelapa sawit atau inti sawit.

2. **Crude Palm Oil;**
   The Company's primary product is Crude Palm Oil (CPO). The Company is one of the largest private CPO producers in Central Kalimantan, Indonesia. The Company produces CPO from TBS, which is produced from 23 palm plantations through 8 (eight) PKS located within palm oil plantations. CPO is produced by processing TBS harvested from the Company's oil palm trees. CPO is extracted from the mesocarp separated from the oil palm fruit.

3. **Palm Kernel**
   When producing CPO, the Company also obtained PK originating from the collected palm seeds during processing times. Then, the PK will be extracted into Palm Kernel Oil (PKO).

4. **Palm Oil Kernel**
   The Company can produce PKO, which is extracted from the Company's palm kernel oil seeds or KCP palm kernel.

Segmen Minyak Nabati

Segmen minyak nabati memproduksi, memasarkan dan menjual minyak nabati dan produk terkait lainnya. Segmen minyak nabati dijalankan oleh anak perusahaan yaitu PT Citra Borneo Utama Tbk ("CBUT") yang menghasilkan produk-produk berikut:

1. **RBDPO** (*Refined Bleached Deodorized Palm Oil*)
   RBDPO merupakan Minyak Kelapa Sawit yang telah mengalami proses pemutihan, penghilangan asam lemak bebas dan aroma tidak sedap. RBDPO kemudian dapat diolah menjadi produk Olein dan Stearin.

Edible Oil Segment

The edible oil segment produces, markets and sells edible oil and other related products. Edible oil segment is conducted by the Company's subsidiary, namely PT Citra Borneo Utama Tbk ("CBUT") which produces the following products:

1. RBDPO (Refined Bleached Deodorized Palm Oil)
   RBDPO is a CPO (Crude Palm Oil) that has undergone a bleaching process, removal of free fatty acids and unpleasant odor. RBDPO can then be processed into Olein and Stearin products.

2. **RBDP Olein** (*Refined Bleached Deodorized Palm Olein*)
Olein adalah fraksi cair yang diperoleh darl proses fraksinasi RBDPO setelah kristalisasi pada suhu terkontrol. Olein memiliki ketahanan oksidasi yang baik dan umur simpan yang lama. Cairan berwarna keemasan bening ini tidak memiliki rasa maupun aroma. Olein juga merupakan produk akhir minyak goreng.

3. **RBDPS** (*Refined Bleached Deodorized Palm Stearin*)
Stearin adalah fraksi padat yang diperoleh dari proses fraksinasi RBDPO setelah kristalisasi pada suhu terkontrol. Stearin digunakan untuk komponen lemak padat alami bagi produk-produk seperti shortening, margarin dan mie instan.

4. **PFAD** (*Palm Fatty Acid Distillate*)
PFAD merupakan produk sampingan dari proses pemurnian (refinery) CPO. Komponen terbesar dalam PFAD adalah asam lemak bebas, komponen karotenoid, dan senyawa volatil lainnya. PFAD merupakan produk yang memiliki aroma harum dan dapat digunakan sebagai bahan baku oleokimia, biofuel, dan sabun kalsium.

5. **CPKO** (*Crude Palm Kernel Oil*)
CPKO diperoleh dari inti buah kelapa sawit (PK) dan diproduksi dengan ekstraksi mekanis dari kernel yang dikeringkan di pabrik kelapa sawit melalui proses vakum parsial dengan asam lemak bebas dari minyak mentah.

6. **PKE** (*Palm Kernel Expeller*)
PKE merupakan salah satu produk samping yang dihasilkan dari proses penghancuran dan penyerapan minyak dari inti sawit. PKE berbentuk serbuk seperti tanah dan banyak digunakan sebagai pakan ternak karena mengandung protein kasar tingkat tinggi.

2. **RBDP Olein** (Refined Bleached Deodorized Palm Olein)
Olein is the liquid fraction obtained by the RBDPO fractionation process after crystallization at controlled temperatures. Olein has good oxidation resistance and long validation period. This clear golden liquid is in fact tasteless and odorless. Olein is also the end product of cooking oil.

3. **RBDPS** (Refined Bleached Deodorized Palm Stearin)
Stearin is a solid fraction obtained by the RBDPO fractionation process after crystallization at controlled temperatures. Stearin is used as the natural solid fat component for products, such as shortening, margarine and instant noodles.

4. **PFAD** (Palm Fatty Acid Distillate)
PFAD is a by-product of the CPO refinery process. The largest components in PFAD are free fatty acids, carotenoid components, and other volatile compounds. PFAD is a scented product and can be used as a raw material for producing oleochemicals, biofuels, and calcium soap.

5. **CPKO** (Crude Palm Kernel Oil)
CPKO is obtained from palm kernels (PK) and produced by mechanical extraction of kernels dried in palm oil mills through a partial vacuum process with free fatty acids from crude oil generally below 2%. CPKO can be used as a final product to replace Cocoa Butter.

6. **PKE** (Palm Kernel Expeller)
PKE is one of the by-products produced from the process of crushing and absorbing oil from palm kernels. PKE is a powder like soil and is widely used as animal feed because it contains high level of crude protein.

ANALISIS KONDISI PEREKONOMIAN GLOBAL DAN NASIONAL

Tahun 2025 ditandai oleh dinamika ekonomi global yang tetap tumbuh, namun dengan momentum yang lebih terkendali. International Monetary Fund (IMF) memproyeksikan pertumbuhan ekonomi global sebesar sekitar 3,2%, sedikit melambat dibandingkan 3,3% pada tahun 2024. Perlambatan ini mencerminkan kombinasi tekanan geopolitik, ketidakpastian kebijakan perdagangan, serta normalisasi kebijakan moneter di sejumlah negara maju. Dunia memasuki fase "pertumbuhan moderat", di mana ekspansi tetap berlangsung tetapi tanpa akselerasi signifikan.

Dalam konteks komoditas, fase pertumbuhan global yang lebih hati-hati berdampak langsung pada pola permintaan minyak nabati, termasuk minyak sawit mentah (CPO). Permintaan dari negara-negara importir utama seperti India, Tiongkok, dan Uni Eropa tetap ada, namun cenderung lebih sensitif terhadap harga dan substitusi dengan minyak nabati lainnya seperti soybean oil dan sunflower oil. Volatilitas harga menjadi karakter utama pasar sepanjang 2025.

Di sisi lain, stabilisasi inflasi global memberikan ruang bagi sejumlah bank sentral untuk mulai melonggarkan kebijakan moneternya secara bertahap. Namun, pelonggaran tersebut tidak agresif, sehingga biaya pendanaan global masih relatif tinggi dibandingkan periode pra-pandemi. Kondisi ini memengaruhi arus investasi portofolio ke negara berkembang, termasuk Indonesia, serta berdampak pada nilai tukar dan biaya impor.

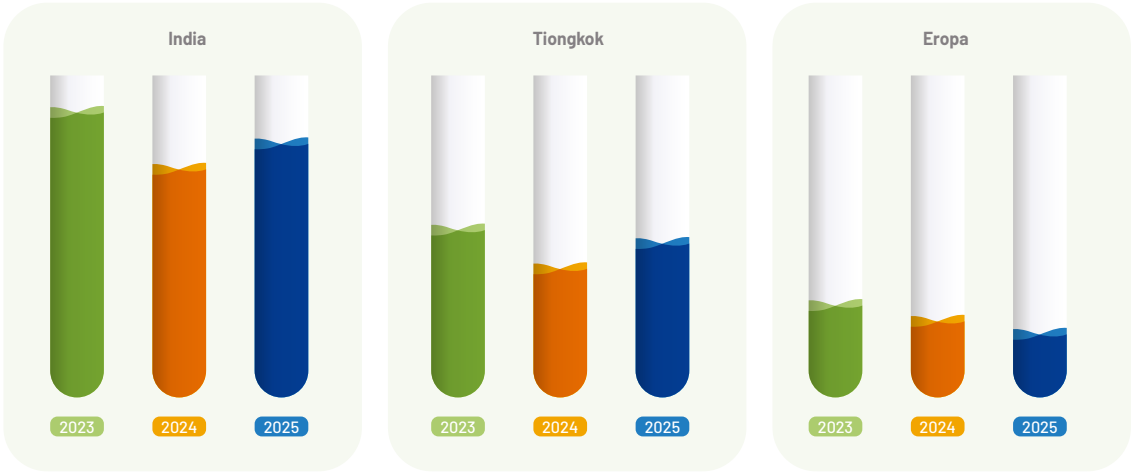

ANALYSIS OF GLOBAL AND NATIONAL ECONOMIC CONDITIONS'

The year 2025 is expected to be characterised by continued global economic growth, albeit at a more moderate pace. The International Monetary Fund (IMF) projects global growth of approximately 3.2%, slightly lower than the 3.3% recorded in 2024. This deceleration reflects a combination of geopolitical tensions, trade policy uncertainties, and the ongoing normalisation of monetary policy across several advanced economies. As such, the global economy is entering a phase of "moderate growth," where expansion persists but without significant acceleration.

In the commodities sector, this more cautious growth phase has direct implications for demand patterns in edible oils, including crude palm oil (CPO). Demand from major importing markets such as India, China, and the European Union is expected to remain resilient, although increasingly sensitive to price dynamics and substitution with alternative edible oils such as soybean and sunflower oil. Consequently, price volatility is likely to remain a defining feature of the market throughout 2025.

Meanwhile, the stabilisation of global inflation is expected to create room for several central banks to gradually ease their monetary policies. However, such easing is likely to be measured rather than aggressive, resulting in global funding costs remaining relatively elevated compared to the pre-pandemic period. This condition may influence portfolio investment flows to emerging markets, including Indonesia, and potentially affect exchange rate stability as well as import costs.

Beralih ke domestik, ekonomi Indonesia menunjukkan ketahanan yang kuat dengan pertumbuhan sebesar 5,11% pada 2025, meningkat dari 5,03% pada 2024. Pertumbuhan ini didukung oleh konsumsi rumah tangga yang stabil, belanja pemerintah yang terjaga, serta investasi sektor riil yang tetap tumbuh. Stabilitas makro

Turning to the domestic, Indonesia's economy demonstrates solid resilience, with growth projected at 5.11% in 2025, up from 5.03% in 2024. This expansion is supported by stable household consumption, sustained government spending, and continued investment growth in the real sector. Such macroeconomic stability provides a favourable

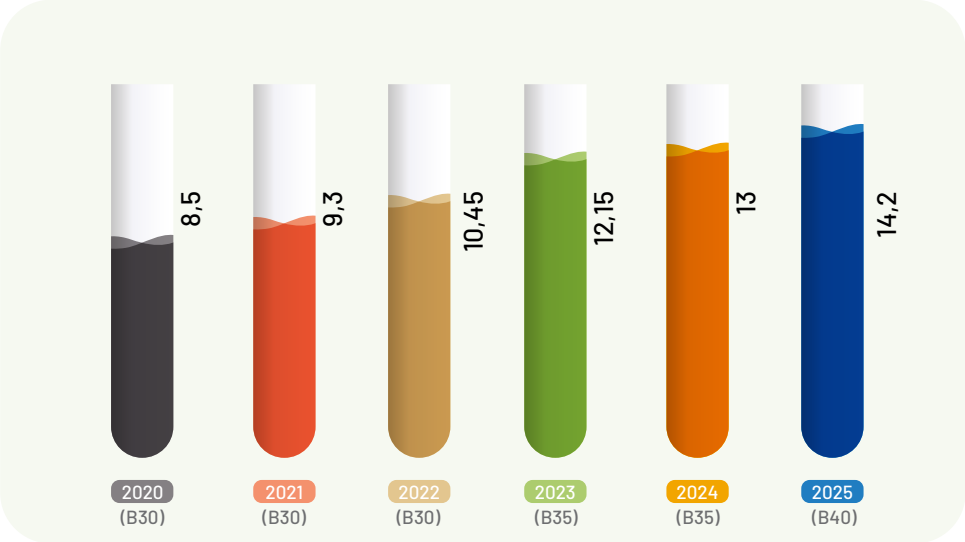

ini memberikan fondasi yang positif bagi sektor agribisnis dan manufaktur berbasis komoditas.

Bagi industri kelapa sawit, stabilitas pertumbuhan domestik sangat relevan karena konsumsi dalam negeri—terutama untuk program biodiesel—menjadi penyangga penting ketika ekspor menghadapi tekanan harga global. Program mandatori biodiesel (B35/B40) terus berperan sebagai stabilizer permintaan CPO domestik, mengurangi ketergantungan pada fluktuasi pasar ekspor.

foundation for agribusiness and commodity-based manufacturing industries.

For the palm oil industry, stable domestic growth is particularly significant, as local consumption—especially through biodiesel programmes—serves as an important buffer when export markets are affected by global price pressures. The mandatory biodiesel programmes (B35/B40) continue to play a stabilising role in supporting domestic CPO demand, thereby reducing reliance on fluctuations in export markets.

Namun demikian, tantangan tetap hadir dalam bentuk fluktuasi nilai tukar rupiah terhadap dolar AS. Mengingat harga CPO ditransaksikan dalam dollar, pergerakan kurs memengaruhi margin perusahaan sawit secara langsung. Pelemahan rupiah dapat meningkatkan pendapatan berbasis ekspor, tetapi juga meningkatkan biaya input tertentu.

Selain faktor eksternal, tekanan keberlanjutan global juga semakin kuat. Regulasi seperti EU Deforestation Regulation (EUDR) memperketat standar keberlanjutan dan ketelurusran produk (traceability). Hal ini mendorong produsen untuk meningkatkan tata kelola dan sistem pelacakan rantai pasok.

Secara keseluruhan, tahun 2025 merupakan periode stabil namun penuh disiplin. Dunia tidak menunjukan adanya peningkatan komoditas, tetapi juga tidak mengalami kontraksi yang signifikan. Dalam kondisi seperti ini, keunggulan kompetitif tidak lagi hanya ditentukan oleh harga tinggi, melainkan oleh efisiensi biaya, produktivitas kebun, dan integrasi hilir.

Bagi SSMS, lanskap makro perekonomian 2025 menuntut penerapan strategi yang adaptif dan berorientasi jangka panjang. Upaya utama yang perlu dilakukan mencakup pemeliharaan struktur biaya yang efisien, peningkatan hasil produksi (yield) melalui optimalisasi praktik

However, challenges remain, particularly in the form of fluctuations in the rupiah exchange rate against the US dollar. As CPO prices are denominated in US dollars, exchange rate movements have a direct impact on the margins of palm oil companies. While a weaker rupiah may enhance export-based revenues, it can also increase the cost of certain imported inputs.

Beyond external economic factors, global sustainability pressures continue to intensify. Regulations such as the EU Deforestation Regulation (EUDR) are raising the bar for sustainability and traceability standards. This development is prompting producers to strengthen governance practices and enhance supply chain traceability systems.

Overall, 2025 represents a period of stability that nonetheless requires disciplined execution. The global economy is neither experiencing a commodity boom nor entering a contraction phase. In such an environment, competitive advantage is no longer driven solely by favourable pricing, but increasingly by cost efficiency, plantation productivity, and downstream integration.

For SSMS, the macroeconomic landscape 2025 demands the implementation of an adaptive and long-term oriented strategy. The main efforts that need to be made include maintaining an efficient cost structure, increasing yield through optimizing agronomic

agronomi, serta penguatan ketahanan arus kas guna menghadapi potensi volatilitas harga komoditas. Pendekatan ini tidak hanya relevan untuk menjaga daya saing perusahaan, tetapi juga krusial dalam memastikan keberlanjutan operasional di tengah dinamika pasar global yang penuh dinamika.

Analisis Industri Kelapa Sawit dan Posisi Perseroan di Industri

Industri kelapa sawit global pada 2025 bergerak dalam fase normalisasi harga setelah periode volatilitas tinggi pada 2022–2023. Rata-rata harga CPO sepanjang 2025 berada di kisaran USD 850–900 per metrik ton, lebih rendah dibandingkan puncak tahun-tahun sebelumnya. Penurunan ini terutama dipengaruhi oleh peningkatan produksi global serta tekanan substitusi minyak nabati lain.

Di Indonesia, produksi CPO relatif stabil dengan kecenderungan peningkatan moderat seiring perbaikan produktivitas dan kondisi cuaca yang lebih kondusif dibandingkan tahun sebelumnya. Namun, peningkatan produksi global menciptakan tekanan terhadap harga internasional.

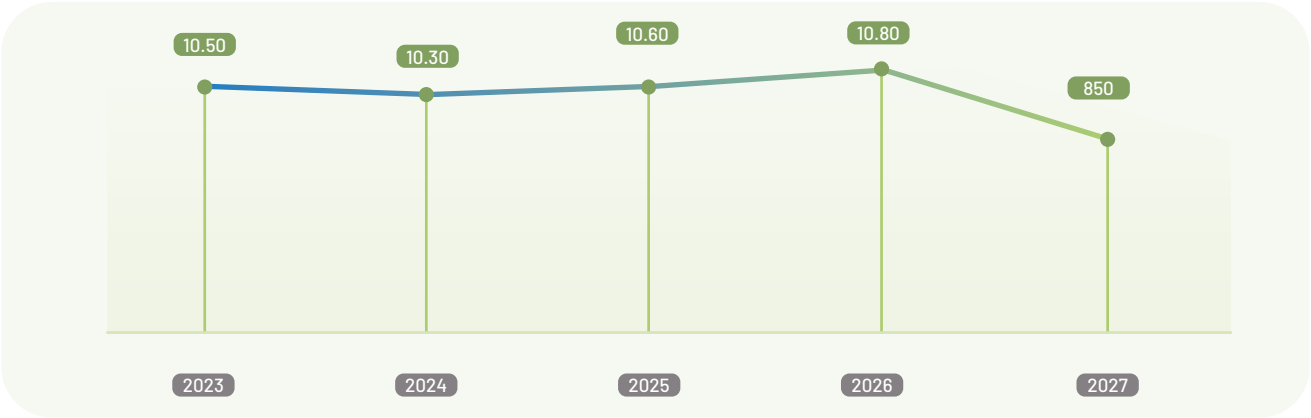

practices, and strengthening cash flow resilience to face potential commodity price volatility. This approach is not only relevant to maintain the company's competitiveness, but also crucial in ensuring operational sustainability amidst dynamic global market dynamics.

Analysis of the Palm Oil Industry and the Company's Position in the Industry

The global palm oil industry in 2025 is entering a phase of price normalisation following the period of heightened volatility observed in 2022–2023. The average CPO price throughout 2025 is expected to range between USD 850 and USD 900 per metric tonne, lower than the peaks recorded in previous years. This moderation is primarily driven by increased global supply and competitive pressure from alternative edible oils.

In Indonesia, CPO production remains relatively stable, with a moderate upward trend supported by improving productivity and more favourable weather conditions compared to prior years. Nevertheless, the rise in global production continues to exert downward pressure on international prices.

Di sisi permintaan, program biodiesel domestik menjadi penopang utama industri. Mandatori B35/B40 meningkatkan serapan CPO dalam negeri, sehingga membantu menjaga keseimbangan pasar domestik. Tanpa program ini, tekanan ekspor kemungkinan akan lebih besar.

Dari perspektif operasional, industri menghadapi tantangan kenaikan biaya pupuk, upah, dan logistik. Oleh karena itu, perusahaan yang memiliki efisiensi kebun tinggi, tingkat ekstraksi minyak (OER) yang optimal, serta integrasi pabrik yang kuat akan memiliki keunggulan kompetitif.

Dengan mempertimbangkan seluruh dinamika tersebut, tahun 2025 dapat dikategorikan sebagai periode seleksi alami industri. Perusahaan yang bergantung pada harga tinggi akan mengalami tekanan, sementara perusahaan yang fokus pada produktivitas, efisiensi, dan keberlanjutan—seperti SSMS—memiliki peluang untuk mempertahankan margin dan memperkuat posisi di pasar.

On the demand side, the domestic biodiesel programme remains a key pillar of the industry. The B35/B40 mandate increases domestic absorption of CPO, thereby helping to maintain balance in the local market. Without this programme, pressure on export channels would likely be more pronounced.

From an operational standpoint, the industry continues to face challenges in the form of rising fertiliser, labour, and logistics costs. As a result, companies with strong plantation efficiency, optimal oil extraction rates (OER), and well-integrated processing facilities are better positioned to sustain a competitive advantage.

Taking these dynamics into account, 2025 may be viewed as a period of industry consolidation. Companies that rely primarily on favourable pricing conditions are likely to face greater pressure, while those that prioritise productivity, efficiency, and sustainability—such as SSMS—are well positioned to preserve margins and strengthen their market standing.

Strategi Bisnis
Business Strategy

Pada tahun 2025, PT Sawit Sumbermas Sarana Tbk menjalankan strategi bisnis yang berfokus pada penguatan fundamental operasional guna menjaga ketahanan kinerja di tengah dinamika industri kelapa sawit. Perseroan fokus pada peningkatan efisiensi biaya dan produktivitas sebagai faktor utama yang dapat dikendalikan secara langsung, sehingga mampu menjaga stabilitas margin dan keberlanjutan usaha. Optimalisasi pengelolaan kebun serta strategi pengadaan bahan baku eksternal dilakukan secara terukur untuk memastikan kesinambungan pasokan dan mendukung tingkat utilisasi pabrik yang optimal.

Sejalan dengan upaya memperkuat daya saing jangka panjang, Perseroan mengalokasikan belanja modal sekitar Rp510 miliar yang difokuskan pada pengembangan infrastruktur perkebunan, digitalisasi operasional, modernisasi peralatan, serta peningkatan kapasitas pengolahan. Investasi ini diarahkan untuk meningkatkan efisiensi operasional sekaligus memperkuat integrasi rantai nilai dari hulu hingga hilir. Melalui pengelolaan perkebunan yang berkelanjutan dan pengembangan produk turunan bernilai tambah, Perseroan berupaya memperkuat posisi di pasar sekaligus meningkatkan kontribusi terhadap pertumbuhan kinerja yang berkelanjutan.

Selain penguatan internal, Perseroan juga menjalankan langkah strategis melalui ekspansi anorganik guna memperluas basis aset dan mendukung pertumbuhan jangka panjang. Akuisisi entitas usaha baru PT Sawit Mandiri Lestari senilai Rp1,6 triliun pada tahun 2025 menjadi bagian dari strategi untuk meningkatkan skala operasional dan memperkuat portofolio usaha. Dengan kombinasi antara efisiensi operasional, investasi produktif, dan ekspansi strategis, Perseroan optimistis dapat menjaga momentum pertumbuhan sekaligus memperkuat daya tahan bisnis dalam menghadapi tantangan industri ke depan.

In 2025, PT Sawit Sumbermas Sarana Tbk implemented a business strategy focused on strengthening operational fundamentals to maintain performance resilience amid the dynamics of the palm oil industry. The Company emphasised improving cost efficiency and productivity as key factors within its direct control, thereby supporting margin stability and long-term business sustainability. The optimisation of plantation management and external raw material procurement was carried out in a measured manner to ensure supply continuity while supporting optimal mill utilisation rates.

In line with its efforts to strengthen long-term competitiveness, the Company allocated capital expenditure of approximately IDR510 billion, primarily directed towards plantation infrastructure development, equipment modernisation, and the expansion of processing capacity. These investments were aimed at enhancing operational efficiency while reinforcing value chain integration from upstream to downstream. Through sustainable plantation management and the development of value-added derivative products, the Company sought to strengthen its market position while contributing to sustainable performance growth.

In addition to strengthening internal capabilities, the Company also pursued strategic initiatives through inorganic expansion to broaden its asset base and support long-term growth. The acquisition of PT Sawit Mandiri Lestari, valued at IDR1.6 trillion in 2025, formed part of the Company's strategy to expand operational scale and strengthen its business portfolio. Through a combination of operational efficiency, productive investment, and strategic expansion, the Company remains confident in its ability to sustain growth momentum while reinforcing business resilience in navigating future industry challenges.

Aspek Pemasaran
Marketing Aspect

Pada tahun 2025, strategi pemasaran PT Sawit Sumbermas Sarana Tbk diarahkan untuk memperkuat posisi Perseroan sebagai produsen kelapa sawit terintegrasi yang mampu menciptakan nilai tambah berkelanjutan di sepanjang rantai nilai. Perseroan tidak lagi berfokus semata pada penjualan crude palm oil (CPO), tetapi secara konsisten mengembangkan pemasaran produk hilir seperti RBD olein dan stearin sebagai bagian dari transformasi menuju model bisnis yang lebih resilien. Pendekatan ini memungkinkan Perseroan untuk meningkatkan stabilitas pendapatan sekaligus mengurangi eksposur terhadap volatilitas harga komoditas.

Perseroan juga menempatkan penguatan rantai pasok sebagai bagian integral dari strategi pemasaran. Melalui optimalisasi pasokan tandan buah segar, baik dari kebun inti maupun mitra eksternal, Perseroan memastikan keberlanjutan volume produksi yang mampu mendukung kebutuhan pasar domestik dan internasional. Fleksibilitas pasokan ini menjadi keunggulan strategis dalam menjaga kesinambungan penjualan sekaligus memperluas penetrasi pasar, terutama untuk produk hilir yang memiliki permintaan lebih stabil.

Dalam menghadapi dinamika industri global, Perseroan terus memperluas jangkauan pasar dengan memanfaatkan kapasitas pengolahan dan jaringan distribusi yang terintegrasi. Pendekatan pemasaran berbasis nilai tambah ini memungkinkan Perseroan untuk memperkuat daya saing di pasar ekspor sekaligus memanfaatkan pertumbuhan permintaan domestik yang didorong oleh program hilirisasi nasional dan kebutuhan energi terbarukan. Dengan strategi ini, Perseroan berupaya menempatkan diri tidak hanya sebagai pemasok bahan baku, tetapi sebagai penyedia produk kelapa sawit bernilai tinggi.

Secara keseluruhan, langkah pemasaran yang berfokus pada hilirisasi, integrasi rantai pasok, dan perluasan pasar telah memperkuat kontribusi Perseroan dalam industri kelapa sawit nasional. Skala produksi yang solid serta kemampuan pengolahan lanjutan memberikan landasan bagi Perseroan untuk mempertahankan pangsa pasar dan meningkatkan relevansi di tengah perubahan lanskap permintaan global. Strategi ini mencerminkan komitmen Perseroan untuk menciptakan pertumbuhan yang berkelanjutan sekaligus memperkuat posisi kompetitif di masa depan.

Hingga tahun 2025, Perseroan telah melayani pasar dalam negeri sebanyak 25,83% atau setara dengan 240.013 MT atau Rp3,83 triliun. Sisanya sebesar 74,17% atau 689.175 MT atau senilai Rp10,99 triliun ditujukan untuk pasar luar negeri.

In 2025, PT Sawit Sumbermas Sarana Tbk's marketing strategy was directed towards strengthening its position as an integrated palm oil producer capable of generating sustainable value across the value chain. The Company no longer focuses solely on the sale of crude palm oil (CPO), but has consistently expanded the marketing of downstream products such as RBD olein and stearin as part of its transformation towards a more resilient business model. This approach enables the Company to enhance revenue stability while reducing exposure to commodity price volatility.

The Company also places supply chain strengthening as an integral part of its marketing strategy. Through the optimisation of fresh fruit bunch supply, sourced from both nucleus estates and external partners, the Company ensures sustainable production volumes to meet both domestic and international market demand. This supply flexibility serves as a strategic advantage in maintaining sales continuity while expanding market penetration, particularly for downstream products with more stable demand.

In navigating global industry dynamics, the Company continues to expand its market reach by leveraging its integrated processing capacity and distribution network. This value-added marketing approach enables the Company to strengthen its competitiveness in export markets while capitalising on growing domestic demand driven by national downstreaming initiatives and renewable energy requirements. Through this strategy, the Company seeks to position itself not merely as a raw material supplier, but as a provider of high-value palm oil products.

Overall, marketing initiatives focused on downstream development, supply chain integration, and market expansion have reinforced the Company's contribution to the national palm oil industry. A solid production scale combined with advanced processing capabilities provides a strong foundation for maintaining market share and enhancing relevance amid shifting global demand dynamics. This strategy reflects the Company's commitment to achieving sustainable growth while strengthening its competitive position for the future.

As of 2025, the Company has served the domestic market by 25.83%, equivalent to 240,013 MT, or Rp3.83 trillion. The remaining 74.17%, or 689,175 MT or worth Rp10.99 trillion, were allocated to international markets.

Business Prospect

PROSPEK PEREKONOMIAN INDONESIA TAHUN 2026

Memasuki tahun 2026, perekonomian Indonesia diproyeksikan tetap berada pada jalur pertumbuhan yang kuat dengan momentum yang semakin membaik. Berbagai proyeksi menunjukkan bahwa pertumbuhan ekonomi berpotensi berada di kisaran 5% hingga di atas 5%, didorong oleh konsumsi domestik yang tetap solid, peningkatan investasi, serta keberlanjutan agenda pembangunan nasional. Ketahanan sektor domestik yang didukung oleh stabilitas inflasi dan kebijakan makroekonomi yang konsisten menjadi fondasi penting bagi keberlanjutan pertumbuhan, sekaligus memperkuat daya tahan ekonomi terhadap dinamika global.

Selain itu, peningkatan kepercayaan investor terhadap prospek ekonomi Indonesia diperkirakan akan mendorong arus investasi yang lebih kuat, baik dari dalam maupun luar negeri. Dengan dukungan belanja infrastruktur, transformasi ekonomi, serta penguatan sektor industri dan energi, perekonomian nasional memiliki peluang untuk tumbuh secara lebih inklusif dan berkelanjutan. Kondisi ini memberikan ruang yang lebih luas bagi dunia usaha untuk melakukan ekspansi dan menciptakan nilai tambah, sehingga menjadikan tahun 2026 sebagai periode yang penuh peluang bagi pertumbuhan ekonomi Indonesia.

2026 INDONESIAN ECONOMIC OUTLOOK

Entering 2026, Indonesia's economy is projected to remain on a strong growth trajectory with improving momentum. Various projections suggest that economic growth may range from around 5% to above 5%, supported by solid domestic consumption, increased investment, and the continued implementation of the national development agenda. The resilience of the domestic sector, underpinned by stable inflation and consistent macroeconomic policies, provides a strong foundation for sustainable growth while enhancing the economy's ability to withstand global dynamics.

Furthermore, improving investor confidence in Indonesia's economic outlook is expected to drive stronger investment inflows, both domestic and foreign. Supported by infrastructure spending, economic transformation initiatives, and the strengthening of the industrial and energy sectors, the national economy has the potential to grow in a more inclusive and sustainable manner. This condition creates broader opportunities for businesses to expand and generate added value, making 2026 a year filled with prospects for Indonesia's economic growth.

PROSPEK INDUSTRI SAWIT TAHUN 2026

Prospek industri kelapa sawit pada tahun 2025 dipandang tetap menjanjikan seiring dengan meningkatnya peran pasar domestik dan stabilnya permintaan global terhadap minyak nabati. Produksi kelapa sawit nasional diperkirakan terus bertumbuh secara moderat,

2026 PALM OIL INDUSTRY OUTLOOK

The outlook for the palm oil industry in 2025 remains promising, supported by the growing role of the domestic market and stable global demand for vegetable oils. National palm oil production is expected to continue growing at a moderate pace, driven by

didukung oleh perbaikan produktivitas kebun serta pengelolaan operasional yang semakin efisien. Meskipun industri menghadapi tantangan struktural seperti usia tanaman dan dinamika regulasi global, kebutuhan minyak nabati dunia yang terus meningkat memberikan fondasi yang kuat bagi keberlanjutan pertumbuhan industri sawit.

Di sisi permintaan, implementasi mandatori biodiesel B40 semakin mempertegas peran konsumsi domestik sebagai penopang utama industri. Program ini tidak hanya memperkuat ketahanan energi nasional, tetapi juga menciptakan permintaan struktural yang stabil bagi minyak sawit di dalam negeri. Dengan dukungan kebijakan tersebut, pasar domestik diperkirakan akan terus berkembang dan menjadi penyeimbang terhadap fluktuasi permintaan ekspor, sehingga meningkatkan ketahanan industri secara keseluruhan.

Secara global, pertumbuhan konsumsi minyak nabati yang melampaui peningkatan produksi diproyeksikan akan menjaga keseimbangan pasar dan mendukung stabilitas harga minyak sawit dalam jangka menengah. Kondisi ini memberikan peluang bagi industri untuk tetap tumbuh secara berkelanjutan, didukung oleh peran minyak sawit sebagai salah satu komoditas yang paling efisien dan kompetitif dalam memenuhi kebutuhan pangan dan energi dunia.

PROSPEK USAHA PERSEROAN

Memasuki tahun 2026, Perseroan memandang prospek usaha tetap positif seiring dengan berlanjutnya dukungan dari permintaan domestik dan global. Konsumsi dalam negeri yang didorong oleh program biodiesel diperkirakan akan terus memberikan kontribusi signifikan terhadap stabilitas pasar, sekaligus membuka peluang bagi Perseroan untuk meningkatkan penyerapan produksi dan memperkuat posisi di rantai nilai industri kelapa sawit.

Dengan dukungan fundamental industri yang solid, Perseroan optimistis dapat mempertahankan momentum pertumbuhan melalui peningkatan efisiensi operasional, penguatan kapasitas produksi, serta pemanfaatan peluang pasar yang semakin terbuka. Kombinasi antara permintaan yang kuat dan strategi pengelolaan yang adaptif diyakini akan menjadi landasan bagi Perseroan untuk terus menciptakan nilai tambah dan memperkuat daya saing di tengah dinamika industri ke depan.

improvements in plantation productivity and increasingly efficient operational management. Despite structural challenges such as ageing plantations and evolving global regulatory dynamics, the steadily rising global demand for vegetable oils provides a strong foundation for the sustainable growth of the palm oil industry.

On the demand side, the implementation of the B40 biodiesel mandate further reinforces the role of domestic consumption as a key pillar of the industry. This programme not only strengthens national energy security but also creates a stable structural demand for palm oil within the domestic market. Supported by such policy measures, the domestic market is expected to continue expanding and serve as a buffer against fluctuations in export demand, thereby enhancing overall industry resilience.

Globally, the projected growth in vegetable oil consumption, which is expected to outpace production increases, is likely to help maintain market balance and support palm oil price stability in the medium term. This condition presents an opportunity for the industry to sustain growth, supported by palm oil's role as one of the most efficient and competitive commodities in meeting global food and energy needs.

COMPANY BUSINESS OUTLOOK

Entering 2026, the Company views its business outlook as positive, supported by continued domestic and global demand. Domestic consumption driven by the biodiesel programme is expected to continue contributing significantly to market stability, while also creating opportunities for the Company to enhance production absorption and strengthen its position within the palm oil value chain.

Supported by solid industry fundamentals, the Company remains optimistic about maintaining its growth momentum through improved operational efficiency, strengthened production capacity, and the effective capture of emerging market opportunities. The combination of strong demand and adaptive management strategies is expected to serve as a foundation for creating added value and reinforcing the Company's competitiveness amid evolving industry dynamics.

Tinjauan Operasi Per Segmen Usaha
Review of Business Segments

Perseroan menjalankan dan mengelola usahanya dalam 2 (dua) segmen yaitu perkebunan kelapa sawit serta menjual produknya di 1 (satu) wilayah yaitu Kalimantan Tengah dan minyak nabati dengan penjualan dilakukan di pasar lokal dan ekspor.

SEGMEN PERKEBUNAN

Segmen perkebunan melakukan kegiatan usaha dalam pengembangan dan pemeliharaan terkait tanaman produktif utama yaitu kelapa sawit dan aktivitas usaha lainnya yang berkaitan dengan pengolahan hasil perkebunan menjadi barang jadi, dan aktivitas pemasaran dan penjualan terkait.

SEGMEN MINYAK NABATI

Segmen Minyak Nabati memproduksi, memasarkan dan menjual minyak nabati dan produk terkait lainnya.

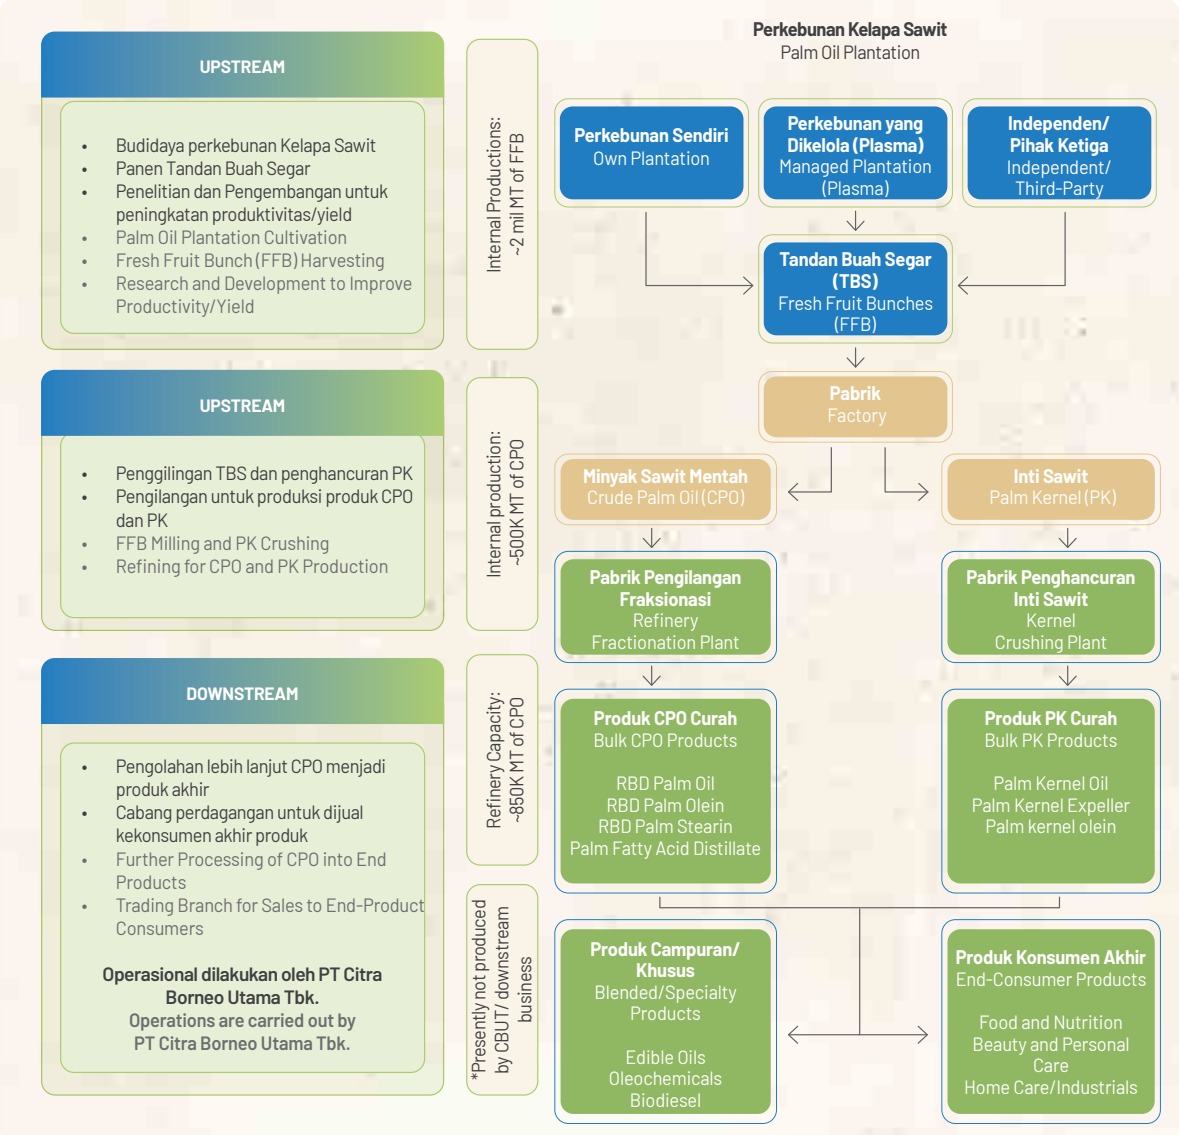

The Company operates and manages its business through 2 (two) main segments: the palm oil plantation segment, which operates in Central Kalimantan, and the vegetable oil segment, with sales covering both domestic and export markets.

PLANTATION SEGMENT

The plantation segment includes business activities related to the development and maintenance of the Company's primary productive crop, namely oil palm, as well as other activities associated with processing plantation outputs into market-ready products. This segment also encompasses related marketing and sales activities.

EDIBLE OIL SEGMENT

The vegetable oil segment covers the production, marketing, and sale of vegetable oil and its derivative products.

SEGMEN PERKEBUNAN

Perseroan menjalankan kegiatan perkebunan dan pemanenan kelapa sawit, menghasilkan tandan buah segar yang selanjutnya diolah di pabrik untuk menjadi (CPO).

PLANTATION SEGMENT

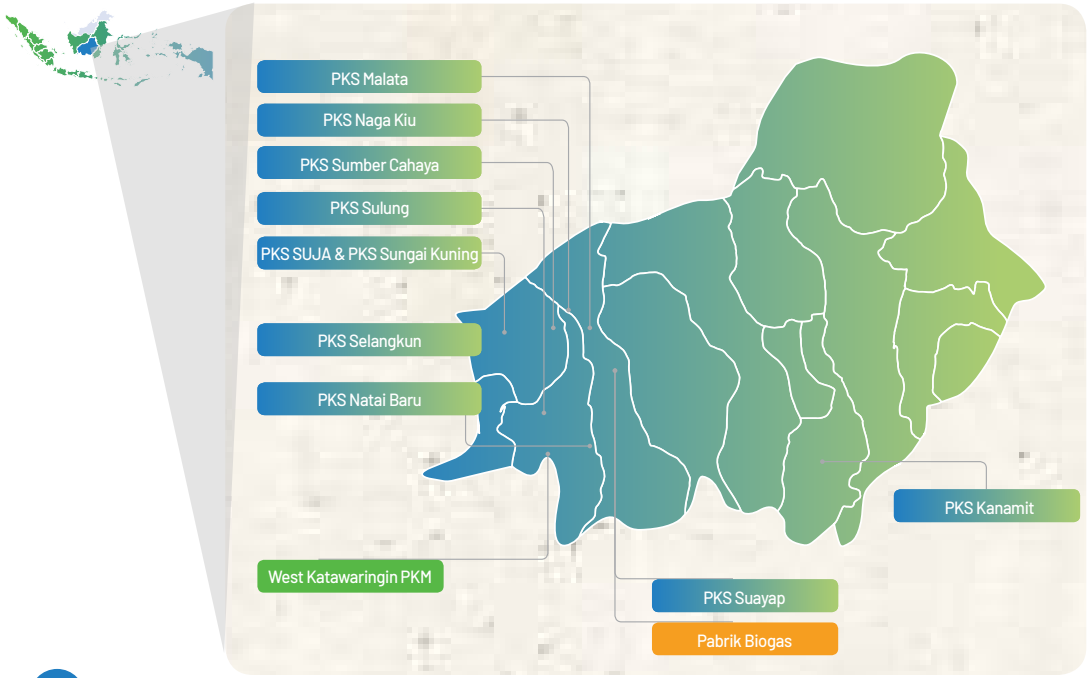

The Company conducts plantation and harvesting activities for oil palm, producing fresh fruit bunches which are subsequently processed at palm oil mills into crude palm oil (CPO).

ANALISIS KINERJA SEGMEN

Produksi Segmen

Tandan Buah Segar (TBS)

Produk utama Perseroan adalah tandan buah segar (TBS). Di tahun 2025, Perseroan berhasil memproduksi TBS dari perkebunan inti sebanyak 1.628.452 metrik ton, meningkat sebesar 4,22% dibandingkan produksi TBS tahun 2024 sebanyak 1.562.446 metrik ton. Kenaikan ini didorong oleh peningkatan pelaksanaan rotasi panen serta efektivitas program pemupukan yang berdampak pada peningkatan produktivitas tanaman.

Minyak Kelapa Sawit

Dari pengolahan TBS, Perseroan mengelola 2.382.942 MT TBS dan menghasilkan minyak kelapa sawit atau Crude Palm Oil (CPO) di 8 (delapan) Pabrik Kelapa Sawit (PKS) Perseroan yang berada di dalam perkebunan kelapa sawit. Perseroan merupakan salah satu produsen CPO swasta terbesar di provinsi Kalimantan Tengah. CPO diekstraksi dari mesocarp yang dipisahkan dari buah kelapa sawit.

Perseroan memproduksi CPO sebanyak 527.052 metrik ton pada tahun 2025, dengan *Oil Extraction Rate* (OER) mencapai 22,12%. Jumlah produksi CPO meningkat sebesar 14,23% dari tahun lalu yang sebesar 461.414 metrik ton dengan OER meningkat sebesar 14,23%. Peningkatan ini didorong oleh perbaikan kualitas TBS yang diolah serta peningkatan pengendalian losses di pabrik.

Inti Sawit

Inti sawit atau Palm Kernel (PK) berasal dari biji kelapa sawit yang dikumpulkan pada saat proses pengolahan. DI tahun 2025, produksi PK mencapai sebesar 104.130 MT, meningkat 15,92% dari 89.833 MT di tahun 2024, sejalan dengan meningkatnya volume TBS yang diolah.

Minyak Inti Sawit

Minyak Inti Sawit atau *Palm Kernel Oil* (PKO) merupakan produk turunan sawit. Perseroan memiliki kapasitas dan kapabilitas untuk memproduksi minyak inti sawit dengan cara mengekstrak biji kelapa sawit di pabrik pengolahan inti sawit, *Kernel Crushing Plant* (KCP).

Plantation Segment Performance

In 2025, the Company produced 1,628,452 MT of Fresh Fruit Bunches (FFB) from nucleus estate, 527,052 MT of Crude Palm Oil, 104,130 MT of Palm Kernel, and 15,379 MT of Palm Kernel Oil.

ANALYSIS OF BUSINESS SEGMENT

Segment Production

Fresh Fruit Bunches (FFB)

The Company's primary product is Fresh Fruit Bunches (FFB). In 2025, the Company produced 1,628,452 metric tonnes of FFB from its nucleus plantations, representing an increase of 4.22% compared to 1,562,446 metric tonnes in 2024. This increase was driven by improved harvesting rotation and more effective fertilization programs, which contributed to higher crop productivity.

Crude Palm Oil

Through the processing of FFB, the Company processes 2,382,942 MT FFB and produces Crude Palm Oil (CPO) at its 8 (eight) Palm Oil Mills (PKS) located within the plantation areas. The Company is one of the largest private CPO producers in Central Kalimantan. CPO is extracted from the mesocarp separated from the oil palm fruit.

In 2025, the Company produced 527,052 metric tonnes of CPO with an Oil Extraction Rate (OER) of 22.12%. This represents an increase of 14.23% compared to the 461,414 metric tonnes produced in 2024, with OER increasing by 14.23%. This increase was driven by improved FFB quality and better loss control at the mills.

Palm Kernel

Palm Kernel (PK) is derived from the seeds collected during the milling process. In 2025, PK production reached 104,130 metric tonnes, representing an increase of 15.92% from 89,833 metric tonnes in 2024, in line with the higher volume of FFB processed.

Palm Kernel Oil

Palm Kernel Oil (PKO) is a downstream palm-based product. The Company has the capacity and capability to produce PKO through the extraction of palm kernels at its Kernel Crushing Plant (KCP).

Di tahun 2025, Perseroan mencatat produksi Minyak Inti Sawit sebesar 15.379 MT, turun sebesar 24,57% dibandingkan produksi tahun lalu yang sebesar 20.338 MT disebabkan oleh adanya perbaikan dan modifikasi mesin di fasilitas KCP yang berdampak pada penurunan kapasitas produksi sementara.

In 2025, the Company recorded PKO production of 15,379 metric tonnes, representing a decrease of 24.57% compared to 20,338 metric tonnes in 2024. This change was due to machine repairs and modifications at the KCP facility, which temporarily reduced production capacity.

Pendapatan Segmen

Pada tahun 2025, segmen perkebunan berhasil mencatatkan pendapatan sebesar Rp842 miliar, naik sebesar 40,23% atau setara dengan Rp242 miliar dibandingkan pendapatan tahun lalu yang sebesar Rp601 miliar dikarenakan oleh kenaikan volume produksi serta harga inti sawit. Berikut rincian pendapatan dari segmen perkebunan.

Segment Revenue

In 2025, the plantation segment recorded revenue of IDR842 billion, representing an increase of 40.23% or equivalent to IDR242 billion compared to IDR601 billion in 2024. This change was driven by higher production volumes and improved palm kernel prices.. Detailed revenue from the plantation segment is presented in the following table.

Kinerja Biogas dan Bio-CNG

Perseroan mengoperasikan Methane Capture melalui pembangunan pabrik Biogas dan Bio-CNG. Saat ini Perseroan telah memiliki 2 pabrik Biogas dan 1 pabrik Bio-CNG yang mampu memenuhi kebutuhan listrik di perkebunan dan desa sekitar sebesar 1500 MW listrik.

Biogas and Bio-CNG Performance

The Company operates methane capture facilities through the development of Biogas and Bio-CNG plants. To date, the Company has established 2 (two) Biogas plants and 1 (one) Bio-CNG plant, which support electricity needs within plantation areas and surrounding communities, with a total capacity of up to 1.5 MW.

Segmen Minyak Nabati

Perseroan melakukan kegiatan usaha dengan memproduksi dan menjual minyak nabati dan produk lainnya yang merupakan produk turunan minyak sawit.

Edible Oil Segment

The Company conducts business activities by producing and selling edible oil and other derivative products derived from palm oil.

ANALISIS KINERJA SEGMEN

Produksi Segmen

Refine, Bleached and Deodorized Palm Oil (RBDPO)

Perseroan memproduksi refined bleached deodorized palm oil (RBDPO) melalui proses refinery. Di tahun 2025, Perseroan berhasil memproduksi RBDPO sebanyak 578.928 MT, meningkat sebesar 49,27% dibandingkan produksi RBDPO tahun 2024 sebanyak 387.833 MT. Peningkatan ini didorong oleh optimalisasi utilisasi pabrik *refinery* seiring meningkatnya ketersediaan bahan baku dan perbaikan stabilitas operasional.

ANALYSIS OF BUSINESS SEGMENT

Segment Production

Refine, Bleached and Deodorized Palm Oil (RBDPO)

The Company produces Refined Bleached Deodorized Palm Oil (RBDPO) through its refinery process. In 2025, RBDPO production reached 578,928 MT, representing an increase of 49.27% compared to 387,833 MT in 2024. This change was driven by optimized refinery utilization supported by higher feedstock availability and improved operational stability..

Asam Lemak Sawit Distilat (PFAD)
Selain menghasilkan RBDPO, proses refinery juga menghasilkan asam lemak sawit distilat atau Palm Fatty Acid Distillate (PFAD). Perseroan memproduksi PFAD sebanyak 21.898 MT pada tahun 2025, meningkat sebesar 45,37% dari tahun lalu yang sebesar 15.064 MT, sejalan dengan peningkatan throughput refinery, sehingga volume produk turunan yang dihasilkan juga meningkat.

Palm Olein
Palm Olein berasal dari proses farksinasi pemisahan minyak kelapa sawit dan minyak inti sawit. DI tahun 2025, produksi Palm Olein mencapai sebesar 467.921 MT, meningkat 57,86% dari 296.406 MT di tahun 2024 didorong oleh peningkatan pasokan RBDPO sebagai bahan baku fraksinasi serta optimalisasi kapasitas fasilitas fraksinasi.

Palm Stearin
Selain menghasilkan Palm Olein, proses fraksinasi juga menghasilkan Palm Stearin. Di tahun 2025, Perseroan mencatat produksi Palm Stearin sebesar 101.321 MT, meningkat sebesar 49,75% dibandingkan produksi tahun lalu yang sebesar 67.660 MT, konsisten dengan peningkatan volume fraksinasi, seiring meningkatnya produksi Palm Olein.

Minyak Inti Sawit
Minyak Inti Sawit dihasilkan dari pabrik kernel crushing. Di tahun 2025, produksi minyak inti sawit tercatat sebedar 28.997 MT, meningkat sebesar 37,43% dari tahun lalu yang sebesar 21.099 MT didorong oleh kenaikan Kernel Extraction Rate (KER) serta peningkatan ketersediaan bahan baku inti sawit (PK).

Palm Kernel Expeller
Pabrik kernel crushing juga menghasilkan Palm Kernel Expeller. Produksi Palm Kernel Expeller di tahun 2025 meningkat sebesar 33,50% menjadi sebesar 37.496 MT dari 28.086 MT di tahun 2024, sejalan dengan peningkatan produksi inti sawit yang diproses di fasilitas *kernel crushing*.

Lain-lain
Produk lain-lain terdiri dari Botling dan Pillow Pack. Di tahun 2025, produk lain-lain yang diproduksi Perseroan sebesar 9.167 MT, meningkat sebesar 268,30% dibandingkan dengan tahun lalu yang sebesar 2.489 MT didorong oleh penambahan kapasitas produksi melalui operasional pabrik baru untuk minyak goreng kemasan botol.

Pendapatan Segmen
Pada tahun 2025, segmen minyak nabati berhasil mencatatkan pendapatan sebesar Rp10,14 triliun, meningkat signifikan sebesar 78,69% atau setara dengan Rp4,47 triliun dibandingkan pendapatan tahun lalu yang sebesar Rp5,68 triliun dikarenakan oleh kenaikan volume penjualan, khususnya dari aktivitas ekspor minyak nabati. Berikut rincian pendapatan dari segmen minyak nabati.

Palm Fatty Acid Distillate (PFAD)
In addition to RBDPO, the refinery process also produces Palm Fatty Acid Distillate (PFAD). In 2025, PFAD production amounted to 21,898 MT, representing an increase of 45.37% from 15,064 MT in 2024. This change was influenced by in line with higher refinery throughput, resulting in higher by-product output.

Palm Olein
Palm Olein is produced through the fractionation process of palm oil. In 2025, Palm Olein production reached 467,921 MT, representing an increase of 57.86% compared to 296,406 MT in 2024. This change was driven by higher availability of RBDPO as feedstock and improved utilization of fractionation capacity.

Palm Stearin
Alongside Palm Olein, the fractionation process also produces Palm Stearin. In 2025, the Company recorded Palm Stearin production of 101,321 MT, representing an increase of 49.75% compared to 67,660 MT in 2024. This change was consistent with higher fractionation output, in line with increased Palm Olein production.

Palm Kernel Oil (PKO)
Palm Kernel Oil is produced through the kernel crushing process. In 2025, PKO production reached 28,997 MT, representing an increase of 37.43% compared to 21,099 MT in 2024. This change was driven by higher Kernel Extraction Rate (KER) and increased availability of palm kernel (PK) feedstock.

Palm Kernel Expeller
The kernel crushing process also produces Palm Kernel Expeller. In 2025, production increased by 33.50% to 37,496 MT from 28,086 MT in 2024. This change was influenced by in line with higher palm kernel throughput at the crushing facility.

Others
Other products consist of Bottling and Pillow Pack. In 2025, production in this category amounted to 9,167 MT, representing an increase of 268.30% compared to 2,489 MT in 2024. This change was driven by additional production capacity from the operation of a new bottled cooking oil facility.

Segment Revenue
In 2025, the vegetable oil segment recorded revenue of IDR10.14 trillion, representing a significant increase of 78.69% or equivalent to IDR4.47 trillion compared to IDR5.68 trillion in 2024. This change was driven by higher sales volumes, particularly from vegetable oil export activities. Detailed revenue from the edible oil segment is presented in the following table.

Aset

Total aset Perseroan mengalami peningkatan sebesar 14,43% dari Rp11,87 triliun di tahun 2024 menjadi Rpx13,58 triliun di tahun 2025. Kenaikan pada total aset Perseroan terutama didorong oleh akuisisi PT Sawit Mandiri Lestari (SML) yang memperluas basis aset Perseroan.

Assets

The Company's total assets increased by 14.43% from IDR11.87 trillion in 2024 to IDR13.58 trillion in 2025. This change was primarily driven by the acquisition of PT Sawit Mandiri Lestari (SML), which expanded the Company's asset base.

Aset lancar mengalami peningkatan sebesar 13,22% dari Rp5,21 triliun di tahun 2024 menjadi Rp5,90 triliun di tahun 2025. Peningkatan tersebut sejalan dengan bertambahnya aset dari entitas yang diakuisisi.

Aset tidak lancar mengalami kenaikan sebesar 15,38% dari Rp6,66 triliun di tahun 2024 menjadi Rp7,68 triliun di tahun 2025. Kenaikan aset tidak lancar juga dipengaruhi oleh konsolidasi aset tetap dan aset jangka panjang dari SML.

Liabilitas

Total liabilitas Perseroan tercatat meningkat sebesar 18,44% dari Rp8,99 triliun di tahun 2024 menjadi Rp10,64 triliun di tahun 2025. Peningkatan ini sejalan dengan struktur pembiayaan yang digunakan dalam mendukung ekspansi melalui akuisisi SML.

Sementara itu, peningkatan liabilitas jangka panjang sebesar 42,36% dari Rp4,24 triliun di tahun 2024 menjadi Rp6,03 triliun di tahun 2025 terutama disebabkan oleh peningkatan pinjaman bank.

Liablitas jangka pendek Perseroan tercatat menurun sebesar 2,90% dari Rp4,75 triliun di tahun 2024, menjadi Rp4,61 triliun di tahun 2025, yang mencerminkan penurunan kewajiban jangka pendek Perseroan.

Ekuitas

Ekuitas Perseroan di tahun 2025 meningkat sebesar 1,98% menjadi Rp2,94 triliun di tahun 2025 dari Rp2,89 triliun di tahun 2024. Peningkatan ini terutama didorong oleh laba tahun berjalan.

Current assets increased by 13.22% from IDR5.21 trillion in 2024 to IDR5.90 trillion in 2025, in line with the addition of assets from the acquired entity.

Non-current assets increased by 15.38% from IDR6.66 trillion in 2024 to IDR7.68 trillion in 2025. This change was mainly influenced by the consolidation of fixed and long-term assets from SML.

Liabilities

Total liabilities increased by 18.44% from IDR8.99 trillion in 2024 to IDR10.64 trillion in 2025. This change was in line with the financing structure supporting expansion through the acquisition of SML.

Non-Current liabilities increased by 42.36% from IDR4.24 trillion in 2024 to IDR6.03 trillion in 2025, primarily due to higher bank borrowings.

Current liabilities decreased by 2.90% from IDR4.75 trillion in 2024 to IDR4.61 trillion in 2025, reflecting a reduction in short-term obligations.

Equity

The Company's equity increased by 1.98% to IDR2.94 trillion in 2025 from IDR2.89 trillion in 2024. This increase was mainly driven by profit for the year.

Kas dan Setara Kas

Nilai kas dan setara kas tercatat mengalami penurunan sebesar 4,61% menjadi Rp1,18 triliun dari Rp1,24 triliun di tahun 2024. Penurunan ini terutama disebabkan oleh pengeluaran belanja modal (capex) untuk pembangunan pabrik baru serta peningkatan investasi pada aset tetap.

Arus Kas dari Aktivitas Operasi

Nilai arus kas bersih dari aktivitas operasi meningkat signifikan sebesar 10,47% menjadi Rp1,10 triliun di tahun 2025 dari Rp0,10triliun di tahun 2024, dikarenakan adanya kenaikan penjualan yang berdampak pada peningkatan penerimaan kas dari pelanggan.

Arus Kas yang Diperoleh dari Aktivitas Investasi

Sementara itu, arus kas bersih yang diperoleh dari aktivitas investasi mengalami penurunan signifikan sebesar 2.190,11% dari Rp0,91 triliun di tahun 2024 menjadi Rp1,90 triliun. Penurunan tersebut terutama disebabkan oleh akuisisi entitas anak baru serta peningkatan pembelian aset tetap.

Cash and Cash Equivalents

Cash and cash equivalents decreased by 4.61% to IDR1.18 trillion from IDR1.24 trillion in 2024. This change was primarily driven by capital expenditures for new plant development and increased investment in fixed assets.

Cash Flows from Operating Activities

Net cash flows from operating activities experienced a significant increase of 10.47% to IDR1.10 trillion in 2025 from IDR0.10 trillion in 2024. This change was influenced by higher sales, resulting in increased cash receipts from customers.

Cash Flows Obtained from Investing Activities

Net cash flows obtained from investing activities experienced a significant decrease of 2,190.11% from IDR0.91 trillion in 2024 to IDR1.90 trillion in 2025. This change was mainly driven due to the acquisition of a new subsidiary and increased purchases of fixed assets.

Arus Kas yang Diperoleh dari (Digunakan untuk) Aktivitas Pendanaan

Nilai arus kas bersih dari (digunakan untuk) aktivitas pendanaan mengalami penurunan yang signifikan sebesar 139,90% menjadi Rp0,49 triliun di tahun 2025 dari Rp1,24 triliun di tahun 2024. Hal ini terutama disebabkan oleh perubahan struktur pendanaan, termasuk peningkatan pinjaman bank yang digunakan untuk mendukung ekspansi usaha.

Cash Flows from (Used for) Financing Activities

Net cash flows from (used for) financing activities decreased significantly by 139.90% to IDR0.49 trillion in 2025 from IDR1.24 trillion in 2024. This change was primarily influenced by changes in the financing structure, including increased bank borrowings to support business expansion.

Kemampuan Membayar Utang dan Tingkat Kolektibilitas Piutang
Pay Debt Ability and Receivables Collectability

KEMAMPUAN MEMBAYAR UTANG

Perseroan mengukur kemampuan dalam memenuhi kewajiban jangka pendek dan jangka panjang melalui rasio likuiditas dan rasio solvabilitas. Rasio likuiditas menunjukkan kemampuan Perseroan dalam melunasi kewajiban jangka pendek, sedangkan rasio solvabilitas mengukur kapasitas Perseroan dalam memenuhi seluruh kewajiban yang ada.

Rasio Likuiditas

Perseroan mengukur kemampuan dalam memenuhi kewajiban jangka pendek melalui rasio likuiditas, yang terdiri dari:

1. Rasio lancar (*current ratio*) menunjukkan perbandingan antara aset lancar dan liabilitas jangka pendek; serta
2. Rasio cepat (*quick ratio*) mencerminkan kekuatan finansial Perseroan dengan menghitung aset lancar setelah dikurangi persediaan, kemudian membaginya dengan liabilitas jangka pendek.

PAY DEBT ABILITY

The Company assesses its ability to meet short-term and long-term obligations through liquidity and solvency ratios. Liquidity ratios indicate the Company's ability to settle short-term obligations, while solvency ratios measure its capacity to meet all outstanding liabilities.

Liquidity Ratios

The Company evaluates its ability to meet short-term obligations through liquidity ratios, which consist of:

1. Current ratio, which measures the proportion of current assets to short-term liabilities; and
2. Quick ratio, which reflects the Company's financial strength by measuring current assets excluding inventories against short-term liabilities.

Restatement

Per 31 Desember 2025, rasio lancar dan rasio cepat Perseroan masing-masing tercatat sebesar 127,92% dan 107,84%, mengalami peningkatan dari tahun sebelumnya yang mencatat rasio lancar sebesar 109,70% dan rasio cepat sebesar 93,00%.

Berdasarkan nilai tersebut, likuiditas Perseroan tetap dalam kategori cukup baik, karena rasio lancar masih berada di atas 100%, menunjukkan kemampuan Perseroan dalam memenuhi kewajiban jangka pendeknya.

Rasio Solvabilitas

Perseroan menggunakan rasio solvabilitas untuk mengukur kemampuan dalam memenuhi kewajiban jangka pendek maupun jangka panjang. Rasio ini mencakup:

1. Rasio utang berbunga terhadap ekuitas, yang menunjukkan tingkat ketergantungan terhadap pendanaan berbasis utang; serta
2. Rasio liabilitas terhadap total aset, yang mencerminkan proporsi aset yang didanai oleh liabilitas.

As of 31 December 2025, the Company's current ratio and quick ratio were recorded at 127.92% and 107.84%, respectively, representing a decrease compared to the previous year's current ratio of 109.70% and quick ratio of 93.00%.

Based on these figures, the Company's liquidity remained at a satisfactory level, as reflected by the current ratio remaining above 100%, indicating the Company's ability to meet its short-term obligations.

Solvency Ratios

The Company uses solvency ratios to assess its ability to meet both short-term and long-term obligations. These ratios include:

1. Interest-bearing debt to equity ratio, which reflects the Company's reliance on debt-based financing; and
2. Liabilities to total assets ratio, which indicates the proportion of assets financed by liabilities.

KEBIJAKAN DIVIDEN DAN PEMBAGIANNYA

Perseroan memiliki kebijakan untuk membagikan dividen tunai kepada para pemegang saham sebesar 30% dari laba tahun berjalan konsolidasian (setelah dikurangi porsi laba tahun berjalan yang dapat diatribusikan kepada kepentingan non pengendali), sebagai komitmen Perseroan untuk memberikan manfaat bagi pemegang saham atas investasi yang diberikan. Melalui pembagian dividen, Perseroan menunjukkan kemampuannya dalam mengelola bisnis secara berkelanjutan, mempertahankan profitabilitas dan membagikan imbalan yang optimal bagi pemegang saham.

Pembagian dividen dilakukan dengan mempertimbangkan peningkatan maupun pencapaian finansial Perseroan tahun berjalan, serta wajib memperoleh persetujuan dari Rapat Umum Pemegang Saham (RUPS). Setelah persetujuan diberikan, Perseroan berhak melaksanakan distribusi dividen sesuai dengan ketentuan peraturan perundang-undangan yang berlaku.

PEMBAGIAN DIVIDEN DALAM 2 (DUA) TAHUN TERAKHIR

Sesuai dengan Akta Berita Acara RUPST yang dibuat oleh Notaris Jimmy Tanal, SH, M.Kn., No. 87 tanggal 21 April 2025, para pemegang saham menyetujui penggunaan laba bersih Perseroan untuk tahun buku yang berakhir pada tanggal 31 Desember 2024 sebesar Rp.819.533.675.000,- (delapan ratus sembilan belas miliar lima ratus tiga puluh tiga juta enam ratus tujuh puluh lima ribu Rupiah) untuk digunakan sebagai berikut:

1. Sebesar Rp.450.000.000.000,- (empat ratus lima puluh miliar Rupiah) atau sejumlah Rp.47,24 (empat puluh tujuh koma dua empat Rupiah) per saham atau 54,91% (lima puluh empat koma sembilan satu persen) dari Laba Tahun Berjalan Yang Diatribusikan, didistribusikan sebagai dividen kepada pemegang saham secara proporsional sesuai persentase kepemilikan sahamnya. Adapun dividen ini akan didistribusikan kepada pemegang saham pada tanggal 21 Mei 2025, sesuai dengan ketentuan dalam Anggaran Dasar Perseroan dan Peraturan Pasar Modal.
2. Berdasarkan ketentuan yang berlaku di pasar modal, yang berhak atas dividen tunai adalah pemegang saham yang namanya tercatat dalam Daftar Pemegang Saham pada tanggal 2 Mei 2025 pukul 16.00 Waktu Indonesia Barat. Adapun pembayaran dividen tunai akan dilakukan pada tanggal 21 Mei 2025.
3. Sisa dari laba bersih Perseroan yaitu sebesar Rp.369.533.675.000,- (tiga ratus enam puluh sembilan miliar lima ratus tiga puluh tiga juta enam ratus tujuh puluh lima ribu Rupiah) atau 45,09% (empat puluh lima koma nol sembilan persen) dari Laba Tahun Berjalan Yang Diatribusikan akan dimasukan sebagai cadangan lainnya yang akan menambah saldo laba ditahan.

Perseroan telah merealisasikan keputusan RUPS tersebut melalui pembagian Dividen Tunai yang dilakukan pada 21 Mei 2025.

DIVIDEND POLICY AND DISTRIBUTION

The Company has adopted a policy to distribute cash dividends to shareholders amounting to 30% of consolidated profit for the year (after deducting the portion of profit attributable to non-controlling interests), as part of its commitment to deliver value to shareholders for their investment. Through dividend distribution, the Company demonstrates its ability to manage its business sustainably, maintain profitability, and provide optimal returns to shareholders.

Dividend distribution is carried out by taking into account the Company's financial performance and achievements in the current year, and must obtain approval from the General Meeting of Shareholders (GMS). Upon receiving such approval, the Company is entitled to distribute dividends in accordance with the prevailing laws and regulations.

DIVIDEND DISTRIBUTION IN THE LAST 2 (TWO) YEARS

In accordance with the Deed of Minutes of the Annual General Meeting of Shareholders (AGMS) drawn up by Notary Jimmy Tanal, S.H., M.Kn., No. 87 dated 21 April 2025, the shareholders approved the allocation of the Company's net profit for the financial year ended 31 December 2024 amounting to IDR819,533,675,000 (eight hundred nineteen billion five hundred thirty-three million six hundred seventy-five thousand Rupiah) to be appropriated as follows:

1. An amount of IDR450,000,000,000,- (four hundred fifty billion Rupiah) or an amount of IDR47.24 (forty seven point two four Rupiah) per share or 54.91% (fifty four point nine one percent) of Attributable Profit for the Year, distributed as dividends to shareholders proportionally according to the percentage of their share ownership. This dividend will be distributed to shareholders on May 21, 2025, in accordance with the provisions of the Company's Articles of Association and the Capital Market Regulations.
2. Based on the provisions applicable in the capital market, those entitled to cash dividends are shareholders whose names are registered in the Register of Shareholders on May 2, 2025 at 16.00 Western Indonesia Time. Meanwhile, the cash dividend payment will be made on May 21, 2025.
3. The remainder of the Company's net profit, which is IDR 369,533,675,000 (three hundred sixty-nine billion five hundred thirty-three million six hundred seventy-five thousand Rupiah) or 45.09% (forty-five point zero nine percent) of the Attributable Profit for the Current Year will be included as other reserves which will increase the retained earnings balance.

The Company has realized the GMS resolution by distributing Cash Dividends on May 21, 2025.

Tinjauan Teknologi Informasi
Information Technology Review

Teknologi informasi (TI) memiliki peran strategis dalam meningkatkan efisiensi serta akurasi operasional Perseroan, mulai dari pengelolaan perkebunan hingga proses produksi dan distribusi. Perseroan terus mengembangkan infrastruktur TI guna memantau produktivitas kebun, mengelola lahan secara lebih efektif, serta mendukung pengambilan keputusan berbasis data. Penerapan teknologi ini menjadi bagian dari upaya Perseroan dalam menjalankan operasional yang berkelanjutan dan berdaya saing, sejalan dengan visi jangka panjang untuk menciptakan nilai tambah di industri kelapa sawit.

Information technology (IT) plays a strategic role in enhancing the Company's operational efficiency and accuracy, from plantation management to production and distribution processes. The Company continues to develop its IT infrastructure to monitor plantation productivity, manage land more effectively, and support data-driven decision-making. The implementation of such technology forms part of the Company's efforts to maintain sustainable and competitive operations, in line with its long-term vision to create added value within the palm oil industry.

PENGELOLAAN TEKNOLOGI INFORMASI

Perseroan telah membangun dan mengelola infrastruktur TI yang tersebar di berbagai lokasi operasional, termasuk Head Office Pangkalan Bun, Site Downstream Tempenek, Kantor Perwakilan Jakarta dan Singapura, serta site operasional perkebunan di Kabupaten Kotawaringin Barat, Lamandau, dan Pulang Pisau. Seluruh lokasi tersebut terhubung secara online melalui jaringan privat yang terjamin dalam segi keamanannya. Untuk mendukung keberlangsungan layanan TI, Perseroan memiliki satu data center utama serta beberapa small data center di masing-masing cabang.

Pengelolaan seluruh infrastruktur dan layanan TI dilakukan secara internal oleh tim yang memiliki kompetensi di bidangnya, sehingga keandalan sistem dapat terus terjaga. Dalam rangka meminimalisir potensi downtime, Perseroan menerapkan sistem backup unit pada infrastruktur jaringan komunikasi data di site operasional perkebunan, serta sistem backup data berlapis guna menjamin keamanan dan ketersediaan informasi.

Dalam menjaga keamanan informasi, Perseroan menerapkan kebijakan berbasis standar ISO 27001, termasuk pengaturan hak akses layanan TI bagi karyawan sesuai dengan level jabatan dan kebutuhan pekerjaan. Sistem keamanan juga diperkuat melalui penggunaan firewall, anti-spam, endpoint security, serta berbagai mekanisme perlindungan lainnya untuk melindungi data dan informasi perusahaan dari ancaman siber.

IT GOVERNANCE

The Company has established and manages IT infrastructure across various operational locations, including the Head Office in Pangkalan Bun, the Downstream Site in Tempenek, Representative Offices in Jakarta and Singapore, and plantation sites in Kotawaringin Barat, Lamandau, and Pulang Pisau. All locations are connected online through secure private networks. To ensure service continuity, the Company operates one primary data centre along with several small data centres at each branch.

All IT infrastructure and services are managed internally by a competent in-house team, ensuring system reliability is consistently maintained. To minimise potential downtime, the Company has implemented backup units for communication network infrastructure at plantation sites, as well as multi-layered data backup systems to ensure information security and availability.

To safeguard information security, the Company adopts policies aligned with ISO 27001 standards, including access rights management based on employees' roles and operational needs. Security systems are further reinforced through the use of firewalls, anti-spam solutions, endpoint security, and other protective mechanisms to safeguard corporate data from cyber threats.

Penerapan sistem TI yang andal memungkinkan Perseroan menjalankan Enterprise Resource Planning (ERP) Perkebunan secara terintegrasi hingga proses pelaporan keuangan. Selain itu, Perseroan juga telah mengimplementasikan pencatatan aktivitas panen secara real-time melalui Mobile Application System, yang meningkatkan efisiensi, transparansi, dan akurasi dalam operasional perkebunan.

STRATEGI PENGEMBANGAN TI 2026

Perseroan terus memperkuat peran teknologi informasi sebagai enabler utama dalam mendukung efisiensi operasional, pengambilan keputusan berbasis data, serta peningkatan daya saing bisnis secara berkelanjutan. Memasuki tahun 2026, Perseroan mengarahkan pengembangan TI secara lebih terintegrasi dan adaptif terhadap kebutuhan bisnis, dengan fokus pada peningkatan keandalan sistem, keamanan data, serta optimalisasi pemanfaatan teknologi digital di seluruh lini operasional.

Dalam mendukung keberlangsungan operasional yang andal dan berkelanjutan, Perseroan melanjutkan penguatan infrastruktur TI melalui pengembangan secondary data center serta peningkatan kapasitas sistem untuk memastikan ketersediaan layanan (availability) dan ketahanan terhadap risiko gangguan (business continuity). Langkah ini menjadi bagian penting dalam menjaga stabilitas sistem serta mendukung operasional yang semakin terdigitalisasi.

Perseroan juga terus mengembangkan sistem aplikasi yang terintegrasi, khususnya pada sektor perkebunan, guna meningkatkan akurasi data, efisiensi proses, serta visibilitas operasional secara real-time. Pengembangan ini diarahkan untuk mendukung pengambilan keputusan yang lebih cepat dan tepat, serta memperkuat pengendalian kinerja operasional di seluruh unit kerja.

Selain itu, Perseroan melanjutkan program peremajaan infrastruktur TI secara bertahap guna memastikan kesesuaian dengan perkembangan teknologi terkini. Upaya ini mencakup peningkatan perangkat keras, jaringan, serta sistem keamanan informasi guna meminimalkan risiko operasional dan menjaga integritas data perusahaan.

Sejalan dengan transformasi digital yang terus berkembang, Perseroan juga mempercepat migrasi layanan TI dari on-premise ke cloud sebagai bagian dari strategi modernisasi sistem. Implementasi teknologi cloud diharapkan dapat meningkatkan fleksibilitas, skalabilitas, serta efisiensi biaya, sekaligus mendukung inovasi dan pengembangan layanan digital di masa depan.

Melalui strategi pengembangan TI yang terarah dan berkelanjutan, Perseroan optimis dapat memperkuat fondasi digital perusahaan serta mendukung pertumbuhan bisnis yang lebih efisien, adaptif, dan berdaya saing tinggi.

The implementation of a robust IT system enables the Company to operate an integrated Plantation Enterprise Resource Planning (ERP) system through to financial reporting processes. In addition, the Company has implemented real-time harvest activity recording through a Mobile Application System, enhancing efficiency, transparency, and operational accuracy.

IT DEVELOPMENT STRATEGY 2026

The Company continues to strengthen the role of information technology as a key enabler in supporting operational efficiency, data-driven decision-making, and sustainable business competitiveness. Entering 2026, the Company directs its IT development to be more integrated and adaptive to business needs, focusing on enhancing system reliability, data security, and optimizing the use of digital technology across all operational lines.

To support reliable and sustainable operations, the Company continues to strengthen its IT infrastructure through the development of a secondary data center and increased system capacity to ensure service availability and resilience against disruptions (business continuity). This initiative plays an important role in maintaining system stability while supporting increasingly digitalized operations.

The Company also continues to develop integrated application systems, particularly in the plantation sector, to improve data accuracy, process efficiency, and real-time operational visibility. This development is aimed at enabling faster and more accurate decision-making, as well as strengthening control over operational performance across all business units.

In addition, the Company continues its phased IT infrastructure modernization program to ensure alignment with the latest technological developments. This includes upgrading hardware, networks, and information security systems to minimize operational risks and safeguard data integrity.

In line with ongoing digital transformation, the Company is also accelerating the migration of IT services from on-premise to cloud as part of its system modernization strategy. The implementation of cloud technology is expected to enhance flexibility, scalability, and cost efficiency, while supporting innovation and the development of future digital services.

Through a structured and sustainable IT development strategy, the Company is confident in strengthening its digital foundation and supporting more efficient, adaptive, and competitive business growth.

PRINSIP TATA KELOLA PERUSAHAAN YANG BAIK

Perseroan menerapkan prinsip-prinsip GCG berlandaskan Pedoman Umum Governansi Korporat Indonesia (PUGKI) 2021 yang dipublikasikan KNKG. Prinsip-prinsip ini diimplementasikan melalui pilar-pilar governansi korporat berikut.

GOOD CORPORATE GOVERNANCE PRINCIPLES

The Company implements GCG principles based on the General Guidelines for Indonesian Corporate Governance (PUGKI) 2021 published by KNKG. These principles are implemented through the following corporate governance pillars.

Prinsip Principles	**Perilaku Beretika** Ethical Conduct
Penjelasan Explanation	Dalam melaksanakan kegiatannya, korporasi senantiasa mengedepankan kejujuran, memperlakukan semua pihak dengan hormat (*respect*), memenuhi komitmen, membangun serta menjaga nilai-nilai moral dan kepercayaan secara konsisten. Korporasi memperhatikan kepentingan Pemegang Saham dan pemangku kepentingan lainnya berdasarkan asas kewajaran dan kesetaraan (*fairness*) dan dikelola secara independen sehingga masing-masing organ perusahaan tidak saling mendominasi dan tidak dapat diintervensi oleh pihak lain. In carrying out its activities, the company always prioritizes honesty, treats all parties with respect, fulfills commitments, builds and maintains moral values and beliefs consistently. The company pays attention to the interests of shareholders and other stakeholders based on the principles of fairness and is managed independently so that each organ of the company does not dominate each other and cannot be intervened by other parties.
Penerapan Implementation	• Menerapkan Kode Etik sebagai landasan perilaku bagi seluruh insan perusahaan dalam menjalankan tugas dan tanggung jawabnya. Kode Etik ini berfungsi untuk menciptakan lingkungan kerja yang sehat, saling menghargai, dan berorientasi pada kepentingan bersama. • Memiliki Pedoman Tata Kelola (*Charter*) yang menetapkan peran dan tanggung jawab masing-masing organ perusahaan, sehingga memastikan setiap aktivitas operasional berjalan sesuai aturan dan tanpa intervensi yang melanggar batas kewenangan. • Apply the Code of Conduct as a basis in behaving for all company personnel in performing duties and responsibilities. The Code of Conduct aims to create a healthy, mutually respectful work environment, oriented to common interests. • Has Governance Guideline (Charter) that establishes the roles and responsibilities for each organ of the company, and ensure every operational activity runs according to the rules and without intervention violating the limits of authority.

Prinsip Principles	**Akuntabilitas** Accountability
Penjelasan Explanation	Korporasi dapat mempertanggungjawabkan kinerjanya secara transparan dan wajar. Untuk itu, korporasi harus dikelola secara benar, terukur dan sesuai dengan kepentingan korporat dengan tetap memperhitungkan kepentingan Pemegang Saham dan pemangku kepentingan. Akuntabilitas merupakan prasyarat yang diperlukan untuk mencapai kinerja yang berkelanjutan. The company can account for its performance transparently and reasonably. As such, the company must be managed correctly, measurably and in accordance with company interests while taking into account the interests of shareholders and stakeholders. Accountability is a necessary prerequisite for achieving sustainable performance.
Penerapan Implementation	• Mengevaluasi kinerja dan aktivitas Perseroan secara berkala melalui laporan resmi, seperti Laporan Keuangan, Laporan Tahunan, dan Laporan Keberlanjutan. • Memastikan seluruh laporan disusun secara benar, terukur, dan akurat sesuai prinsip akuntabilitas, sehingga mencerminkan kondisi perusahaan secara transparan dan dapat dipertanggungjawabkan. • Melakukan audit internal dan eksternal secara rutin untuk menilai dan memastikan bahwa seluruh aspek tata kelola dan operasional Perseroan berjalan sesuai dengan regulasi yang berlaku. • Melakukan *monitoring* dan evaluasi kinerja organ perusahaan (Dewan Komisaris, Direksi, dan Komite) secara berkala untuk memastikan pengambilan keputusan didasarkan pada prinsip kehati-hatian dan kepentingan perusahaan. • Menerapkan sistem pengendalian internal dan manajemen risiko yang baik guna menjaga stabilitas perusahaan dan memitigasi risiko dalam setiap aktivitas bisnis. • Evaluate Company's performance and activities periodically through official reports, such as Financial Statements, Annual Report, and Sustainability Report. • Ensure all reports are prepared correctly, measurably, and accurately in line with accountability principles, to reflect the company's condition in transparent and accountable manner. • Conduct regular internal and external audits to assess and ensure all aspects of Company's governance and operations are in accordance with applicable regulations. • Monitor and evaluate the performance of company's organs (Board of Commissioners, Board of Directors, Committees) periodically to ensure the decision-making is based on the prudent principles and the company's interests. • Implement good internal control and risk management system to maintain company's stability and mitigate risks in every business activity.

Prinsip Principles	Transparansi Transparency
Penjelasan Explanation	Untuk menjaga obyektivitas dalam menjalankan bisnis, korporasi menyediakan informasi yang material dan relevan dengan cara yang mudah diakses dan dipahami oleh pemangku kepentingan. Korporasi mengambil inisiatif untuk mengungkapkan tidak hanya masalah yang disyaratkan oleh peraturan perundang-undangan, tetapi juga hal yang penting untuk pengambilan keputusan oleh Pemegang Saham, kreditur, dan pemangku kepentingan lainnya. To maintain objectivity in conducting business, the company provides material and relevant information in a way that is easily accessible and understood by stakeholders. The Company takes the initiative to disclose not only issues required by laws and regulations, but also those that are important for decision-making by shareholders, creditors and other stakeholders.
Penerapan	• Menyediakan informasi material dan relevan yang mudah diakses oleh pemangku kepentingan melalui situs web Perseroan dan Bursa Efek Indonesia. • Mengungkapkan informasi yang tidak hanya diwajibkan oleh peraturan, tetapi juga hal-hal penting yang mendukung pengambilan keputusan Pemegang Saham, kreditur, dan pemangku kepentingan lainnya. • Melakukan komunikasi yang transparan dan tepat waktu untuk menjaga obyektivitas dalam setiap aktivitas bisnis. • Menyampaikan Laporan Tahunan, Laporan Keuangan, dan Laporan Keberlanjutan secara berkala sebagai bentuk pertanggungjawaban dan keterbukaan informasi. • Mengambil inisiatif untuk mengungkapkan informasi tambahan yang berdampak pada operasional dan keputusan bisnis. • Provide easily accessible material and relevant information for stakeholders through the Company and Indonesia Stock Exchange websites. • Disclose not only the regulatory required information, but also important issues supporting the decision-making by Shareholders, creditors, and other stakeholders. • Conduct transparent and timely communication to maintain objectivity in every business activity. • Submit Annual Report, Financial Statements, and Sustainability Report periodically as a form of accountability and information disclosure. • Take the initiative to disclose additional information impacting the business operations and decisions.

Prinsip Principles	Keberlanjutan Sustainability
Penjelasan Explanation	Korporasi mematuhi peraturan perundang-undangan serta berkomitmen melaksanakan tanggung jawab terhadap masyarakat dan lingkungan agar berkontribusi pada pembangunan berkelanjutan melalui kerja sama dengan semua pemangku kepentingan untuk meningkatkan kehidupan mereka dengan cara yang selaras dengan kepentingan bisnis dan agenda pembangunan berkelanjutan. The Company complies with laws and regulations and is committed to carrying out its responsibility towards society and the environment in order to contribute to sustainable development through cooperation with all relevant stakeholders to improve community lives in a way that is in line with business interests and the sustainable development agenda.
Penerapan Implementation	• Mematuhi peraturan perundang-undangan dalam menjalankan operasional sebagai bagian dari tanggung jawab perusahaan terhadap masyarakat dan lingkungan. • Mengintegrasikan prinsip keberlanjutan ke dalam aktivitas bisnis untuk mendukung pembangunan yang selaras dengan kepentingan sosial dan lingkungan. • Berkolaborasi dengan pemangku kepentingan dalam mendorong peningkatan kesejahteraan masyarakat dan pelestarian lingkungan. • Melaksanakan program CSR secara konsisten untuk memberikan dampak positif yang berkelanjutan dan memperkuat hubungan dengan komunitas lokal. • Menyajikan laporan perkembangan CSR melalui berbagai platform, termasuk Laporan Tahunan, Laporan Keberlanjutan, dan situs web resmi, sebagai bentuk keterbukaan dan tanggung jawab perusahaan. • Comply with laws and regulations in its operations as part of the company's responsibility to community and environment. • Integrate sustainability principles into the business activities to support development that align with social and environmental interests. • Collaborate with stakeholders to drive better community welfare and environmental preservation. • Implement CSR programs consistently to provide sustainable positive impacts and strengthen relationships with local communities. • Present CSR progress reports via various platforms, including the Annual Report, Sustainability Report, and official website, as a form of company's disclosure and responsibility.

Komitmen tersebut dilakukan secara konsisten di seluruh jajaran Perseroan, mulai dari Dewan Komisaris, Direksi, hingga seluruh karyawan.

TUJUAN PENERAPAN GCG

Perseroan secara konsisten menerapkan prinsip-prinsip GCG dalam setiap proses pengelolaan Perusahaan, yang bertujuan untuk:

1. Memastikan pengelolaan perusahaan sesuai dengan prinsip-prinsip GCG, seperti perilaku beretika, akuntabilitas, transparansi, dan keberlanjutan;

2. Memperkuat fungsi dan kemandirian setiap organ perusahaan, yakni Dewan Komisaris, Direksi, dan Rapat Umum Pemegang Saham;

This commitment is consistently implemented across all levels of the Company, from the Board of Commissioners and Board of Directors to all employees.

GCG IMPLEMENTATION OBJECTIVES

The Company consistently implement GCG principles in every process of company management. This step has the following objectives:

1. Ensuring the Company is managed in accordance with GCG principles, such as ethical conduct, accountability, transparency, and sustainability;

2. Strengthening the functions and independence of each company organ, namely Board of Commissioners, Board of Directors, and General Meeting of Shareholders;

3. Mendorong Pemegang Saham, Dewan Komisaris, dan Direksi agar mengambil setiap keputusan dan tindakan didasari oleh nilai moral yang tinggi serta kepatuhan pada peraturan yang berlaku;
4. Mengoptimalkan nilai Perseroan bagi Pemegang Saham dengan tetap memperhatikan kepentingan pihak-pihak lain; serta
5. Meningkatkan daya saing Perseroan di tingkat nasional dan internasional, sehingga memperkuat kepercayaan pasar dan mendukung arus investasi serta pertumbuhan ekonomi nasional yang berkelanjutan.

SOSIALISASI DAN INTERNALISASI GCG

Program sosialisasi dan internalisasi prinsip GCG merupakan bagian penting dalam memperkuat budaya tata kelola yang baik di SSMS. Kegiatan ini dilakukan kepada seluruh karyawan dan mitra kerja untuk memastikan bahwa setiap karyawan, manajemen, dan mitra kerja dapat memahami serta menerapkan prinsip GCG dalam setiap aktivitas operasional dan pengambilan keputusan.

Sosialisasi GCG dilakukan secara berkelanjutan melalui berbagai media dan metode, antara lain pelatihan, *workshop*, forum komunikasi internal, serta penyampaian kebijakan dan pedoman perusahaan. Materi sosialisasi mencakup Kode Etik, Pedoman Perilaku, kebijakan anti-gratifikasi, pencegahan benturan kepentingan, serta mekanisme pelaporan pelanggaran *(whistleblowing system).*

Selain sosialisasi, Perseroan juga menginternalisasi GCG dengan mengintegrasikan prinsip tata kelola ke dalam kebijakan, prosedur kerja, dan sistem manajemen perusahaan. Hal ini dilakukan untuk mendorong terbentuknya perilaku kerja yang berintegritas, profesional, dan bertanggung jawab di seluruh lini organisasi.

Melalui sosialisasi dan internalisasi GCG yang berkesinambungan, Perseroan berkomitmen untuk menciptakan lingkungan kerja yang beretika, meningkatkan kepercayaan pemangku kepentingan, serta mendukung pencapaian kinerja yang berkelanjutan dan berdaya saing jangka panjang.

GCG DISSEMINATION AND INTERNALIZATION

The dissemination and internalization of Good Corporate Governance (GCG) principles are an essential part in strengthening a good governance culture within SSMS. These initiatives are carried out across all employees and business partners to ensure that each employee, management, and business partner have understood and applied GCG principles in daily operations and decision-making processes.

GCG dissemination is conducted sustainably through various media and methods, including training sessions, workshops, internal communication forums, and the dissemination of corporate policies and guidelines. The materials cover the Code of Conduct, anti-gratification policy, conflict of interest prevention, as well as the whistleblowing system mechanism.

Beyond dissemination, the Company also internalizes GCG by integrating governance principles into corporate policies, standard operating procedures, and management systems. This approach is intended to foster a culture of integrity, professionalism, and accountability throughout all levels of the organization.

Through continuous dissemination and internalization of GCG, the Company remains committed to creating an ethical work environment, strengthening stakeholder trust, and supporting the achievement of sustainable performance and long-term competitiveness.

Struktur Tata Kelola Perusahaan
Corporate Governance Structure

Struktur tata Kelola di Perseroan mengacu pada Undang-Undang Nomor 40 tahun 2007 Tentang Perseroan Terbatas beserta perubahannya ("UUPT"), di mana organ Perseroan terdiri dari Rapat Umum Pemegang Saham ("RUPS"), Dewan Komisaris, dan Direksi.

RUPS, Dewan Komisaris, dan Direksi saling menghormati tugas, tanggung jawab dan wewenang masing-masing sesuai peraturan perundang-undangan dan Anggaran Dasar. Hubungan antar organ Perseroan dibangun untuk menjamin pelaksanaan prinsip-prinsip tata kelola perusahaan dapat berjalan dengan efektif dengan peran dan tanggung jawab yang jelas sehingga tercipta mekanisme kontrol *check and balance* untuk menjaga keberlangsungan usaha Perseroan.

Dalam menjalankan tugas dan tanggung jawabnya, Dewan Komisaris dan Direksi dibantu oleh organ pendukung yang dibentuk sesuai peraturan perundang-undangan dan kebutuhan Perseroan. Hingga 31 Desember 2025, organ pendukung Dewan Komisaris dan Direksi Perseroan terdiri dari:

Organ pendukung Dewan Komisaris:
1. Komite Audit
2. Komite Nominasi dan Remunerasi

Organ pendukung Direksi:
1. Sekretaris Perusahaan
2. Internal Audit
3. Divisi Keberlanjutan

The Company's governance structure refers to the Law No. 40 of 2007 on Limited Liability Company and its amendments ("Company Law"), where the Company's organs consist of the General Meeting of Shareholders ("GMS"), the Board of Commissioners, and the Board of Directors.

The GMS, Board of Commissioners, and Board of Directors respect each other's duties, responsibilities, and authorities in accordance with applicable laws and the Articles of Association. The relationship among these corporate organs is built to ensure the effective implementation of good corporate governance principles, with clearly defined roles and responsibilities, thereby creating a check and balance mechanism to safeguard the sustainability of the Company's business.

In carrying out their duties and responsibilities, the Board of Commissioners and Board of Directors are assisted by supporting organs formed in accordance with laws and regulations and the Company's needs. Until 31 December 2025, the supporting organs of the Company's Board of Commissioners and Board of Directors consist of:

Supporting organs of the Board of Commissioners:
1. Audit Committee
2. Nomination and Remuneration Committee

Supporting organs of the Board of Directors:
1. Corporate Secretary
2. Internal Audit
3. Sustainability Department

Dalam rangka mendukung efektivitas penerapan GCG, Perseroan telah menyusun berbagai *Governance Soft-Structure* yang menjadi acuan bagi seluruh insan Perseroan dalam menjalankan kegiatan operasional sehari-hari. Keberadaan *Governance Soft-Structure* merupakan pilar penting dalam penerapan prinsip GCG di Perseroan. Di samping sebagai pedoman bagi kegiatan operasional sehari-hari, *Governance Soft-Structure* juga mengatur fungsi, tugas, dan wewenang dari setiap organ tata kelola Perseroan sehingga dapat saling mendukung kinerja satu sama lain. Hingga akhir tahun 2025, *Governance Soft-Structure* yang telah dimiliki Perseroan antara lain:

To support the effective implementation of Good Corporate Governance ("GCG"), the Company has established various Governance Soft-Structures that serve as guidelines for all the Company's personnel in carrying out their daily operational activities. The existence of these Governance Soft-Structures is a vital pillar in the application of GCG principles within the Company. In addition to serving as a reference for daily operations, the Governance Soft-Structures also define the functions, duties, and authorities of each corporate governance organ, enabling them to mutually support each other's performance. By the end of 2025, the Company's governance soft structures include:

Beberapa di antara hak-hak Pemegang Saham tersebut, mekanisme pelaksanaannya dilakukan dalam RUPS.

Shareholder Rights

Shareholders, as providers of capital, are entitled to rights in the Company in accordance with the prevailing laws and regulations. The rights of Shareholders, as stipulated in Law of the Republic of Indonesia No. 40 of 2007 concerning Limited Liability Companies, include the following:

1. Shareholders, either in person or represented by a proxy based on a power of attorney, have the right to attend the General Meeting of Shareholders (GMS) and exercise their voting rights in proportion to the number of shares they own;
2. In voting, the votes cast by a Shareholder apply to all shares owned by such Shareholder;
3. To make the highest decisions within the Company, specifically as capital owners.
4. To obtain material information about the Company in a timely, measurable, and regular manner;
5. To receive the Company's profits allocated to Shareholders in the form of dividends and the remaining proceeds from liquidation, proportionate to the number of shares owned;
6. Other rights as provided under the Articles of Association.

Certain of these Shareholders' rights are exercised through the mechanism of the General Meeting of Shareholders (GMS).

RAPAT UMUM PEMEGANG SAHAM (RUPS)

Rapat Umum Pemegang Saham ("RUPS") merupakan organ tata kelola perusahaan tertinggi di Perseroan. RUPS berperan sebagai wadah para Pemegang Saham untuk mengambil keputusan-keputusan strategis di mana berdasarkan ketentuan Anggaran Dasar Perseroan dan Peraturan Perundang-undangan yang berlaku, kewenangan pengambilan Keputusan-keputusan strategis tidak diberikan kepada Direksi atau Dewan Komisaris. Keputusan yang diambil dalam RUPS dilakukan secara wajar dan transparan dan didasari oleh kepentingan jangka pendek, menengah dan panjang Perseroan.

Jenis RUPS

RUPS dibedakan menjadi 2 (dua) kategori, yaitu RUPS Tahunan ("RUPST") dan RUPS Luar Biasa ("RUPSLB") yang diselenggarakan sesuai dengan ketentuan Anggaran Dasar Perseroan.

Tahapan Penyelenggaraan RUPS

Tahapan penyelenggaraan RUPS di Perseroan mengacu pada Anggaran Dasar dan Peraturan Otoritas Jasa Keuangan No. 15/POJK.04/2020. Tahapan tersebut diungkapkan sebagai berikut.

GENERAL MEETING OF SHAREHOLDERS (GMS)

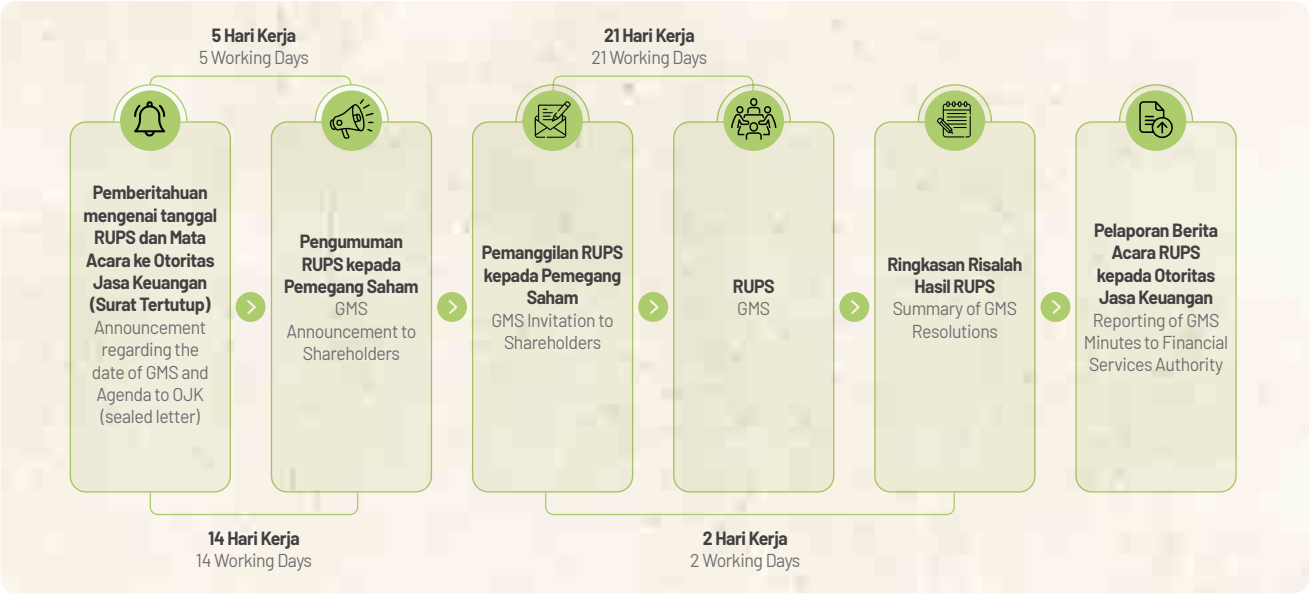

The General Meeting of Shareholders ("GMS") is the highest corporate governance organ within the Company. The GMS serves as a forum for Shareholders to make strategic decisions, where—pursuant to the provisions of the Company's Articles of Association and applicable laws and regulations—such authority is not granted to the Board of Directors or the Board of Commissioners. Decisions made during the GMS are conducted fairly and transparently, and are based on the Company's short-, medium-, and long-term interests.

Types of GMS

GMS is divided into 2 (two) categories, namely Annual GMS ("AGMS") and Extraordinary GMS ("EGMS"). GMS is held in accordance with the provisions of the Company's Articles of Association.

Procedures of the Annual GMS

The procedures of organizing GMS in the Company refers to the Articles of Association and Financial Services Authority Regulation No. 15/POJK.04/2020. These procedures are described as follows.

Pelaksanaan RUPS di Tahun 2025

Pada tahun 2025, Perseroan menyelenggarakan satu kali Rapat Umum Pemegang Saham Tahunan (RUPST) dan dua kali Rapat Umum Pemegang Saham Luar Biasa (RUPSLB).

Dewan Komisaris
Board of Commissioners

Dalam penerapan tata kelola perusahaan yang baik, Dewan Komisaris memiliki peran utama dalam mengawasi kebijakan dan pengelolaan Perseroan yang dijalankan oleh Direksi. Sebagai salah satu organ utama dalam struktur Perseroan, Dewan Komisaris bertanggung jawab memastikan bahwa setiap keputusan dan operasional Perseroan telah sesuai dengan prinsip-prinsip GCG serta peraturan perundang-undangan yang berlaku. Hal ini dilakukan oleh Dewan Komisaris dengan memberikan arahan-arahan kepada Direksi melalui mekanisme-mekanisme yang ditetapkan dalam Anggaran Dasar dan peraturan perundang-undangan yang berlaku.

In the implementation of good corporate governance (GCG), the Board of Commissioners plays a key role in overseeing the policies and management activities carried out by the Board of Directors. As one of the Company's main organs, the Board of Commissioners is responsible for ensuring that all corporate decisions and operations align with GCG principles and comply with applicable laws and regulations. This oversight is carried out by providing strategic direction to the Board of Directors through mechanisms outlined in the Company's Articles of Association and relevant legal frameworks.

PEDOMAN KERJA DEWAN KOMISARIS

Dewan Komisaris Perseroan telah memiliki Piagam Dewan Komisaris (*Board Manual*) yang ditetapkan pada 10 April 2019. Piagam ini menjadi acuan dalam melaksanakan tugas, tanggung jawab dan wewenangnya untuk mengawasi jalannya usaha sekaligus memenuhi kepentingan para pemangku kepentingan.

Untuk mengetahui lebih lengkap mengenai piagam Dewan Komisaris, dapat dilihat pada situs web Perseroan di link berikut: https://cms.ssms.co.id/assets/pages-assets/our-gcg-charter/document_20240502115248.pdf

BOARD OF COMMISSIONERS' CHARTER

The Company's Board of Commissioners has established a Board of Commissioners Charter (Board Manual), which was enacted on April 10, 2019. This Charter serves as a guideline for carrying out the duties, responsibilities, and authorities of the Board of Commissioners in supervising the Company's business operations while also protecting the stakeholder interests.

For more detailed information regarding the Board of Commissioners Charter, please refer to the Company's website at the following link: https://cms.ssms.co.id/assets/pages-assets/our-gcg-charter/document_20240502115248.pdf

TUGAS DAN TANGGUNG JAWAB DEWAN KOMISARIS

Berdasarkan Piagam Kerja Dewan Komisaris yang dapat dilihat pada https://cms.ssms.co.id/assets/pages-assets/our-gcg-charter/document_20240502115248.pdf.

Tugas dan Tanggung Jawab Dewan Komisaris Perseroan, antara lain:

1. Dewan Komisaris bertanggung jawab penuh atas pengawasan pengelolaan Perseroan oleh Direksi, termasuk untuk memberi nasihat kepada Direksi.
2. Membentuk Komite Audit dan komite-komite lainnya guna mendukung efektifitas pelaksanaan tugas.
3. Pada setiap akhir tahun buku, melakukan evaluasi terhadap kinerja komite-komite yang disebutkan pada ayat 2.
4. Menghadiri RUPS tahunan dan RUPS lainnya sesuai peraturan perundang-undangan dan Anggaran Dasar.
5. Dalam hal Perseroan tidak memiliki seorangpun anggota Direksi, Dewan Komisaris wajib untuk sementara mengurus Perseroan.
6. Anggota Dewan Komisaris bertanggung jawab secara tanggung renteng atas kerugian Perseroan yang disebabkan oleh kesalahan atau kelalaian anggota Dewan Komisaris dalam menjalankan tugasnya.

DUTIES AND RESPONSIBILITIES OF THE BOARD OF COMMISSIONERS

Based on Board of Commissioners Charter which can be seen at https://cms.ssms.co.id/assets/pages-assets/our-gcg-charter/document_20240502115248.pdf,

Duties and Responsibilities of the Company's Board of Commissioners, among others :

1. The Board of Commissioners is fully responsible for supervision of the management of the Company by the Board of Directors, including to advise the Board of Directors.
2. Establish Audit Committees and other committees to support the effectiveness of task implementation.
3. At the end of each financial year, evaluate the performance of the committees mentioned in paragraph 2.
4. Attending the Annual General Meeting of Shareholders and other GMS in accordance with the laws and the Articles of Association.
5. In the event that the Company does not have any member of the Board of Directors, the Board of Commissioners shall temporarily administer the Company.
6. The members of the Board of Commissioners are jointly responsible for the Company's losses caused by errors or omissions of members of the Board of Commissioners in performing their duties.

7. Anggota Dewan Komisaris tidak dapat diminta pertanggungjawaban sebagaimana dimaksud pada ayat 1 jika dapat membuktikan:
   a. kerugian tersebut bukan karena kesalahan atau kelalaiannya;
   b. telah melakukan pengawasan dengan itikad baik, penuh tanggung jawab, dan kehati-hatian untuk kepentingan Perseroan;
   c. tidak mempunyai benturan kepentingan baik langsung maupun tidak langsung atas tindakan pengawasan yang mengakibatkan kerugian; dan
   d. telah mengambil tindakan untuk mencegah timbul atau berlanjutnya kerugian tersebut.

Pembagian Tugas Dewan Komisaris

Dewan Komisaris menetapkan pembagian tugas dan tanggung jawab secara mandiri di antara anggota. Fokus pengawasan setiap anggota disesuaikan dengan peran sebagai Ketua atau Wakil Ketua Komite Penunjang Dewan Komisaris, berdasarkan kompetensi dan pengalaman masing-masing untuk memastikan efektivitas pengawasan dan kelancaran tata kelola perusahaan.

Sebagai pemimpin dan koordinator utama, Komisaris Utama berperan penting dalam memastikan tugas dan tanggung jawab Dewan Komisaris berjalan sesuai dengan prinsip GCG. Adapun tugas dan tanggung jawab Komisaris Utama Perseroan meliputi:

1. Mengoordinasikan pelaksanaan tugas dan tanggung jawab Dewan Komisaris;
2. Mengusulkan pelaksanaan rapat Dewan Komisaris, termasuk menyusun agenda rapat;
3. Melakukan pemanggilan dan memimpin rapat Dewan Komisaris; serta
4. Memastikan hasil rapat dan rekomendasi Dewan Komisaris diimplementasikan oleh Direksi, sejalan dengan kepentingan Perseroan dan Pemegang Saham.

Dengan pembagian tugas yang jelas dan peran Komisaris Utama sebagai koordinator, Dewan Komisaris dapat menjalankan fungsinya secara lebih efektif dan terarah, mendukung pertumbuhan berkelanjutan Perseroan melalui pengawasan yang ketat dan pengambilan keputusan yang tepat.

Pendelegasian Wewenang Dewan Komisaris

Pendelegasian wewenang oleh seorang anggota Dewan Komisaris kepada anggota Dewan Komisaris lainnya dilakukan melalui surat kuasa khusus sesuai kebutuhan. Meski demikian, pendelegasian ini tidak mengurangi tanggung jawab kolektif Dewan Komisaris atas pelaksanaan tugasnya.

7. A member of the Board of Commissioners shall not be held accountable as referred to in paragraph 1 if it can prove:
   a. the loss is not due to any errors or omissions;
   b. has conducted supervision in good faith, full of responsibility, and prudence for the benefit of the Company;
   c. has no direct or indirect conflicts of interest over the control measures resulting in a loss; and
   d. has taken action to prevent the occurrence or extent of such losses.

Segregation of Duties of The Board of Commissioners

The Board of Commissioners independently establishes division of duties and responsibilities among members. The supervision focus of each member is adjusted to the role as Chairman or Vice Chairman of Supporting Committee of Board of Commissioners, based on respective competence and experience to ensure effectiveness of supervision and smooth corporate governance.

As the leader and chief coordinator, President Commissioner has a vital role to ensure the duties and responsibilities of the Board of Commissioners are carried out in accordance with GCG principles. The duties and responsibilities of the Company's President Commissioner include:

1. Coordinating the implementation of the duties and responsibilities of the Board of Commissioners;
2. Proposing the implementation of Board of Commissioners meetings, including preparing the meeting agenda;
3. Inviting and leading Board of Commissioners meeting; and
4. Ensuring the meeting resolutions and recommendations of the Board of Commissioners are implemented by the Board of Directors, in line with the interests of the Company and its Shareholders.

With clear division of duties and the role of President Commissioner as coordinator, the Board of Commissioners is able to perform its functions more effectively and in a focused manner, thereby supporting the Company's sustainable growth through strict supervision and appropriate decision-making.

Delegation of Board of Commissioners Authority

Delegation of authority given by a member of the Board of Commissioners to other members of the Board of Commissioners is carried out through a special power of attorney for such purpose. This delegation of authority does not abdicate the responsibility of the Board of Commissioners collectively.

KEANGGOTAAN DEWAN KOMISARIS

Di tahun 2025, anggota Dewan Komisaris Perseroan terdiri dari tiga orang anggota, termasuk diantaranya adalah Komisaris Independen. Jumlah ini telah memenuhi ketentuan Peraturan OJK No. 33/POJK.04/2014 tentang tentang Direksi dan Dewan Komisaris untuk Emiten atau Perusahaan Publik ("POJK No 33").

PENILAIAN KINERJA DEWAN KOMISARIS

Prosedur dan Kriteria Penilaian

Penilaian kinerja Dewan Komisaris dilakukan berdasarkan kriteria yang disusun secara mandiri oleh Dewan Komisaris. Penilaian ini dilaksanakan setiap akhir tahun buku, dan hasilnya disampaikan dalam RUPS.

Kriteria penilaian mencakup unsur-unsur yang telah disepakati dalam Rencana Kerja Tahunan (RKT), meliputi:

1. Tingkat kehadiran dalam rapat;
2. Kontribusi di dalam proses pengambilan keputusan;
3. Keterlibatan dalam penugasan tertentu; serta
4. Komitmen untuk memajukan kepentingan Perseroan.

Hasil Penilaian

Berdasarkan hasil penilaian kinerja tahun 2025, Dewan Komisaris dinyatakan telah menjalankan tugas dan tanggung jawab sesuai ketentuan yang berlaku. Hasil penilaian ini menjadi dasar untuk:

1. Memberikan pelunasan dan pembebasan sepenuhnya (*volledig acquit et de charge*);
2. Menentukan struktur dan besaran remunerasi Dewan Komisaris; serta
3. Menetapkan langkah perbaikan yang perlu dilakukan oleh Dewan Komisaris untuk periode selanjutnya.

PERFORMANCE ASSESSMENT OF THE BOARD OF COMMISSIONERS

Assessment Procedure, and Criteria

The performance assessment of the Board of Commissioners is conducted based on the criteria independently established by the Board of Commissioners. This assessment is carried out at the end of every fiscal year and the results are submitted at the GMS.

The assessment criteria include the elements already agreed in the Annual Work Plan (RKT), as follows:

1. Attendance rate in meetings;
2. Contributions in the decision-making process;
3. Involvement in certain assignments; and
4. Commitment to prioritize the Company's interests.

Assessment Result

Based on the 2025 performance assessment result, the Board of Commissioners is considered to have carried out the duties and responsibilities according to the applicable provisions. The assessment results are used as the basis to:

1. Give full release and discharge (volledig acquit et de charge);
2. Determine the remuneration structure and amount for the Board of Commissioners; and
3. Determine the corrective steps to be taken by the Board of Commissioners for the subsequent period.

PENILAIAN KINERJA KOMITE PENDUKUNG TUGAS DEWAN KOMISARIS

Dewan Komisaris melaksanakan tugasnya dengan didukung oleh Komite Audit, dan Komite Nominasi dan Remunerasi. Setiap Komite memiliki kriteria penilaian sesuai dengan tugas, tanggung jawab, target, dan realisasi pencapaian.

Prosedur Penilaian

Penilaian kinerja Komite Pendukung Dewan Komisaris dilakukan 1 (satu) kali dalam 1 (satu) tahun periode penilaian, di mana Dewan Komisaris melakukan evaluasi dan penilaian tahunan atas pelaksanaan tugas dari seluruh komite-komite tersebut.

Penilaian kinerja anggota komite dilaksanakan secara berkala oleh Dewan Komisaris, baik secara kolektif maupun secara individu dengan menggunakan metode penilaian yang ditetapkan dalam keputusan Dewan Komisaris.

Kriteria Penilaian

Kriteria penilaian komite-komite tersebut didasarkan pada:

1. Pelaksanaan tugas dan tanggung jawab selama tahun berjalan sebagaimana diatur dalam pedoman atau piagam masing-masing komite serta kebijakan internal Perseroan;
2. Tingkat kehadiran dalam masing-masing rapat komite;
3. Kemampuan bekerja sama dan berkomunikasi secara aktif sesama anggota Komite;
4. Integritas;
5. Kemampuan memahami Visi, Misi, dan Rencana Strategis Perseroan; serta
6. Kualitas atas saran/rekomendasi yang diberikan terkait program kerja masing-masing Komite Penunjang Dewan Komisaris.

Hasil Penilaian

Sepanjang tahun 2025, Dewan Komisaris menilai bahwa pelaksanaan tugas oleh Komite Audit, Komite Nominasi dan Remunerasi, telah dilaksanakan dengan baik sesuai dengan kriteria yang ditetapkan.

Komite Audit mendukung Dewan Komisaris dalam memantau perencanaan dan pelaksanaan audit, serta menilai kecukupan pengendalian internal. Sementara itu, Komite Nominasi dan Remunerasi membantu Dewan Komisaris dalam menganalisis data calon anggota Direksi yang memenuhi syarat, serta mengusulkan sistem remunerasi yang sesuai.

PERFORMANCE ASSESSMENT OF THE BOARD OF COMMISSIONERS' SUPPORTING COMMITTEES

The Board of Commissioners carries out its duties supported by the Audit Committee and Nomination and Remuneration Committee. Each Committee has an assessment criteria in accordance with its duties, responsibilities, targets, and achievement realization.

Assessment Procedures

Performance assessment of the Supporting Committees to the Board of Commissioners is carried out 1(one) in 1(one) year, where the Board performs an annual evaluation and assessment of the implementation of duties by all three committees.

The performance assessment of committee members is carried out collectively or individually using the assessment method stipulated in the decision of the Board of Commissioners.

Assessment Criteria

The assessment criteria for those committees include:

1. Implementation of duties and responsibilities during the year as stipulated in the respective committee charters or guidelines, as well as the Company's internal policies;
2. Attendance rate in each committee meeting;
3. Ability to cooperate and communicate actively among Committee members;
4. Integrity;
5. Ability to understand the Company's Vision, Mission, and Strategic Plan; and
6. Quality of suggestions/recommendations given regarding the work program of each Supporting Committee of the Board of Commissioners.

Assessment Result

In 2025, the Board of Commissioners assessed that the performance of duties by the Audit Committee and the Nomination and Remuneration Committee, throughout the year has been satisfactorily fulfilled in accordance with the established criteria.

The Audit Committee supported the Board of Commissioners in monitoring the plan and implementation of audit, as well as assessing the adequacy of internal control. Meanwhile, the Nomination and Remuneration Committee assisted the Board of Commissioners in analyzing the eligible prospective members of the Board of Directors, and proposing the appropriate remuneration system.

Direksi
Board of Directors

Direksi merupakan organ utama Perseroan yang bertanggung jawab penuh atas pengelolaan perusahaan serta memastikan penerapan tata kelola yang baik di seluruh lini bisnis. Dalam menjalankan tugasnya, Direksi tidak hanya memastikan kepatuhan terhadap regulasi dan prinsip tata kelola yang berlaku, tetapi juga menjalin hubungan sinergis dengan Dewan Komisaris guna memastikan efektivitas pengawasan yang transparan dan akuntabel. Selain itu, Direksi berperan dalam merumuskan strategi bisnis serta mengelola dampak ekonomi, lingkungan, dan sosial, dengan menyeimbangkan ketiga aspek tersebut demi keberlanjutan operasional Perseroan.

The Board of Directors is the Company's primary organ, holding full responsibility for managing the Company and ensuring the implementation of good corporate governance across all business operations. In performing their duties, the Board of Directors not only ensures compliance with relevant governance regulations and principles, but also fosters synergistic relationships with the Board of Commissioners to ensure transparent and accountable oversight. Additionally, the Board of Directors plays a pivotal role in formulating business strategies and managing the economic, environmental, and social impacts of the Company, balancing these three aspects to ensure sustainability of the Company's operations.

Pelaksanaan

Perseroan mengadakan pelatihan bagi Direksi, termasuk program orientasi/pengenalan Perseroan bagi Anggota Direksi baru yang dilakukan guna memberikan pemahaman mengenai tugas dan tanggung jawab sebagai anggota Direksi agar dijalankan dengan sebaik-baiknya. Program pengenalan diberikan dalam bentuk presentasi, pertemuan, kunjungan ke fasilitas Perseroan atau program lainnya.

Di tahun 2025, Perseroan melaksanakan program pengenalan kepada Direksi baru, yaitu Tuan Jahja Tanudjaja Adelai dan Tuan Roshan Chakravarthy Valautham. Adapun untuk Tuan Henky Satrio Wibowo, Perseroan tidak menyelenggarakan program orientasi/pengenalan Perseroan kepada beliau dikarenakan beliau merupakan mantan Kepala Unit Keberlanjutan Perseroan yang diangkat menjadi Direktur Keberlanjutan.

Berikut pelatihan Direksi di tahun 2025:

Implementation

The Company conducted training programs for the Board of Directors, including an orientation/induction program for new member of the Board of Directors. This program is designed to provide a comprehensive understanding of their roles and responsibilities to ensure effective execution of their duties. The orientation is delivered through presentations, meetings, site visits to the Company's facilities, and other relevant programs.

In 2025, the Company conducted an induction program for new members of the Board of Directors, namely Mr Jahja Tanudjaja Adelai and Mr Roshan Chakravarthy Valautham. For Mr Henky Satrio Wibowo, the Company did not conduct an induction program due to Mr Henky Satrio Wibowo previously served as the Company's Head of Sustainability Department prior to being appointed as Director of Sustainability.

Uraian Tugas Description of Duties	**Realisasi Tahun 2025** 2025 Realization
Direksi bertanggung jawab penuh atas pengelolaan Perseroan. The Board of Directors is fully responsible for the management of the Company.	Direksi menjalankan tugas dengan penuh tanggung jawab dalam mengelola Perseroan sesuai pedoman dan peraturan yang berlaku. Hal ini dapat dilihat dari Laporan Tahunan dan Laporan Keuangan Perseroan. The Board of Directors carried out its duties with full responsibility in managing the Company according to the applicable guidelines and regulations. It can be seen from the Company's Annual Report and Financial Statement.
Direksi menjalankan Perseroan sesuai dengan kewenangan dan tanggung jawabnya sebagaimana diatur dalam Anggaran Dasar, Pedoman Tata Kelola dan Piagam Direksi. The Board of Directors carry out the Company according to its authority and responsibility as regulated in the Articles of Association, Governance Guidelines and Board of Directors Charter.	Direksi telah menjalankan kewenangannya sesuai Anggaran Dasar, Pedoman Tata Kelola dan Piagam Direksi. Di tahun 2025, Direksi telah mengeluarkan 5 Keputusan Direksi terkait dengan Keputusan strategis di bidang keuangan, pengembangan, operasional, sumber daya manusia, keberlanjutan, pemasaran dan CSR. Selain itu, Direksi juga telah melakukan beberapa tindakan yang memerlukan persetujuan tertulis dari Dewan Komisaris, diantaranya: 1. Rancangan Rencana Kerja dan Anggaran Perusahaan (RKAP). 2. Rencana RUPS Tahun Buku 2024 yang dilaksanakan pada 21 April 2025. 3. Aksi korporasi berupa pembelian aset yang sifatnya penting. 4. Transaksi pinjaman dari Perseroan kepada pihak terafiliasi, PT Sawit Mandiri Lestari. 5. Transaksi pinjaman yang jumlahnya melebihi 20% dari keseluruhan modal ditempatkan dan disetor penuh oleh Perseroan. The Board of Directors has exercised its authority according to the Articles of Association, Governance Guidelines and Board of Directors Charter. In 2025, the Board of Directors has issued 5 Decisions of the Board of Directors related to strategic decisions in the fields of finance, development, operations, human resources, sustainability, marketing and CSR. In addition, the Board of Directors has undertaken several actions requiring written approval from the Board of Commissioners, including the following: 1. The Draft Annual Work Plan and Budget (RKAP). 2. The plan for the General Meeting of Shareholders for the 2024 Financial Year, held on April 21, 2025. 3. A corporate action in the form of the acquisition of material assets. 4. A loan transaction from the Company to an affiliated party, PT Sawit Mandiri Lestari. 5. Menghadiri rapat, baik rapat Direksi, rapat gabungan dengan Dewan Komisaris, maupun Rapat Umum Pemegang Saham (RUPS) Attending meeting, either Board of Directors meeting, joint meeting with Commissioners, or General Meeting of Shareholders (GMS)	Direksi Perseroan telah melaksanakan 12 rapat Direksi, 4 (empat) rapat gabungan dengan Dewan Komisaris, dan 3 (tiga) Rapat Umum Pemegang Saham dengan tingkat kehadiran keseluruhan rapat rata-rata 78%. Rendahnya tingkat kehadiran Direksi dalam rapat dikarenakan adanya anggota Direksi baru yang efektif pada 21 April 2025 dan 30 Oktober 2025, sehingga efektivitas tingkat kehadiran rapat anggota Direksi tidak optimal. Anggota Direksi juga menghadiri seluruh RUPS yang diselenggarakan di tahun 2025, baik RUPST, RUPSLB, maupun RUPS Independen, namun tingkat kehadirannya belum optimal dikarenakan adanya anggota Direksi baru yang efektif pada 21 April 2025 dan 30 Oktober 2025. The Company's Board of Directors held 12 Board of Directors meetings, 4 (four) joint meetings with the Board of Commissioners, and 3 (three) General Meetings of Shareholders, with an overall average attendance rate of 78%. The relatively low attendance rate of the Board of Directors in these meetings was due to the appointment of new members of the Board of Directors, which became effective on 21 April 2025 and 30 October 2025, resulting in less optimal meeting attendance effectiveness. Member of the Board of Directors also attended all General Meetings of Shareholders held in 2025, including the Annual GMS (AGMS), the Extraordinary GMS (EGMS), and the Independent GMS, however, the attendance rate was not yet optimal due to the appointment of new members of the Board of Directors, which became effective on 21 April 2025 and 30 October 2025.
Direksi harus menindaklanjuti temuan audit dan rekomendasi yang dibuat oleh unit kerja audit internal Perseroan dan auditor eksternal, dan hasil pengawasan oleh Otoritas Jasa Keuangan dan/atau otoritas pengawas lainnya. The Board of Directors shall follow up audit findings of and recommendations made by the Company's internal audit work unit and external auditor, and supervision results by Financial Services Authority and/or other overseeing authorities.	Di tahun 2025, jumlah audit report sebanyak 126 laporan. Direksi mengadakan rapat berkala dengan Unit Audit Internal untuk membahas temuan, rekomendasi, serta prioritas tindakan yang harus diambil. Hingga akhir tahun 2025, jumlah Audit Report yang telah ditindaklanjuti oleh Direksi sudah 100%. In 2025, the number of audit reports will be 126 reports. Prosedur Nominasi

Berikut adalah tahapan nominasi Dewan Komisaris dan Direksi Perseroan:

NOMINATION OF THE BOARD OF COMMISSIONERS AND DIRECTORS

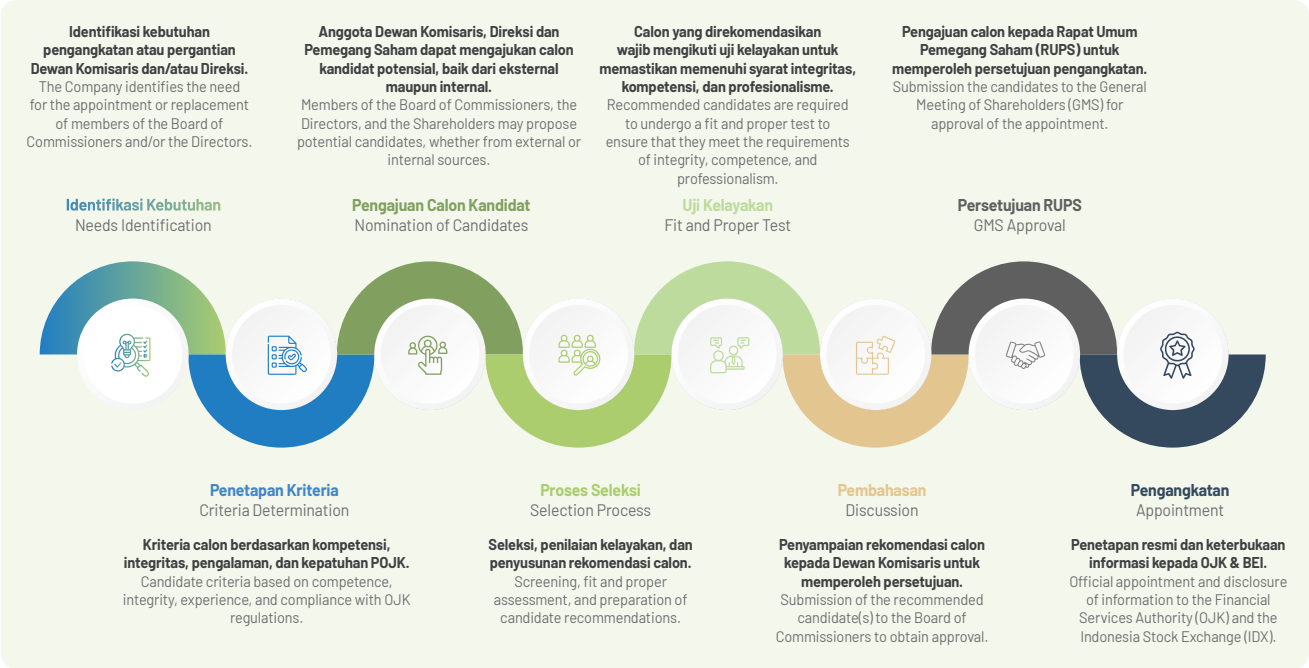

Nomination Policy

The nomination policy relating to the Company's Board of Commissioners and Directors refers to the Articles of Association, Company Law No. 40 of 2007, Financial Services Authority Regulation No. 33/POJK.04/2014 concerning the Directors and Commissioners of Issuers or Public Companies, Financial Services Authority Regulation No. 34/POJK.04/2014 concerning the Nomination and Remuneration Committee of Issuers or Public Companies, Financial Services Authority Regulation No. 21/POJK.04/2015 concerning the Implementation of Corporate Governance Guidelines for Public Company, and other applicable regulations.

This policy establishes the nomination function carried out by the Company's Board of Commissioners, assisted by the Nomination and Remuneration Committee, with the final decision made through the GMS.

Nomination Procedures

The following are the stages of the nomination process for the Company's Board of Commissioners and Directors:

Prosedur Nominasi di atas melibatkan peran dan tanggung jawab beberapa organ Perseroan, di antaranya:

1. Komite Nominasi dan Remunerasi
   Bertanggung jawab atas:
   a. Penyusunan dan penelaahan kriteria nominasi
   b. Pelaksanaan proses seleksi dan evaluasi calon
   c. Penyampaian rekomendasi calon kepada Dewan Komisaris

2. Dewan Komisaris
   Bertanggung jawab untuk:
   a. Menelaah dan menyetujui rekomendasi calon
   b. Mengusulkan calon Dewan Komisaris dan/atau Direksi kepada RUPS

3. Rapat Umum Pemegang Saham Memiliki kewenangan untuk:
   a. Menyetujui pengangkatan anggota Dewan Komisaris dan Direksi

Hingga saat ini fungsi nominasi masih dilakukan oleh Dewan Komisaris. Hal ini dikarenakan belum optimalnya kinerja Komite Nominasi dan Remunerasi, mengingat komite ini baru terbentuk kembali di pertengahan tahun 2024.

Kebijakan Suksesi Direksi

Perseroan menjalankan proses suksesi untuk memastikan keberlanjutan kepemimpinan dan pengisian posisi strategis Direksi dengan kandidat yang profesional, berintegritas, dan kompeten. Proses ini mengacu pada Anggaran Dasar dan Peraturan Otoritas Jasa Keuangan No. 33/POJK.04/2014 tentang Direksi dan Dewan Komisaris Emiten atau Perusahaan Publik. Dalam implementasinya, Perseroan melibatkan Komite Nominasi dan Remunerasi yang berperan aktif dalam memberikan rekomendasi terkait pengangkatan, pemberhentian, dan/atau penggantian anggota Direksi kepada RUPS.

RAPAT KOMITE NOMINASI DAN REMUNERASI

Kebijakan Rapat

Berdasarkan POJK No. 34/POJK.04/2014, Komite Nominasi dan Remunerasi wajib mengadakan rapat secara berkala paling sedikit 1 (satu) kali dalam 4 (empat) bulan.

Pelaksanaan Rapat

Sepanjang tahun 2025, Komite Nominasi dan Remunerasi belum menyelenggarakan rapat. Hal ini dikarenakan fungsi nominasi dan remunerasi masih sepenuhnya dilakukan oleh Dewan Komisaris. Dengan demikian, informasi mengenai pelaksanaan rapat Komite Nominasi dan Remunerasi tidak dapat disajikan dalam laporan ini.

NOMINATION AND REMUNERATION COMMITTEE MEETING

Meeting Policy

Pursuant to OJK Regulation No. 34/POJK.04/2014, the Nomination and Remuneration Committee is required to convene meetings on a regular basis at least 1 (one) every 4 (four) months.

Meeting Implementation

Throughout 2025, the Nomination and Remuneration Committee did not convene any meetings. This was because the nomination and remuneration functions were still fully carried out by the Board of Commissioners. Accordingly, information regarding the implementation of Nomination and Remuneration Committee meetings cannot be presented in this report.

PELATIHAN KOMITE NOMINASI DAN REMUNERASI

Sepanjang tahun 2025, Komite Nominasi dan Remunerasi Perseroan tidak mengikuti program pelatihan atau pengembangan kompetensi khusus. Hal ini dikarenakan Komite Nominasi dan Remunerasi baru dibentuk kembali pada pertengahan tahun 2024 sehingga sepanjang tahun pelaporan Perseroan masih memfokuskan pada proses penyesuaian struktur kerja, penguatan fungsi komite, serta pelaksanaan tugas dan tanggung jawab sesuai dengan ketentuan yang berlaku. Perseroan tetap berkomitmen untuk mendorong peningkatan kompetensi anggota Komite Nominasi dan Remunerasi melalui program pelatihan yang relevan pada periode mendatang.

LAPORAN SINGKAT PELAKSANAAN KEGIATAN KOMITE NOMINASI DAN REMUNERASI

Sepanjang tahun 2025, Komite Nominasi dan Remunerasi belum melaksanakan kegiatan operasional maupun rapat formal. Hal ini disebabkan komite tersebut baru didirikan kembali pada pertengahan tahun 2024, sehingga masih dalam tahap penataan struktur, penyusunan pedoman kerja, serta konsolidasi fungsi. Untuk sementara, pelaksanaan fungsi nominasi dan remunerasi masih dijalankan oleh Dewan Komisaris sesuai dengan ketentuan yang berlaku, sambil mempersiapkan agar Komite Nominasi dan Remunerasi dapat beroperasi secara optimal pada periode berikutnya.

NOMINATION AND REMUNERATION COMMITTEE TRAINING

Throughout 2025, the Company's Nomination and Remuneration Committee did not participate in any specific training or competency development programs. This was due to the fact that the Nomination and Remuneration Committee had only been re-established in mid-2024. During the reporting year, the Company primarily focused on strengthening the committee's working structure, reinforcing its functions, and ensuring the effective implementation of its duties and responsibilities in accordance with applicable regulations. The Company remains committed to supporting the competency development of the Nomination and Remuneration Committee members through relevant training programs in the future.

SUMMARY REPORT OF NOMINATION AND REMUNERATION COMMITTEE ACTIVITIES

Throughout 2025, the Nomination and Remuneration Committee did not conduct any operational activities or formal meetings. This was due to the committee having been re-established only in mid-2024 and still being in the process of structuring its organization, preparing its charter, and consolidating its functions. In the interim, the nomination and remuneration functions continued to be carried out by the Board of Commissioners in accordance with prevailing regulations, while preparing for the Committee to operate optimally in the following period.

Program Kerja Departemen Audit Internal di Tahun 2025

Metodologi Audit

Departemen Audit Internal telah menyusun Program Kerja Pengawasan Tahunan melalui metodologi audit berbasis risiko (*risk based audit*) yang digunakan sejak tahap perencanaan audit tahunan, pelaksanaan audit, hingga pelaporan. Penilaian risiko dilakukan secara menyeluruh, mencakup unit kerja di kantor pusat maupun unit bisnis.

Per 31 Desember 2025 terdapat 126 rekomendasi atau sebesar 100% telah selesai ditindaklanjuti.

Sistem Informasi Manajemen Audit

Sistem Informasi Manajemen Audit dirancang untuk mendukung proses audit internal dengan menyediakan alat dan teknologi yang memungkinkan pengelolaan data, pemantauan, dan pelaporan audit secara efisien. Sistem ini mendukung auditor internal dalam seluruh siklus audit, mulai dari perencanaan, pelaksanaan, hingga tindak lanjut temuan.

Pada tahun 2025, Perseroan belum memiliki sistem ini. Namun, Unit Audit Internal sedang mengkaji implementasi dan pengesahan sistem untuk memastikan penerapannya pada tahun mendatang.

Rapat Departemen Audit Internal

Sejalan dengan regulasi yang berlaku, Departemen Audit Internal mengadakan rapat secara berkala maupun insidentil dengan Direksi, Dewan Komisaris, dan/atau Komite Audit. Rapat tersebut, antara lain membahas tentang hasil temuan Departemen Audit Internal maupun koordinasi terkait dengan rencana audit.

Sepanjang tahun 2025, Departemen Audit Internal Perseroan telah menyelenggarakan dan mengikuti rapat sebanyak 12 (dua belas) kali dengan Direksi dan 4 (empat) kali dan Komite Audit, dengan rincian kehadiran sebagai berikut:

Work Program of Internal Audit Department In 2025

Audhit Methodology

Internal Audit Department has prepared the Annual Supervisory Work Program using a risk-based audit methodology, which is applied from the annual audit planning stage through audit implementation and reporting. The risk assessment is conducted comprehensively, covering both head office and business units.

As of December 31, 2025, there are 126 recommendations or 100% of which have been followed up.

Audit Management Information System

The Audit Management Information System is designed to support the internal audit process by providing tools and technology that enable efficient data management, monitoring, and audit reporting. This system supports internal auditors throughout the entire audit cycle, from planning and execution to the follow-up of audit findings.

In 2025, the Company will not have this system. However, the Internal Audit Unit is reviewing the implementation and ratification of the system to ensure its implementation in the coming year.

Meeting Of Internal Audit Department

Aligned with the applicable regulations, the Internal Audit Department is required to perform regular and/or incidental meetings with the Board of Directors, Board of Commissioners and/or Audit Committee. These meetings, among others, discuss the Internal Audit Department's findings and coordinate audit planning.

Throughout 2025, The Company's Internal Audit Department held 12 (twelve) meetings with the Board of Directors and 4 (four) meetings with the Audit Committee, with the attendance details as follows:

Sistem Pengendalian Internal
Internal Control System

Sistem pengendalian internal adalah mekanisme dan proses yang dirancang untuk membantu perusahaan mencapai tujuan operasional, memastikan keandalan pelaporan keuangan, dan mematuhi kebijakan serta peraturan yang berlaku. Sistem ini melibatkan seluruh tingkatan organisasi, mulai dari karyawan hingga Direksi, guna meminimalkan risiko, mendukung operasional yang efisien dan aman, serta memastikan perlindungan terhadap aset dan kepercayaan pemangku kepentingan.

Perseroan secara aktif mengembangkan dan memperkuat sistem pengendalian internal sesuai dengan Pedoman GCG dan standar internasional yang diakui, seperti kerangka kerja yang dirumuskan oleh The Committee of Sponsoring Organizations of the Treadway Commission (COSO). Dalam implementasinya, Dewan Komisaris dan Direksi berperan dalam pengawasan dan evaluasi untuk memastikan proses bisnis berjalan sesuai dengan prinsip GCG.

KESESUAIAN SISTEM PENGENDALIAN INTERNAL DENGAN COSO

Berdasarkan ketentuan COSO, implementasi pengendalian internal di Perseroan bertujuan untuk mendukung kebutuhan operasional, pelaporan, dan kepatuhan. Tujuan operasional difokuskan pada efektivitas dan efisiensi kegiatan bisnis. Tujuan pelaporan terkait penyusunan laporan keuangan yang andal, tepat waktu, dan transparan sesuai standar yang berlaku. Sementara itu, tujuan kepatuhan menitikberatkan pada kepatuhan terhadap hukum dan peraturan.

Adapun unsur pengendalian internal sesuai dengan kerangka COSO meliputi:
1. Lingkungan pengendalian;
2. Penilaian risiko;
3. Kegiatan pengendalian;
4. Informasi dan komunikasi; serta
5. Kegiatan pemonitoran.

Perseroan menerapkan kelima unsur tersebut dalam proses bisnis melalui 5 komponen utama, yaitu:
1. Pengawasan oleh manajemen dan budaya pengendalian;
2. Identifikasi dan penilaian risiko;
3. Kegiatan pengendalian dan pemisahan fungsi;
4. Sistem akuntansi, informasi, dan komunikasi; dan

Manajemen Risiko
Risk Management

Perseroan memandang manajemen risiko sebagai fondasi penting dalam menjaga stabilitas dan memastikan keberlanjutan usaha. Melalui pendekatan yang terstruktur, setiap potensi risiko diidentifikasi dan dikelola secara terintegrasi di seluruh lini bisnis. Komitmen ini mencerminkan upaya Perseroan dalam menghadapi tantangan, memitigasi risiko, dan memaksimalkan peluang untuk mendukung pencapaian visi dan misi perusahaan.

The Company views risk management as an important foundation in maintaining stability and ensuring business continuity. With a structured approach, every potential risk is identified and managed in an integrated manner in the entire business lines. This commitment reflects the Company's efforts in facing the challenges, mitigating the risks, and maximizing opportunities to support the achievement of the company's vision and mission.

GAMBARAN UMUM

Sistem manajemen risiko diterapkan secara terintegrasi di seluruh lini bisnis untuk mengidentifikasi, mengelola, dan memitigasi berbagai risiko yang dapat memengaruhi kinerja dan keberlanjutan usaha. Langkah ini tidak hanya berfokus pada perlindungan aset perusahaan, tetapi juga membuka peluang untuk meningkatkan efisiensi dan daya saing di tengah dinamika pasar.

Manajemen bertanggung jawab memastikan setiap risiko dipantau dan dievaluasi secara berkala, sehingga kebijakan yang diambil selalu relevan dengan kondisi terkini. Proses ini dilakukan secara sistematis dengan melibatkan seluruh unit kerja, yang memungkinkan risiko diidentifikasi lebih cepat dan mitigasi dilakukan secara efektif.

Sebagai bagian dari penguatan budaya sadar risiko, Perseroan aktif mendorong keterlibatan karyawan dalam proses pengelolaan risiko. Melalui program edukasi dan sosialisasi yang berkelanjutan, karyawan dibekali dengan pemahaman untuk mengidentifikasi potensi risiko dan berkontribusi dalam pelaporan serta penanganannya.

Sementara itu, Kepala Departemen Manajemen Risiko berperan sebagai koordinator utama dalam memastikan sistem ini berjalan sesuai dengan kebijakan yang telah ditetapkan dan sejalan dengan arah strategis perusahaan. Dengan struktur ini, Perseroan yakin dapat mengelola risiko secara efektif dan mendukung pertumbuhan usaha yang berkelanjutan.

GENERAL OVERVIEW

The risk management system is implemented in an integrated manner in the entire business lines to identify, manage, and mitigate various risks that may impact the business' performance and sustainability. This measure not only focus on the protection of company assets, but also opens up opportunities to improve the efficiency and competitiveness amidst the market dynamics.

The management is responsible to ensure that every risk is monitored and evaluated periodically, allowing the policies taken to be constantly relevant with the current conditions. This process is carried out systematically by involving all of the work units, allowing faster identification of the risks and the mitigation is carried out effectively.

As part of the strengthening of the risk-awareness culture, the Company is actively encouraging employee involvement in the risk management process. With continuous education and socialization programs, employees are equipped with the understanding required to identify potential risks and contribute in the reporting and handling.

Meanwhile, Head of the Risk Management Department plays a key role as the lead coordinator in ensuring the system operates in accordance with the established policies and in line with the company's strategic direction. With this structure in place, the Company is confident to be able to manage the risks effectively and support sustainable business growth.

METODOLOGI PENILAIAN RISIKO

Dalam penerapannya, manajemen risiko diintegrasikan ke dalam proses pengambilan keputusan bisnis di seluruh unit kerja Perseroan. Proses ini dilakukan dengan mempertimbangkan dua parameter utama, yaitu tingkat kemungkinan terjadinya risiko (*likelihood*) dan tingkat dampak yang ditimbulkan (*impact*) terhadap kegiatan operasional Perseroan. Pendekatan ini memungkinkan Perseroan untuk memetakan tingkat prioritas risiko secara sistematis serta menetapkan strategi mitigasi yang tepat guna meminimalkan potensi dampak yang dapat timbul.

RISK ASSESSMENT METHODOLOGY

In practice, risk management is integrated into the business decision-making process across all units within the Company. This process considers two main parameters: the likelihood of a risk occurring and its impact on the Company's operations. This approach enables the Company to systematically prioritize risks and determine appropriate mitigation strategies to minimize potential impacts.

Untuk memudahkan visualisasi tingkat risiko, Perseroan menggunakan Risk Heat Map yang memetakan risiko berdasarkan kombinasi antara tingkat kemungkinan terjadinya dan tingkat dampaknya. Hasil pemetaan tersebut kemudian diklasifikasikan ke dalam beberapa tingkat risiko, yaitu *Very Low, Low, Medium, High, dan Very High*, yang divisualisasikan melalui gradasi warna dari hijau hingga merah.

Pendekatan ini membantu manajemen dalam menentukan prioritas pengelolaan risiko secara lebih terstruktur serta memastikan bahwa risiko dengan potensi dampak yang lebih besar memperoleh perhatian yang memadai.

To facilitate risk visualization, the Company uses a Risk Heat Map approach that maps risks based on a combination of likelihood and impact on the Company's operational activities. The results of this assessment are then classified into several risk levels: Very Low, Low, Medium, High, and Very High, visualized through a color gradient ranging from green to red.

This approach helps management prioritize risk management in a more structured way and ensures that risks with greater potential impact receive the attention they deserve.

- Risiko Tata Kelola (Governance Risk)
- Risiko Strategi & Perencanaan (Strategic & Planning Risk)
- Risiko Keuangan (Financial Risk)
- Risiko Operasional Operational Risk
- Risiko Kepatuhan (Compliance Risk)
- Risiko Reputasi (Reputation Risk)

1. Perubahan Iklim dan Emisi GRK (Climate Change and GHG Emissions)
2. Efisiensi Energi dan Energi Terbarukan (Energy Efficiency and Renewable Energy)
3. Pengelolaan Air dan Limbah (Water and Waste Management)
4. Keanekaragaman Hayati (Biodiversity Protection)
5. Kesehatan dan Keselamatan Kerja (Occupational Health and Safety)
6. Kepatuhan terhadap Regulasi (Regulatory Compliance)

Perseroan menggunakan pendekatan *Risk Heat Map* untuk memetakan tingkat risiko berdasarkan kombinasi antara kemungkinan terjadinya risiko (*likelihood*) dan besaran dampaknya terhadap kegiatan operasional Perseroan (*impact*). Melalui pendekatan ini, Perseroan dapat mengidentifikasi prioritas risiko yang memerlukan perhatian dan mitigasi lebih lanjut sehingga pengelolaan risiko dapat dilakukan secara lebih sistematis dan efektif.

The Company implements a Risk Heat Map approach to assess risk levels based on a combination of likelihood and potential impact on its operations. This approach enables the Company to identify priority risks requiring greater attention and mitigation, ensuring that risks are managed in a structured and effective manner.

Risk Identification

PROFIL RISIKO UTAMA

Berdasarkan hasil identifikasi dan pemetaan risiko yang dilakukan secara berkala, Perseroan menetapkan sejumlah risiko utama yang memiliki potensi dampak signifikan terhadap kegiatan operasional dan keberlanjutan usaha Perseroan.

KEY RISK PROFILE

Based on the results of periodic risk identification and assessment, the Company has identified several key risks that could have a significant impact on the Company's operations and long-term sustainability.

No	Profil Risiko Risk Profile	Kategori Risiko Risk Category	Dampak Impact	Upaya Mitigasi Mitigation
1	Perubahan iklim dan emisi GRK Climate Change and GHG Emissions	Risiko Lingkungan Environmental Risk	Berpotensi memengaruhi keberlanjutan operasional serta meningkatkan tekanan regulasi terkait pengendalian emisi. May affect operational sustainability and increase regulatory pressure related to emission control.	Efisiensi energi, pemanfaatan energi terbarukan, serta pemantauan dan pelaporan emisi secara berkala. Energy efficiency initiatives, renewable energy utilization, and regular monitoring and reporting of emissions.
2	Efisiensi energi dan penggunaan energi terbarukan Energy Efficiency and Renewable Energy	Risiko Operasional & Lingkungan Operational & Environmental Risk	Penggunaan energi yang tidak efisien dapat meningkatkan biaya operasional dan intensitas emisi Perseroan. Inefficient energy use may increase operational costs and the Company's emission intensity.	Implementasi program efisiensi energi dan optimalisasi pemanfaatan energi terbarukan. Implementation of energy efficiency programs and optimization of renewable energy utilization.
3	Pengelolaan air dan limbah Water and Waste Management	Risiko Lingkungan Environmental Risk	Pengelolaan air dan limbah yang tidak optimal dapat menimbulkan dampak lingkungan serta risiko ketidakpatuhan terhadap regulasi. Inadequate water and waste management may lead to environmental impacts and regulatory non-compliance risks.	Penerapan sistem pengolahan limbah serta pemantauan kualitas lingkungan secara berkala. Implementation of waste treatment systems and periodic environmental monitoring.
4	Keanekaragaman hayati dan dampak lingkungan Biodiversity and Environmental Impact	Risiko Lingkungan Environmental Risk	Gangguan terhadap ekosistem dapat memengaruhi keberlanjutan lingkungan serta reputasi Perseroan. Ecosystem disturbance may affect environmental sustainability and the Company's reputation.	Implementasi program konservasi dan perlindungan kawasan bernilai konservasi tinggi (HCV). Implementation of conservation programs and protection of High Conservation Value (HCV) areas.
5	Kesehatan dan keselamatan kerja Occupational Health and Safety	Risiko Operasional Operational Risk	Risiko kecelakaan kerja dapat memengaruhi keselamatan pekerja serta kelangsungan operasional Perseroan. Workplace accidents may affect employee safety and operational continuity.	Penerapan sistem manajemen K3 serta pelatihan keselamatan kerja secara berkala. Implementation of OHS management systems and regular safety training.
6	Kepatuhan terhadap regulasi Regulatory Compliance	Risiko Kepatuhan Compliance Risk	Ketidakpatuhan terhadap regulasi dapat menimbulkan sanksi hukum dan risiko reputasi bagi Perseroan. Non-compliance with regulations may lead to legal sanctions and reputational risks.	Penguatan sistem kepatuhan serta pemantauan perkembangan regulasi secara berkala. Strengthening compliance systems and monitoring regulatory developments.

Risiko-risiko tersebut mencerminkan dinamika industri kelapa sawit serta meningkatnya perhatian terhadap aspek lingkungan, sosial, dan tata kelola (Environmental, Social, and Governance/ESG) yang menjadi bagian penting dalam praktik usaha berkelanjutan.

These risks reflect the dynamics of the palm oil industry and the increasing focus on environmental, social and governance (ESG) aspects, which are essential elements of sustainable business practices.

Selain itu, profil risiko Perseroan juga mencerminkan semakin pentingnya pengelolaan risiko terkait perubahan iklim dan keberlanjutan dalam kegiatan usaha Perseroan. Isu-isu seperti emisi gas rumah kaca, efisiensi energi, pengelolaan sumber daya alam, serta keberlanjutan rantai pasok menjadi perhatian utama seiring meningkatnya tuntutan global terhadap praktik produksi kelapa sawit yang bertanggung jawab. Oleh karena itu, Perseroan secara bertahap mengintegrasikan pengelolaan risiko keberlanjutan ke dalam proses pengambilan keputusan strategis serta pengelolaan operasional di seluruh unit usaha.

Dalam implementasinya, Perseroan juga terus memperkuat berbagai inisiatif keberlanjutan, termasuk peningkatan efisiensi energi, pengelolaan limbah dan sumber daya air secara bertanggung jawab, serta perlindungan keanekaragaman hayati di wilayah operasional. Upaya ini tidak hanya bertujuan untuk memitigasi potensi risiko lingkungan dan sosial, tetapi juga untuk mendukung terciptanya nilai jangka panjang bagi Perseroan dan para pemangku kepentingan.

PENGUATAN PENGELOLAAN RISIKO ESG UTAMA

Sejalan dengan karakteristik industri kelapa sawit yang sangat bergantung pada sumber daya alam serta meningkatnya perhatian global terhadap praktik usaha yang bertanggung jawab, sebagian besar profil risiko Perseroan berkaitan dengan aspek lingkungan, sosial, dan tata kelola (Environmental, Social, and Governance/ESG). Risiko-risiko tersebut mencakup antara lain perubahan iklim dan emisi gas rumah kaca, efisiensi energi, pengelolaan sumber daya air dan limbah, perlindungan keanekaragaman hayati, serta dampak sosial terhadap masyarakat sekitar.

Risiko-risiko tersebut menjadi perhatian utama Perseroan karena berpotensi memengaruhi keberlanjutan operasional, kepatuhan terhadap regulasi, serta reputasi Perseroan di tingkat nasional maupun global. Selain itu, meningkatnya tuntutan pasar terhadap produk kelapa sawit yang berkelanjutan turut mendorong Perseroan untuk memperkuat penerapan praktik keberlanjutan di seluruh kegiatan operasional dan rantai pasok.

Dalam rangka mengelola risiko-risiko tersebut, Perseroan terus memperkuat berbagai inisiatif keberlanjutan, termasuk peningkatan efisiensi energi, pemanfaatan energi terbarukan, pengelolaan limbah secara bertanggung jawab, perlindungan kawasan bernilai konservasi tinggi, serta penguatan hubungan dengan masyarakat dan pemangku kepentingan. Pendekatan ini menjadi bagian dari strategi Perseroan dalam memastikan keberlangsungan usaha serta menciptakan nilai jangka panjang bagi para pemangku kepentingan.

In addition, the Company's risk profile reflects the increasing importance of managing climate-related and sustainability risks within the Company's business operations. Issues such as greenhouse gas emissions, energy efficiency, natural resource management, and sustainable supply chains have become key areas of focus amid growing global expectations for responsible palm oil production. Accordingly, the Company gradually integrates sustainability risk management into its strategic decision-making processes and operational management across all business units.

In practice, the Company continues to strengthen various sustainability initiatives, including improving energy efficiency, implementing responsible waste and water resource management, and protecting biodiversity within its operational areas. These efforts aim not only to mitigate potential environmental and social risks but also to support the creation of long-term value for the Company and its stakeholders.

STRENGTHENING THE MANAGEMENT OF KEY ESG RISKS

In line with the characteristics of the palm oil industry, which heavily depends on natural resources, and the increasing global attention toward responsible business practices, a significant portion of the Company's risk profile relates to environmental, social, and governance (ESG) aspects. These risks include climate change and greenhouse gas emissions, energy efficiency, water and waste management, biodiversity protection, and social impacts on surrounding communities.

These risks are a key concern for the Company as they may affect operational sustainability, regulatory compliance, and the Company's reputation at both national and global levels. Furthermore, the growing market demand for sustainably produced palm oil products encourages the Company to strengthen the implementation of sustainability practices across its operations and supply chain.

To address these risks, the Company continues to strengthen various sustainability initiatives, including improving energy efficiency, utilizing renewable energy, implementing responsible waste management practices, protecting areas with High Conservation Value (HCV), and strengthening engagement with communities and stakeholders. This approach forms part of the Company's strategy to ensure business continuity while creating long-term value for stakeholders.

Top ESG Risk

PT Sawit Sumbermas Sarana Tbk

Perseroan secara berkelanjutan memantau dan mengelola risiko ESG utama guna memastikan keberlangsungan operasional serta mendukung penerapan praktik usaha yang bertanggung jawab.
The Company continuously monitors and manages its key ESG risks to ensure operational resilience and support responsible business practices.

INTEGRASI RISIKO PERUBAHAN IKLIM

Perseroan menyadari bahwa perubahan iklim merupakan salah satu faktor eksternal yang dapat memengaruhi keberlanjutan operasional industri kelapa sawit dalam jangka panjang. Risiko tersebut antara lain berkaitan dengan perubahan pola curah hujan, peningkatan suhu, serta potensi dampak terhadap produktivitas tanaman dan pengelolaan sumber daya air.

Oleh karena itu, Perseroan secara bertahap mulai mengintegrasikan pertimbangan risiko terkait perubahan iklim ke dalam proses manajemen risiko dan pengambilan keputusan strategis. Pendekatan ini mencakup upaya pengurangan emisi gas rumah kaca, peningkatan efisiensi energi, pemanfaatan sumber energi terbarukan, serta penerapan praktik pengelolaan perkebunan yang berkelanjutan.

Melalui langkah-langkah tersebut, Perseroan berupaya untuk meningkatkan ketahanan operasional terhadap potensi dampak perubahan iklim sekaligus mendukung upaya global dalam mitigasi perubahan iklim dan pengelolaan lingkungan yang berkelanjutan.
Tinjauan atas Efektivitas Sistem Manajemen Risiko.

Efektivitas pelaksanaan manajemen risiko diwujudkan melalui komitmen Perseroan untuk melaksanakan prinsip tata kelola dan sistem pengendalian internal secara menyeluruh. Perseroan menerapkan strategi mitigasi risiko secara komprehensif yang melibatkan unit operasional secara khusus.

Pada tahun 2025, sistem manajemen risiko yang diterapkan Perseroan telah berjalan cukup efektif dan efisien dengan secara berkelanjutan memitigasi risiko yang kemungkinan timbul. Manajemen Perseroan selalu menjalankan kepatuhan dan bersama seluruh unit melaksanakan standar prosedur operasional serta membangun tingkat kesadaran setiap insan Perseroan dan pemangku kepentingan lainnya atas penerapan strategi yang dirancang untuk memitigasi risiko.

INTEGRATION OF CLIMATE-RELATED RISKS

The Company recognizes that climate change represents one of the external factors that may affect the long-term sustainability of the palm oil industry. These risks include changes in rainfall patterns, rising temperatures, and potential impacts on crop productivity and water resource management.

Therefore, the Company has gradually begun integrating climate-related risk considerations into its risk management processes and strategic decision-making. This approach includes efforts to reduce greenhouse gas emissions, improve energy efficiency, utilize renewable energy sources, and implement sustainable plantation management practices.

Through these measures, the Company aims to enhance operational resilience against potential climate-related impacts while contributing to global efforts to mitigate climate change and promote sustainable environmental management.

Review of the effectiveness of the Risk Management System The effectiveness of risk management implementation is reflected in the Company's commitment to applying governance principles and internal control systems comprehensively. The Company implements a comprehensive risk mitigation strategy that specifically involves operational units.

In 2025, the Company's risk management system operated fairly effectively and efficiently in continuously mitigating potential risks. The Company's management consistently upholds compliance and, together with all units, implements standard operating procedures while fostering awareness among all employees and other stakeholders regarding the implementation of strategies designed to mitigate risks.

KRITERIA PELAKSANAAN TJSL

Tiga kriteria utama menjadi pedoman dalam memastikan efektivitas pelaksanaan program TJSL SSMS:

CRITERIA OF SER IMPLEMENTATION

Three key criteria serve as guidelines to ensure the effectiveness of SSMS's SER programs:

Tepat Sasaran On Target	Program dirancang dan dijalankan berdasarkan kebutuhan nyata masyarakat dan komunitas sekitar, sehingga manfaatnya dapat dirasakan langsung oleh penerima.	Programs are designed and implemented based on the actual needs of local communities, ensuring the benefits are directly felt by the recipients.
Bermanfaat Helpful	Setiap program memiliki dampak yang positif dan relevan, baik secara sosial, ekonomi, maupun lingkungan, yang mendukung peningkatan kualitas hidup masyarakat.	Each program delivers positive and relevant impacts socially, economically, and environmentally supporting improvements in the quality of life of the community.
Berkelanjutan Sustainable	Program-program TJSL dirancang untuk memberikan dampak jangka panjang, dengan fokus pada keberlanjutan guna memastikan manfaat yang terus dirasakan oleh masyarakat dan lingkungan dari waktu ke waktu.	SER programs are designed to create long-term impact, with a focus on sustainability to ensure that benefits continue to be experienced by the community and the environment over time.

KETERKAITAN PROGRAM TJSL DENGAN TUJUAN PEMBANGUNAN BERKELANJUTAN (SDGS)

Dalam memperkuat dampak program TJSL, Perseroan mengintegrasikan Tujuan Pembangunan Berkelanjutan (Sustainable Development Goals/SDGs) sebagai kerangka acuan dalam perencanaan dan pelaksanaan program. Pendekatan ini memastikan bahwa setiap inisiatif yang dijalankan tidak hanya memberikan manfaat langsung bagi masyarakat, tetapi juga berkontribusi terhadap agenda pembangunan global yang berkelanjutan.

Program TJSL Perseroan yang terbagi dalam enam pilar utama secara langsung berkontribusi terhadap berbagai tujuan SDGs. Pilar sosial budaya mendukung upaya pengentasan kemiskinan dan pengurangan ketimpangan, pilar pendidikan berkontribusi pada peningkatan kualitas sumber daya manusia, sementara pilar kesehatan mendorong peningkatan kualitas hidup masyarakat. Di sisi lain, pilar lingkungan dan infrastruktur berperan dalam menciptakan komunitas yang lebih berkelanjutan, serta pilar pemberdayaan ekonomi masyarakat mendukung peningkatan kemandirian ekonomi lokal.

Melalui integrasi ini, Perseroan tidak hanya menjalankan tanggung jawab sosial, tetapi juga berperan aktif dalam mendukung pencapaian pembangunan berkelanjutan yang inklusif dan berdaya tahan, sekaligus memperkuat kontribusi perusahaan terhadap masyarakat dan lingkungan secara berkesinambungan.

ALIGNMENT OF SER PROGRAMS WITH THE SUSTAINABLE DEVELOPMENT GOALS (SDGS)

To enhance the impact of its SER programs, the Company integrates the Sustainable Development Goals (SDGs) as a guiding framework in program planning and implementation. This approach ensures that each initiative not only delivers direct benefits to communities but also contributes to broader global sustainable development objectives.

The Company's SER programs, structured across six main pillars, directly contribute to various SDGs. The social and cultural pillar supports poverty alleviation and inequality reduction, the education pillar contributes to human capital development, and the health pillar enhances community well-being. Meanwhile, environmental and infrastructure initiatives support sustainable communities, and economic empowerment programs promote local economic independence.

Through this integration, the Company not only fulfills its social responsibility but also actively contributes to inclusive and resilient sustainable development, while strengthening its long-term value creation for society and the environment.

Opini

Kami telah mengaudit laporan keuangan konsolidasian PT Sawit Sumbermas Sarana Tbk. ("Perusahaan") dan entitas anaknya (secara kolektif disebut sebagai "Grup") terlampir, yang terdiri dari laporan posisi keuangan konsolidasian tanggal 31 Desember 2025, serta laporan laba rugi dan penghasilan komprehensif lain konsolidasian, laporan perubahan ekuitas konsolidasian, dan laporan arus kas konsolidasian untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan konsolidasian, termasuk informasi kebijakan akuntansi material.

Menurut opini kami, laporan keuangan konsolidasian terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan konsolidasian Grup tanggal 31 Desember 2025, serta kinerja keuangan dan arus kas konsolidasian nya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Independent Auditor's Report

Report No. 00365/2.1505/AU.1/01/1814-1/1/III/2026

The Shareholders and the Boards of Commissioners and Directors
PT Sawit Sumbermas Sarana Tbk.

Opinion

We have audited the accompanying consolidated financial statements of PT Sawit Sumbermas Sarana Tbk. (the "Company") and its subsidiaries (collectively referred to as the "Group"), which comprise the consolidated statement of financial position as of December 31, 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity, and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2025 and its consolidated financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Basis opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia ("IAPI"). Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian pada laporan kami. Kami independen terhadap Grup berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan konsolidasian di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini kami.

Hal audit utama

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan konsolidasian periode kini. Hal audit utama tersebut disampaikan dalam konteks audit kami atas laporan keuangan konsolidasian secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan konsolidasian terkait, dan kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut. Untuk hal audit utama di bawah ini, penjelasan kami tentang bagaimana audit kami merespons hal tersebut disampaikan dalam konteks tersebut.

Report No. 00365/2.1505/AU.1/01/1814-1/1/III/2026 (continued)

Basis for opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants ("IICPA"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements paragraph of our report. We are independent of the Group in accordance with the ethical requirements relevant to our audit of the consolidated financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with such requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. Such key audit matters were addressed in the context of our audit of the consolidated financial statements taken as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on such key audit matters. For the key audit matter below, our description of how our audit addressed such key audit matter is provided in such context.

Hal audit Utama (lanjutan)

Kami telah memenuhi tanggung jawab yang diuraikan dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian pada laporan kami, termasuk sehubungan dengan hal audit utama yang dikomunikasikan di bawah ini. Oleh karena itu, audit kami mencakup pelaksanaan prosedur yang didesain untuk merespons penilaian kami atas risiko kesalahan penyajian material dalam laporan keuangan konsolidasian terlampir. Hasil prosedur audit kami, termasuk prosedur yang dilakukan untuk merespons hal audit utama di bawah ini, menyediakan basis bagi opini kami atas laporan keuangan konsolidasian terlampir.

Pengakuan pendapatan

Penjelasan atas hal audit utama:

Pendapatan Grup untuk tahun yang berakhir pada 31 Desember 2025 sebesar Rp14,8 triliun terutama merupakan penjualan produk minyak sawit mentah dan produk turunannya. Hal ini merupakan ukuran penting yang digunakan untuk mengevaluasi kinerja Grup dan merupakan pendorong utama profitabilitas. Pendapatan yang diakui pada saat pengendalian atas barang telah dialihkan kepada pelanggan pada waktu tertentu, sebesar jumlah yang mencerminkan imbalan yang diharapkan Grup dapat diperoleh sebagai pertukaran barang tersebut.

Pendapatan mungkin diakui dan diukur secara tidak tepat untuk meningkatkan hasil usaha dan mencapai pertumbuhan pendapatan sejalan dengan tujuan Grup. Karena signifikansi keuangan dan tingginya volume transaksi, kesalahan penyajian atas pendapatan dapat memiliki dampak substansial pada laporan keuangan konsolidasian secara keseluruhan dan keputusan yang dibuat oleh para pemangku kepentingan. Oleh karena itu, pengakuan pendapatan merupakan hal audit utama bagi kami. Catatan 2s dan 28 atas laporan keuangan konsolidasian terlampir memberikan pengungkapan yang relevan terkait pendapatan Grup.

Key audit matters (continued)

We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements paragraph of our report, including in relation to the key audit matter communicated below. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the accompanying consolidated financial statements. The results of our audit procedures, including the procedures performed to address the key audit matter below, provide the basis for our opinion on the accompanying consolidated financial statements.

Revenue recognition

Description of the key audit matter:

The Group's revenue for the year ended December 31, 2025 amounting to Rp14.8 trillion was mainly arising from the sales of Crude Palm Oil and its derivative products. It is an important measure to evaluate the Group's performance and is the main driver of profitability. The revenue is recognized when control of the goods is transferred to the customers at a point in time, at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods.

Revenue may be inappropriately recognized and measured in order to improve business results and achieve revenue growth in line with the objectives of the Group. Due to its financial significance, and high volume of transactions, misstatement in revenue can have a substantial impact on the overall consolidated financial statements and the decisions made by stakeholders. Accordingly, revenue recognition is a key audit matter to us. Note 2s and 28 to the accompanying consolidated financial statements provide the relevant disclosures on the Group's revenue.

Penjelasan atas hal audit utama (lanjutan):

Respons audit:

Kami mengevaluasi dan menguji rancangan dan efektivitas pengendalian utama atas proses pendapatan. Atas dasar sampel, kami melakukan pengujian rinci atas pengakuan pendapatan dengan melakukan verifikasi ke dokumen pendukungnya untuk memastikan keterjadian atas pendapatan serta telah diakui dan diukur sesuai dengan standar akuntansi yang berlaku. Kami melakukan pengujian rinci atas transaksi pendapatan menjelang dan tepat setelah tanggal 31 Desember 2025 untuk memastikan bahwa pendapatan diakui pada periode yang tepat.

Kami juga melakukan pengujian rinci dengan mengidentifikasi akun-akun buku besar yang digunakan untuk mencatat entri jurnal antara pendapatan, piutang usaha, serta kas dan bank, serta menggunakan korelasi (pencatatan entri jurnal) di antara akun-akun tersebut untuk melakukan kembali (reperform) pencatatan entri jurnal. Kami melengkapi prosedur ini dengan pengujian informasi yang dihasilkan oleh Grup atas entri jurnal kas untuk memastikan bahwa kas tersebut adalah kas sebenarnya yang berasal dari pelanggan. Kami juga mengevaluasi kesesuaian dan kecukupan penyajian dan pengungkapan terkait pendapatan dalam catatan atas laporan keuangan konsolidasian.

Informasi lain

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam Laporan Tahunan 2025 ("Laporan Tahunan") selain laporan keuangan konsolidasian terlampir dan laporan auditor independen kami. Laporan Tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor independen ini.

Description of the key audit matter (continued):

Audit response:

We evaluated and assessed the design and operating effectiveness of the key controls over the revenue process. On a sample basis, we performed test of detail of revenue transactions by verifying the supporting documents to ensure their occurrence and whether they have been recognized and measured in accordance with the applicable accounting standards. We performed test of detail of revenue transactions approaching and immediately after December 31, 2025 to ensure that revenues were recognized in the proper period.

We also performed test of details by identifying which general ledger accounts are used to post journal entries among revenue, trade receivables, and cash and bank and use correlation (journal entry postings) among these accounts to reperform the posting of journal entries. We supplemented this procedure by testing the information produced by the Group over cash journal entries to ensure they are real cash from customers. We also evaluated the appropriateness and adequacy of the presentation and the relevant disclosures related to revenue in the notes to the accompanying consolidated financial statements

Opini kami atas laporan keuangan konsolidasian terlampir tidak mencakup Laporan Tahunan, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas Laporan Tahunan tersebut.

Sehubungan dengan audit kami atas laporan keuangan konsolidasian terlampir, tanggung jawab kami adalah untuk membaca Laporan Tahunan ketika tersedia dan, dalam melaksanaannya, mempertimbangkan apakah Laporan Tahunan mengandung ketidakkonsistensian material dengan laporan keuangan konsolidasian terlampir atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca Laporan Tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan melakukan tindakan yang tepat berdasarkan peraturan perundang-undangan yang berlaku.

Tanggung jawab manajemen dan pihak yang bertanggung jawab atas tata kelola terhadap laporan keuangan konsolidasian

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan konsolidasian tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan konsolidasian yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Other information (continued)

Our opinion on the accompanying consolidated financial statements does not cover the Annual Report, and accordingly, we do not express any form of assurance on the Annual Report.

In connection with our audit of the accompanying consolidated financial statements, our responsibility is to read the Annual Report when it becomes available and, in doing so, consider whether the Annual Report is materially inconsistent with the accompanying consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions based on the applicable laws and regulations.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Tanggung jawab manajemen dan pihak yang bertanggung jawab atas tata kelola terhadap laporan keuangan konsolidasian (lanjutan)

Dalam penyusunan laporan keuangan konsolidasian, manajemen bertanggung jawab untuk menilai kemampuan Grup dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Grup atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Grup.

Tanggung jawab auditor terhadap audit atas laporan keuangan konsolidasian

Tujuan kami adalah untuk memeroleh keyakinan memadai tentang apakah laporan keuangan konsolidasian secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor independen yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit yang ditetapkan oleh IAPI akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan konsolidasian tersebut.

Responsibilities of management and those charged with governance for the consolidated financial statements (continued)

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting, unless management either intends to liquidate the Group or to cease its operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements taken as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing established by the IICPA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Tanggung jawab auditor terhadap audit atas laporan keuangan konsolidasian

Sebagai bagian dari suatu audit berdasarkan Standar Audit yang ditetapkan oleh IAPI, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan konsolidasian, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memeroleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya suatu kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian atas pengendalian internal.

- Memeroleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektivitasan pengendalian internal Grup.

- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.

As part of an audit in accordance with Standards on Auditing established by the IICPA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to such risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI YANG MATERIAL

Laporan keuangan konsolidasian telah disusun dan disajikan sesuai dengan Standar Akuntansi Keuangan di Indonesia ("SAK"), yang mencakup Pernyataan Standar Akuntansi Keuangan ("PSAK") dan Interpretasi Standar Akuntansi Keuangan ("ISAK") yang dikeluarkan oleh Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia, serta Peraturan Badan Pengawas Pasar Modal dan Lembaga Keuangan ("BAPEPAM-LK") No. VIII.G.7 Lampiran Keputusan Ketua BAPEPAM-LK No. KEP-347/BL/2012 tanggal 25 Juni 2012 mengenai Penyajian dan Pengungkapan Laporan Keuangan Emiten atau Perusahaan Publik.

Laporan keuangan konsolidasian telah disusun sesuai dengan PSAK No. 201 "Penyajian Laporan Keuangan".

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION

The consolidated financial statements have been prepared and presented in accordance with Indonesian Financial Accounting Standards ("SAK"), which comprise the Statements of Financial Accounting Standards ("PSAK") and Interpret to Financial Acccounting Standards ("ISAK") issued by the Financial Accounting Standards Board of the Indonesian Institute of Accountants, and Regulation of Capital Market and Financial Institution Supervisory Agency ("BAPEPAM-LK") No. VIII.G.7 Attachment of Chairman of BAPEPAM-LK's decision No. KEP-347/BL/2012 dated June 25, 2012 regarding Presentation and Disclosure of the Financial Statements of Issuers or Public Company.

The consolidated financial statements are prepared in accordance with PSAK No. 201 "Presentation of Financial Statements".

2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI YANG MATERIAL (lanjutan)

Kebijakan akuntansi signifikan yang diterapkan secara konsisten dalam penyajian laporan keuangan konsolidasian untuk tahun yang berakhir pada tanggal 31 Desember 2025, 2024, dan 2023 adalah sebagai berikut:

a. Dasar penyusunan laporan keuangan konsolidasian

Laporan keuangan konsolidasian disusun berdasarkan konsep akrual, kecuali untuk laporan arus kas konsolidasian, dan menggunakan konsep biaya historis, kecuali seperti yang disebutkan dalam catatan atas laporan keuangan konsolidasian yang relevan.

Laporan arus kas konsolidasian yang disajikan dengan menggunakan metode langsung, menyajikan penerimaan, dan pengeluaran kas dan setara kas yang diklasifikasikan sebagai aktivitas operasi, investasi, dan pendanaan.

Perusahaan memilih untuk menyajikan laporan laba rugi dan penghasilan komprehensif lainnya dalam satu laporan.

Mata uang penyajian yang digunakan dalam laporan keuangan konsolidasian adalah Rupiah yang merupakan mata uang fungsional Perusahaan dan entitas anaknya.

Seluruh angka dalam laporan keuangan konsolidasian ini, kecuali dinyatakan lain, dinyatakan dalam dan dibulatkan menjadi ribuan Rupiah.

b. Perubahan Kebijakan Akuntansi

Grup telah melakukan kajian atas sejumlah amandemen standar akuntansi yang berlaku efektif untuk periode tahunan yang dimulai pada atau setelah 1 Januari 2025 serta yang berpotensi relevan terhadap pelaporan keuangan. Berdasarkan kajian tersebut, tidak ada amandemen standar akuntansi yang memberikan dampak yang material terhadap laporan keuangan konsolidasian periode berjalan.

Penerapan standar yang baru dan direvisi tidak menghasilkan perubahan besar terhadap kebijakan akuntansi Perusahaan dan tidak memiliki dampak material pada jumlah yang dilaporkan untuk tahun keuangan saat ini atau sebelumnya:

- Amandemen PSAK 221: Kekurangan Ketertukaran

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

The significant accounting policies that were applied consistently in the preparation of the consolidated financial statements for the years ended December 31, 2025, 2024, and 2023 are as follows:

a. Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared on the accrual basis, except for the consolidated statement of cash flows, and using the historical cost concept of accounting, except as disclosed in the relevant notes to the consolidated financial statements.

The consolidated statements of cash flows, which have been prepared using the direct method, present receipts, and disbursements of cash and cash equivalents classified into operating, investing, and financing activities.

The Company has elected to present the consolidated of profit or loss and other comprehensive income in one linked statement.

The presentation currency used in the consolidated financial statements is Rupiah which is the Company's and its subsidiaries functional currency.

All figures in the consolidated financial statements are rounded to, and stated in, thousands of Rupiah, unless otherwise stated.

b. Changes of Accounting Principles

The Group has conducted an assessment of several amendments to accounting standards that are effective for annual periods beginning on or after January 1, 2025, as well as those that may be relevant to its financial reporting. Based on this assessment, there are no amendments to accounting standards that have a material impact on the current period consolidated financial statements.

The adoption of the following new and revised standard did not result in substantial changes to the Company's accounting policies and had no material effect on the amounts reported for the current of prior financial years:

- *Amendment of PSAK 221: Lack of Exchangeability*

2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI YANG MATERIAL (lanjutan)

c. Prinsip-prinsip konsolidasi

Entitas anak adalah suatu entitas dimana Grup memiliki pengendalian. Grup mengendalikan entitas lain ketika Grup terekspos atau memiliki hak atas imbal hasil variabel dan keterlibatannya dengan entitas dan memiliki kemampuan untuk mempengaruhi imbal hasil tersebut melalui kekuasaannya atas entitas. Metode akuisisi digunakan untuk mencatat akuisisi entitas anak oleh Grup. Biaya perolehan termasuk nilai wajar imbalan kontinjensi pada tanggal akuisisi.

Perubahan dalam bagian kepemilikan entitas induk pada entitas anak yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas. Ketika pengendalian atas entitas anak hilang, bagian kepemilikan yang tersisa di entitas tersebut diukur kembali pada nilai wajarnya dan keuntungan atau kerugian yang dihasilkan diakui dalam laba rugi.

Seluruh transaksi, saldo, keuntungan dan kerugian intra Grup yang belum direalisasi dan material telah dieliminasi.

Setiap akhir periode pelaporan, Grup melakukan penelaahan ketika terdapat bukti objektif bahwa investasi pada ventura bersama dan entitas asosiasi mengalami penurunan nilai.

Kepentingan non-pengendali ("KNP") merupakan proporsi atas hasil usaha dan aset neto entitas anak yang tidak diatribusikan pada pemilik entitas induk.

Grup mengakui kepentingan non-pengendali pada pihak yang diakuisisi sebesar bagian proporsional kepentingan non-pengendali atas aset neto pihak yang diakuisisi. Kepentingan non-pengendali disajikan di ekuitas dalam laporan posisi keuangan konsolidasian, terpisah dari ekuitas pemilik entitas induk.

Hasil usaha entitas anak, dimasukkan atau dikeluarkan dari dalam laporan keuangan konsolidasian masing-masing sejak tanggal efektif akuisisi atau tanggal pelepasan.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

c. Basis of consolidation

Subsidiaries are entities over which the Group has control. The group controls an entity when the Group is exposed or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost includes the fair value of any contingent consideration at acquisition date.

The changes in parent's ownership interest in subsidiary that do not result in the loss of control are accounted for as equity transactions. When control over a subsidiary is lost, any remaining interest in the entity is remeasured at fair value and the resulting gains or losses is recognized in profit or loss.

All material intercompany transactions, balances, unrealized surpluses and deficits on transactions between Group companies are eliminated.

At the end of each reporting period, the Group assesses when there is objective evidence that an investment in joint ventures and associates is impaired.

Non-controlling interests ("NCI") represent the proportion of the results and net assets of subsidiaries not attributable to the owners of the parent entity.

The Group recognizes any non-controlling interests in the acquiree at the non-controlling interest's proportionate share of acquiree's net assets. Non-controlling interest is reported as equity in the consolidated statement of financial position, separate from the owners of the parent's entity equity.

The results of subsidiaries, are included in or excluded from the consolidated financial statements from their effective dates of acquisition or disposal respectively.

2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI YANG MATERIAL (lanjutan)

c. Prinsip-prinsip konsolidasi (lanjutan)

Kebijakan akuntansi yang digunakan dalam penyusunan laporan keuangan konsolidasian ini telah diterapkan secara konsisten, kecuali jika dinyatakan lain.

Untuk tujuan konsolidasi, akun entitas anak dalam mata uang selain Rupiah, dijabarkan ke dalam Rupiah dengan dasar sebagai berikut:

- Seluruh aset dan liabilitas dijabarkan ke dalam mata uang Rupiah dengan menggunakan kurs yang berlaku pada tanggal laporan posisi keuangan konsolidasian;
- Modal saham dijabarkan ke dalam Rupiah dengan kurs yang mendekati nilai tukar historis;
- Penghasilan dan beban dijabarkan dengan menggunakan kurs rata-rata tertimbang sepanjang tahun;
- Selisih yang timbul dari penjabaran akun entitas anak tersebut disajikan sebagai "selisih kurs atas penjabaran laporan keuangan" di bawah bagian ekuitas pada laporan posisi keuangan konsolidasian.

d. Kombinasi bisnis

Kombinasi bisnis dicatat menggunakan metode akuisisi. Biaya perolehan suatu akuisisi diukur sebagai penjumlahan atas imbalan yang dialihkan, yang diukur pada nilai wajar pada tanggal akuisisi, dan jumlah atas KNP di entitas yang diakuisisi. Biaya atas transaksi yang terjadi dibiayakan dan dicatat sebagai beban pada tahun berjalan.

Ketika melakukan akuisisi atas sebuah bisnis, Grup mengklasifikasikan dan menentukan aset keuangan yang diperoleh dan liabilitas keuangan yang diambil alih berdasarkan pada persyaratan kontraktual, kondisi ekonomi dan kondisi terkait lain yang ada pada tanggal akuisisi. Hal ini termasuk pemisahan derivatif melekat dalam kontrak utama oleh pihak yang diakuisisi.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

c. Basis of consolidation (continued)

The accounting policies adopted in preparing the consolidated financial statements have been consistently applied, unless otherwise stated.

For purposes of consolidation, the accounts of subsidiary, which are denominated in currencies other than Rupiah, are translated into Rupiah on the following basis:

- *All assets and liabilities are translated into Rupiah at the exchange rates prevailing on the consolidated statement of financial position dates;*
- *Share capital are translated into Rupiah at exchange rates approximating historical exchange rates;*
- *Income and expenses are translated using the weighted average exchange rates during the year;*
- *The difference arising from the translation of such subsidiaries' accounts are presented as a "foreign exchange differences on financial statement translation" under the shareholders' equity section in the consolidated statements of financial position.*

d. Business combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the sum of the consideration transferred, measured at fair value at acquisition date, and amount of the NCI in entities acquired. Transaction costs that occur are directly expensed and are recorded as an expense in the current year.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI YANG MATERIAL (lanjutan)

d. Kombinasi bisnis (lanjutan)

Jika proses akuntansi awal untuk kombinasi bisnis belum selesai pada akhir periode pelaporan saat kombinasi terjadi, maka Grup melaporkan jumlah sementara untuk pos-pos yang proses akuntansinya belum selesai dalam laporan keuangan konsolidasian. Selama periode pengukuran, Grup menyesuaikan secara retrospektif jumlah sementara yang diakui pada tanggal akuisisi untuk mencerminkan informasi baru yang diperoleh tentang fakta dan keadaan yang ada pada tanggal akuisisi dan, jika diketahui, telah berdampak pada pengukuran jumlah yang diakui pada tanggal tersebut. Periode pengukuran berakhir segera setelah Grup menerima informasi yang dicari tentang fakta dan keadaan yang ada pada tanggal akuisisi atau mempelajari bahwa informasi lebih tidak dapat diperoleh. Namun demikian, periode pengukuran tidak boleh melebihi satu tahun dari tanggal akuisisi.

Dalam suatu kombinasi bisnis yang dilakukan secara bertahap, pihak pengakuisisi mengukur kembali kepentingan ekuitas yang dimiliki sebelumnya pada pihak yang diakuisisi pada nilai wajar pada tanggal akuisisi dan mengakui keuntungan atau kerugian yang dihasilkan sebagai laba rugi dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Pada tanggal akuisisi, *goodwill* awalnya diukur pada harga perolehan yang merupakan selisih lebih nilai agregat dari imbalan yang dialihkan dan jumlah setiap KNP atas selisih jumlah dari aset teridentifikasi yang diperoleh dan liabilitas yang diambil alih. Jika imbalan tersebut kurang dari nilai wajar aset neto Entitas Anak yang diakuisisi, selisih tersebut diakui dalam laba rugi.

Jika *goodwill* telah dialokasikan pada suatu UPK dan operasi tertentu dalam UPK tersebut dihentikan, maka *goodwill* yang diasosiasikan dengan operasi yang dihentikan tersebut termasuk dalam jumlah tercatat operasi tersebut ketika menentukan keuntungan atau kerugian dari penghentian operasi. *Goodwill* yang dilepaskan tersebut disajikan berdasarkan nilai relatif operasi yang dihentikan dan porsi UPK yang ditahan.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

d. Business combinations (continued)

When the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group report in the consolidated financial statements provisional amounts for the items for which the accounting is incomplete. During the measurement period, the Group shall retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and, if known, would have affected the measurement of the amounts recognized as of that date. The measurement period ends as soon as the Group receive the information about facts and circumstances that existed as of the acquisition date or learn that more information is not obtainable. However, the measurement period shall not exceed one year from the acquisition date.

If the business combination is achieved in the stages, the acquirer remeasured the fair value of equity interest that previously held by the acquiree at the acquisition date and recognized as gain or loss in the consolidated statement of profit or loss and other comprehensive income.

At the acquisition date, goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for NCI over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the Subsidiary acquired, the difference is recognized in profit or loss.

Where goodwill forms part of a CGU and part of the operations within that CGU is disposed of, the goodwill associated with the operations disposed of is included in the carrying amount of the operations when determining the gain or loss on disposal of the operations. Goodwill disposed of in this circumstance is measured based on the relative values of the operations disposed of and the portion of the CGU retained.

2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI YANG MATERIAL (lanjutan)

e. Kombinasi bisnis entitas sepengendali

Transaksi kombinasi bisnis entitas sepengendali, berupa pengalihan bisnis dalam rangka reorganisasi entitas-entitas yang berada dalam suatu Grup yang sama, bukan merupakan perubahan kepemilikan dalam arti substansi ekonomi, sehingga transaksi tersebut tidak dapat menimbulkan laba atau rugi bagi Grup secara keseluruhan ataupun bagi entitas individual dalam Grup tersebut, karenanya transaksi tersebut diakui pada jumlah tercatat berdasarkan metode penyatuan kepemilikan (*pooling-of-interests*).

Dalam menerapkan metode penyatuan kepemilikan, komponen laporan keuangan untuk periode dimana terjadi kombinasi bisnis dan untuk periode komparatif sajian, disajikan sedemikian rupa seolah-olah penggabungan tersebut telah terjadi sejak awal periode entitas yang bergabung berada dalam sepengendalian.

Entitas yang melepas bisnis maupun yang menerima bisnis mencatat selisih antara imbalan yang diterima/dialihkan dan jumlah tercatat bisnis yang dilepas/jumlah tercatat dari setiap transaksi kombinasi bisnis di ekuitas dan menyajikannya dalam akun "Tambahan Modal Disetor".

f. Transaksi dan saldo dalam mata uang asing

Laporan keuangan konsolidasian Grup disajikan dalam Rupiah, yang juga merupakan mata uang fungsional Perusahaan. Setiap entitas anak menentukan mata uang fungsional dalam transaksi-transaksi yang termasuk dalam laporan keuangan pada setiap entitas diukur dengan mata uang fungsional tersebut.

Transaksi dalam mata uang asing dicatat dalam Rupiah dengan menggunakan kurs yang berlaku pada tanggal transaksi. Pada tanggal pelaporan keuangan, aset dan liabilitas moneter dalam mata uang asing dijabarkan sesuai dengan rata-rata kurs jual dan beli yang diterbitkan oleh Bank Indonesia pada tanggal transaksi perbankan terakhir untuk tahun yang bersangkutan, dan laba atau rugi kurs yang timbul, dikreditkan atau dibebankan pada laporan laba rugi komprehensif konsolidasian tahun berjalan.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

e. Common control business combinations (continued)

Business combination transaction under common control, in the form of transfer of business within the framework of reorganization of entities under the same business group is not a change of ownership in economic substance, therefore it would not result in a gain or loss for the group as a whole or to the individual entity within the same group, therefore the transactions are recorded using the pooling-of-interests method.

In applying the pooling-of-interests method, the components of the financial statements for the period during which the business combination occurred and for other periods presented for comparison purposes, are presented in such a manner as if the combination has already occurred since the beginning of the period in which the entities were under common control.

The entity that disposed and received business records the difference between the consideration received/transferred and the carrying amount of the disposed business/carrying amount of any business combination transaction in equity and presenting it in "Additional Paid-in Capital" account.

f. Foreign currency transactions and balances

The Group's consolidated financial statements are presented in Rupiah, which is also the Company's functional currency. Each subsidiary determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions involving foreign currencies are recorded in Rupiah at the rates of exchange prevailing at the time the transactions are made. At the financial reporting dates, monetary assets and liabilities denominated in foreign currencies are adjusted to reflect the average of the selling and buying rates of exchange prevailing at the last banking transaction date of the year, as published by Bank Indonesia, and any resulting gains or losses are credited or charged to the current year consolidated statements of comprehensive income.

f. Transaksi dan saldo dalam mata uang asing (lanjutan)

Transaksi-transaksi non-moneter dalam mata uang asing yang diukur dengan metode biaya historis dijabarkan menggunakan kurs pada tanggal terjadinya transaksi. Transaksi-transaksi non-moneter dalam mata uang asing yang diukur pada nilai wajar dijabarkan menggunakan kurs pada tanggal penentuan nilai wajar tersebut.

Keuntungan dan kerugian dari selisih kurs yang timbul dari transaksi dalam mata uang asing dan penjabaran aset dan liabilitas moneter dalam mata uang asing ke mata uang Rupiah dibebankan pada laba rugi tahun berjalan.

Pada tanggal 31 Desember 2025, 2024, dan 2023, nilai tukar yang digunakan adalah sebagai berikut (nilai penuh dalam Rupiah):

	31 Desember/ *December 31, 2025*	31 Desember/ *December 31, 2024*	31 Desember/ *December 31, 2023*

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

f. Foreign currency transactions and balances (continued)

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Exchange gains and losses arising on foreign currency transactions and on the translation of foreign currency monetary assets and liabilities into Rupiah are recognized in the current year profit or loss.

The exchange rates used as of December 31, 2025, 2024, and 2023 were as follows (full amount in Rupiah):

g. Instrumen Keuangan

Aset Keuangan

Grup mengklasifikasikan aset keuangannya dalam kategori (a) aset keuangan yang diukur pada nilai wajar melalui laba rugi, (b) aset keuangan yang diukur pada nilai wajar melalui pendapatan komprehensif lainnya, dan (c) aset keuangan yang diukur pada biaya perolehan diamortisasi.

Grup menggunakan 2 (dua) dasar untuk mengklasifikasikan aset keuangan yaitu model bisnis Grup dalam mengelola aset keuangan dan karakteristik arus kas kontraktual dari aset keuangan (SPPB).

Agar aset keuangan diklasifikasikan dan diukur pada biaya perolehan diamortisasi atau NWPKL, aset keuangan harus menghasilkan arus kas yang semata dari SPPB dari jumlah pokok terutang. Penilaian ini disebut sebagai uji SPPB dan dilakukan pada tingkat instrumen.

g. Financial Instruments

Financial Assets

The Group classifies its financial assets into the following category: (a) financial assets measured at fair value through profit or loss, (b) financial assets measured at fair value through other comprehensive income, and (c) financial assets measured at amortised cost.

The Group used 2 (two) methods to classify its financial assets, which based on the Group's business model in managing the financial assets, and the contractual cash flow of the financial assets (SPPI).

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are SPPI on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

Pengujian SPPB

Nilai pokok untuk tujuan pengujian ini didefinisikan sebagai nilai wajar dari aset keuangan pada pengakuan awal dan dapat berubah selama umur aset keuangan (misalnya, jika ada pembayaran pokok atau amortisasi premi/diskon).

Sebagai langkah pertama dari proses klasifikasi, Grup menilai persyaratan kontraktual keuangan untuk mengidentifikasi apakah mereka memenuhi pengujian SPPB.

Elemen bunga yang paling signifikan dalam perjanjian biasanya adalah pertimbangan atas nilai waktu dari uang dan risiko kredit. Untuk membuat penilaian SPPB, Grup menerapkan pertimbangan dan memperhatikan faktor-faktor yang relevan seperti mata uang dimana aset keuangan didenominasikan dan periode pada saat suku bunga ditetapkan.

Sebaliknya, persyaratan kontraktual yang memberikan eksposur lebih dari de minimis atas risiko atau volatilitas dalam arus kas kontraktual yang tidak terkait dengan dasar pengaturan pinjaman, tidak menimbulkan arus kas kontraktual SPPB atas jumlah saldo. Dalam kasus seperti itu, aset keuangan diharuskan untuk diukur pada *Fair Value through Profit Loss* (FVPL).

Penilaian model bisnis

Grup menentukan model bisnisnya berdasarkan tingkat yang paling mencerminkan bagaimana Grup mengelola kelompok atas keuangannya untuk mencapai tujuan bisnisnya.

Model bisnis Grup tidak dinilai berdasarkan masing-masing instrumennya, tetapi pada tingkat portofolio secara agregat yang lebih tinggi dan didasarkan pada faktor-faktor yang dapat diamati seperti:

- Bagaimana kinerja model bisnis dan aset keuangan yang dimiliki dalam model bisnis tersebut dievaluasi dan dilaporkan kepada personel manajemen kunci;
- Risiko yang mempengaruhi kinerja model bisnis (dan aset keuangan yang dimiliki dalam model bisnis tersebut) dan, khususnya, bagaimana cara risiko tersebut dikelola;

SPPI Test

Principal for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortization of the premium/discount).

As a first step of its classification process, the Group assesses the contractual terms of financial to identify whether they meet the SPPI test.

The most significant elements of interest within a arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Group applies judgment and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement, do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured as Fair Value through Profit Loss (FVPL).

Business model assessment

The Group determines its business model at the level that most reflects how it the business group manages its financial groups of financial assets to achieve its business objective.

The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- *How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;*
- *The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular the way those risks are managed;*

Penilaian model bisnis (lanjutan)

Model bisnis Grup tidak dinilai berdasarkan masing-masing instrumennya, tetapi pada tingkat portofolio secara agregat yang lebih tinggi dan didasarkan pada faktor-faktor yang dapat diamati seperti: (lanjutan)

- Bagaimana manajer bisnis dikompensasi (misalnya, apakah kompensasi didasarkan pada nilai wajar dari aset yang dikelola atau pada arus kas kontraktual yang tertagih);
- Frekuensi, nilai, dan waktu penjualan yang diharapkan, juga merupakan aspek penting dari penilaian Grup.

Penilaian model bisnis didasarkan pada skenario yang diharapkan secara wajar tanpa mempertimbangkan skenario *"worst case"* atau *"stress case"*. Jika arus kas setelah pengakuan awal direalisasikan dengan cara yang berbeda dari yang awal diharapkan, Grup tidak mengubah klasifikasi aset keuangan dimiliki yang tersisa dalam model bisnis tersebut, tetapi memasukkan informasi tersebut dalam melakukan penilaian atas aset keuangan yang baru atau yang baru dibeli selanjutnya.

Aset keuangan yang diukur pada biaya perolehan diamortisasi jika aset keuangan dikelola dalam model bisnis yang bertujuan untuk memiliki aset keuangan dalam rangka mendapatkan arus kas kontraktual dan persyaratan kontraktual dari aset keuangan yang pada tanggal tertentu meningkatkan arus kas yang semata dari pembayaran pokok dan bunga (*solely payments of principal and interes*t) dari jumlah pokok terutang.

Pada saat pengakuan awal, aset keuangan yang diukur pada biaya perolehan diamortisasi diakui pada nilai wajarnya ditambah biaya transaksi dan selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan suku bunga efektif.

Business model assessment (continued)

The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as: (continued)

- *How business managers are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected);*
- *The expected frequency, value, and timing of sales are also important aspects of the Group's assessment.*

The business model assessment is based on reasonably expected scenarios without taking "worst case" or "stress case" scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Financial assets are measured at amortized cost if the financial asset is managed in a business model aimed at owning a financial asset in order to obtain a contractual cash flow and the contractual requirements of a financial asset that on a given date increases the cash flow solely from the principal and interest payments (solely payments of principal and interest) of the amount owed.

At initial recognition, the financial assets measured at amortized cost are recognized at the fair value plus the transaction fee and subsequently measured at amortized cost by using the effective interest rate.

Pendapatan bunga dari aset keuangan yang diukur pada biaya perolehan diamortisasi dicatat dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian dan diakui sebagai "pendapatan bunga". Ketika penurunan nilai terjadi, kerugian penurunan nilai diakui sebagai pengurang dari nilai tercatat aset keuangan dan diakui didalam laporan keuangan konsolidasian sebagai "pembentukan cadangan kerugian penurunan nilai".

Metode Suku Bunga Efektif

Metode suku bunga efektif adalah metode yang digunakan untuk menghitung biaya perolehan diamortisasi dari instrumen keuangan dan metode untuk mengalokasikan pendapatan bunga selama periode yang relevan. Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi penerimaan kas di masa datang (mencakup seluruh komisi dan bentuk lain yang dibayarkan dan diterima yang merupakan bagian yang tak terpisahkan dari suku bunga efektif, biaya transaksi dan premium dan diskonto lainnya) selama perkiraan umur instrumen keuangan, atau, jika lebih tepat, digunakan periode yang lebih singkat untuk memperoleh nilai tercatat bersih aset keuangan pada saat pengakuan awal.

Pendapatan diakui berdasarkan suku bunga efektif untuk instrumen keuangan selain dari aset keuangan FVTPL.

Penurunan Nilai Aset Keuangan

Aset keuangan, selain aset keuangan FVTPL, dievaluasi terhadap indikator penurunan nilai pada setiap akhir periode pelaporan. Aset keuangan diturunkan nilainya bila terdapat bukti objektif, sebagai akibat dari satu atau lebih peristiwa yang terjadi setelah pengakuan awal aset keuangan, dan peristiwa yang merugikan tersebut berdampak pada estimasi arus kas masa depan atas aset keuangan yang dapat diestimasi secara andal.

Interest income from financial assets measured at amortized cost is recorded in the consolidated statements of profit and loss and other comprehensive income and is recognized as "interest income". When a decline in value occurs, the impairment loss is recognized as a deduction of the recorded value of the financial asset and is acknowledged in the consolidated financial statements as "the establishment of a reserve impairment loss".

Effective Interest Method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or, where appropriate, a shorter period to the net carrying amount of financial assets on initial recognition.

Income is recognized on an effective interest basis for financial instruments other than those financial assets at FVTPL

Impairment of Financial Assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting date. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

Penurunan Nilai Aset Keuangan (lanjutan)

Untuk kelompok aset keuangan tertentu, seperti piutang, aset yang dinilai tidak akan diturunkan secara individual akan dievaluasi penurunan nilainya secara kolektif. Bukti objektif dari penurunan nilai portofolio piutang dapat termasuk pengalaman Grup atas tertagihnya piutang di masa lalu, peningkatan keterlambatan penerimaan pembayaran piutang dari rata-rata periode kredit, dan juga pengamatan atas perubahan kondisi ekonomi nasional atau lokal yang berkorelasi dengan gagal bayar atas piutang.

Untuk aset keuangan yang diukur pada biaya perolehan diamortisasi, jumlah kerugian penurunan nilai merupakan selisih antara jumlah tercatat aset keuangan dengan nilai kini dari estimasi arus kas masa depan yang didiskontokan menggunakan suku bunga efektif awal dari aset keuangan.

Untuk aset keuangan yang diukur pada biaya perolehan diamortisasi, jumlah kerugian penurunan nilai merupakan selisih antara jumlah tercatat aset keuangan dengan nilai kini dari estimasi arus kas masa depan yang didiskontokan menggunakan suku bunga efektif awal dari aset keuangan.

Jumlah tercatat aset keuangan tersebut dikurangi dengan kerugian penurunan nilai secara langsung atas seluruh aset keuangan, kecuali piutang yang jumlah tercatatnya dikurangi melalui penggunaan akun cadangan piutang. Jika piutang tidak tertagih, piutang tersebut dihapuskan melalui akun cadangan piutang. Pemulihan kemudian dari jumlah yang sebelumnya telah dihapuskan dikreditkan terhadap akun cadangan. Perubahan jumlah tercatat akun cadangan piutang diakui dalam laba rugi.

Impairment of Financial Assets (continued)

For certain categories of financial asset, such as receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets carried at amortised cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of receivables, where the carrying amount is reduced through the use of an allowance account. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

Liabilitas Keuangan dan Instrumen Ekuitas

Klasifikasi sebagai liabilitas atau ekuitas

Instrumen keuangan dan ekuitas yang diterbitkan oleh Grup diklasifikasikan sebagai liabilitas keuangan atau ekuitas sesuai dengan substansi perjanjian kontraktual dan definisi liabilitas keuangan dan instrumen ekuitas.

Liabilitas keuangan

Pengakuan dan Pengukuran Awal

Liabilitas keuangan diklasifikasikan sebagai liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi atau liabilitas keuangan pada biaya perolehan diamortisasi. Grup menentukan klasifikasi liabilitas keuangan mereka pada saat pengakuan awal.

Liabilitas keuangan awalnya diukur sebesar nilai wajarnya. Biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan liabilitas keuangan (selain liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi) ditambahkan atau dikurangkan dari nilai wajar liabilitas keuangan, yang sesuai, pada pengakuan awal. Biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi langsung diakui dalam laba rugi.

Liabilitas keuangan Grup terdiri dari utang bank jangka pendek, utang usaha, utang lain-lain, beban akrual, liabilitas imbalan kerja karyawan jangka pendek, utang bank jangka panjang, utang sewa pembiayaan, dan utang obligasi diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya diamortisasi. Grup tidak memiliki liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi.

Pengukuran Selanjutnya

Setelah pengakuan awal, liabilitas keuangan yang dikenakan bunga diukur pada biaya perolehan diamortisasi dengan menggunakan metode Suku Bunga Efektif (SBE).

Financial Liabilities and Equity Instruments

Classification as debt or equity

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Financial liabilities

Initial Recognition and Measurement

Financial liabilities are classified as financial liabilities at fair value through profit or loss or financial liabilities at amortized cost. The Group determines the classification of its financial liabilities at initial recognition.

Financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial liabilities (other than financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

The Group's financial liabilities consist of short-term bank loans, trade payables, other payables, accrued expenses, short-term employee benefits liabilities, long-term bank loans, finance lease payables, and bond payables classified as financial liabilities at amortized cost. The Group has no financial liabilities at fair value through profit or loss.

Subsequent Measurement

After initial recognition, interest-bearing financial liabilities are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method.

Pengukuran Selanjutnya (lanjutan)

Pada tanggal pelaporan, akrual beban bunga dicatat secara terpisah dari pokok pinjaman terkait dalam bagian liabilitas lancar. Keuntungan atau kerugian harus diakui dalam laba rugi ketika liabilitas tersebut dihentikan pengakuannya serta melalui proses amortisasi SBE.

Biaya perolehan diamortisasi dihitung dengan mempertimbangkan diskonto atau premium atas perolehan dan komisi atau biaya yang merupakan bagian tidak terpisahkan dari SBE. Amortisasi SBE dicatat sebagai beban pembiayaan dalam laba rugi.

Penghentian Pengakuan

Suatu liabilitas keuangan dihentikan pengakuannya ketika kewajiban yang ditetapkan dalam kontrak dihentikan atau dibatalkan atau kadaluarsa.

Ketika liabilitas keuangan awal digantikan dengan liabilitas keuangan lain dari pemberi pinjaman yang sama dengan ketentuan yang berbeda secara substansial, atau modifikasi secara substansial atas liabilitas keuangan yang saat ini ada, maka pertukaran atau modifikasi tersebut dicatat sebagai penghapusan liabilitas keuangan awal dan pengakuan liabilitas keuangan baru dan selisih antara nilai tercatat liabilitas keuangan tersebut diakui dalam laba rugi.

Reklasifikasi Instrumen Keuangan

Grup diperkenankan untuk melakukan reklasifikasi atas aset keuangan yang dimiliki jika Grup mengubah model bisnis untuk pengelolaan aset keuangan dan Grup tidak diperkenankan untuk melakukan reklasifikasi atas liabilitas keuangan.

Perubahan model bisnis sifatnya harus berdampak secara signifikan terhadap kegiatan operasional Grup seperti memperoleh, melepaskan, atau mengakhiri suatu lini bisnis. Selain itu, Grup perlu membuktikan adanya perubahan tersebut kepada pihak eksternal.

Subsequent Measurement (continued)

At the reporting dates, accrued interest expenses is recorded separately from the associated borrowings within the current liabilities section. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortization is included in finance expenses in profit or loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

Reclassification of Financial Instruments

The Group is allowed to reclassify the financial assets owned if the Group changes the business model for the management of financial assets and the Group is not allowed to reclassify the financial liabilities.

The changes in the business model should significantly impact the Group's operational activities such as acquiring, releasing or ending a line of business. In addition, the Group needs to prove the change to external parties.

Reklasifikasi Instrumen Keuangan (lanjutan)

Grup akan mereklasifikasi seluruh aset keuangan yang terkena dampak dari perubahan model bisnis. Perubahan tujuan model bisnis Grup harus berdampak sebelum tanggal reklasifikasi.

Yang bukan merupakan perubahan model bisnis adalah: (a) Perubahan intensi berkaitan dengan aset keuangan tertentu (bahkan dalam situasi perubahan signifikan dalam kondisi pasar), (b) Hilangnya sementara pasar tertentu untuk aset keuangan, dan (c) Pengalihan aset keuangan antara bagian dari Grup dengan model bisnis berbeda.

Saling Hapus Instrumen Keuangan

Aset keuangan dan liabilitas keuangan disalinghapuskan dan nilai netonya disajikan dalam laporan posisi keuangan jika Grup memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus atas jumlah yang telah diakui; dan berintensi untuk menyelesaikan secara neto atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan. Hak saling hapus harus ada pada saat ini daripada bersifat kontinjen atas terjadinya suatu peristiwa di masa depan dan harus dieksekusi oleh pihak lawan, baik dalam situasi bisnis normal dan dalam peristiwa gagal bayar, peristiwa kepailitan, atau kebangkrutan.

Pengukuran Nilai Wajar

Grup mengukur pada pengakuan awal instrumen keuangan pada nilai wajar, dan aset dan liabilitas yang diakuisisi pada kombinasi bisnis. Grup juga mengukur jumlah terpulihkan dari UPK tertentu berdasarkan nilai wajar dikurangi biaya pelepasan.

Reclassification of Financial Instruments (continued)

The Group will reclassify all financial assets impacted by changes in the business model. The changes of the Group's business model must have an impact before the reclassification date.

The following are not considered as change in business model: (a) the change of intention relates to certain financial assets (even in situations of significant changes in market conditions), (b) temporary loss of certain markets for financial assets, and (c) the transfer of financial assets between parts of the Group and different business models.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when the Group has a legally enforceable right to set off the recognized amounts; and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. A right to set-off must be available today rather than being contingent on a future event and must be exercisable by any of the counterparties, both in the normal course of business and in the event of default, insolvency, or bankruptcy.

Fair Value Measurement

The Group initially measures financial instruments at fair value, and assets and liabilities of the acquirees upon business combinations. It also measures certain recoverable amounts of the CGU using fair value less cost of disposal ("FVLCD").

Pengukuran Nilai Wajar (lanjutan)

Nilai wajar adalah harga yang akan diterima dari menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran. Pengukuran nilai wajar mengasumsikan bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

i. di pasar utama untuk aset atau liabilitas tersebut, atau
ii. jika tidak terdapat pasar utama, di pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

Pasar utama atau pasar yang paling menguntungkan tersebut harus dapat diakses oleh Grup.

Nilai wajar dari aset atau liabilitas diukur dengan menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset atau liabilitas tersebut, dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomi terbaiknya.

h. Kas dan setara kas

Kas dan setara kas terdiri dari kas dan bank serta deposito berjangka dengan jatuh tempo kurang dari tiga (3) bulan dan tidak digunakan sebagai jaminan atas pinjaman dan tidak dibatasi penggunaannya. Untuk kepentingan laporan arus kas konsolidasian, kas dan setara kas terdiri dari kas dan bank dan deposito berjangka sebagaimana didefinisikan di atas.

Kas yang dibatasi penggunaannya disajikan secara terpisah dari kas dan setara kas.

i. Persediaan

Persediaan diakui sebesar nilai yang lebih rendah antara biaya perolehan atau nilai realisasi neto. Biaya perolehan persediaan ditentukan dengan menggunakan metode biaya rata-rata yang meliputi seluruh biaya-biaya yang terjadi untuk memperoleh persediaan tersebut sampai ke lokasi dan kondisinya saat ini. Nilai realisasi neto persediaan adalah estimasi harga jual dalam kegiatan usaha biasa dikurangi estimasi biaya penyelesaian dan estimasi biaya untuk menjual.

Fair Value Measurement (continued)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

i. in the principal market for the asset or liability, or
ii. in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

h. Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and in banks, and short-term deposits with maturities within three (3) months or less and not pledged as collateral and are not restricted. For the purpose of the consolidated statements of cash flows, cash and cash equivalents consist of cash on hand and in banks and short-term deposits as defined above.

Restricted cash are presented separately from cash and cash equivalents.

i. Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is determined on the average cost method and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventory to its present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs to sale.

j. Aset biologis

Aset biologis terkait dengan hasil pertanian yang tumbuh pada tanaman produktif yang disebut sebagai Tandan Buah Segar ("TBS") dan dinyatakan dengan nilai wajar setelah dikurangi biaya untuk menjual. Keuntungan atau kerugian yang timbul dari perubahan dalam nilai wajar setelah dikurangi dengan taksiran biaya untuk menjual TBS pada setiap tanggal pelaporan diakui dalam laba rugi untuk periode saat terjadinya.

Nilai wajar aset biologis diperkirakan dengan mengacu pada jumlah panen yang diproyeksikan dan harga pasar TBS pada tanggal pelaporan, setelah dikurangi biaya transportasi, panen dan perkiraan biaya untuk menjual.

k. Aset tetap dan tanaman produktif

Tanaman produktif

Tanaman produktif dikelompokkan menjadi tanaman belum menghasilkan dan tanaman menghasilkan.

Tanaman belum menghasilkan

Seluruh biaya yang berhubungan dengan pengembangan perkebunan kelapa sawit milik Perusahaan (perkebunan) termasuk alokasi biaya tidak langsung, yang meliputi biaya umum dan administrasi untuk pengembangan tanaman belum menghasilkan, serta biaya pinjaman sehubungan dengan pinjaman yang digunakan untuk membiayai pengembangan perkebunan dikapitalisasi sampai produksi komersial telah dicapai. Biaya-biaya tersebut akan dipindahkan ke tanaman menghasilkan sejak produksi komersial dimulai.

Tanaman menghasilkan

Secara umum, tanaman kelapa sawit memerlukan jangka waktu sekitar 3 sampai 4 tahun sejak penanaman bibit di area perkebunan untuk menjadi tanaman menghasilkan. Jangka waktu untuk menjadi tanaman menghasilkan tergantung pada tingkat pertumbuhan tanaman dan penilaian manajemen.

Tanaman menghasilkan dicatat sebesar biaya perolehan dan diamortisasi selama dua puluh (20) tahun terhitung sejak produksi komersial dimulai.

j. Biological assets

Biological assets relate to agricultural produce growing on bearer plants which is referred to as Fresh Fruit Bunches ("FFB") and are stated at fair value less costs to sell. Gains or losses arising from the changes in fair value less estimated costs to sell of FFB at each reporting date are recognized in profit or loss for the period in which they arise.

The fair value of biological assets is estimated by reference to the projected harvest quantities and market price of FFB as at the reporting date, net of transportation, harvesting costs and estimated cost to sell.

k. Fixed assets and bearer plants

Bearer plants

Bearer plants are classified as immature plantations and mature plantations.

Immature plantations

All costs relating to the development of the oil palm plantations for the Company's own operations (plantations) together with a portion of indirect overheads, including general and administrative expenses and borrowing costs incurred in relation to loans used in financing for development of immature plantations are capitalized until commercial production is achieved. These costs will be transferred to mature plantations starting from the commencement of commercial production.

Mature plantations

In general, an palm oil plantation takes about 3 to 4 years to reach maturity from the time seedling is planted into the field. Actual time to maturity is dependent upon vegetative growth and is assessed by management.

Mature plantations are stated at cost and are amortized over the twenty (20) years starting from the commencement of commercial production.

Aset tetap

Seluruh aset tetap awalnya diakui sebesar biaya perolehan, yang terdiri atas harga perolehan dan biaya-biaya tambahan yang dapat diatribusikan langsung untuk membawa aset ke lokasi dan kondisi yang diinginkan supaya aset tersebut siap digunakan sesuai dengan maksud manajemen.

Setelah pengakuan awal, aset tetap, kecuali tanah, dinyatakan pada biaya perolehan dikurangi akumulasi penyusutan dan akumulasi rugi penurunan nilai.

Biaya perolehan termasuk biaya penggantian bagian aset tetap saat biaya tersebut terjadi, jika memenuhi kriteria pengakuan. Selanjutnya, jika dilakukan penggantian yang signifikan, biaya penggantian itu diakui ke dalam jumlah tercatat aset tetap sebagai suatu penggantian jika memenuhi kriteria pengakuan. Semua biaya pemeliharaan dan perbaikan yang tidak memenuhi kriteria pengakuan diakui dalam laporan laba rugi komprehensif konsolidasian.

Tanah dicatat sebesar biaya perolehan dan tidak didepresiasi.

Suatu kelompok aset tetap adalah pengelompokan aset-aset yang memiliki sifat dan kegunaan yang serupa dalam operasi entitas.

Penyusutan aset tetap dimulai pada saat aset tersebut siap untuk digunakan sesuai maksud penggunaannya dan dihitung dengan menggunakan metode garis lurus berdasarkan estimasi umur manfaat ekonomi dan tarif depresiasi sebagai berikut:

k. Fixed assets and bearer plants (continued)

Fixed assets

All fixed assets are initially recognized at cost, which comprises its purchase price and any costs directly attributable in bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent to initial recognition, fixed assets, except for land, are carried at cost less any subsequent accumulated depreciation and impairment losses.

Cost includes the cost of replacing part of the fixed assets when that cost is incurred, if the recognition criteria are met. Likewise, when a major replacement is performed, its cost is recognized in the carrying amount of the fixed assets as a replacement if the recognition criteria are satisfied. All other repairs and maintenance costs that do not meet the recognition criteria are recognized in the consolidated statement of comprehensive income.

Land is stated at cost and is not depreciated.

A class of fixed assets is a grouping of asset of a similar nature and use in an entity's operations.

Depreciation of a fixed asset starts when it is available for use and is computed using the straight line method based on the estimated useful lives and depreciation rate of the assets as follows:

	Estimasi umur manfaat (tahun)/ *Estimated useful lives (years)*	**Tarif/ *Rate***	
Bangunan	10 - 20	5,00% - 10,00%	*Buildings*
Prasarana	10	10,00%	*Infrastructures*
Kendaraan dan alat berat	5	20,00%	*Vehicles and heavy equipment*
Mesin dan peralatan	8	12,50%	*Machinery and equipment*
Perabotan dan perlengkapan kantor	5	20,00%	*Furniture and fixtures*

Aset tetap (lanjutan)

Aset dalam penyelesaian merupakan akumulasi biaya bahan dan biaya relevan lainnya sampai dengan tanggal dimana aset tersebut telah selesai dan siap untuk digunakan. Biaya-biaya tersebut direklasifikasi ke aset tetap yang bersangkutan ketika aset tersebut telah siap dipakai.

Aset tetap dihentikan pengakuannya pada saat dilepaskan atau saat tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Keuntungan atau kerugian yang timbul dari penghentian pengakuan aset (dihitung sebagai perbedaan antara hasil neto pelepasan dan jumlah tercatat dari aset) dimasukkan dalam laba rugi pada tahun aset tersebut dihentikan pengakuannya.

Pada setiap akhir tahun buku, nilai residu, umur manfaat dan metode penyusutan ditelaah kembali, dan jika sesuai dengan keadaan, disesuaikan secara prospektif.

l. Biaya pinjaman

Biaya pinjaman yang dapat diatribusikan langsung dengan perolehan, pembangunan, atau pembuatan aset kualifikasian dikapitalisasi sebagai bagian biaya perolehan aset tersebut. Biaya pinjaman lainnya diakui sebagai beban pada saat terjadi. Biaya pinjaman terdiri dari biaya bunga dan biaya keuangan lain yang ditanggung Grup sehubungan dengan peminjaman dana.

Kapitalisasi biaya pinjaman dimulai pada saat aktivitas yang diperlukan untuk mempersiapkan aset agar dapat digunakan sesuai dengan maksudnya sedang terjadi serta pengeluaran untuk aset kualifikasian dan biaya pinjaman telah terjadi. Kapitalisasi biaya pinjamannya dihentikan pada saat selesainya secara substansi seluruh aktivitas yang diperlukan untuk mempersiapkan aset kualifikasian agar dapat digunakan sesuai dengan maksudnya.

Fixed assets (continued)

Construction in progress represents the accumulated costs of materials and other relevant costs up to the date when the asset is complete and ready for service. These costs are reclassified to the respective fixed asset accounts when the asset has been made ready for use.

An item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included as profit or loss in the year the asset is derecognized.

The asset's residual values, useful lives and methods of depreciation are reviewed, and adjusted prospectively if appropriate, at each financial year end.

l. Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of the related asset. Otherwise, borrowing costs are recognized as expenses when incurred. Borrowing costs consist of interests and other financing charges that the Group incurs in connection with the borrowing of funds.

Capitalization of borrowing costs commences when the activities to prepare the qualifying asset for its intended use are in progress and the expenditures for the qualifying assets and the borrowing costs have been incurred. Capitalization of borrowing costs ceases when substansially all the activities necessary to prepare the qualifying assets are substantially completed for their intended use.

m. Piutang plasma

Entitas-entitas anak tertentu dalam Grup (secara bersama-sama disebut sebagai "Perusahaan Inti"), memiliki komitmen dengan beberapa Koperasi Unit Desa ("KUD") yang mewadahi petani plasma untuk mengembangkan perkebunan plasma sebagaimana diwajibkan oleh pemerintah Indonesia.

Pembiayaan atas pengembangan perkebunan plasma ini diperoleh melalui pinjaman dari bank, sedangkan Perusahaan Inti memberikan tambahan pinjaman sementara untuk membantu para petani plasma membayar pokok pinjaman beserta bunga sementara perkebunan plasma belum mencapai tahap produktif. Perusahaan Inti memberikan jaminan perusahaan (*corporate guarantee*) untuk fasilitas pinjaman terkait yang diperoleh dari bank. Piutang plasma yang disajikan dalam laporan posisi keuangan konsolidasian terdiri atas akumulasi biaya-biaya pengembangan yang untuk sementara ditalangi oleh Perusahaan Inti kepada KUD atau petani plasma.

Piutang plasma diklasifikasikan sebagai aset keuangan pada biaya perolehan diamortisasi sesuai dengan PSAK 109 "Instrumen Keuangan". Kebijakan akuntansi lebih lanjut atas piutang plasma diungkapkan pada bagian "Instrumen Keuangan" dari Catatan ini.

n. Penurunan nilai aset non-keuangan

Pada setiap akhir periode pelaporan, Grup menilai apakah terdapat indikasi suatu aset mengalami penurunan nilai. Jika terdapat indikasi tersebut atau pada saat pengujian tahunan atas penurunan nilai aset tertentu (yaitu aset tak berwujud dengan umur manfaat tidak terbatas, aset tak berwujud yang belum dapat digunakan, atau *goodwill* yang diperoleh dalam suatu kombinasi bisnis) diperlukan, maka Grup membuat estimasi atas jumlah terpulihkan aset tersebut.

Jumlah terpulihkan suatu aset adalah jumlah yang lebih tinggi antara nilai wajar dari aset atau Unit Penghasil Kas ("UPK") tersebut dikurangi biaya untuk menjual, dan nilai pakainya, dan nilai tersebut ditentukan untuk aset individual, kecuali aset tersebut tidak menghasilkan arus kas masuk yang sebagian besar independen dari aset lainnya atau kelompok aset lain.

m. Plasma receivables

Certain subsidiaries within the Group (collectively referred to as the "Nucleus Companies"), have commitments with several rural cooperatives ("KUD" or Koperasi Unit Desa) representing plasma farmers to develop plantations as required by the Indonesian government.

The financing of these plasma plantations are mainly provided by the banks while the Nucleus Companies provide additional temporary loans to help the plasma farmers repay the principal and interest while the plasma plantations are not yet at productive stage. The Nucleus Companies provide corporate guarantees to the related credit facilities provided by the banks. The plasma receivables presented in the consolidated statement of financial position consist of accumulated development costs are temporarily bailed by the Nucleus Companies to the KUD or plasma farmers.

Plasma receivables are classified as financial assets at amortized cost under PSAK 109 "Financial Instruments". Further accounting policies on plasma receivables are disclosed in "Financial Instruments" section of this Note

n. Impairment of non-financial assets

The Group assesses at each annual reporting period whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset (i.e., an intangible asset with an indefinite useful life, an intangible asset not yet available for use, or goodwill acquired in a business combination) is required, the Group makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of the asset's or Cash Generating Unit ("CGU")'s fair value less costs to sell and its value in use, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

n. Penurunan nilai aset non-keuangan (lanjutan)

Jika nilai tercatat aset lebih besar dari nilai terpulihkannya, maka aset tersebut dianggap mengalami penurunan nilai dan nilai tercatat aset tersebut diturunkan menjadi sebesar nilai terpulihkan. Kerugian penurunan nilai dari operasi yang berkelanjutan, jika ada, diakui dalam laba rugi sesuai dengan kategori biaya yang konsisten dengan fungsi dari aset yang diturunkan nilainya. Dalam menghitung nilai pakai, estimasi arus kas masa depan neto didiskontokan ke nilai kini dengan menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini dari nilai waktu uang dan risiko spesifik atas aset.

Untuk aset selain *goodwill*, penilaian dilakukan pada akhir setiap tanggal pelaporan apakah terdapat indikasi bahwa rugi penurunan nilai yang telah diakui dalam periode sebelumnya mungkin tidak ada lagi atau mungkin telah menurun. Jika indikasi dimaksud ditemukan, maka entitas mengestimasi jumlah terpulihkan aset tersebut. Kerugian penurunan nilai yang telah diakui dalam periode sebelumnya untuk aset selain *goodwill* dibalik hanya jika terdapat perubahan asumsi-asumsi yang digunakan untuk menentukan jumlah terpulihkan aset tersebut sejak rugi penurunan nilai terakhir diakui. Dalam hal ini, jumlah tercatat aset dinaikkan ke jumlah terpulihkannya.

Pembalikan tersebut dibatasi sehingga jumlah tercatat aset tidak melebihi jumlah terpulihkannya maupun jumlah tercatat, neto setelah penyusutan, seandainya tidak ada rugi penurunan nilai yang telah diakui untuk aset tersebut pada tahun sebelumnya.

Pembalikan rugi penurunan nilai diakui dalam laba rugi. Setelah pembalikan tersebut, penyusutan aset tersebut disesuaikan di periode mendatang untuk mengalokasikan jumlah tercatat aset yang direvisi, dikurangi nilai sisanya, dengan dasar yang sistematis selama sisa umur manfaatnya.

o. Sewa

Grup menerapkan PSAK No. 116 yang mensyaratkan pengakuan liabilitas sewa sehubungan dengan sewa yang sebelumnya diklasifikasikan sebagai 'sewa operasi'.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

n. Impairment of non-financial assets (continued)

Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses of continuing operations, if any, are recognized in profit or loss in those expense categories consistent with the function of the impaired asset. In assessing the value in use, the estimated net future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For assets excluding goodwill, an assessment is made at each reporting dates as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss for an asset other than goodwill is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount.

The reversal is limited so that the carrying amount of the assets does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior year.

Reversal of an impairment loss is recognized in profit or loss. After such a reversal, the depreciation charge on the said asset is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

o. Lease

The Group has adopted PSAK No. 116, which sets the requirement for recognition of lease liabilities in relation to leases which had previously been classified as 'operating leases'.

2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI YANG MATERIAL (lanjutan)

o. Sewa (lanjutan)

Pada tanggal permulaan kontrak, Grup menilai apakah kontrak merupakan, atau mengandung, sewa. Suatu kontrak merupakan atau mengandung sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan aset identifikasian selama suatu jangka waktu untuk dipertukarkan dengan imbalan.

Untuk menilai apakah kontrak memberikan hak untuk mengendalikan penggunaan aset identifikasian, Grup mempertimbangkan apakah:

- Grup memiliki hak untuk mendapatkan secara subtansial seluruh manfaat ekonomi dari penggunaan aset identifikasian; dan
- Grup memiliki hak untuk mengarahkan penggunaan aset identifikasian. Grup memiliki hak ini ketika Grup memiliki hak untuk pengambilan keputusan yang relevan tentang penentuan bagaimana dan untuk tujuan apa aset digunakan telah ditentukan sebelumnya dan:
  1. Grup memiliki hak untuk mengoperasikan aset; atau
  2. Grup telah mendesain aset dengan cara menetapkan sebelumnya bagaimana dan untuk tujuan apa aset akan digunakan selama periode penggunaan.

Pada tanggal insepsi atau pada penilaian kembali atas kontrak yang mengandung sebuah komponen sewa, Grup mengalokasikan imbalan dalam kontrak ke masing-masing komponen sewa berdasarkan harga tersendiri relatif dari komponen sewa dan harga tersendiri agregat dari komponen non-sewa.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

o. Lease (continued)

At the inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Group considers whether:

- *The Group has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use; and*
- *The Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are the most relevant to changing the determination of how and for what purpose the asset is used and:*
  1. *The Group has the right to operate the asset; or*
  2. *The Group has designed the asset in a way that predetermines how and for what purpose it will be used.*

At the inception date or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone prices and the aggregate stand-alone price of the non-lease components.

2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI YANG MATERIAL (lanjutan)

o. Sewa (lanjutan)

Pada tanggal permulaan sewa, Grup mengakui aset hak-guna dan liabilitas sewa. Aset hak guna diukur pada biaya perolehan, dimana meliputi jumlah pengukuran awal liabilitas sewa yang disesuaikan dengan pembayaran sewa yang dilakukan pada atau sebelum tanggal permulaan, ditambah dengan biaya langsung awal yang dikeluarkan dan estimasi biaya yang akan dikeluarkan untuk membongkar dan memindahkan aset pendasar atau untuk merestorasi aset pendasar ke kondisi yang disyaratkan dan ketentuan sewa, dikurangi dengan insentif sewa yang diterima.

Aset hak guna kemudian disusutkan menggunakan metode garis lurus dari tanggal permulaan hingga tanggal yang lebih awal antara akhir umur manfaat aset hak-guna atau akhir masa sewa.

Liabilitas sewa diukur pada nilai kini pembayaran sewa yang belum dibayar pada tanggal permulaan, didiskontokan dengan menggunakan suku bunga implisit dalam sewa atau jika suku bunga tersebut tidak dapat ditentukan, maka menggunakan suku bunga pinjaman inkremental. Pada umumnya, Grup menggunakan suku bunga pinjaman inkremental sebagai tingkat bunga diskonto.

Pembayaran sewa yang termasuk dalam pengukuran liabilitas sewa meliputi pembayaran tetap, termasuk pembayaran tetap secara substansi dikurangi dengan piutang insentif sewa.

Setiap pembayaran sewa dialokasikan sebagai beban keuangan dan pengurangan liabilitas sehingga menghasilkan tingkat suku bunga yang konstan atas saldo liabilitas yang tersisa.

Pembayaran yang terkait dengan sewa guna usaha jangka pendek dan sewa guna aset bernilai rendah diakui berdasarkan basis garis lurus sebagai beban dalam laporan laba rugi. Sewa jangka pendek adalah sewa dengan jangka waktu sewa hingga 12 bulan.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

o. Lease (continued)

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payment made at or before the commencement date, plus any initial direct cost incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset to the condition required by the terms and conditions of the lease, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using the incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise fixed payments, including in-substance fixed payments less any lease incentive receivable.

Each lease payment is allocated between finance charges and reduction of the lease liability so as to achieve a constant rate on the finance balance outstanding.

Payments associated with short-term leases and leases of low-value assets are recognized on a straight-line basis as an expense in the statements of profit or loss. Short-term leases are leases with a lease term up to 12 months.

p. Pajak penghasilan badan

Pajak Final

Peraturan perpajakan di Indonesia mengatur beberapa jenis penghasilan dikenakan pajak yang bersifat final. Pajak final yang dikenakan atas nilai bruto transaksi tetap dikenakan walaupun atas transaksi tersebut pelaku transaksi mengalami kerugian.

Pajak final tidak termasuk dalam lingkup yang diatur oleh PSAK No. 212. Oleh karena itu, Grup memutuskan untuk menyajikan beban pajak final sehubungan dengan penghasilan sewa tanah dan pendapatan bunga dari bank sebagai pos tersendiri.

Perbedaan antara nilai tercatat dari aset revaluasian dan dasar pengenaan pajak merupakan perbedaan termporer sehingga menimbulkan liabilitas atau aset pajak tangguhan, kecuali untuk aset tertentu seperti tanah yang pada saat realisasinya dikenakan pajak final yang dikenakan atas nilai bruto transaksi.

Pajak Kini

Aset dan liabilitas pajak kini untuk tahun berjalan diukur sebesar jumlah yang diharapkan dapat direstitusi dari atau dibayarkan kepada otoritas perpajakan.

Beban pajak kini ditentukan berdasarkan laba kena pajak tahun berjalan yang dihitung berdasarkan tarif pajak yang berlaku.

Kekurangan/kelebihan pembayaran pajak penghasilan dicatat sebagai bagian dari "Beban Pajak Kini" dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Grup juga menyajikan bunga/denda, jika ada, sebagai bagian dari "Beban Pajak Kini".

Koreksi terhadap liabilitas perpajakan diakui pada saat surat ketetapan pajak diterima atau, jika diajukan keberatan, pada saat keputusan atas keberatan ditetapkan.

p. Corporate income tax

Final Tax

Tax regulation in Indonesia determined that certain taxable income is subject to final tax. Final tax applied to the gross value of transaction is applied even when the parties carrying the transaction recognize losses.

Final tax is no longer governed by PSAK No. 212. Therefore, the Group has decided to present all of the final tax arising from land rent revenue and interest income from banks as separate line item.

The difference between the carrying amount of a revalued asset and its tax base is a temporary difference and gives rise to a deferred tax liability or asset, except for certain asset such as land, which realization is taxed with final tax on gross value of transaction.

Current Tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authority.

Current tax expense is determined based on the taxable profit for the year computed using the prevailing tax rates.

Underpayment/overpayment of income tax is presented as part of "Tax Expense - Current" in the consolidated statements of profit or loss and other comprehensive income. The Group also presented interest/penalty, if any, as part of "Tax Expense - Current".

Amendments to tax obligations are recorded when a tax assessment letter is received or, if appealed against, when the result of the appeal is determined.

Pajak Kini (lanjutan)

Sebagai tanggapan terhadap penerapan kerangka Pilar 2 Organisasi untuk Kerja Sama dan Pembangunan Ekonomi (Organisation for Economic Co-operation and Development atau "OECD"), pada tanggal 31 Desember 2024, Pemerintah Indonesia menetapkan aturan kerangka Pilar 2 (Pilar 2") melalui Peraturan Menteri Keuangan No. 136/2024 (PMK 136/2024). Pilar 2 sesuai PMK 136/2024 akan berlaku untuk tahun fiskal yang dimulai pada atau setelah tanggal 1 Januari 2025. Untuk tahun yang berakhir pada 31 Desember 2025, Grup telah menerapkan amandemen PSAK 212: Pajak Penghasilan, yang memberikan pengecualian wajib sementara dari pengakuan atau pengungkapan pajak tangguhan terkait Pilar 2. PMK 136/2024 menerapkan mekanisme perpajakan baru yang mensyaratkan Perusahaan Multinasional ("PMN") untuk membayar pajak tambahan pada yurisdiksi tertentu ketika tarif pajak efektif yang ditentukan per yurisdiksi menurut Pilar 2 lebih rendah dari tarif minimum 15%.

Pajak Tangguhan

Aset dan liabilitas pajak tangguhan diakui menggunakan metode liabilitas atas konsekuensi pajak pada masa mendatang yang timbul dari perbedaan jumlah tercatat aset dan liabilitas menurut laporan keuangan konsolidasian dengan dasar pengenaan pajak aset dan liabilitas pada setiap tanggal pelaporan. Liabilitas pajak tangguhan diakui untuk semua perbedaan temporer kena pajak dan aset pajak tangguhan diakui untuk perbedaan temporer yang boleh dikurangkan dan akumulasi rugi fiskal, sepanjang besar kemungkinan perbedaan temporer yang boleh dikurangkan dan akumulasi rugi fiskal tersebut dapat dimanfaatkan untuk mengurangi laba kena pajak pada masa depan.

p. Corporate income tax (continued)

Current Tax (continued)

In response to the implementation of the Organisation for Economic Co-operation and Development ("OECD") Pillar 2 framework rule ("Pillar 2"), on December 31, 2024, Indonesian Government implemented Pillar 2 framework through Ministry of Finance Regulation No. 136/2024 (PMK 136/2024). The Pillar 2 model rules as implemented under PMK 136/2024 will take effect for fiscal years beginning on or after January 1, 2025. For the year ended December 31, 2025, the Group has applied amendments to PSAK 212: Income Taxes, which provide mandatory temporary exception from recognizing or disclosing deferred taxes related to Pillar 2. PMK 136/2024 applies new taxing mechanisms under which a Multinational Enterprises ("MNE") should pay a top-up tax in a jurisdiction whenever their efective tax rate, determined on a jurisdictional basis under the Pillar 2, is below a 15% minimum rate.

Deferred Tax

Deferred tax assets and liabilities are recognized using the liability method for the future tax consequences attributable to differences between the carrying amounts of existing assets and liabilities in the consolidated financial statements and their respective tax bases at each reporting date. Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for deductible temporary differences and accumulated fiscal losses to the extent that it is probable that taxable profit will be available in future years against which the deductible temporary differences and accumulated fiscal losses can be utilized.

p. Pajak penghasilan badan (lanjutan)

Pajak Tangguhan (lanjutan)

Jumlah tercatat aset pajak tangguhan ditelaah ulang pada akhir setiap periode pelaporan dan diturunkan apabila laba fiskal mungkin tidak memadai untuk mengkompensasi sebagian atau semua manfaat aset pajak tangguhan tersebut. Pada akhir setiap periode pelaporan, Grup menilai kembali aset pajak tangguhan yang tidak diakui. Grup mengakui aset pajak tangguhan yang sebelumnya tidak diakui apabila besar kemungkinan bahwa laba fiskal pada masa depan akan tersedia untuk pemulihannya.

Pajak tangguhan dihitung dengan menggunakan tarif pajak yang berlaku atau secara substansial telah berlaku pada tanggal pelaporan. Perubahan nilai tercatat aset dan liabilitas pajak tangguhan yang disebabkan oleh perubahan tarif pajak dibebankan pada usaha periode berjalan, kecuali untuk transaksi-transaksi yang sebelumnya telah langsung dibebankan atau dikreditkan ke ekuitas.

Aset dan liabilitas pajak tangguhan disajikan secara saling hapus dalam laporan posisi keuangan konsolidasian, kecuali aset dan liabilitas pajak tangguhan untuk entitas yang berbeda, sesuai dengan penyajian aset dan liabilitas pajak kini.

q. Provisi

Provisi diakui jika Grup memiliki liabilitas kini (baik bersifat hukum maupun bersifat konstruktif) yang akibat peristiwa masa lalu besar kemungkinannya penyelesaian liabilitas tersebut mengakibatkan arus keluar sumber daya yang mengandung manfaat ekonomi dan estimasi yang andal mengenai jumlah liabilitas tersebut dibuat.

Provisi ditelaah pada setiap akhir periode pelaporan dan disesuaikan untuk mencerminkan estimasi kini terbaik. Jika tidak terdapat kemungkinan arus keluar sumber daya yang mengandung manfaat ekonomi untuk menyelesaikan liabilitas tersebut, provisi dibatalkan.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

p. Corporate income tax (continued)

Deferred Tax (continued)

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized. At the end of each reporting period, the Group reassesses unrecognized deferred tax assets. The Group recognizes a previously unrecognized deferred tax assets to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax is calculated at the tax rates that have been enacted or substantively enacted at the reporting date. Changes in the carrying amount of deferred tax assets and liabilities due to a change in tax rates are charged to current period operations, except to the extent that they relate to items previously charged or credited to equity.

Deferred tax assets and liabilities are offset in the consolidated statements of financial position, except if they are for different legal entities, consistent with the presentation of current tax assets and liabilities.

q. Provision

Provisions are recognized when the Group has a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

r. Liabilitas imbalan kerja karyawan

Imbalan kerja jangka pendek

Imbalan kerja jangka pendek adalah imbalan kerja yang jatuh tempo dalam jangka waktu dua belas bulan setelah akhir periode pelaporan dan diakui pada saat pekerja telah memberikan jasa kerjanya.

Imbalan kerja jangka panjang

Grup mencatat liabilitas imbalan kerja karyawan jangka panjang untuk memenuhi dan menutup imbalan minimum yang harus dibayar kepada karyawan sesuai dengan Undang-undang No. 6 tahun 2023 ("UUCK") dan Peraturan Perusahaan (PP)/Peraturan Kerja Bersama (PKB). Liabilitas tersebut diestimasi dengan menggunakan perhitungan aktuarial dengan metode "*Projected Unit Credit*".

Grup mengakui keseluruhan keuntungan atau kerugian aktuaria sebagai bagian dari cadangan lainnya (metode penghasilan komprehensif lain) di dalam periode terjadinya. Biaya jasa lalu diakui seketika di dalam laba rugi.

Grup mengakui laba atau rugi dari kurtailmen pada saat kurtailmen terjadi, yaitu apabila terdapat komitmen untuk melakukan pengurangan material terhadap jumlah karyawan yang ditanggung oleh suatu program atau apabila terdapat perubahan terhadap ketentuan-ketentuan pada suatu program imbalan pasti, dimana bagian yang material untuk jasa yang diberikan oleh karyawan pada masa depan tidak lagi memberikan suatu imbalan, atau memberikan imbalan yang lebih rendah. Laba atau rugi penyelesaian diakui apabila terdapat transaksi yang menghapuskan semua kewajiban hukum atau konstruktif atas seluruh imbalan dalam program manfaat pasti. Keuntungan atau kerugian kurtailmen terdiri dari perubahan yang terjadi dalam nilai kini dari liabilitas dan keuntungan atau kerugian aktuarial dan biaya jasa lalu yang belum diakui sebelumnya.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

r. Employee benefits liabilities

Short-term employee benefits

Short-term employee benefits are employee benefit which are due for payment within twelve months after the end of reporting period and recognized when the employees have rendered their service.

Long-term employee benefits

The Group recognizes long-term employee benefits liabilities in order to meet and cover the minimum benefits required to be paid to the qualified employees under the Indonesian Law No. 6 year 2023 ("UUCK") and the Company's Requlation (PP)/Collective Labor Agreement (PKB). The liabilities are estimated using actuarial calculations using the "Projected Unit Credit" method.

The Group recognizes all actuarial gains and losses as other reserves (other comprehensive income method) in the period in which they arise. Past service costs are directly charged to profit or loss.

The Group recognizes gains or losses on the curtailment when the curtailment occurs, that is when there is a commitment to make a material reduction in the number of employees covered by a plan or when there is an amendment of the defined benefit plan terms such that a material element of future services to be provided by current employees will no longer qualify for benefits or will qualify only for reduced benefits. The gain or loss on settlement recognized when there is a transaction that eliminates all further legal or constructive obligation for part or all of the benefits provided under a defined benefit plan. The gain or loss on curtailment comprises any resulting change in present value of the obligations and any related actuarial gains and losses and past service cost that had not previously been recognized.

s. Pendapatan dari kontrak dengan pelanggan

Grup merupakan produsen dan penjual CPO dan turunannya, seperti minyak. Pendapatan dari kontrak dengan pelanggan diakui ketika pengendalian atas barang dialihkan kepada pelanggan pada suatu jumlah yang mencerminkan imbalan yang diharapkan Perusahaan sebagai imbalan atas barang tersebut. Secara umum, Perusahaan menyimpulkan bahwa mereka bertindak sebagai prinsipal dalam pengaturan pendapatannya.

Kontrak-kontrak dengan pelanggan-pelanggan tertentu dalam segmen bisnisnya mensyaratkan imbalan variabel.

Grup mengestimasi imbalan variabel berupa hak retur dan potongan harga, menggunakan metode nilai ekspektasian yang dikembangkan berdasarkan pengalaman historis, atau metode jumlah yang paling mungkin yang dikembangkan berdasarkan pengalaman historis dengan mempertimbangkan juga pola pembelian saat ini.

Manajemen menetapkan metode estimasi untuk memastikan imbalan variabel yang kemungkinan terjadinya sangat tinggi sebagai salah satu faktor yang diperhitungkan dalam estimasi sehingga pembalikan signifikan atas jumlah pendapatan kumulatif yang telah diakui tidak akan terjadi pada saat ketidakpastian yang terkait dengan imbalan variabel tersebut terselesaikan dikemudian waktu. Sedangkan pengakuan dilakukan pada saat dokumen-dokumen pendukung telah diterima dari pelanggan-pelanggan.

Piutang usaha merupakan hak Grup atas sejumlah imbalan yang tidak bersyarat (yaitu, hanya berlalunya waktu yang perlu terjadi sebelum pembayaran imbalan tersebut jatuh tempo). Lihat kebijakan akuntansi aset keuangan di bagian Instrumen Keuangan mengenai pengakuan awal dan pengukuran selanjutnya.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

s. Revenue from contracts with customers

The Group is vertically-integrated producer and seller of CPO and it's derivatives, such as edible oils. Revenue from contracts with customers is recognized when control of the goods are transferred to the customers at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods. The Company has generally concluded that it is the principal in its revenue arrangements.

Certain contracts with customers within the respective business segments give rise to variable considerations.

The Group estimates the variable considerations such as right of return and discount, using expected value developed based on historical experience or using most likely amount developed based on historical experience taking into account also current purchasing patterns.

The management established estimation method that ensure inclusion of this variable consideration only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved. Meanwhile, the recognition is made when supporting documents have been received from customers.

Trade receivables represent the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instruments section regarding initial recognition and subsequent measurement.

w. Share issuance costs

Share issuance costs are presented as a deduction from the additional paid-in capital in the equity section in the consolidated statements of financial position.

x. Operating segment

An operating segment is a component of an entity:

(a) that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses related to transactions with other components of the same entity);

(b) whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and;

(c) for which discrete financial information is available.

An operating segment may engage in business activities for which it has yet to earn revenues, for example, start-up operating may be operating segments before earning revenues.

y. Investasi pada entitas asosiasi

Entitas asosiasi adalah seluruh Perusahaan di mana Grup memiliki pengaruh signifikan namun bukan pengendali, biasanya melalui kepemilikan hak suara, baik secara langsung maupun tidak langsung, lebih dari 20% hak suara. Investasi pada entitas asosiasi dicatat dengan metode ekuitas dan pada awalnya diakui sebesar harga perolehan. Investasi Grup pada entitas asosiasi tersebut termasuk Goodwill yang diidentifikasi ketika akuisisi, dikurangi rugi penurunan nilai.

Bagian Grup atas laba atau rugi entitas asosiasi pasca-akuisisi, diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Bagian atas mutasi penghasilan komprehensif lain pasca-akuisisi, diakui didalam penghasilan komprehensif lain. Mutasi penghasilan komprehensif lain pasca-akuisisi disesuaikan terhadap nilai tercatat investasinya. Jika bagian Grup atas kerugian entitas asosiasi sama dengan atau melebihi kepentingannya pada entitas asosiasi, maka investasi dilaporkan nihil.

Keuntungan dan kerugian dilusi yang timbul dari investasi pada entitas asosiasi diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Keuntungan yang belum direalisasi atas transaksi antara Grup dengan entitas asosiasinya dieliminasi sebesar kepentingan Grup pada entitas asosiasi. Kerugian yang belum direalisasi, jika ada, juga dieliminasi kecuali terjadi penurunan nilai atas aset yang dialihkan.

3. PERTIMBANGAN, ESTIMASI DAN ASUMSI YANG SIGNIFIKAN

Penyusunan laporan keuangan konsolidasian berdasarkan Standar Akuntansi Keuangan di Indonesia mewajibkan manajemen untuk membuat estimasi dan asumsi yang mempengaruhi jumlah-jumlah yang dilaporkan dalam laporan keuangan konsolidasian. Sehubungan dengan adanya ketidakpastian yang melekat dalam membuat estimasi, hasil sebenarnya yang dilaporkan di masa mendatang dapat berbeda dengan jumlah estimasi yang dibuat.

y. Investments in associated entities

Associated entities are all entities which the Group has significant influence but not control, generally accompanying a direct or indirect shareholding more than 20% of the voting rights. Investments in associated entities are accounted for using the equity method of accounting and are initially recognized at cost. The Group's investments in associates includes goodwill identified on acquisition, net of impairment loss.

The Group's share of their associates post-acquisition profits or losses is recognized in the consolidated statement of profit or loss and other comprehensive income and their share of post-acquisition movement in other comprehensive income is recognized as other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate exceed its interest in the associates, the investment is reported at zero value.

Dilution gains and losses arising on investments in associates are recognized in the consolidated statement of profit or loss and other comprehensive income.

Unrealized gains on transactions between the Group and their associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses, if any, are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the consolidated financial statements in conformity with Indonesian Financial Accounting Standards requires management to make estimations and assumptions that affect amounts reported therein. Due to the inherent uncertainty in making estimates, actual results reported in future periods might differ from those estimates.

Pertimbangan

Pertimbangan berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi Grup yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan konsolidasian:

Sewa

Grup mempunyai perjanjian-perjanjian sewa dimana Grup bertindak sebagai *lessee* untuk beberapa aset tetap tertentu. Grup mengevaluasi apakah terdapat risiko dan manfaat yang signifikan dari aset sewa yang dialihkan berdasarkan PSAK No. 116, "Sewa", yang mensyaratkan Grup untuk membuat pertimbangan dan estimasi dari pengalihan risiko dan manfaat terkait dengan kepemilikan aset.

Grup mengadakan perjanjian sewa kendaraan dan alat berat tertentu. Grup telah menentukan, berdasarkan evaluasi atas syarat dan ketentuan dalam perjanjian, bahwa secara substansial seluruh risiko dan manfaat yang terkait dengan kepemilikan aset yang disewa dialihkan kepada Grup sehingga perjanjian sewa tersebut diakui sebagai sewa pembiayaan. Penjelasan lebih lanjut diungkapkan dalam Catatan 12.

Tagihan dan keberatan atas hasil pemeriksaan Pajak

Berdasarkan peraturan perpajakan yang berlaku saat ini, manajemen mempertimbangkan apakah jumlah yang tercatat dalam akun di atas dapat dipulihkan dan direstitusi oleh Otoritas Pajak. Penjelasan lebih rinci diungkapkan dalam Catatan 20.

Estimasi dan asumsi

Asumsi utama masa depan dan sumber utama estimasi ketidakpastian lain pada akhir periode pelaporan yang memiliki risiko signifikan bagi penyesuaian yang material terhadap nilai tercatat aset dan liabilitas untuk tahun finansial berikutnya, diungkapkan di bawah ini. Grup mendasarkan asumsi dan estimasi pada parameter yang tersedia pada saat laporan keuangan konsolidasian disusun. Asumsi dan situasi mengenai perkembangan masa depan mungkin berubah akibat perubahan pasar atau situasi di luar kendali Grup. Perubahan tersebut dicerminkan dalam asumsi terkait pada saat terjadinya.

Judgments

The following judgments are made by management in the process of applying the Group's accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements:

Lease

The Group has entered into lease agreements where the Group acts as a lessee for a certain fixed assets. The Group evaluates whether there are significant risks and rewards of assets transferred under PSAK No. 116, "Leases", which requires the Group to make judgments and estimates of the transfer of risks and rewards incidental to ownership.

The Group entered into a lease of certain vehicles and heavy equipment. The Group had determined, based on an evaluation of the terms and conditions of the agreement, that substantially all the risks and rewards incidental to ownership of these leased assets are transferred to the Group, therefore the lease agreement are recognized as a finance lease. Further details are disclosed in Note 12.

Claims for tax refund and tax assessments under appeal

Based on tax regulations currently enacted, the management judged if the amounts recorded under the above account are recoverable and refundable by the Tax Authorities. Further details are disclosed in Note 20.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are disclosed below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing assumptions and circumstances about future developments, may change due to market changes or circumstances arising beyond the control of the Group. That changes are reflected in the assumptions as it occur.

Estimasi dan asumsi (lanjutan)

Pajak penghasilan badan

Pertimbangan signifikan dilakukan dalam menentukan provisi atas pajak penghasilan badan. Terdapat transaksi dan perhitungan tertentu yang penentuan pajak akhirnya adalah tidak pasti sepanjang kegiatan usaha normal. Grup mengakui liabilitas atas pajak penghasilan badan berdasarkan estimasi apakah akan terdapat tambahan pajak penghasilan badan. Penjelasan lebih rinci diungkapkan dalam Catatan 20h.

Ketidakpastian eksposur pajak

Dalam keadaan tertentu, Grup mungkin tidak dapat menentukan jumlah yang tepat atas kewajiban pajak sekarang atau akan datang karena investigasi yang masih berlangsung oleh otoritas perpajakan. Ketidakpastian terjadi karena adanya interpretasi atas peraturan pajak yang kompleks, saat pengenaan dan jumlah pendapatan kena pajak yang akan datang.

Dalam menentukan jumlah yang diakui atas ketidakpastian kewajiban pajak, Grup menerapkan pertimbangan yang sama seperti dalam menentukan provisi yang diakui sesuai dengan PSAK No. 237, "Provisi, Liabilitas Kontinjensi dan Aset Kontinjensi" dan ISAK No. 123, "Ketidakpastian dalam Perlakuan Pajak Penghasilan". Grup membuat analisa atas semua posisi pajak yang berhubungan dengan pajak pendapatan untuk menentukan diakui atau tidaknya kewajiban pajak atau manfaat pajak yang belum diakui.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Estimates and assumptions (continued)

Corporate income tax

Significant judgement is involved in determining provision for corporate income tax. There are certain transactions and computation for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognizes liabilities for expected corporate income tax issues based on estimates of whether additional corporate income tax will be due. Further details are disclosed in Note 20h.

Uncertain tax exposure

In certain circumstances, the Group may not be able to determine the exact amount of its current or future tax liabilities due to ongoing investigations by the taxation authority. Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income.

In determining the amount to be recognized in respect of an uncertain tax liability, the Group applies similar considerations as it would use in determining the amount of a provision to be recognized in accordance with PSAK No. 237, "Provisions, Contingent Liabilities and Contingent Assets" and ISAK No. 123, "Uncertainty over Income Tax Treatments". The Group makes an analysis of all tax positions related to income taxes to determine whether a tax liability on unrecognized tax benefit should be recognized.

Estimasi dan asumsi (lanjutan)

Penyisihan atas penurunan nilai piutang plasma

Seperti diungkapkan dalam Catatan 2m, piutang plasma merupakan biaya-biaya yang dikeluarkan untuk pengembangan perkebunan plasma.

Grup menetapkan estimasi penyisihan penurunan nilai piutang plasma dengan menggunakan pendekatan umum KKE karena piutang ini mengandung komponen pembiayaan yang signifikan.

Jika belum ada peningkatan risiko kredit yang signifikan sejak awal kontrak, penyisihan didasarkan pada KKE 12 bulan. Grup menetapkan piutang dari masing-masing proyek plasma mengalami peningkatan risiko kredit yang signifikan ketika biaya pengembangan aktual per hektar melebihi biaya pengembangan per hektar yang disepakati dalam perjanjian kredit antara koperasi dan kreditur. Pada titik ini, Grup menetapkan estimasi kerugian penurunan nilai menggunakan KKE sepanjang umurnya.

Grup menghitung KKE sepanjang umurnya berdasarkan perkiraan kekurangan kas. Kekurangan kas adalah selisih antara arus kas yang menjadi hak Grup sesuai kontrak dan arus kas yang diharapkan akan diterima Grup, yang diestimasi berdasarkan pendapatan dari perkebunan plasma dikurangi biaya penjualan. pembayaran pokok dan bunga ke bank. Input utama yang digunakan untuk estimasi ini adalah volume produksi TBS, biaya produksi kebun plasma, dan harga jual TBS. Penyisihan ini dievaluasi ulang dan disesuaikan dengan tambahan informasi yang diterima pada setiap tanggal pelaporan.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Estimates and assumptions (continued)

Allowance for impairment of plasma receivables

As discussed in Note 2m, plasma receivables represents disbursements made for the costs to develop plasma plantations.

The Group estimates allowance for impairment of plasma receivables using general approach of ECL as these receivables contain significant financing component.

When there has not been significant increase in credit risk since origination, the allowance is based on the 12-months' ECL. The Group primarily determined a receivable from individual plasma project has significant increase in credit risk when the actual development cost per hectare is exceeding the agreed development cost per hectare as stated in the credit agreement between the cooperatives and the creditor. At this point, the Group estimates the impairment loss using lifetime ECLs.

The Group calculates lifetime ECL based on the expected cash shortfalls. A cash shortfall is the difference between the cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, which is estimated based on the revenues from the plasma plantations deducted with the costs of sales, principal and interest payments to the bank. The key inputs applied for this estimation are the production yield of the FFB, production costs of the plasma plantations, and selling price of FFB. These provisions are re-evaluated and adjusted as additional information is received at each reporting date.

Aset pajak tangguhan

Aset pajak tangguhan diakui atas seluruh perbedaan temporer yang dapat dikurangkan, sepanjang besar kemungkinannya bahwa penghasilan kena pajak akan tersedia sehingga perbedaan temporer tersebut dapat digunakan. Estimasi signifikan oleh manajemen disyaratkan dalam menentukan total aset pajak tangguhan yang dapat diakui, berdasarkan saat penggunaan dan tingkat penghasilan kena pajak serta strategi perencanaan pajak masa depan. Penjelasan lebih rinci diungkapkan dalam Catatan 20.

4. KOMBINASI BISNIS ENTITAS SEPENGENDALI

Pada tanggal 26 Juni 2025, PT Sawit Mandiri Lestari (SML), mengakuisisi kebun dan pabrik kelapa sawit PT Citra Borneo Indah (CBI). Berdasarkan hasil penilai independen KJPP Bambang, Ernasapta dan rekan tanggal 25 Juni 2025. Transaksi pengambilalihan tersebut dilakukan dengan harga pengalihan sebesar Rp216.516.523 dan nilai buku aset yang dialihkan sebesar Rp119.454.581.

Pada tanggal 30 Juni 2025, CBI mengakuisisi 99,9% kepemilikan saham atas SML dari pihak ketiga. Setelah akuisisi tersebut, SML merupakan entitas sepengendali dengan Perusahaan.

Pada tanggal 24 November 2025, Perusahaan mengakuisisi 63,4% kepemilikan saham PT Sawit Mandiri Lestari (SML) dari PT Citra Borneo Indah (CBI) sebagaimana dinyatakan dalam Akta Notaris Jimmy Tanal, S.H., M.Kn, No. 253 tanggal 24 November 2025 dengan total imbalan yang dialihkan sebesar Rp1.600.000.000.

Transaksi akuisisi tersebut diklasifikasikan sebagai transaksi bisnis dengan entitas sepengendali sehingga transaksi tersebut dicatat dengan menggunakan metode "*pooling interest*" sesuai dengan PSAK 338 "Kombinasi Bisnis Entitas Sepengendali". Selisih harga pengalihan dengan nilai buku atas transaksi pengalihan bisnis kebun dan pabrik kelapa sawit CBI dan akuisisi SML secara total sebesar Rp1.084.624.950 dicatat sebagai bagian dari "Tambahan Modal Disetor" yang disajikan pada bagian ekuitas dari laporan posisi keuangan konsolidasian (Catatan 26).

Deferred tax asstes

Deferred tax assets are recognised for all deductible temporary differences, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences. Significant management estimates are required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Further details are disclosed in Note 20.

4. BUSINESS COMBINATION OF ENTITIES UNDER COMMON CONTROL

On June 26, 2025, PT Sawit Mandiri Lestari (SML), acquired plantation area and palm oil mill from PT Citra Borneo Indah (CBI), a shareholder. Based on the result of the independent appraisal by KJPP Bambang, Ernasapta, and Partner dated June 25, 2025, That acquisition transaction is carried with acquisition price amounted to Rp216,516,523 and book value of the assets transferred amounted to Rp119,454,581.

On June 30, 2025, CBI acquired the 99.9% shares ownership in SML from a third party. After the acquisition, SML is an under common control entity with the Company.

On November 24, 2025, the Company acquired 63.4% shares ownership in PT Sawit Mandiri Lestari (SML) from PT Citra Borneo Indah (CBI), a shareholder, as stated in the Notarial Deed No. 253 of Jimmy Tanal, S.H., M.Kn, dated November 24, 2025 with consideration paid of Rp1,600,000,000.

That acquisition transaction is classified as a business combination of entities under common control so that the transaction is recorded using the "pooling interest" method in accordance with Statements of PSAK 338, "Business Combinations Entities Under Common Control". The Difference between transfer price and book value arising from the transfer of CBI's plantation area and palm oil mill and acquisition of SML totalling of Rp1,084,624,950 was recorded as part of "Additional Paid-in Capital" under the equity section of the consolidated statement of financial position (Note 26).

4. KOMBINASI BISNIS ENTITAS SEPENGENDALI (lanjutan)

Grup mencatat transaksi akuisisi saham SML tersebut di atas sesuai dengan PSAK 338 "Kombinasi Bisnis Entitas Sepengendali". Grup menyajikan kembali: (i) laporan posisi keuangan konsolidasian tanggal 31 Desember 2024 dan 1 Januari 2024/31 Desember 2023, (ii) laporan laba rugi dan pendapatan komprehensif lain konsolidasian untuk tahun yang berakhir pada 31 Desember 2024, (iii) laporan perubahan modal konsolidasian untuk tahun yang berakhir pada tanggal 31 Desember 2024, dan (iv) laporan arus kas konsolidasian untuk tahun yang berakhir pada tanggal 31 Desember 2024, untuk mencerminkan dampak akuisisi kebun dan pabrik kelapa sawit milik CBI yang sebelumnya telah diakuisisi oleh SML. Grup dan CBI merupakan entitas sepengendalian sejak periode sebelum periode paling awal yang disajikan dalam laporan keuangan konsolidasian.

Grup menyajikan hasil operasi dan arus kas dari bisnis SML, selain dari yang berasal dari kebun dan pabrik kelapa sawit yang sebelumnya dimiliiki oleh CBI, sejak tanggal 30 Juni 2025, yaitu tanggal dimana SML menjadi sepengendalian dengan Grup melalui akuisisi oleh CBI.

4. BUSINESS COMBINATION OF ENTITIES UNDER COMMON CONTROL (continued)

The Group recorded the above mentioned SML's shares acquisition in accordance with PSAK 338 "Business Combinations of Entities Under Common Control." The Group restated their: (i) consolidated financial position as of December 31, 2024, and January 1, 2024/December 31, 2023, (ii) consolidated statement of profit or loss and other comprehensive income for the year ended December 31, 2024, (iii) consolidated statement of change in equity for the year ended December 31, 2024, and (iv) consolidated statement of cash flows for the years ended December 31, 2024, to reflect the impact of the acquisition of CBI's oil palm plantation and mill, which had previously been acquired by SML. The Group and CBI are entities under common control since period prior to the earliest period presented in the consolidated financial statements.

The Group presented the result of operation and cash flows from SML business, other than those originated from oil palm plantation and mill owned by CBI, since June 30, 2025, which is the date where SML became an entity under common control with the Grup through acquistion by CBI.

12. ASET TETAP DAN TANAMAN PRODUKTIF (lanjutan)

a. Tanaman produktif

Amortisasi tanaman menghasilkan dibebankan ke akun beban pokok penjualan (Catatan 29).

Tanaman belum menghasilkan merupakan akumulasi biaya yang terjadi di Grup sehubungan dengan pengembangan perkebunan kelapa sawit (perkebunan), seperti pembersihan lahan, penanaman, pemupukan dan kegiatan-kegiatan pemeliharaan lainnya sampai lahan perkebunan kelapa sawit tersebut sudah menghasilkan (Catatan 2k).

Mutasi tanaman belum menghasilkan adalah sebagai berikut:

12. FIXED ASSETS AND BEARER PLANTS (continued)

a. Bearer plants

Amortization of mature plantations are charged to cost of sales (Note 29).

The immature plantations represent the accumulated costs incurred related to the development of the Group's oil palm plantations (plantations), such as land clearing, planting, fertilizing and other maintenance activities until the oil palm areas are considered mature (Note 2k).

The movement of immature plantations is as follows:

PT Surya Borneo Industri ("SBI")

Pada tanggal 31 Desember 2025 dan 2024, Tanah milik SBI dijadikan jaminan sehubungan dengan fasilitas pinjaman CBUT di PT Bank Rakyat Indonesia Tbk. (Persero) (Catatan 22).

Tidak ada kerugian penurunan nilai yang diakui pada tanggal-tanggal pelaporan, karena jumlah terpulihkan dari investasi saham pada perusahaan asosiasi yang disebutkan di atas lebih tinggi dari masing-masing nilai tercatatnya. Ringkasan dari pengujian penurunan nilai investasi saham di atas diungkapkan pada paragraf-paragraf berikut.

Untuk tujuan pengujian penurunan nilai tersebut, jumlah terpulihkan investasi saham pada perusahaan asosiasi ditentukan berdasarkan "nilai pakai" (value-in-use) dengan menggunakan metode arus kas yang didiskontokan.

Grup melakukan pengujian penurunan nilai atas investasi pada perusahaan asosiasi dilakukan setiap tahun bila ada indikasi penurunan nilai pada tanggal-tanggal pelaporan.

PT Surya Borneo Industri ("SBI")

On December 31, 2025, and 2024, land owned by SBI was used as collateral in relation with the CBUT's loan facility at PT Bank Rakyat Indonesia Tbk. (Persero) (Note 22).

There was no impairment loss recognized as of reporting dates as the recoverable amounts of the investment in shares of an associated company stated above exceed their respective carrying amounts. The summary of impairment testing of the above-mentioned investment is disclosed in the succeeding paragraphs.

For impairment testing purposes, the recoverable amounts of investment in shares of an associated company was determined based on "value-in-use" calculation using discounted cash flow method.

The Group performed impairment tests on its investments annually, as well as, if there is an indication of impairment on investment as of reporting dates.

15. INVESTASI SAHAM PADA PERUSAHAAN ASOSIASI (lanjutan)

PT Surya Borneo Industri ("SBI") (lanjutan)

Berikut adalah ringkasan dari asumsi utama yang digunakan pada tanggal 31 Desember 2025:

- Tingkat diskonto yang digunakan adalah sebesar 11%.
- Tingkat pertumbuhan yang digunakan adalah sebesar 4%.
- Arus kas selama lima tahun dan setelah periode yang dicakup dalam proyeksi diekstrapolasi menggunakan tingkat pertumbuhan tersebut di atas yang tidak melebihi tingkat rata-rata pertumbuhan jangka panjang di Indonesia. Tingkat diskonto yang diterapkan pada proyeksi arus kas dihasilkan dari rata-rata tertimbang biaya modal dari entitas asosiasi tersebut.

Jumlah terpulihkan yang diestimasi melebihi nilai tercatat sebesar Rp90.991.739. Jika input signifikan yang tak dapat diobservasi yang digunakan dalam pengujian penurunan nilai diubah lebih besar daripada yang disajikan dalam tabel berikut, perubahan tersebut, secara terpisah, akan mengakibatkan pengakuan rugi penurunan nilai untuk tahun yang berakhir pada tanggal 31 Desember 2025.

15. INVESTMENT IN SHARES OF ASSOCIATED COMPANIES (continued)

PT Surya Borneo Industri ("SBI") (continued)

The following is a summary of the key assumptions used as of December 31, 2025:

- *Discount rate used is 11%.*
- *Growth rate used is 4%.*
- *The cash flows for five years and beyond the forecast periods are extrapolated using growth rate indicated above which does not exceed the long-term average growth rate in Indonesia. The discount rate applied to the cash flow projections is derived from the weighted average cost of capital of the associated company.*

The estimated recoverable amounts exceed the carrying value by Rp90,991,739. If the significant unobservable input used in the impairment review were changed to a greater extent than as presented in the following table, the changes would, in isolation, lead to an impairment loss being recognised for the year ended December 31, 2025.

Input* signifikan yang tak dapat diobservasi/*Significant unobservable input	**Perubahan yang diperlukan agar nilai tercatat sama dengan jumlah terpulihkan/*Change required for carrying value to equal recoverable amount***
Tingkat pertumbuhan/*Growth rate*	1,27%
Weighted Average Cost of Capital ("WACC")	0,80%

16. PIUTANG PLASMA

Akun ini merupakan akumulasi biaya-biaya yang dikeluarkan oleh Grup untuk pengembangan perkebunan kelapa sawit milik plasma yang akan dibayar kembali oleh petani plasma atau masyarakat desa pada saat perkebunan plasma telah menghasilkan TBS sesuai dengan kesepakatan antara Grup dengan petani plasma atau masyarakat desa. Selama tahun yang berakhir pada 31 Desember 2025, piutang plasma dikenai bunga sebesar 8,5% (31 Desember 2024: 8,5% sampai 9,25% dan 31 Desember 2023: 9,25%) per tahun.

Pendapatan bruto petani plasma atau masyarakat desa akan dipotong dengan biaya cicilan pokok dan bunga atas pinjaman investasi pembangunan kebun sebesar 35%, biaya pemeliharaan dan perawatan maksimal sebesar 30% dan biaya jasa pengelolaan kebun sebesar 5%. Pendapatan petani plasma atau masyarakat desa sebelum pelunasan pinjaman diperkirakan sebesar 30% dari pendapatan bruto.

16. PLASMA RECEIVABLES

This account represents the accumulated costs incurred by the Group for the development of plasma's oil palm plantation which will be repaid by the plasma farmers or the villagers when the plasma plantation produces FFB based on agreements between the Group and the plasma farmers or the villagers. During year ended December 31, 2025, interest charged on the plasma receivables at the rate of 8.5% (December 31, 2024: 8.5% to 9,25% and December 31, 2023: 9.25%) per annum.

Gross revenues of the plasma farmers or the villagers would be deducted by 35% for the repayments of principal and interest on investment loan for plantation development, maximum of 30% for maintenance and upkeep cost and a service fee of 5% to manage the plantations' operation. Income of the plasma farmers or the villagers before the settlement of the loan is estimated at 30% of gross revenues.

16. PIUTANG PLASMA (lanjutan)

Perkebunan Plasma (lanjutan)

Berdasarkan penelaahan atas piutang plasma dari tiap-tiap proyek pada tanggal 31 Desember 2025, 2024, dan 2023, manajemen berkeyakinan bahwa penyisihan atas penurunan nilai piutang plasma sudah cukup untuk menutup kerugian yang timbul akibat adanya penurunan nilai piutang plasma.

Selama 2025 dan 2024, beberapa Koperasi Plasma mendapatkan fasilitas kredit dari PT Bank Syariah Indonesia Tbk (“BSI”) dengan jumlah keseluruhan sebesar Rp774.270.135.

Beberapa entitas anak Perusahaan memberikan penjaminan atas fasilitas dari perbankan yang diperoleh beberapa kelompok tani ("Koperasi/Plasma") dengan total nilai pinjaman Rp721.178.545 (2024: Rp333.293.151). Selain jaminan dari beberapa entitas anak, fasilitas ini juga dijamin dengan kebun kelapa sawit milik masing-masing Koperasi.

Grup menghitung kerugian kredit ekspektasian (*expected credit loss*) untuk piutang plasma dan jaminan keuangan yang diberikan atas pinjaman bank plasma dengan menggunakan pendekatan umum. Dalam menghitung tingkat kerugian kredit ekspektasian, Grup mempertimbangkan tingkat produksi plasma, harga tandan buah segar, serta melakukan penyesuaian atas informasi ke depan, seperti proyeksi kondisi ekonomi dan tingkat suku bunga di masa mendatang.

16. PLASMA RECEIVABLES (continued)

Plasma Plantations (continued)

Based on a review of the plasma receivables of each project as of December 31, 2025, 2024, and 2023, management believes that the allowance for impairment of plasma receivables is sufficient to cover the possible losses due to the allowance for impairment of plasma receivables.

During 2025 and 2024, several Plasma Cooperatives received credit facilities from PT Bank Syariah Indonesia Tbk (“BSI”) with a total amount of Rp774,270,135

Certain subsidiaries of the Company's provided guarantees for banking facilities obtained by several farmer groups ("Cooperatives/Plasma") amounting Rp721,178,545 (2024: Rp333,293,151). Beside the guarantees from certain subsidiaries, this facility is also guaranteed by the oil palm plantation owned by each Cooperative.

The Group computes expected credit loss for plasma receivables and the financial guarantees provided for plasma bank loans using the general approach. In calculating the expected credit loss rates, the Group considers production rate of plasma, price of fresh fruit bunch, and adjusts for forward-looking information such as forecasts of future economic conditions and interest rates.

Bank yang dibatasi penggunaannya

Pada tanggal 12 Juli 2023, Pemerintah Republik Indonesia mengeluarkan Peraturan Pemerintah No. 36 Tahun 2023 yang telah diubah dengan Peraturan Pemerintah No. 8 Tahun 2025 yang mengatur tentang devisa hasil ekspor, valuta asing dan pembayaran impor untuk bisnis di sektor pertambangan, perkebunan, kehutanan, dan perikanan.

Berdasarkan Peraturan Pemerintah tersebut, 30% dari devisa hasil ekspor, dengan nilai ekspor paling sedikit AS$250.000 atau ekuivalennya, wajib ditempatkan ke dalam rekening khusus dengan jangka waktu paling singkat tiga bulan. Peraturan ini berlaku efektif sejak tanggal 1 Agustus 2023. Grup telah melaksanakan kewajiban untuk menempatkan Devisa Hasil Ekspor Sumber Daya Alam (DHE SDA) ke dalam rekening khusus dan disajikan sebagai bagian dari "Bank yang dibatasi penggunaannya" dalam laporan posisi keuangan konsolidasian.

Restricted cash in banks

On July 12, 2023, the Government of the Republic of Indonesia issued Government Regulation No. 36 of 2023 as amended by Government Regulation No. 8 of 2025, which regulates the cash proceeds from export sales, foreign exchange and import payments for business in mining, plantation, forestry, and fishery sectors.

Based on this Government Regulation, 30% of the cash proceeds from export sales that have export values of at least US$250,000 or its equivalent stated in an export customs declaration must be placed in the special account for a holding period of at least three months. This regulation became effective on 1 August 2023. The Group has carried out the obligation to place Devisa Hasil Ekspor Sumber Daya Alam (DHE SDA) into the special accounts and are presented as part of "Restricted cash in bank" in the consolidated statements of financial position.

Utang usaha merupakan utang atas pembelian tandan buah segar dan minyak kelapa sawit.

Trade payables represent payables for purchases of fresh fruit bunches and crude palm oil.

Utang lain-lain sebagian besar merupakan utang kepada pemasok atas pembelian suku cadang dan pupuk.

Other payables mostly represent payables to supplier for purchasing of spareparts and fertilizers.

Berdasarkan surat permohonan penangguhan pembayaran utang kepada PT Borneo Langgeng Sejahtera (BLS) tanggal 29 Juni 2023, Grup meminta penundaan pembayaran utang kepada BLS sebesar Rp620.239.858 atas pembelian pupuk sehingga akan jatuh tempo pada Juli 2024. Pada tanggal 30 Juni 2023, BLS menyatakan setuju atas permohonan Grup. Oleh karena hal ini, Manajemen Grup mencatat nilai wajar atas saldo terhutang pada tanggal 31 Desember 2023 sebesar Rp52.514.588. Dampak atas amortisasi nilai wajar selama tahun 2024 dan 2023 sebesar Rp14.342.982 dan Rp38.171.606. Pada tanggal 31 Desember 2024, Nilai utang yang sebelumnya ditangguhkan tersebut, telah dilunaskan sepenuhnya.

Based on the letter requesting the postponement of payment payables to PT Borneo Langgeng Sejahtera (BLS) dated June 29, 2023, the Group requested to postpone repayment of payables to BLS of Rp620,239,858 for the purchase of fertilizers so it will mature in July 2024. On June 30, 2023, BLS agreed to the Group's request. Therefore, the Group's Management recorded the fair value of the outstanding balance on December 31, 2023 amounting to Rp52,514,588. During 2024 and 2023, the amortization cost of fair value other payable was Rp14,342,982 and Rp38,171,606. Berdasarkan peraturan pajak yang berlaku mulai tahun 2008, Direktorat Jendral Pajak dapat menetapkan dan mengubah kewajiban pajak dalam batas waktu lima tahun sejak tanggal terutangnya pajak.

Manajemen Grup berpendapat bahwa aset pajak tangguhan diperkirakan dapat dipulihkan pada periode mendatang.

Pemanfaatan aset pajak tangguhan yang diakui oleh Grup bergantung pada laba kena pajak di masa depan yang melebihi laba yang dihasilkan dari pembalikan perbedaan temporer kena pajak yang ada.

Based on taxation laws which became applicable starting in year 2008, the Directorate of General Taxes may assess and amend taxes within five years from the date the tax becomes due.

The Group's management is in the opinion that the deferred tax assets are expected to be realized in the future.

The utilization of deferred tax assets recognized by the Group is dependent upon future taxable profits in excess of profits resulting from the reversal of existing taxable temporary differences.

This loan bears interest rate at 9.5% per annum with term of credit of 1 (one) year and can be extended.

As of December 31, 2025, 2024, and 2023, the Group's management believes that the entire loan to CBI and SBI are collectible and there is no impairment in value on that loan.

Outstanding balances of other receivables and loan at the end of year are unsecured.

For the years ended December 31, 2025, 2024, and 2023, there is no impairment of other receivables and loan - related parties. This assessment is undertaken at the end of the reporting periods through examining the financial position of these related parties and the market in which the related parties operate.

Research and maintenance expense with CBI

In 2022, the Group has signed an agreement on research and maintenance services at Sulung Research Station with PT Citra Borneo Indah. The services period will ended on December 31, 2022. For the services, the Group should paid the fees amounted to Rp124,606,283 per annum. On January 2023, the Group submitted a letter requesting the suspension of the implementation of research services so that until December 31, 2023 there were no research services provided by CBI. On December 1, 2025, the agreement has been extended until December 31, 2026

Nilai wajar didefinisikan sebagai jumlah dimana instrumen tersebut dapat dipertukarkan di dalam transaksi kini antara pihak yang berkeinginan dan memiliki pengetahuan yang memadai melalui suatu transaksi yang wajar, selain di dalam penjualan terpaksa atau penjualan likuidasi. Nilai wajar didapatkan dari kuotasi harga pasar dan model arus kas diskonto.

Fair value is defined as the amount at which the instrument could be exchanged in a current transaction between knowledgeable willing parties in an arm's length transaction, other than in a forced or liquidation sale. Fair values are obtained from quoted market prices and discounted cash flow models.

34. NILAI WAJAR DARI INSTRUMEN KEUANGAN (lanjutan)

Grup menggunakan hierarki berikut ini untuk menentukan dan mengungkapkan nilai wajar instrumen keuangan:

- Tingkat 1: Nilai wajar diukur berdasarkan pada harga kuotasi (tidak disesuaikan) dalam pasar aktif untuk aset atau liabilitas sejenis.
- Tingkat 2: Nilai wajar diukur berdasarkan teknik-teknik valuasi, yaitu untuk seluruh input yang diketahui baik secara langsung ataupun tidak langsung memiliki dampak signifikan atas nilai wajar tercatat.
- Tingkat 3: Nilai wajar diukur berdasarkan teknik-teknik valuasi, yaitu untuk seluruh input yang tidak dapat diketahui baik secara langsung ataupun tidak langsung memiliki dampak signifikan atas nilai wajar tercatat.

Instrumen keuangan yang disajikan di dalam laporan posisi keuangan konsolidasian dicatat sebesar nilai wajar atau biaya perolehan diamortisasi, jika tidak, disajikan dalam jumlah tercatat apabila jumlah tersebut mendekati nilai wajarnya atau nilai wajarnya tidak dapat diukur secara andal.

Berikut ini adalah metode dan asumsi yang digunakan dalam mengestimasi nilai wajar dari setiap golongan instrumen keuangan Grup:

1. Kas dan setara kas, piutang usaha - pihak ketiga dan piutang lain-lain - pihak ketiga, dan pihak berelasi.

   Untuk aset keuangan yang akan jatuh tempo dalam waktu 12 bulan, nilai tercatat aset keuangan tersebut dianggap telah mencerminkan nilai wajar dari aset keuangan tersebut.

2. Utang usaha, utang lain-lain, dan beban akrual.

34. FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- *Level 1: Fair values are measured based on quoted prices (unadjusted) in active markets for identical assets or liabilities.*
- *Level 2: Fair values are measured based on valuation techniques for which all inputs which have a significant effect on the recorded fair values are observable, either directly or indirectly.*
- *Level 3: Fair values are measured based on valuation techniques for which any inputs which have a significant effect on the recorded fair value that are not based on observable market data (unobservable inputs).*

Financial instruments presented in the consolidated statements of financial position are carried at fair value or amortized cost, otherwise, they are presented at carrying values as either these are reasonable approximation of fair values or their fair values cannot be reliably measured.

The following are the methods and assumptions to estimate the fair value of each class of the Group's financial instruments:

1. *Cash and cash equivalents, trade receivables - third parties, other receivables - third parties, and related parties.*

   For financial assets that are due within 12 months, the carrying values of the financial assets approximate their fair values.

2. *Trade payables, other payables, and accrued expenses.*

34. NILAI WAJAR DARI INSTRUMEN KEUANGAN (lanjutan)

Berikut ini adalah metode dan asumsi yang digunakan dalam mengestimasi nilai wajar dari setiap golongan instrumen keuangan Grup: (lanjutan)

3. Uang jaminan dicatat sebesar biaya historis karena nilai wajarnya tidak dapat diukur secara handal. Tidak praktis untuk mengestimasi nilai wajar dari aset tersebut karena tidak ada jangka waktu pembayaran yang pasti walaupun tidak diharapkan untuk diselesaikan dalam jangka waktu 12 bulan setelah tanggal laporan posisi keuangan.

   Seluruh liabilitas keuangan di atas merupakan liabilitas yang akan jatuh tempo dalam waktu 12 bulan sehingga nilai tercatat liabilitas keuangan tersebut telah mencerminkan nilai wajar.

4. Pinjaman dari pihak berelasi, utang bank, piutang plasma, liabilitas sewa pembiayaan, dan utang obligasi.

   Seluruh liabilitas keuangan di atas memiliki suku bunga variabel yang disesuaikan dengan pergerakan suku bunga pasar sehingga jumlah terutang liabilitas keuangan tersebut telah mendekati nilai wajar.

35. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN

Liabilitas keuangan Grup terdiri dari utang usaha, utang lain-lain, beban akrual, liabilitas imbalan kerja karyawan jangka pendek, liabilitas sewa pembiayaan, utang bank jangka panjang, dan utang obligasi. Tujuan utama dari liabilitas keuangan adalah untuk meningkatkan keuangan operasi Grup. Grup memiliki aset keuangan meliputi kas dan setara kas, piutang usaha, piutang lain-lain, pinjaman kepada pihak berelasi, aset tidak lancar lainnya - deposito yang dibatasi penggunaanya, uang jaminan, piutang jangka panjang kepada pihak berelasi, dan piutang plasma.

34. FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

The following are the methods and assumptions to estimate the fair value of each class of the Group's financial instruments: (continued)

3. Guarantee deposits are carried at historical cost because their fair values cannot be reliably measured. It is not practical to estimate the fair values of such assets because there are no fixed repayment terms although these are not expected to be settled within 12 months after the statement of financial position date.

   All of the above financial liabilities are due within 12 months, thus, the carrying value of the financial liabilities approximate their fair value.

4. Loan to a related party, bank loan, plasma receivable, finance lease liabilities, and bonds payable.

   All of the above financial liabilities have floating interest rates which are adjusted based on the movements of the market interest rates, thus the payable amounts of this financial liability approximate its fair values.

35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's financial liabilities comprise trade payables, other payables, accrued expenses, short-term employee benefits liabilities, finance lease liabilities, long-term bank loan, and bonds payable. The main purpose of these financial liabilities is to raise financing for the Group's operations. The Group has financial assets including cash and cash equivalents, trade receivables, other receivables, loan to related parties, other non-current assets - restricted time deposits, security deposit, long-term receivables to a related party, and plasma receivables.

35. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN (lanjutan)

Grup menghadapi risiko pasar, risiko tingkat suku bunga, risiko kredit dan risiko likuiditas. Manajemen Perusahaan mengawasi manajemen risiko dari risiko-risiko tersebut. Mengelola risiko ini merupakan bagian dari proses manajemen risiko Grup. Direksi menelaah dan menyetujui kebijakan untuk mengelola setiap risiko sebagai berikut.

Risiko pasar

Risiko pasar merupakan risiko dimana nilai wajar dari arus kas masa depan dari instrumen keuangan akan berfluktuasi disebabkan oleh perubahan harga pasar. Harga pasar terdiri dari dua jenis risiko: risiko mata uang asing dan risiko harga komoditas. Instrumen keuangan dipengaruhi oleh risiko pasar termasuk kas dan setara kas dan hutang lain-lain.

a. Risiko mata uang asing

Mata uang pelaporan Perusahaan adalah Rupiah. Perusahaan dapat menghadapi risiko nilai tukar mata uang asing karena penjualan dan biaya beberapa pembelian dalam mata uang asing (terutama Dolar AS) atau harga yang secara signifikan dipengaruhi oleh perubahan nilai tukar mata uang asing. Tidak ada kebijakan formal lindung nilai sehubungan dengan eksposur valuta asing. Eksposur terhadap risiko nilai tukar dipantau secara berkelanjutan.

Tabel berikut ini menunjukan sensitivitas kemungkinan perubahan tingkat nilai tukar Rupiah terhadap mata uang asing, dengan asumsi variabel lain konstan. dampak terhadap laba sebelum beban pajak penghasilan badan sebagai berikut:

35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

The Group is exposed to market risk, interest rate risk, credit risk and liquidity risk. The Company's Management oversees the management of these risks. Managing these risks is part of the Group's risk management process. The Board of Directors reviews and agrees the policies for managing each of these risks which are summarized below.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise two types of risk: foreign currency risk and commodity price risk. Financial instruments affected by market risk include cash and cash equivalents and other payables.

a. Foreign currency risk

The Company's reporting currency is Rupiah. The Company faces foreign exchange risk as its sales and the costs of certain purchases are either denominated in foreign currency (mainly US Dollar) or whose price is significantly influenced by movements in foreign currencies. There is no formal hedging policy with respect to foreign exchange exposures. Exposure to exchange risk is monitored on an ongoing basis.

The following table demonstrates the sensitivity to a reasonably possible change in the Rupiah exchange rate again foreign currency, with all other variables held constant. the effect to the profit before corporate income tax expenses is as follows:

Risiko pasar (lanjutan)

b. Risiko harga komoditas

Grup terkena dampak risiko harga komoditas yang dipengaruhi oleh beberapa faktor, antara lain cuaca, kebijakan pemerintah, tingkat permintaan dan penawaran pasar, dan lingkungan ekonomi global. Dampak tersebut terutama timbul dari penjualan produk kelapa sawit, di mana marjin laba atas penjualan produk kelapa sawit tersebut terpengaruh fluktuasi harga pasar internasional.

Tidak ada kebijakan formal lindung nilai sehubungan dengan eksposur risiko harga komoditas. Eksposur terhadap risiko harga komoditas dipantau secara berkelanjutan.

Risiko tingkat suku bunga

Risiko tingkat suku bunga Grup terutama timbul dari pinjaman untuk tujuan modal kerja dan investasi. Pinjaman pada berbagai tingkat suku bunga variabel menunjukkan Grup kepada nilai wajar risiko tingkat suku bunga. Tidak ada kebijakan formal lindung nilai sehubungan dengan eksposur tingkat bunga. Eksposur terhadap risiko tingkat bunga dipantau secara berkelanjutan.

Tabel berikut ini menunjukan sensitifitas kemungkinan perubahan tingkat suku bunga pinjaman. Dengan asumsi variabel lain konstan, laba sebelum beban pajak konsolidasian penghasilan badan dipengaruhi oleh tingkat suku bunga mengambang sebagai berikut:

35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Market risk (continued)

b. Commodity price risk

The Group is exposed to commodity price risk due to certain factors such as weather, government policy, level of demand and supply in the market, and the global economic environment. Such exposure mainly arises from its sales of oil palm products where the profit margin on sale of oil palm products may be affected from international market prices fluctuations.

There is no formal hedging policy with respect to the commodity price risk. Exposure to the commodity price risk is monitored on an ongoing basis

Interest rate risk

The Group's interest rate risk mainly arises from loans for working capital and investment purposes. Loans at variable rates expose the Group to fair value interest rate risk. There is no formal hedging policy with respect to interest rate exposures. Exposure to interest rate risk is monitored on an ongoing basis.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans. With all other variables held constant, the consolidated profit before tax expense is affected through the impact on floating rate loans as follows:

Risiko kredit (lanjutan)

Risiko kredit yang dihadapi oleh Grup berasal dari kredit yang diberikan kepada pelanggan. Untuk meringankan resiko ini, ada kebijakan untuk memastikan penjualan produk hanya dibuat kepada pelanggan yang dapat dipercaya dan terbukti mempunyai sejarah kredit yang baik. Sebagai tambahan, saldo piutang dipantau secara terus menerus untuk mengurangi kemungkinan piutang yang tidak tertagih.

Tabel berikut menggambarkan jumlah risiko kredit dan konsentrasi risiko yang dimiliki Grup pada tanggal-tanggal 31 Desember 2025, 2024, dan 2023:

Credit risk (continued)

The Group is exposed to credit risk arising from the credit granted to its customers. To mitigate this risk, it has policies in place to ensure that sales of products are made only to creditworthy customers with proven track record or good credit history. In addition, receivable balances are monitored on an ongoing basis to reduce the Company's exposure to bad debts.

Risiko likuiditas

Risiko likuiditas adalah risiko bahwa Grup akan mengalami kesulitan dalam memenuhi liabilitas keuangan karena kekurangan dana.

Grup mengelola profil likuiditasnya untuk dapat mendanai pengeluaran modalnya dan mengelola utang yang jatuh tempo dengan mengatur kas dan ketersediaan pendanaan melalui jumlah komitmen fasilitas kredit yang cukup.

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting financial obligation due to shortage of liquidity.

The Group manages its liquidity profile to be able to finance its capital expenditure and service its maturing debts by maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities.

36. SEGMENT INFORMATION

Pada tanggal 31 Desember 2025, 2024, dan 2023, Grup menjalankan dan mengelola usahanya dalam 2 (dua) segmen yaitu perkebunan kelapa sawit serta menjual produknya di 1 (satu) wilayah yaitu Kalimantan Tengah dan minyak nabati dengan penjualan dilakukan di pasar lokal dan ekspor.

As of December 31, 2025, 2024, and 2023, the Group operates and manages its business in 2 (two) segment that is oil palm plantations and sells its products in 1 (one) region that is Central Kalimantan and edible oil that sold the products in local and export markets.

Untuk kepentingan manajemen, Grup digolongkan menjadi unit usaha berdasarkan produk dan jasa dan memiliki dua segmen operasi dilaporkan sebagai berikut:

For management purposes, the Group is organized into business units based on their products and services and has two reportable operating segments as follows:

Segmen Perkebunan
Segmen Perkebunan melakukan kegiatan usaha dalam pengembangan dan pemeliharaan terkait tanaman produktif utama, yaitu kelapa sawit dan aktivitas usaha lainnya yang berkaitan dengan pengolahan hasil perkebunan menjadi barang jadi, dan aktivitas pemasaran dan penjualan terkait.

Plantations Segment
Plantations segment is involved in the development and maintenance of primary bearer plants, such as oil palm and other business activities relating to processing of the produce into finished goods, and the related marketing and selling activities.

Segmen Minyak Nabati
Segmen Minyak Nabati memproduksi, memasarkan, dan menjual minyak nabati dan produk terkait lainnya.

Edible Oil Segment
Edible Oil segment produces, markets, and sells edible oil and other related products

Segmen Operasi

Manajemen memantau hasil operasi dari unit usahanya secara terpisah guna keperluan pengambilan keputusan mengenai alokasi sumber daya dan penilaian kinerja. Kinerja segmen dievaluasi berdasarkan laba rugi operasi dan diukur secara konsisten dengan laba rugi operasi pada laporan keuangan konsolidasian. Namun, pendanaan Grup (termasuk beban keuangan dan penghasilan keuangan) dan pajak penghasilan dikelola secara grup dan tidak dialokasikan kepada segmen operasi.

Harga transfer antar entitas hukum dan antar segmen diatur dengan cara yang serupa dengan transaksi dengan pihak ketiga.

Tabel berikut ini menyajikan informasi pendapatan dan laba dan aset dan liabilitas tertentu sehubungan dengan segmen operasi Grup:

36. SEGMENT INFORMATION (continued)

Operating Segments

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements. However, the Group financing (including finance costs and finance income) and income taxes are managed on a group basis and are not allocated to operating segments.

Transfer prices between legal entities and segments are set on a manner similar to transactions with third parties.

As at the authorization date of these consolidated financial statements, the Group is still evaluating the potential impact of these new and revised standards to the Group's consolidated financial statements.

43. INFORMASI LAINNYA

Provisi Sumber Daya Hutan (PSDH) dan Dana Reboisasi (DR)

Pada bulan Januari 2024, Perusahaan dan beberapa entitas anak menerima Surat Tagihan atas PSDH dan DR dari kementrian Lingkungan Hidup dan Kehutanan (KLHK) Republik Indonesia.

Pada Februari 2024, Perusahaan dan beberapa entitas anak tersebut telah mengirimkan surat balasan kepada KLHK untuk mendiskusikan luasan areal yang tercantum di dalam surat tagihan PSDH dan DR. Pada Desember 2024 dan Januari 2025, Perusahaan dan beberapa entitas anak telah melakukan pembayaran atas tagihan tersebut sebesar Rp145.969.330.

Perusahaan dan beberapa entitas anak telah mencatat tagihan tersebut sebagai bagian dari beban asuransi dan perizinan pada laporan laba rugi dan penghasilan komprehensif lainnya konsolidasian tahun 2024.

43. OTHER INFORMATION

Billing Letter for for forest resource provision (PSDH) and and reforestation fund (DR)

In January 2024, the Company and certain subsidiaries received a Billing Letter for PSDH and and DR from the Ministry of Environment and Forestry (KLHK) of Republic of Indonesia.

In February 2024, the Company and certain subsidiaries sent letters to the KLHK to discuss the extent of the land listed in the PSDH and DR billing letters. In December 2024 and January 2025, the Company and certain subsidiaries made payments on the related billing letter amounting to Rp145,969,330.

The Company and certain subsidiaries have recorded the related billing as part of insurance and permits expenses in the 2024 consolidated statement of profit or loss and other comprehensive income.

44. PERISTIWA SETELAH PERIODE PELAPORAN

Perkembangan geopolitik di Timur Tengah

Setelah tanggal pelaporan, ketegangan geopolitik di Timur Tengah meningkat menyusul tindakan militer di kawasan tersebut pada akhir Februari 2026. Perkembangan ini menyebabkan meningkatnya ketidakpastian geopolitik dan volatilitas di pasar keuangan dan energi global.

Grup menilai potensi dampak terhadap operasi, posisi keuangan, dan kinerja keuangan Grup yang dapat timbul melalui beberapa faktor, termasuk:

- volatilitas harga komoditas dan energi global
- gangguan pada rantai pasokan dan logistik global
- ketidakpastian makroekonomi yang lebih luas yang memengaruhi permintaan pelanggan
- volatilitas di pasar valuta asing dan pasar keuangan

Saat ini Grup tidak memiliki operasi langsung yang signifikan di negara-negara yang terlibat langsung dalam konflik tersebut. Namun, dampak ekonomi yang lebih luas akibat situasi geopolitik tersebut dapat memengaruhi operasi dan kinerja keuangan Grup secara tidak langsung.

Pada tanggal otorisasi atas laporan keuangan konsolidasian ini, tidak memungkinkan untuk mengestimasi secara andal dampak keuangan yang mungkin timbul akibat potensi eskalasi lebih lanjut dari konflik tersebut pada laporan keuangan konsolidasian Grup.

Manajemen akan terus memonitor perkembangan terkait konflik ini dan menilai potensi dampaknya pada periode pelaporan berikutnya.

44. EVENTS AFTER THE REPORTING PERIOD

Geopolitical developments in the Middle East

Subsequent to the reporting date, geopolitical tensions in the Middle East escalated following military actions in the region at the end of February 2026. These developments have resulted in heightened geopolitical uncertainty and increased volatility in global financial and energy markets.

The Group assesses the potential implications on the results of the Group's operations, financial position and financial performance which may arise through several factors, including:

- *volatility in global commodity and energy prices*
- *disruptions in global supply chains and logistics*
- *broader macroeconomic uncertainty affecting customer demand*
- *volatility in foreign exchange and financial markets.*

The Group does not currently have significant direct operations in the countries directly involved in the conflict. However, the broader economic effects resulting from the geopolitical situation may indirectly affect the Group's operations and financial performance.

At the date of authorization of these consolidated financial statements, it is not possible to reliably estimate the financial impact that further escalation of the conflict may have on the Group's consolidated financial statements.

Management will continue to monitor developments relating to the conflict and assess potential implications in future reporting periods.

45. INFORMASI KEUANGAN ENTITAS INDUK (lanjutan)

CATATAN ATAS LAPORAN KEUANGAN ENTITAS INDUK

A. IKHTISAR KEBIJAKAN AKUNTANSI YANG SIGNIFIKAN

Dasar penyusunan informasi keuangan entitas induk

PSAK 227 mengatur dalam hal Entitas Induk memilih untuk menyajikan laporan keuangan tersendiri maka laporan tersebut hanya dapat disajikan sebagai informasi tambahan dalam laporan keuangan konsolidasian. Laporan keuangan tersendiri adalah laporan keuangan yang disajikan oleh entitas induk yang mencatat investasi pada entitas anak, entitas asosiasi, dan pengendalian bersama entitas berdasarkan kepemilikan ekuitas langsung bukan berdasarkan pelaporan hasil dan aset neto *investee*.

Kebijakan akuntansi yang diterapkan dalam penyusunan Informasi keuangan Entitas Induk adalah sama dengan kebijakan akuntansi yang diterapkan dalam penyusunan laporan keuangan konsolidasian Grup sebagaimana diungkapkan dalam Catatan 2 atas laporan keuangan konsolidasian, kecuali untuk penyertaan pada entitas anak.

Penyertaan saham pada entitas anak dicatat pada biaya perolehan. Entitas induk mengakui dividen dari entitas anak pada laporan laba rugi entitas induk ketika hak menerima dividen ditetapkan.

45. FINANCIAL INFORMATION OF PARENT ENTITY (continued)

NOTES TO THE FINANCIAL STATEMENTS OF THE PARENT ENTITY

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation of the parent entity financial information

PSAK 227 regulates that when a Parent Entity elected to present the separate financial statements, such financial statements should be presented as supplementary information to the consolidated financial statements. Separate financial statements are those presented by a parent, in which the investments in subsidiaries, associate entity and joint control entity are accounted for on the basis of the direct equity interest rather than on the basis of the reported results and net assets of the investee.

Accounting policies adopted in the preparation of the parent entity financial information are the same as the accounting policies adopted in the preparation of the Group's consolidated financial statements as disclosed in Note 2 to the consolidated financial statements, except for investments in subsidiaries.

Investments in shares of stock of subsidiaries are accounted for at acquisition cost. The parent entity recognizes dividend from subsidiaries in the Parent entity's profit and loss when its right to receive the dividend is established.
